RE: Tellico Telephone Company - Public Acts of 2001 Chapter 195

Dear Mr. Foster:

Please find enclosed the original and five copies of the following tariff page:

Part III, Original Sheet 12

The Tennessee General Assembly enacted House Bill 864 (Public Acts of 2001 Chapter 195) which requires telecommunications providers that receive a net tax savings as a result of the bill to pass through those savings to business customers. The purpose of this filing, in accordance with Chapter 195, is to pass through to business customers the net tax savings as stated in the Act. The net tax savings are being passed on to business customers in the form of a credit. Credits will appear starting with customers' April bills, but are effective January 1, 2002.

The net tax savings will be passed through to business customers over an eighteen (18) month time period, which matches the tax equity payment date stated in the Act (Section 4).

The proposed tariff effective date is March 11, 2002.

In addition we have included supporting financial schedules identifying the total tax savings and pass through amount.

If you have any questions, please contact me at (865) 671-4753.

Sincerely,

Bruce Mottern
