Re: *Docket to Establish Generic Performance Measurements, Benchmarks
and Enforcement Mechanisms for BellSouth Telecommunications, Inc.*
Docket No. 01-00193

Dear Chairman Kyle:

On July 19, 2002, the Georgia Public Service Commission issued an Order adopting a notification process by which BellSouth is required to provide notice and obtain Commission approval of changes to the method by which BellSouth's performance data is calculated. On December 2, 2002, BellSouth provided notice to the Georgia Public Service Commission of two data issues that BellSouth has identified that affect calculated measurement results, but for which fixes have not yet been scheduled. Notice of these data issues is not required at this juncture; however, consistent with BellSouth's commitment to keeping regulators and competing carriers informed about validated data issues, BellSouth is providing the enclosed Data Disclosure Report, which describes those validated data issues that BellSouth has identified as of November 30, 2002, that affect performance measurement calculations but for which a fix has not been scheduled. BellSouth will provide this report on an on-going basis.

Enclosed are fifteen copies of the notice provided on December 2, 2002 to the Georgia Public Service Commission. Copies of the enclosed are also being provided to counsel of record.

Very truly yours,

Guy M. Hicks

Atlanta, Georgia 30334-5701

Re: *Investigation Into Development of Electronic Interfaces for BellSouth's
Operations Support Systems; Docket 8354-U*

*Performance Measurements for Telecommunications Interconnection,
Unbundling and Resale; Docket No. 7892-U*

Dear Mr. McAlister:

BellSouth Telecommunications, Inc. ("BellSouth") is hereby providing notice of two data issues that BellSouth has identified that affect calculated measurement results, but for which fixes have not yet been scheduled. Notice of these data issues is not required at this juncture under the procedures established by this Commission in its July 19, 2002 Order, which require that BellSouth provide notice and obtain approval of proposed changes to the method by which its performance results are calculated before those changes are implemented. However, consistent with BellSouth's commitment to keeping regulators and competing carriers informed about validated data issues, BellSouth is providing the enclosed Data Disclosure Report, which describes those validated data issues that BellSouth has identified as of November 30, 2002, that affect performance measurement calculations but for which a fix has not been scheduled. BellSouth will provide this report on an on-going basis. If there are any questions about the information contained in this report, they can be raised at our next industry conference call.

Enclosed for filing please find an original and eighteen (18) copies, as well as an electronic version, of this Data Disclosure Report. I would appreciate your returning the three (3) extra copies stamped "filed" in the enclosed stamped, self-addressed envelopes.

Mr. Reece McAlister

DATA DISCLOSURE REPORT - DECEMBER 2002

MEASURE/IMPACT	ISSUE DESCRIPTION
O-7 Percent Reject O-8 Reject Interval, O-9 FOC Timeliness, O-11 FOC and Reject Response Completeness/7227 out of 506,260 total LSR's for September data is 1.43% LSR's affected. However no impact to the measure is expected.	PMAF is not currently reporting certain LSRs in LEO due to missing end user state information. BellSouth proposes to use the NPA from the ATN as an additional criteria to identify the state code.
P-4A Florida Average Order Completion and Completion Notice Interval/10% of the records are being affected. Expected impact overall average interval will be approximately .14 day decrease. This issue will affect CLEC and BST equally.	AOCNII Duration (FI-Average Order completion and Completion Notice Interval) is being calculated incorrectly. An extra 1440 min (1 day) is being added to the interval when the start time and end time are different days.
