Docket No. 01-01095

PETITION FOR APPROVAL OF THE
AMENDMENT TO THE INTERCONNECTION AGREEMENT
NEGOTIATED BETWEEN BELL SOUTH TELECOMMUNICATIONS, INC.
AND NUVOX COMMUNICATIONS, INC. F/K/A TRIVERGENT
COMMUNICATIONS, INC. PURSUANT TO
THE TELECOMMUNICATIONS ACT OF 1996

COME NOW, NuVox Communications, Inc. f/k/a Trivergent Communications, Inc. ("NuVox") and BellSouth Telecommunications, Inc., ("BellSouth"), and file this request for approval of the Amendment to the Interconnection Agreement dated June 30, 2000 (the "Amendments") negotiated between the two companies pursuant to Sections 251 and 252 of the Telecommunications Act of 1996, (the "Act"). In support of their request, NuVox and BellSouth state the following:

1. NuVox and BellSouth have successfully negotiated an agreement for interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to NuVox. The Interconnection Agreement was approved by the Tennessee Regulatory Authority ("TRA") on October 24, 2000.

2. The parties have recently negotiated an Amendment to the Agreement. The Amendment adds SL1 optional language and replaces rates for 2 wire analog VG loops.

3. Pursuant to Section 252(e) of the Telecommunications Act of 1996, NuVox and BellSouth are submitting their Amendment to the TRA for its consideration and approval. The

Amendment provides that either or both of the parties is authorized to submit these Amendments to the TRA for approval.

4. In accordance with Section 252(e) of the Act, the TRA is charged with approving or rejecting the negotiated Amendment between BellSouth and NuVox within 90 days of its submission. The Act provides that the TRA may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity.

5. NuVox and BellSouth aver that the Amendment is consistent with the standards for approval.

6. Pursuant to Section 252(i) of the Act, BellSouth shall make the Agreement available upon the same terms and conditions contained therein.

NuVox and BellSouth respectfully request that the TRA approve the Amendment negotiated between the parties.

This 22nd day of July, 2002.

Respectfully submitted,

BELLSOUTH TELECOMMUNICATIONS, INC.

2.2.4 "Order Coordination" refers to standard BellSouth service order coordination involving the reuse of facilities where NuVox is requesting that their loop order be provisioned over an existing circuit that is currently providing service to the end user. Order coordination for physical conversions will be scheduled at BellSouth's discretion during normal working hours on the committed due date and NuVox will be advised. OC will be provided as a standard item on SL2 voice grade loops and all Unbundled Digital Loops (UDLs). OC will be provided as a chargeable option on SL1 voice grade loops, and all Unbundled Copper Loops. Order coordination for physical cut-overs will be scheduled as follows:

2.2.4.1 When the Order Coordination option is not ordered for the provisioning of an SL1 loop, BellSouth will provide a notifier to NuVox when the physical wirework is completed for an SL1 loop with LNP. This notification will allow NuVox to ensure minimal end user loss of service, provided that NuVox promptly send the activate message to NPAC to port the number. BellSouth will use best efforts to notify NuVox within thirty (30) minutes of the completion of the physical wirework.

2.2.4.2 When the Order Coordination option is not ordered for the provisioning of designed loops, such as a UCL loop, BellSouth will notify NuVox when the circuit has been provisioned.

2.2.5 "Order Coordination – Time Specific" refers to service order coordination in which NuVox requests a specific time for a service order conversion to take place. BellSouth will make every effort to accommodate NuVox's specific conversion time request. However, BellSouth reserves the right to negotiate with NuVox a conversion time based on load and appointment control when necessary. Loops on a single service order of 14 or more loops will be provisioned on a project basis. This is a chargeable option for any coordinated order and is billed in addition to the OC charge. NuVox may specify a time between 8:00 a.m. and 5:00 p.m. (location time) Monday through Friday (excluding holidays). If NuVox specifies a time outside this window, or selects a time or quantity of loops that requires BellSouth technicians to work outside normal work hours, overtime charges will apply in addition to the OC and OC-TS charges. Overtime charges will be applied according to actual costs based on type of force group required to perform the work and overtime hours worked.

	Order Coordination (OC)	Order Coordination – Time Specific (OC-TS)	Test Points	DLR	Charge for Dispatch and Testing if No Trouble Found
SL-1	Chargeable option	Chargeable Option*	Not available	Chargeable Option – ordered as Engineering Information Document	Charged for Dispatch inside & outside Central Office
SL-2	Included	Chargeable Option*	Included	Included	Charged for Dispatch outside Central Office

					outside Central Office
Unbundled Digital Loop	Included	Chargeable Option* (except on Universal Digital Channel)	Included (where appropriate)	Included	Charged for Dispatch outside Central Office
Unbundled Copper Loop	Chargeable Option	Not available	Included	Included	Charged for Dispatch outside Central Office

*Order Coordination-Time Specific charge for orders due on same day at same location will be applied on a per LSR basis. For UVL-SL1, NuVox must order OC when requesting OC-TS.

2.2.8.1 SL1 loops are 2-wire loop start circuits, will be non-designed, and will not have remote access test points. OC will be offered as a chargeable option on SL1 loops when reuse of existing facilities has been requested by NuVox. NuVox may also order OC-TS when a specified conversion time is requested. OC-TS is a chargeable option for any coordinated order and is billed in addition to the OC charge. An Engineering Information (EI) document can be ordered as chargeable option. The EI document provides loop make up information which is similar to the information normally provided in a Design Layout Record. Upon issuance of a non-coordinated order in the service order system, SL1 loops will be activated on the due date in the same manner and time frames that BellSouth normally activates POTS-type loops for its customers.

2.2.8.2 SL2 loops are either 2-wire or 4-wire circuits (as specified) and shall have remote access test points, and will be designed with a design layout record provided to NuVox. SL2 circuits can be provisioned with loop start, ground start or reverse battery signaling. OC is provided as a standard feature on SL2 loops. The OC feature will allow NuVox to coordinate the installation of the loop with the disconnect of an existing customer's service and/or number portability service. In these cases, BellSouth will perform the order conversion with standard order coordination at its discretion during normal work hours. OC-TS is a chargeable option for any coordinated order.

2.2.11 As a chargeable option on all loops except the Universal Digital Channel (UDC) and all Unbundled Copper Loops (UCL), BellSouth will offer OC-TS. This will allow NuVox the ability to specify the time that the coordinated conversion takes place. The OC-TS charge for orders due on the same day at the same location will be applied on a per Local Service Request (LSR) basis.

2.2.12 If NuVox reports a trouble on loops and no trouble actually exists, BellSouth will charge NuVox for any dispatching and testing (both inside and outside the CO for SL1

loops; outside the CO only for all other loops) required by BellSouth in order to confirm the loop's working status. Failure of BellSouth personnel to find trouble in BellSouth facilities will result in no charge if trouble is actually in those facilities but not discovered at the time.
