Re: *Approval of the Interconnection Agreement and Amendments Thereto Negotiated by
BellSouth Telecommunications, Inc. and Accutel of Texas, Inc. Pursuant to Sections 251
and 252 of the Telecommunications Act of 1996*
Docket No. ~~00-00604~~ 02-00548

Dear Mr. Waddell:

Pursuant to Section 252(e) of the Telecommunications Act of 1996, DSLnet Communications, LLC and BellSouth Telecommunications, Inc. are hereby submitting to the Tennessee Regulatory Authority the original and thirteen copies of the attached Petition for Approval of the Interconnection Agreement and Amendments thereto. The first Amendment adds CLEC to CLEC conversions and the second Amendment replaces the rates in Attachments 1, 2, 3, 5 and 7.

Thank you for your attention to this matter.

Sincerely yours,

Guy M. Hicks

cc: Wendy Bluemling, DSLnet Communications, LLC

BEFORE THE TENNESSEE REGULATORY AUTHORITY
Nashville, Tennessee

In re: *Approval of the Interconnection Agreement and Amendments Thereto
Negotiated by BellSouth Telecommunications, Inc. and DSLnet
Communications, LLC Pursuant to Sections 251 and 252 of the
Telecommunications Act of 1996*

Docket No. ~~00-00604~~ *02-00548*

**PETITION FOR APPROVAL OF THE INTERCONNECTION AGREEMENT
AND AMENDMENTS THERETO NEGOTIATED BETWEEN
BELLSOUTH TELECOMMUNICATIONS, INC.
AND DSLNET COMMUNICATIONS, LLC
PURSUANT TO THE TELECOMMUNICATIONS ACT OF 1996**

COME NOW, DSLnet Communications, LLC ("DSLnet") and BellSouth Telecommunications, Inc., ("BellSouth"), and file this request for approval of the Interconnection Agreement dated December 1, 2001 (the "Agreement") between the two companies pursuant to Sections 251 and 252 of the Telecommunications Act of 1996, (the "Act"). In support of their request, BellSouth and DSLnet state the following:

1. DSLnet has adopted the U.S. South Communications, Inc. Interconnection Agreement dated April 5, 2001 in its entirety, including any and all amendments thereto. The parties have also recently negotiated two Amendment to the Agreement. The first Amendment adds CLEC to CLEC conversions and the second Amendment replaces the rates in Attachments 1, 2, 3, 5 and 7. A copy of the Agreement and Amendments are attached hereto and incorporated herein by reference.

2. Pursuant to Section 252(e) of the Telecommunications Act of 1996, DSLnet and BellSouth are submitting their Agreement to the TRA for its consideration and approval.

3. In accordance with Section 252(e) of the Act, the TRA is charged with approving or rejecting the negotiated Agreement between DSLnet and BellSouth within 90 days of its submission. The Act provides that the TRA may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity.

4. DSLnet and BellSouth aver that the Agreement is consistent with the standards for approval. The approval of said Agreement provides for new competitors in the local exchange market in Tennessee, which will likely bring new services, lower prices and other benefits to the public.

5. Pursuant to Section 252(i) of the Act, BellSouth shall make the Agreement available upon the same terms and conditions contained therein.

DSLnet and BellSouth respectfully request that the TRA approve the Agreement.
the parties.

This 8 day of MAY, 2002.

Respectfully submitted,

BELLSOUTH TELECOMMUNICATIONS, INC.

**AMENDMENT
TO THE
AGREEMENT BETWEEN
DSLNET COMMUNICATIONS, LLC
AND
BELL SOUTH TELECOMMUNICATIONS, INC.
DATED DECEMBER 1, 2001**

Pursuant to this Amendment, (the "Amendment"), DSLnet Communications, LLC ("DSLnet"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated December 1, 2001 ("Agreement").

WHEREAS, BellSouth and DSLnet entered into the Agreement on December 1, 2001, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. Attachment 2 of the Interconnection Agreement entered into between DSLnet and BellSouth is hereby amended to include new Section 2.1.6.1 and all its subsections as follows:

2.1.6.1 CLEC to CLEC Conversions for Unbundled Loops

- 2.1.6.1.1 CLEC to CLEC Conversion for Unbundled Loops may be used by DSLnet when converting an existing unbundled loop from another CLEC for the same end-user.
- 2.1.6.1.2 The loop type being converted must be included in DSLnet Interconnection Agreement before requesting a conversion. DSLnet must have an end-user letter of authorization (LOA) on file (it must be available if requested by BellSouth).
- 2.1.6.1.3 The loop being converted must be the same loop type with no requested changes to the loop; must be at the same end-user location and the same serving wire center. The loop conversion must not require an outside dispatch.
- 2.1.6.1.4 For the conversion process, Order Coordination comes standard on 2 Wire Unbundled Voice Loop-SL2, 4 Wire Unbundled Voice Loop, 2 Wire ADSL Compatible Loop, 2 and 4 Wire HDSL Compatible Loop, 2 Wire Unbundled ISDN Loop, 2 Wire Unbundled Universal Digital Channel Loop, 4 Wire Unbundled Digital/DSO (19.2/56/64 kbps), and 4 Unbundled DS1/ISDN Loop.
- 2.1.6.1.5 Order Coordination is available as a chargeable option on Unbundled Voice Loop-SL1, Unbundled Copper Loop-Non Designed, and Unbundled Copper Loop-Designed.

2. Attachment 2, Exhibit C is hereby modified to include the rates for CLEC to CLEC Conversions for Unbundled Loops as set forth in Exhibit 1 attached hereto and incorporated herein by this reference.
3. All of the other provisions of the Agreement, dated December 1, 2001, shall remain in full force and effect.
4. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

This Amendment shall be deemed effective 30 calendar days following the date of the last signature of both Parties.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

DSLNET COMMUNICATIONS, LLC
AND
BELL SOUTH TELECOMMUNICATIONS, INC.
DATED DECEMBER 1, 2001**

Pursuant to this Amendment, (the "Amendment"), DSLnet Communications, LLC, ("DSLnet"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated December 1, 2001 ("Agreement").

WHEREAS, The Parties desire to amend the Interconnection Agreement entered into on December 1, 2001, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. Exhibits A and F of Attachment 1, Exhibit C of Attachment 2, Exhibit A of Attachment 3, Exhibit A of Attachment 5, and Exhibit A of Attachment 7 are hereby deleted and replaced in their entirety with a new Exhibit A of Attachment 1, Exhibit C of Attachment 2, Exhibit A of Attachment 3, Exhibit A of Attachment 5, and Exhibit A of Attachment 7 for the states of Florida, Louisiana, Mississippi, South Carolina and Tennessee attached hereto and incorporated herein by this reference.
2. All of the other provisions of the Agreement, dated December 1, 2001, shall remain in full force and effect.
3. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

This Amendment shall be deemed effective 30 calendar days following the date of the last signature of both Parties.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

NOTE: (1) Electronic Service Order: CLEC should contact its contract regulator if it prefers the state specific electronic service ordering charges as ordered by the State Commission. The electronic service ordering charge currently contained in this rate exhibit is the													
Basis: (2) Any amount that can be ordered electronically will be billed according to the SOMEC rate listed in this category. Please refer to the SOMEC Business Rules for Local Ordering (BBL-LO) to determine if a product can be ordered electronically. For those elements													
that cannot be ordered electronically at present per the BBL-LO, the listed SOMEC rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will													
be applied to a CLEC's bill when it submits an LSR to Bellsouth.

UNBUNDLED PORT COMBINATIONS - MARKET RATES													
Market Rates that apply where Backout is not required to provide unbundled local switching or switch ports per FCC and/or State Commission rules.													
These scenarios include:													
1. Unbundled porting combinations that are Not Currently Combined in Alabama, Florida and North Carolina.													
2. Unbundled porting combinations that are Currently Combined or Not Currently Combined in Zones 1 of the Top 3 MSAs in Beisouth's region for end users with 4 or more DSO equivalent lines.

The Top 8 MSAs in Beasouth's region are: FL (Orlando, Ft. Lauderdale, Miami), GA (Atlanta), LA (New Orleans), NC (Greensboro-Winston Salem-High Point-Charlotte-Gastonia-Rock Hill), TN (Nashville). Beasouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in AL, FL and NC. In the interim where Beasouth cannot bill Market Rates, Beasouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference. The Market Rates for unbundled ports includes all available features in all states. End Office and Trunk Switching Usage and Common Transport Usage rates in the Port section of the rate exhibit shall apply to all combinations of loop/port network elements except for UNE Port Loop Combinations which have a flat rate usage charge (USOC: URECU). For Not Currently Combined scenarios where Market Rates apply, the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section. Additional NRCs may apply also and are categorized accordingly.

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Designated UNE Zones. To view Geographically Designated UNE Zone Designations by Central Office, refer to Internet Website: http://www.louisianaconnection.bellsouth.com/homepage_a_cdoefminterconnection.htm OPERATIONAL SUPPORT SYSTEMS NOTE: (1) Electronic Service Order: CLEC should contact its contract regulator if it prefers the state specific electronic service ordering charges as ordered by the State Commission. The electronic service ordering charge currently contained in this rate exhibit is the Bellsouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service ordering charge. NOTE: (2) Any element that can be ordered electronically will be billed electronically at the rate according to the SOMEC rate listed in the category. Please refer to Bellsouth's Business Rules for Local Ordering (BBR-L-O) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-L-O, the listed SOMEC rate in the category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to Bellsouth. Electronic OSS Charge, per LSR, admitted via BSR's OSS Interactive interfaces (Regional)

	UNBUNDLED PORT LOOP COMBINATIONS - MARKET RATES											
	Market Rates shall apply where Belsouth is not required to provide unbundled local switching or switch ports per FCC and/or State Commission rules.											
	These scenarios include:											
	1. Unbundled port/loop combinations that are Not Currently Combined in Alabama, Florida and North Carolina.											
	2. Unbundled port/loop combinations that are Currently Combined or Not Currently Combined in Zone 1 of the Top 8 MSAs in Belsouth's region for end users with 4 or more DSO equivalent lines.											
	The Top 8 MSAs in Belsouth's region are: FL (Orlando, FL, Lakeland, Miami), GA (Atlanta), LA (New Orleans), NC (Greensboro-Winston Salem-HighPoint-Charlotte-Gastonia-Rock Hill), TN (Nashville).											
	Belsouth currently is developing the billing capability to mechanically bill the recurring and non-recurring market rates in this section except for nonrecurring charges for not currently combined in AL, FL and NC. In the interim where Belsouth cannot bill Market Rates, Belsouth shall bill the rates in the Cost-based section preceding in lieu of the Market Rates and reserve the right to true-up the billing difference.											
	The Market Rates for unbundled ports includes all available features in all states.											
	End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Cost Port/Loop Combinations which have a flat rate usage charge (USOC: UEPCL).											
	For Not Currently Combined scenarios where Market Rates apply, the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section. Additional NRCs may apply also and are categorized accordingly.

UNBUNDLED PORT/LOOP COMBINATIONS - COST BASED RATES														
Cost Based Rates are applied when BasisSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.														
Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.														
End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Core Port/Loop Combinations.														
For Georgia, Kentucky, Louisiana, Mississippi, South Carolina and Tennessee, the recurring UNE Port and Loop charges listed apply to Currently Combined and Not Currently Combined Combs. The first and additional Port nonrecurring charges apply to Not Currently Combined Combs for all states. In GA, KY, LA, MS, SC and TN these nonrecurring charges are Commission ordered cost based rates and in AL, FL and NC these nonrecurring charges are Market Rates and are also listed in the Market Rate section. For Currently Combined Combs in all other states, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections.

OPERATIONAL SUPPORT SYSTEMS														
NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the State Commission. The electronic service ordering charge currently contained in this rate exhibit is the														
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOECC rate listed in the category. Please refer to Belsouth's Business Rules for Local Ordering (BBL-LO) to determine if a product can be ordered electronically. For those elements														
that cannot be ordered electronically at present per the BBL-LO, the listed SOECC rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will														
be applied to a CLEC's bill when it submits an LSR to Belsouth.														
Manual Service Order Charge, per LSR, Discontinued (D/C, D/C)														
Electronic OSS Charge, per LSR, submitted via BSL's OSS

UNBUNDLED PORT/LOOP COMBINATIONS - COST BASED RATES	Common Transport - Per Mile, Per MOU					0.0000045									
	Common Transport - Facilities Termination Per MOU					0.0004095									
	Cost Based Rates are applied when B-Channels is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.														
	Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.														
	End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port new or elements except for UNE Com Port/Loop Combinations.														
	For Georgia, Kentucky, Louisiana, Mississippi, South Carolina and Tennessee, the recurring UNE Port and Loop charges listed apply to currently Combined and Not Currently Combined Combs. The first and additional Port nonrecuring charges apply to Not Currently Combined in all other states. In GA, KY, LA, MS, SC and TN these nonrecuring charges are commission ordered cost based rates and in AL, FL and NC these nonrecuring charges are Market Rates and are also listed in the Market Rate section. For Currently Combined

	UNBUNDLED PORT LOOP COMBINATIONS - MARKET RATES																		
	Market Rates shall apply where Beisouth is not required to provide unbundled local switching or switch ports per FCC and/or State Commission rules.																		
	These scenarios include:																		
FEATURES	1. Unbundled portloop combinations that are not currently combined in Alabama, Florida and North Carolina.																		
	2. Unbundled portloop combinations that are currently combined or not currently combined in Zone 1 of the Top 8 MSAs in Beisouth's region for end users with 4 or more DSO equivalent lines.																		
	The Top 8 MSAs in Beisouth's region are: FL (Orlando, Ft. Lauderdale, Miami), GA (Atlanta), LA (New Orleans), NC (Greensboro-Winston-Salem-Highpoint-Charlotte-Castalia-Rock Hill), TN (Nashville).																		
	Beisouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in AL, FL and NC. In the interim where Beisouth cannot bill Market Rates, Beisouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to live-up the billing difference.																		
	The Market Rates for unbundled ports includes all available features in all states.																		
	End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of the rate exhibit shall apply to all combinations of loop/port network elements except for UNE Core Port-loop combinations which have a flat rate usage charge (USOC: URECU).																		
	For Not Currently Combined scenarios where Market Rates apply, the Nonrecurring charges are listed in the Flat and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section. Additional NRCs may apply also and are categorized accordingly.

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. To view Geographically Deaveraged UNE Zone Designations by Central Office, refer to Internet Website: http://www.interconnection.bellsouth.com/become_a_cisco/interconnection.htm															
OPERATIONAL SUPPORT SYSTEMS															
NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the State Commission. The electronic service ordering charge currently contained in this rate exhibit is the Bellsouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service ordering charge.															
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEC rate listed in this category. Please refer to Bellsouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEC rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC rate when it submits an LSR to Bellsouth.															
Electronic OSS Charge, per LSR, submitted via BSR's OSS

	UNBUNDLED PORT LOOP COMBINATIONS - MARKET RATES												
	Market Rates shall apply where Bellsouth is not required to provide unbundled local switching or switch ports per FCC and/or State Commission rules.												
	These scenarios include:												
	1. Unbundled port/loop combinations that are not currently combined in Alabama, Florida and North Carolina.												
	2. Unbundled port/loop combinations that are currently combined or not currently combined in Zone 1 of the Top 6 MSAs in Bellsouth's region for and users with 4 or more DSO equivalent lines.												
	The Top 6 MSAs in Bellsouth's region are: FL (Orlando, Ft. Lauderdale, Miami), GA (Atlanta), LA (New Orleans), NC (Greensboro-Winston-Salem-HighPoint-Charlotte-Castell-Rock Hill), TN (Nashville).												
	Bellsouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in the section except for non-recurring charges for not currently combined in AL, FL and NC. In the interim where Bellsouth cannot bill Market Rates, Bellsouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference.												
	The Market Rates for unbundled ports includes all available features in all states.												
	End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Cdn Port/loop combinations which have a flat rate usage charge (USOC: URECH).												
	For not currently combined scenarios where Market Rates apply, the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For currently combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section. Additional NRC may apply also and are categorized accordingly:

	UNBUNDLED CENTREX PORTALCOOP COMBINATIONS - COST BASED RATES												
	1. Cost Based Rates are applied where BasisSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.												
	2. Features shall apply to the Unbundled Port/Loop Combination. Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.												
	3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of the rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.												
	For Georgia, Kentucky, Louisiana, Mississippi and Tennessee, the recurring UNE Port and Loop changes listed apply to Currently Combined and Not Currently Combined Combinations. The first and additional Port nonrecurring charges apply to Not Currently Combined other rates, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections.												
	6. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an individual Case Basis, until further notice.

NOTE: Any element that can be ordered electronically will be billed according to the SOMEC rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BSR-L.O.) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BSR-L.O., the listed SOMEC rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to BellSouth.
