Docket No. ~~01-00074~~
01-00632

PETITION FOR APPROVAL OF THE
AMENDMENTS TO THE INTERCONNECTION AGREEMENT
NEGOTIATED BETWEEN BELL SOUTH TELECOMMUNICATIONS, INC.
AND BIRCH TELECOM OF THE SOUTH, INC.
PURSUANT TO THE TELECOMMUNICATIONS ACT OF 1996

COME NOW, Birch Telecom of the South, Inc. ("Birch") and BellSouth Telecommunications, Inc., ("BellSouth"), and file this request for approval of the Amendments to the Interconnection Agreement dated July 14, 2000 (the "Amendments") negotiated between the two companies pursuant to Sections 251 and 252 of the Telecommunications Act of 1996, (the "Act"). In support of their request, Birch and BellSouth state the following:

1. Birch and BellSouth have successfully negotiated an agreement for interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to Birch. The Interconnection Agreement was approved by the Tennessee Regulatory Authority ("TRA") on March 20, 2001.

2. The parties have recently negotiated Amendments to the Agreement which replace certain existing rates with TRA-ordered rates. Copies of the Amendments are attached hereto and incorporated herein by reference.

3. Pursuant to Section 252(e) of the Telecommunications Act of 1996, Birch and BellSouth are submitting their Amendments to the TRA for its consideration and approval. The

Amendments provide that either or both of the parties is authorized to submit these Amendments to the TRA for approval.

4. In accordance with Section 252(e) of the Act, the TRA is charged with approving or rejecting the negotiated Amendments between BellSouth and Birch within 90 days of its submission. The Act provides that the TRA may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity.

5. Birch and BellSouth aver that the Amendments are consistent with the standards for approval.

6. Pursuant to Section 252(i) of the Act, BellSouth shall make the Agreement available upon the same terms and conditions contained therein.

Birch and BellSouth respectfully request that the TRA approve the Amendments negotiated between the parties.

This 19th day of July, 2001.

Respectfully submitted,

BELLSOUTH TELECOMMUNICATIONS, INC.

UNBUNDLED PORT/LOOP COMBINATIONS - COST BASED RATES														
Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports. BellSouth is required to offer unbundled port/loop combinations that are currently combined in Tennessee unless the end user has four or more DS0 equivalent lines and is in Zone 1 of one of the Top 8 MSAs in BellSouth's region.														
In the absence of ordered rates by a State Commission, the recurring rates for combinations of port/loop network elements will be the sum of the recurring rates for the UNEs which make up the combinations, and the nonrecurring rates shall be as set forth in this section.														
Vertical features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.														
End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Com Port/Loop Combinations which have a flat rate usage charge (USOC: URECU).														
For Currently Combined Combos in TN, the nonrecurring charges shall be those identified in the Nonrecurring Charges - Currently Combined sections.
