Nashville, TN 37238

Re: *Docket to Establish Generic Performance Measurements, Benchmarks  
and Enforcement Mechanisms for BellSouth Telecommunications, Inc.*  
Docket No. 01-00193

Dear Chairman Kyle:

Enclosed for the convenience of the Authority are fifteen copies of the December 10, 2002 and January 2, 2003 Orders from the Florida Public Service Commission. These Orders relate to the implementation of revisions to the Florida Performance Assessment Plan. Copies of the enclosed are being provided to counsel of record.

Very truly yours,

  
Guy M. Hicks

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Investigation into the  
establishment of operations  
support systems permanent  
performance measures for  
incumbent local exchange  
telecommunications companies.  
(BELLSOUTH TRACK)

DOCKET NO. 000121A-TP  
ORDER NO. PSC-02-1736-PAA-TP  
ISSUED: December 10, 2002

The following Commissioners participated in the disposition of  
this matter:

LILA A. JABER, Chairman  
J. TERRY DEASON  
BRAULIO L. BAEZ  
MICHAEL A. PALECKI  
RUDOLPH "RUDY" BRADLEY

NOTICE OF PROPOSED AGENCY ACTION  
ORDER IMPLEMENTING PROPOSED REVISIONS TO THE PERFORMANCE  
ASSESSMENT PLAN

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service  
Commission that the action discussed herein is preliminary in  
nature and will become final unless a person whose interests are  
substantially affected files a petition for a formal proceeding,  
pursuant to Rule 25-22.029, Florida Administrative Code.

I. Case Background

We opened Docket No. 000121-TP to develop permanent  
performance metrics for the ongoing evaluation of operations  
support systems (OSS) provided by incumbent local exchange carriers  
(ILECs) for use by alternative local exchange carriers' (ALECs). A  
monitoring and enforcement program to ensure that ALECs receive  
nondiscriminatory access to the ILEC's OSS is associated with the  
performance metrics. Performance monitoring is necessary to ensure

DOCKET NO. 000121A-TP

PAGE 2

that ILECs are meeting their obligation to provide unbundled access, interconnection and resale to ALECs in a nondiscriminatory manner. Additionally, it establishes a standard against which ALECs and this Commission can measure performance over time to detect and correct any degradation of service provided to ALECs.

Docket No. 000121-TP consists of three phases. Phase I began with workshops conducted with members of the ALEC and ILEC communities. These workshops were held on March 30, 2000, August 8, 2000, and December 13, 2000. The purpose of Phase I was to determine and resolve any policy and legal issues in this matter. Phase II involved establishing permanent metrics for BellSouth Telecommunications, Inc. (BellSouth), including a specific monitoring and enforcement program. With the completion of Phase II, we are beginning Phase III of this docket, which entails the establishment of performance metrics and a performance monitoring and evaluation program for the other Florida ILECs.

By Order No. PSC-01-1819-FOF-TP (Final Order), issued September 10, 2001, we established permanent performance measures and benchmarks as well as a voluntary self-executing enforcement mechanism (Performance Assessment Plan) for BellSouth. By Order No. PSC-02-0187-FOF-TP, issued February 12, 2002, as amended by Order No. PSC-01-0187A-FOF-TP, issued March 13, 2002, BellSouth's Performance Assessment Plan was approved.

By Order No. PSC-02-0503-PCO-TP, issued April 11, 2002, Docket No. 000121-TP was divided into three subdockets: (1) 000121A-TP, in which filings directed toward the BellSouth track would be placed; (2) 000121B-TP, in which filings directed toward the Sprint track would be placed; and (3) 000121C-TP, in which filings directed toward the Verizon track would be placed.

By Order No. PSC-02-0989-PAA-TP, issued July 22, 2002, BellSouth was required to file a specific action plan designed to improve flow-through and adjust the Self Effectuating Enforcement Mechanism (SEEM) for the flow-through metric by July 30, 2002, for the August 2002 results. Additionally, BellSouth was ordered to establish defect correction metrics to be effective August 1, 2002, as part of the Service Quality Measures in Docket 000121A-TP.

ORDER NO. PSC-02-1736-PAA-TP  
DOCKET NO. 000121A-TP  
PAGE 3

By Order No. PSC-02-1094-PAA-TP, issued August 9, 2002, BellSouth was required to implement three new Service Quality Measures to address concerns over the timely and effective implementation of ALEC-initiated change requests for new features. Additionally, BellSouth was ordered to change the required due date for Tier 1 and Tier 2 SEEM payments.

This Order addresses proposed changes to BellSouth's Performance Assessment Plan in conjunction with our six-month review process set forth in Order No. PSC-02-0187-FOF-TP in Docket 000121A-TP. The six-month review process consisted of a collaborative work group, which included BellSouth, interested ALECs, and the Commission. The group reviewed the Performance Assessment Plan for additions, deletions and other modifications.

We are vested with jurisdiction over this matter pursuant to Sections 364.01(3) and (4)(g), Florida Statutes. Pursuant to Section 364.01 (3), Florida Statutes, the Florida legislature has found that regulatory oversight is necessary for the development of fair and effective competition in the telecommunications industry. To that end, Section 364.01 (4) (g), Florida Statutes, provides, in part, that we shall exercise our exclusive jurisdiction in order to ensure that all providers of telecommunications service are treated fairly by preventing anticompetitive behavior. Furthermore, it is noted that the FCC has encouraged the states to implement performance metrics and oversight for purposes of evaluating the status of competition under the Telecommunications Act of 1996.

## II. Analysis

The Service Quality Measurement Plan describes in detail the measurements produced by BellSouth in order to evaluate the quality of service delivered to both wholesale and retail BellSouth customers. The major measurement categories are: preordering, ordering, provisioning, maintenance and repair, and billing. In addition, the following categories are also included: operator services and directory assistance, database information, E911, trunk group performance, collocation, and change management.

BellSouth's SEEM Plan, as approved in Order No. PSC-01-1819-FOF-TP, describes in detail the means by which enforcement will be determined. This includes the appropriate level of performance

ORDER NO. PSC-02-1736-PAA-TP  
DOCKET NO. 000121A-TP  
PAGE 4

measurement disaggregation for compliance reporting and the statistical methodology to be used to compare retail to wholesale performance for determination of penalties and payments.

As part of Order No. PSC-01-1819-FOF-TP, the parties stipulated that, within the first two years of implementation, BellSouth will participate in six-month review cycles to discuss any proposed changes to the Performance Assessment Plan. On September 25-26, 2002 and October 17-18, 2002, the first six-month review workshops were held to gauge the effectiveness of BellSouth's permanent performance measures and to determine whether the current remedy structure is effective in driving BellSouth's performance toward the required standards. The proposed changes to the remedy structure of the SEEM plan will be addressed at a future time.

In response to the parties' workshop comments concerning the proposed changes to the permanent performance measures, two separate tables were developed: 1) One that lists proposed changes to the performance measures that were agreed upon by the parties, and 2) One that lists proposed changes to the performance measures that were not agreed upon by the parties. The parties were requested to file respective comments in regards to both tables.

This order addresses the proposed changes to BellSouth's Performance Assessment Plan on which the participating parties agreed. The parties' comments on the proposed changes to the performance measures that were not agreed upon are due on December 12, 2002, and will be addressed at a later date.

Attachment 1, incorporated herein by reference, is a table listing the proposed changes to the performance measures that were agreed upon by the parties. The table is divided into four columns which identify:

- The party proposing the change,
- The performance measurement being changed,
- The proposed change to the performance measurement, and
- The parties' confirmation of the proposed change.

Measures 92 through 112 and 135 through 156 in Attachment 1 represent proposed changes that the parties agreed to be deleted from this six-month review cycle.

As a part of the Operation Support System test, BearingPoint Consulting (formerly KPMG Consulting) was required to conduct an independent assessment of the adequacy of BellSouth's permanent performance measures. This assessment, known as the Adequacy Study, filed in Docket 000121A-TP in September 2002, details documentation ambiguities (red-line changes) in the performance measures as well as recommended changes to the structure of the Service Quality Measures. As part of this docket, the parties were requested to file comments on the Adequacy Study. Attachment 2, incorporated herein by reference, reflects documentation or red-line changes to the performance measures noted in the Adequacy Study that were agreed upon by the parties.

#### ALEC Comments

In the ALEC Coalition's comments concerning the proposed table of agreed upon issues, the ALEC Coalition acknowledged that the table accurately states the issues upon which the parties agreed. However, in its comments, the ALEC Coalition clarified that for item numbers 55 through 66 listed in Attachment 1, their agreement to the addition of the word "customer" in the proposed changes would not result in the exclusion of "no trouble found" or "found OK/test OK" situations.

#### BellSouth Comments

In BellSouth's comments concerning the proposed table of agreed issues, BellSouth concurred with the assessment of all the issues proposed in the table with the exception of a proposed change that was inadvertently listed as in agreement by the parties. The change was a modification to an exclusion to the Firm Order Confirmation Timeliness Measure (0-9). The proposed change has been removed from Attachment 1 and will be addressed with other proposed changes to the performance measures that were not agreed upon in a future recommendation.

After consideration of the proposed changes, we order that BellSouth shall implement the revisions to the Performance Assessment Plan contained in Attachments 1 and 2 of this Order and

ORDER NO. PSC-02-1736-PAA-TP  
DOCKET NO. 000121A-TP  
PAGE 6

agreed to by the parties in the six-month review process, with the ALEC clarification that for item numbers 55 through 66, ALEC agreement to the addition of the word "customer" in the proposed changes will not result in the exclusion of "no trouble found" or "found OK/test OK" situations.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that BellSouth Telecommunications, Inc. shall implement the revisions to the Performance Assessment Plan set forth in Attachments 1 and 2 to this Order, which are attached and incorporated, with the herein clarification that for item numbers 55 through 66, the ALECs' agreement to the addition of the word "customer" in the proposed changes will not result in the exclusion of "no trouble found" or "found OK/test OK" situations. It is further

ORDERED that the provisions of this Order, issued as proposed agency action, shall become final and effective upon the issuance of a Consummating Order unless an appropriate petition, in the form provided by Rule 28-106.201, Florida Administrative Code, is received by the Director, Division of the Commission Clerk and Administrative Services, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on the date set forth in the "Notice of Further Proceedings" attached hereto. It is further

ORDERED that in the event a protest is filed, the resolution of the protest shall be addressed during the six-month review process. It is further

ORDERED that in the event this Order becomes final, this docket shall remain open.

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing that is available under Section 120.57, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing will be granted or result in the relief sought.

Mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing.

The action proposed herein is preliminary in nature. Any person whose substantial interests are affected by the action proposed by this order may file a petition for a formal proceeding, in the form provided by Rule 28-106.201, Florida Administrative Code. This petition must be received by the Director, Division of

ORDER NO. PSC-02-1736-PAA-TP

DOCKET NO. 000121A-TP

PAGE 8

the Commission Clerk and Administrative Services, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on December 31, 2002.

In the absence of such a petition, this order shall become final and effective upon the issuance of a Consummating Order.

Any objection or protest filed in this/these docket(s) before the issuance date of this order is considered abandoned unless it satisfies the foregoing conditions and is renewed within the specified protest period.

| Metric Name                                                                 | Documentation Improvements (Red-line changes)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| OSS-1: Average Response Time and Response Interval (Pre-Ordering/ Ordering) | The Definition, Business Rules, and Calculation documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of FL Observation 120, BellSouth submitted a red-line SQM to modify the documented SQM text to provide additional clarity regarding the SQM name, as well as the definition, business rules, and calculation sections. These changes are not present in the Permanent Metrics.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| OSS-2: Interface Availability (Pre-Ordering/Ordering)                       | <p><b>Definition</b><br/>           The hours of operation website should be updated to show hours of availability for all appropriate levels of disaggregation. BellSouth references in both the Interim and Permanent Metrics a matrix on its website (<a href="http://www.interconnection.bellsouth.com/oss/oss_hour.html">http://www.interconnection.bellsouth.com/oss/oss_hour.html</a>). This matrix does not list hours of availability for all levels of disaggregation.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| OSS-3: Interface Availability (Maintenance & Repair)                        | <p><b>Definition</b><br/>           The hours of operation website should be updated to show hours of availability for all appropriate levels of disaggregation. BellSouth references in both the Interim and Permanent Metrics a matrix on its website (<a href="http://www.interconnection.bellsouth.com/oss/oss_hour.html">http://www.interconnection.bellsouth.com/oss/oss_hour.html</a>). This matrix does not list hours of availability for all levels of disaggregation.</p> <p><b>Business Rules</b><br/>           The Business Rules documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test.<br/>           As part of FL Exception 59, BellSouth submitted a red-line SQM to modify the documented SQM text to provide additional clarity regarding the Business Rules documentation. These changes are not present in the Permanent Metrics.</p> |
| OSS-4: Response Interval (Maintenance & Repair)                             | <p><b>Performance Standard</b><br/>           The Performance Standard documentation of this SQM should be modified to reflect a benchmark of "Parity with Retail." The benchmark in the Interim Metrics is listed as "Parity with Retail," while the benchmark in the Permanent Metrics is listed as "Average Interval." KPMG Consulting has confirmed that "Parity with Retail" is the correct performance standard for this SQM.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| PO-1: Loop Makeup – Response Time – Manual                                  | <p><b>Business Rules</b><br/>           The Business Rules section reference to "mail" should be replaced with "e-mail." BellSouth states the following: "The CLEC Manual Loop Makeup Service Inquiry (LMUSI) process includes inquiries submitted via mail or FAX to BellSouth's Complex Resale Support Group (CRSG)." KPMG Consulting has confirmed that the CRSG does not receive inquiries via mail and believes that this statement refers to electronic mail.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| PO-2: Loop Makeup – Response Time – Electronic                              | <p><b>Exclusions</b><br/>           The Exclusions documentation should be modified to remove the "designated holidays" exclusion. KPMG Consulting believes the exclusion of "designated holidays" is inappropriate for an SQM that measures an automated process.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| Metric Name                                                 | Documentation Improvements (Red-line changes)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <p>O-1: Acknowledgement Message Timeliness</p>              | <p>The Definition and Calculation documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test.</p> <p>As part of FL Observation 112, BellSouth submitted a red-line SQM to add distribution intervals to the documented SQM. These distribution intervals are not present in the Permanent Metrics for this SQM.</p> <p><b>Exclusions</b></p> <p>The Exclusions documentation should be modified to note the exclusion of "Manually Submitted LSRs."</p> <p>KPMG Consulting notes that no exclusions are listed in the Permanent Metrics. Since the O-1 SQM includes only transactions electronically submitted via EDI or TAG, manually submitted LSRs would not be included in the calculation of this SQM.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <p>O-3: Percent Flow-Through Service Requests (Summary)</p> | <p><b>Business Rules</b></p> <p>The Business Rules documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of its response to FL Exception 121, BellSouth modified category three and added a 14th category in the documented SQM. Both additions clarified differences in the flow-through handling of Local Number Portability (LNP) orders. These changes are not present in the Permanent Metrics.</p> <p><b>Calculation</b></p> <p>The Calculation documentation should be modified to provide additional clarity on the calculation references to clarifications and errors.</p> <p>The Calculation documentation states the following:</p> $\text{Percent Flow Through} = a \div [b - (c + d + e + f)] \times 100$ <ul style="list-style-type: none"> <li>• a = The total number of LSRs that flow through LESOG/LAUTO and reach a status for a FOC to be issued</li> <li>• b = the number of LSRs passed from LEO/LNP Gateway to LESOG/LAUTO</li> <li>• c = the number of LSRs that fall out for manual processing</li> <li>• d = the number of LSRs that are returned to the CLEC for clarification</li> <li>• e = the number of LSRs that contain errors made by CLECs</li> <li>• f = the number of LSRs that receive a Z status.</li> </ul> <p>Since clarifications and errors are synonymous, "d" and "e" could be interpreted to double count the number of clarifications and errors. By double-counting clarifications and errors, the reported flow through percentage increases since the denominator is reduced. KPMG Consulting has confirmed that "d" refers to auto clarifications only, and "e" refers to clarifications returned from the Local Carrier Service Center (LCSC) to the CLEC.</p> <p>The Calculation documentation also states the following:</p> $\text{Percent Achieved Flow Through} = a \div [b - (c + d + e)] \times 100$ <ul style="list-style-type: none"> <li>• a = the number of LSRs that flow through LESOG/LAUTO and reach a status for a FOC to be issued.</li> <li>• b = the number of LSRs passed from LEO/LNP Gateway to LESOG/LAUTO</li> <li>• c = the number of LSRs that are returned to the CLEC for clarification</li> <li>• d = the number of LSRs that contain errors made by CLECs</li> <li>• e = the number of LSRs that receive Z status</li> </ul> <p>Since clarifications and errors are synonymous, "c" and "d" could be interpreted to double-count the number of clarifications and errors. By double-counting clarifications and errors, the reported flow through percentage increases since the denominator is reduced. KPMG Consulting has confirmed that "c" refers to auto clarifications only, and "d" refers to clarifications returned from the LCSC to the CLEC.</p> |

|------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>O-4: Percent Flow-Through Service Requests (Detail)</p> | <p><b>Business Rules</b><br/>         The Business Rules documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of its response to FL Exception 121, BellSouth modified category three and added a 14th category to the documented SQM. Both additions clarified differences in the flow-through handling of Local Number Portability (LNP) orders. These changes are not present in the Permanent Metrics.</p> <p><b>Calculation</b><br/>         The Calculation documentation should be modified to provide additional clarity on the calculation references to clarifications and errors. The Calculation section states the following:</p> <p style="padding-left: 40px;">Percent Flow Through = <math>a \div [b - (c + d + e + f)] \times 100</math></p> <ul style="list-style-type: none"> <li>● a = The total number of LSRs that flow through LESOG/LAUTO and reach a status for a FOC to be issued</li> <li>● b = the number of LSRs passed from LEO/LNP Gateway to LESOG/LAUTO</li> <li>● c = the number of LSRs that fall out for manual processing</li> <li>● d = the number of LSRs that are returned to the CLEC for clarification</li> <li>● e = the number of LSRs that contain errors made by CLECs</li> <li>● f = the number of LSRs that receive a Z status.</li> </ul> <p>Since clarifications and errors are synonymous, "d" and "e" could be interpreted to double count the number of clarifications and errors. By double-counting clarifications and errors, the reported flow through percentage increases since the denominator is reduced. KPMG Consulting has confirmed that "d" refers to auto clarifications only, and "e" refers to clarifications returned from the LCSC to the CLEC. The Calculation section also states the following:</p> <p style="padding-left: 40px;">Percent Achieved Flow Through = <math>a \div [b - (c + d + e)] \times 100</math></p> <ul style="list-style-type: none"> <li>● a = the number of LSRs that flow through LESOG/LAUTO and reach a status for a FOC to be issued.</li> <li>● b = the number of LSRs passed from LEO/LNP Gateway to LESOG/LAUTO</li> <li>● c = the number of LSRs that are returned to the CLEC for clarification</li> <li>● d = the number of LSRs that contain errors made by CLECs</li> <li>● e = the number of LSRs that receive Z status</li> </ul> <p>Since clarifications and errors are synonymous, "c" and "d" could be interpreted to double-count the number of clarifications and errors. By double-counting clarifications and errors, the reported flow through percentage increases since the denominator is reduced. KPMG Consulting has confirmed that "c" refers to auto clarifications only, and "d" refers to clarifications returned from the LCSC to the CLEC.</p> |
| <p>O-5: Flow-Through Error Analysis</p>                    | <p><b>Name of SQM</b><br/>         The name of the SQM should be modified to remove "O-5" from the SQM header. KPMG Consulting notes that this measurement has no calculation other than a count; it presents data that is used to assist in the calculation of O-3 and O-4. The removal of "O-5" from the SQM header would make it clear that this measurement has no calculation component.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| Metric Name                             | Documentation Improvements (Red-line changes)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| O-8: Reject Interval                    | <p><b>Exclusions</b></p> <p>The Exclusions documentation's holiday exclusion should be labeled as referencing partially mechanized and non-mechanized transactions only. BellSouth lists the following exclusion: "Designated Holidays are excluded from the interval calculation." KPMG Consulting has confirmed that the holiday exclusion is appropriate for partially mechanized and non-mechanized transactions, but that this exclusion is not appropriate for fully mechanized transactions.</p> <p>The Exclusions documentation's reference to hours of exclusion should be updated. KPMG Consulting notes that the hours of operation and hours of exclusion for various centers can change over time. The hours of exclusion listed in the Permanent Metrics may not accurately reflect actual hours of exclusion. To address this issue, KPMG Consulting suggests that a reference be added to the Exclusions section to indicate the websites where current hours of operation can be found.</p>                                                                                                                                                                                                                                                                                                                                                                          |
| O-9: Firm Order Confirmation Timeliness | <p><b>Exclusions</b></p> <p>The Exclusions documentation's holiday exclusion should be labeled as referencing partially mechanized and non-mechanized transactions only. BellSouth lists the following exclusion: "Designated Holidays are excluded from the interval calculation." KPMG Consulting has confirmed that the holiday exclusion is appropriate for partially mechanized and non-mechanized transactions, but that this exclusion is not appropriate for fully mechanized transactions.</p> <p>The Exclusion documentation's reference to hours of exclusion should be updated. KPMG Consulting notes that the hours of operation and hours of exclusion for various centers can change over time and therefore, the hours of exclusion listed in the Permanent Metrics may not accurately reflect actual hours of exclusion. To address this issue, KPMG Consulting suggests that a reference be added to the Exclusions section to indicate the websites where current hours of operation can be found.</p> <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of FL Observation 129, BellSouth submitted a red-line SQM to address documented time bucket discrepancies. These changes are not present in the Permanent Metrics.</p> |

| Metric Name                                                                       | Documentation Improvements (Red-line changes)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| O-10: Service Inquiry with LSR Firm Order Confirmation (FOC) Response Time Manual | <p><b>Exclusions</b></p> <p>The Exclusions documentation's reference to hours of exclusion should be updated. KPMG Consulting notes that the hours of operation and hours of exclusion for various centers can change over time and therefore, the hours of exclusion listed in the Permanent Metrics may not accurately reflect actual hours of exclusion. To address this issue, KPMG Consulting suggests that a reference be added to the Exclusions section to indicate the website where current hours of operation can be found.</p> <p><b>Calculation</b></p> <p>The Calculation documentation should be updated so the FOC Timeliness Interval calculation label and the Average Interval numerator ("c") are renamed. The calculation label and numerator should reflect the measurement of the O-10 SQM, rather than the O-9 SQM. The first calculation shown in this section is listed as follows:</p> <p style="padding-left: 40px;">FOC Timeliness Interval = (a - b)</p> <ul style="list-style-type: none"> <li>• a = Date and Time Firm Order Confirmation (FOC) for SI with LSR returned to CLEC</li> <li>• b = Date and Time SI with LSR received</li> </ul> <p>KPMG Consulting believes that the calculation heading: "FOC Timeliness Interval" could be misleading since the O-9 SQM measures the FOC Timeliness interval. The second calculation shown in this section is listed as follows:</p> <p style="padding-left: 40px;">Average Interval = (c + d)</p> <ul style="list-style-type: none"> <li>• c = Sum of all FOC Timeliness Intervals</li> <li>• d = Total number of SIs with LSRs received in the reporting period</li> </ul> <p>The numerator "c" could also be misleading since it also refers to the FOC Timeliness intervals.</p> |
| O-11: Firm Order Confirmation and Reject Response Completeness                    | <p><b>Exclusions</b></p> <p>The Exclusions documentation should be updated to reflect a "Fatal Rejects" exclusion. BellSouth states the following in the Business Rules documentation: "Mechanized - The number of FOCs or Auto Clarifications sent to the CLEC from EDI, or TAG in response to electronically submitted LSRs." BellSouth defines a Mechanized reject in the Business Rules section of the O-7: Percent Rejected Service Requests text as "either a Fatal Reject or an Auto Clarification." While Auto Clarifications are one type of Reject, Fatal Rejects are not mentioned in the O-11 SQM documentation. BellSouth also does not list Fatal Rejects in the Exclusions section of the O-11 SQM. KPMG Consulting believes that Fatal Rejects should be excluded from this SQM since BellSouth defines a Fatal Reject in the O-7: Percent Rejected Service Requests text as follows: "A Fatal Reject occurs when a CLEC attempts to electronically submit an LSR but required fields are either not populated or incorrectly populated and the request is returned to the CLEC before it is considered a valid LSR." The O-11 SQM Definition documentation states the following: "A response is expected from BellSouth for every Local Service Request transaction (version)." Since a Fatal Reject is not considered a valid LSR, the exclusion of Fatal Rejects from O-11 would be consistent with the Definition documentation of this SQM as stated above. KPMG Consulting has also confirmed that Fatal Rejects are excluded from this SQM.</p>                                                                                                                                                                                               |
| O-12: Speed of Answer in Ordering Center                                          | <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect the geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <p>P-1: Mean Held Order Interval &amp; Distribution Interval</p>                               | <p><b>Report Structure</b><br/> The Report Structure documentation should be updated to reflect geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional and state-specific basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <p>P-2: Average Jeopardy Notice Interval &amp; Percentage of Orders Given Jeopardy Notices</p> | <p>The Calculation, Levels of Disaggregation, and Performance Standard documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of FL Observation 150, BellSouth submitted a red-line SQM to modify the SQM text to provide additional documentation clarity regarding the calculation, levels of disaggregation, and performance standard sections. These changes are not present in the Permanent Metrics.</p> <p><b>Report Structure</b><br/> The Report Structure documentation should be updated to reflect geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional and state-specific basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <p>P-3A: Percent Missed Installation Appointments Including Subsequent Appointments</p>        | <p><b>Definition</b><br/> The Definition documentation should be updated to account for the inclusion of subsequent appointments.</p> <p><b>Calculation</b><br/> The Calculation documentation should be modified.</p> <p style="padding-left: 40px;">Percent Missed Installation Appointments = <math>(a + b) \times 100</math></p> <ul style="list-style-type: none"> <li>• a = Number of Appointments in Reporting Period past the Original (Date/Time as applicable) Committed and Subsequent Committed Due Date</li> <li>• b = Number of Appointments on Orders Completed in Reporting Period</li> </ul> <p>KPMG Consulting believes that "a" could be interpreted that the appointment be counted only if it were past the original committed due date and the subsequent committed due date, which would only count subsequent misses. However, since the P-3 SQM, which measures the percentage of missed initial installation appointments, has not been ordered by the FPSC, the P-3A SQM must include both types of misses: initial and subsequent.</p> <p style="padding-left: 40px;">"a" should be redefined as "a = (Number of Appointments in Reporting Period past the Original Committed Due Date) + (Number of Appointments in Reporting Period past the Subsequent Committed Due Date)."</p> <p><b>Report Structure</b><br/> The Report Structure documentation should be updated to reflect geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional and state-specific basis.</p> |

| Metric Name                                                                         | Documentation Improvements (Red-line changes)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| P-4A: Average Order Completion and Completion Notice Interval (AOCCNI) Distribution | <p><b>Definition</b><br/>The Definition documentation should be modified to include completion notices. The Definition section includes the following statement: "The "Order Completion And Completion Notice Interval" provides the percentages of orders completed within certain time periods." The phrase "orders completed" could imply that only the order completion interval is being measured by this SQM. Since this SQM measures both the completion interval and the completion notice interval, the statement is not accurate. "Orders completed" should be updated to include completion notices.</p> <p><b>Business Rules</b><br/>The Business Rules documentation should be updated. The Business Rules section includes the following statement: "The accumulated time for each reporting dimension is then divided by the associated total number of orders completed." The phrase "orders completed" could imply that only the order completion interval is being measured by this SQM. Since this SQM measures both the completion interval and the completion notice interval, the statement is not accurate. "Orders completed" should be updated to include completion notices. The Business Rules section also includes the following statement: "Orders that are worked on zero due dates are calculated with a .33-day interval (8 hours) in order to report a portion of a day interval. These orders are issued and worked/completed on the same day. They can be either flow through orders (no field work-non-dispatched) or field orders (dispatched)." Since this SQM measures both the completion interval and the completion notice interval, the text could be misleading and should be removed.</p> <p><b>Calculation</b><br/>The Calculation documentation should be updated.<br/>Completion Interval = (a - b)<br/>● a = Date and Time Completion Notice is sent<br/>● b = FOC/SOCS date time-stamp (application date)</p> <p>The name of the calculation, "Completion Interval," could imply that only the order completion interval is being calculated. The interval (a - b) measures both the order completion interval and the completion notice interval. The phrase "Completion Interval" could be misleading and should be updated to include completion notices.</p> <p>Average Completion Interval = (c ÷ d)<br/>● c = Sum of all Completion Intervals<br/>● d = Count of Orders Completed in Reporting Period</p> |

KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional and state-specific basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| M&R-6: Average Answer Time – Repair Centers        | <p><b>Exclusions</b></p> <p>The Exclusions documentation should be updated to list abandoned calls as an exclusion. KPMG Consulting notes that abandoned calls are not listed as an exclusion. Since the SQM is based on the total number of calls answered in the reporting period, abandoned calls cannot be included.</p> <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| M&R-7: Mean Time To Notify CLEC of Network Outages | <p>The Definition, Business Rules, and Calculation documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of FL Observation 133, BellSouth submitted a red-line SQM to modify the SQM text to provide additional clarity regarding the definition, business rules, and calculation documentation. These changes are not present in the Permanent Metrics.</p> <p><b>Definition</b></p> <p>The Definition section should be modified. BellSouth refers to "Key Customer Accounts" in this section, which implies that only key customers are notified. Since all CLECs have the opportunity to subscribe to the notification list, KPMG Consulting believes that the phrase "Key Customer Accounts" should be removed to avoid confusion.</p> <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional basis.</p> <p><b>Performance Standard</b></p> <p>The Performance Standard documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of FL Observation 161, BellSouth issued a red-line SQM regarding the documentation change of the performance standard from Parity by Design to Parity with Retail. The change is not present in the Permanent Metrics.</p> |

| Metric Name                            | Documentation Improvements (Red-line changes)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| B-2: Mean Time to Deliver Invoices     | <p><b>Definition</b></p> <p>The Definition documentation should be modified, as the Business Rules documentation appears to provide a better definition of the SQM, while the Definition documentation appears to contain background information on the SQM. The Definition documentation states the following: "Bill Distribution is calculated as follows: CRIS BILLS-The number of workdays is reported for CRIS bills. This is calculated by counting the Bill Period date as the first work day. Weekends and holidays are excluded when counting workdays. J/N Bills are counted in the CRIS work day category for the purposes of the measurement since their billing account number (Q account) is provided from the CRIS system. CABS BILLS-The number of calendar days is reported for CABS bills. This is calculated by counting the day following the Bill Period date as the first calendar day. Weekends and holidays are included when counting the calendar days." The Business Rules documentation states the following: "This report measures the mean interval for timeliness of billing records delivered to CLECs in an agreed upon format. CRIS-based invoices are measured in business days, and CABS-based invoices in calendar days." KPMG Consulting believes that the Business Rules documentation as stated above is a more appropriate definition of the SQM. KPMG Consulting also believes that the reference to "records" in the Definition documentation should be changed to "invoices" to remain consistent with the intent of the SQM.</p> <p><b>Business Rules</b></p> <p>The Business Rules documentation should be modified, as the Definition documentation appears to contain background information on the SQM, while the Business Rules documentation appears to provide a better definition of the SQM. The Business Rules documentation should be modified to state "timeliness of billing records sent to CLECs." The Calculation documentation states the following:</p> <p style="padding-left: 40px;">Invoice Timeliness = (a - b)</p> <ul style="list-style-type: none"> <li>• a = Invoice Transmission Date</li> <li>• b = Close Date of Scheduled Bill Cycle</li> </ul> <p>The end point for the Invoice Timeliness calculation is the transmission date to the CLEC. The Business Rules state: "This report measures the mean interval for timeliness of billing records delivered to CLECs in an agreed upon format. CRIS-based invoices are measured in business days, and CABS-based invoices in calendar days." The Business Rules section should be modified to state "timeliness of billing records sent to CLECs," rather than "delivered to CLECs" since BellSouth cannot be held responsible for the billing records after they have been sent.</p> |
| B-8: Non-Recurring Charge Completeness | <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect the geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a state-specific basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| D-1: Average Database Update Interval  | <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect the geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional and state-specific basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| D-2: Percent Database Update Accuracy                        | <p>The Definition and Business Rules documentation should be updated to reflect the red-line SQM changes associated with the Florida Third Party OSS Test. As part of FL Observation 180, BellSouth submitted a red-line SQM to clarify the documented SQM text. The text in the Permanent Metrics for this SQM does not match the text in the red-line SQM.</p> <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect the geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional and state-specific basis.</p> <p><b>Levels of Disaggregation</b></p> <p>The Levels of Disaggregation documentation should be updated to include Directory Assistance. There are two levels of disaggregation listed for this SQM:</p> <p align="center">LIDB<br/>Directory Listings</p> <p>KPMG Consulting notes that BellSouth's published report for this SQM includes a third level of disaggregation: Directory Assistance. BellSouth also refers to Directory Assistance in both the Definition and Business Rules sections.</p> |
| D-3: Percent NXXs and LRNS Loaded by the LERG Effective Date | <p><b>Definition</b></p> <p>The Definition documentation should be modified. KPMG Consulting notes that the first paragraph of the Definition documentation appears to contain the actual SQM definition. The second and third paragraphs appear to contain more background information that would be more appropriately presented in the Business Rules section.</p> <p><b>Report Structure</b></p> <p>The Report Structure documentation should be updated to reflect the geographic scope. KPMG Consulting notes that no geographic scope designation (region or state) is present in the Permanent Metrics SQM. This designation is important to determine at what level the SQM report results are presented. KPMG Consulting notes that BellSouth's current SQM report is reported on a regional basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| TGP-2: Trunk Group Performance-CLEC Specific                 | <p><b>Definition</b></p> <p>The Definition documentation should be updated to reflect that the SQM is measured on a CLEC specific basis. KPMG Consulting notes that the wording of the definition is exactly the same as the TGP-1 wording definition. While TGP-2 is reported on a CLEC specific basis, TGP-1 is reported on an aggregate basis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Investigation into the  
establishment of operations  
support systems permanent  
performance measures for  
incumbent local exchange  
telecommunications companies.  
(BELLSOUTH TRACK)

---

DOCKET NO. 000121A-TP  
ORDER NO. PSC-03-0011-CO-TP  
ISSUED: January 2, 2003

CONSUMMATING ORDER

BY THE COMMISSION:

By Order No. PSC-02-1736-PAA-TP, issued December 10, 2002, this Commission proposed to take certain action, subject to a Petition for Formal Proceeding as provided in Rule 25-22.029, Florida Administrative Code. No response has been filed to the order, in regard to the above mentioned docket. It is, therefore,

ORDERED by the Florida Public Service Commission that Order No. PSC-02-1736-PAA-TP has become effective and final. It is further

ORDERED that this docket shall remain open.

By ORDER of the Florida Public Service Commission, this 2nd day of January, 2003.

BLANCA S. BAYÓ, Director  
Division of the Commission Clerk  
and Administrative Services

By: /s/ Kay Flynn  
Kay Flynn, Chief  
Bureau of Records and Hearing  
Services

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any judicial review of Commission orders that is available pursuant to Section 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water and/or wastewater utility by filing a notice of appeal with the Director, Division of the Commission Clerk and Administrative Services and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.
