Please see attached comments. We received the final permit on Friday, however the 30 day public comment period has not expired and some corrections regarding the system type and development it serves need to be corrected. Please let me know if there are any questions.

Thanks,

Jeff

RE: SOP-03002; Black Bear Ridge Resort

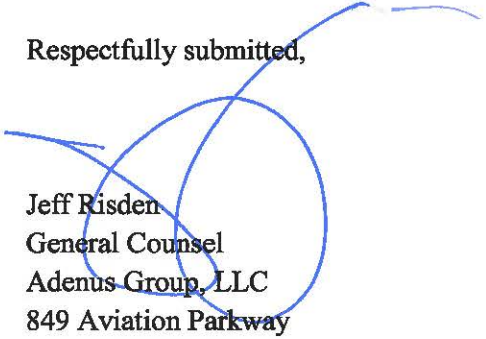

Dear Mr. Harris:

Pursuant to Rule 0400-40-05-.06(11), Tennessee Wastewater Systems, Inc. ("TWSI") submits the following comment with respect to the above referenced permit.

On the first page of the draft permit it states that the permit is for the operation of a recirculating sand filter and the system is to serve approximately 14 cabins in the Black Bear Ridge Resort. TWSI requests this information be changed to accurately state that there is a Bio-clere system installed which serves approximately 100 units.

TWSI appreciates your attention and consideration of this change.

Respectfully submitted,

Jeff Riden
