VIA HAND DELIVERY

Hon. Deborah Taylor Tate, Chairman
Tennessee Regulatory Authority
460 James Robertson Parkway
Nashville, TN 37238

Re: *Petition for Exemption of Certain Services*
Docket No. 03-00391

Dear Chairman Tate:

Enclosed are the original and fourteen copies of the Direct Testimony of Kathy Blake on behalf of BellSouth. Copies of the enclosed are being provided to counsel of record.

Cordially,

Joelle Phillips

JJP:ch

1 BELLSOUTH TELECOMMUNICATIONS, INC
2 DIRECT TESTIMONY OF KATHY K. BLAKE
3 BEFORE THE TENNESSEE REGULATORY AUTHORITY
4 DOCKET NO. 03-00391
5 MAY 28, 2004
6
7 Q PLEASE STATE YOUR NAME, YOUR POSITION WITH BELLSOUTH
8 TELECOMMUNICATIONS, INC. ("BELLSOUTH") AND YOUR BUSINESS
9 ADDRESS.
10
11 A My name is Kathy K. Blake. I am employed by BellSouth as Director – Policy
12 Implementation for the nine-state BellSouth region My business address is 675
13 West Peachtree Street, Atlanta, Georgia 30375
14
15 Q. PLEASE PROVIDE A BRIEF DESCRIPTION OF YOUR BACKGROUND
16 AND EXPERIENCE.
17
18 A I graduated from Florida State University in 1981, with a Bachelor of Science
19 degree in Business Management After graduation, I began employment with
20 Southern Bell as a Supervisor in the Customer Services Organization in Miami,
21 Florida. In 1982, I moved to Atlanta where I have held various positions
22 involving Staff Support, Product Management, Negotiations, and Market
23 Management within the BellSouth Customer Services and Interconnection
24 Services Organizations. In 1997, I moved into the State Regulatory Organization

1 where my responsibilities included issues management and policy witness
2 support. I assumed my current responsibilities in July 2003.

3

4 Q WHAT IS THE PURPOSE OF YOUR TESTIMONY?

5

6 A. The purpose of my testimony is to demonstrate the factual basis for BellSouth's
7 case for exemption of intraLATA toll service pursuant to Tenn. Code Ann. § 65-
8 5-208(b), which allows exemption of certain services from regulation. Pursuant
9 to the scheduling order in this docket, this testimony addresses only intraLATA
10 toll service. The request for exemption of other services contained in the Petition
11 for Exemption of Certain Services, filed by BellSouth and Citizens
12 Communications, Inc. ("Citizens") will be handled at a later date.

13

14 Q. WHAT ARE THE STATUTORY CRITERIA BY WHICH A SERVICE MAY
15 BE EXEMPTED FROM REGULATION?

16

17 A. Tenn. Code Ann. § 65-5-208(b) requires the Tennessee Regulatory Authority
18 ("Authority") to exempt from regulation the telecommunications service for
19 which existing and potential competition is an effective regulator of the price of
20 those services

21

22 Q WHAT IS THE STATUS OF INTRALATA TOLL COMPETITION IN
23 TENNESSEE?

24

1 A The intraLATA toll market in Tennessee is vibrant. As evidence of the level of
2 consumer choice in this market, intraLATA toll service is currently provided in
3 Tennessee by at least the 140 companies listed on Exhibit KKB-1, and perhaps
4 other companies. The companies included on the exhibit offer intraLATA toll
5 service using the traditional wireline method. In addition, BellSouth is aware of
6 the following wireless carriers who also provide end users with the ability to place
7 intraLATA calls. Verizon Wireless, Cingular, AT&T Wireless, T-Mobile, Nextel
8 and Sprint PCS. Moreover, wireless carriers outside Tennessee also provide, as a
9 roaming call, the ability for end users traveling to Tennessee with a mobile phone
10 to use that mobile phone to place local, interLATA and intraLATA calls in
11 Tennessee. Further, companies such as Vonage, Galaxy Voice, Packet8, Rubicon
12 IPNet, GlobalPhone Corporation, Dialpad Communications, Inc. GloPhone and
13 ZipGlobal offer customers the ability to make intraLATA calls through Voice
14 Over Internet Protocol in Tennessee. Also, end users can place intraLATA toll
15 calls without making any PIC choice in Tennessee by using either a dial-around
16 long distance provider (using a "10-10" number) or by using a calling card from a
17 provider other than the provider to which the end user is PICed, or by using a
18 prepaid long distance card.

19

20 In addition, the FCC website has a file listing all companies filing FCC Form 499-
21 A, a form which virtually all providers of telecommunications must file. The
22 website also has a search database of those companies, which can be used to print
23 state specific providers by primary service. Attached as Exhibit KKB-2 are
24 printouts from such a search performed on May 27, 2004 which shows:

25

- 1 A Tennessee interexchange carriers
- 2 B. Tennessee carriers offering prepaid telecommunications
- 3 service
- 4 C Tennessee carriers offering Other Toll service.

5

6 Although the file does not separate between interLATA and intraLATA toll

7 providers, most interexchange carriers offer both. Also, note that the prepaid

8 service providers may include services other than intraLATA toll. This

9 information can be obtained by accessing the following FCC website:

10 [http //gullfoss2.fcc.gov/cib/form499/499a.cfm](http://gullfoss2.fcc.gov/cib/form499/499a.cfm).

11

12 Finally, BellSouth's own sales experience in the context of negotiated contract

13 service arrangements supports its view of the competitive nature of intraLATA

14 toll service in Tennessee. During the years of 1998 through June, 2003,

15 BellSouth entered into numerous contract service arrangements involving

16 intraLATA toll service. In each of those cases, under the rules then applicable,

17 the customer indicated a competitive alternative was available to the customer for

18 such service

19

20 The large number and variety of providers of this service is strong evidence of the

21 competitive nature of intraLATA toll services in Tennessee.

1 Q IS THE NUMBER OF COMPETITORS AN EFFECTIVE REGULATOR OF
2 THE PRICE OF INTRALATA TOLL SERVICES?

3

4 A Yes The fact that there are so many intraLATA toll providers is evidence that,
5 not only are there choices of providers, but there are also pricing choices.
6 Customers can chose from a variety of providers and from a variety of pricing
7 formats when placing an intraLATA toll call Given the number and variety of
8 competitive alternatives available to customers in Tennessee, any provider of
9 intraLATA toll service in Tennessee would be forced by the market to consider
10 the competition when establishing prices for its intraLATA toll services in light of
11 the array of choices available to Tennessee customers

12

13 Q IS THE COMPETITIVE NATURE OF THE TENNESSEE INTRALATA TOLL
14 MARKET BEING CONTESTED?

15

16 A No In fact, in its Supplemental Responses to BellSouth's First Discovery
17 Requests, the Consumer Advocate and Protection Division of the Office of the
18 Attorney General ("CAD") stated.

19

20 For purposes of exempting the price of intraLATA toll service
21 from price regulation, the Consumer Advocate will not contest the
22 position that competition for intraLATA toll services in Tennessee
23 is an effective regulator of price for intraLATA toll service

24

1 In addition, in AT&T's Comments in this Docket, filed January 12, 2004, AT&T
2 states at page 4: "the intraLATA toll market has progressed to the point that it
3 can be considered open to competition, exemplifying a successful regulatory
4 effort."

5
6 Q HOW HAVE REGULATORY DEVELOPMENTS OPENING THE
7 TENNESSEE MARKET TO LONG DISTANCE COMPETITION AFFECTED
8 INTRALATA TOLL COMPETITION?

9
10 A. BellSouth believes that each of the regulatory developments that permitted
11 interLATA competition in Tennessee have also encouraged and resulted in
12 competition in the intraLATA toll market. End-users appear to be generally
13 indifferent to any distinction between interLATA and intraLATA (sometimes
14 referred to as "Local Toll") services. Providers commonly market plans which
15 include both intraLATA and interLATA toll services to customers in Tennessee

16
17 In its Supplemental Response to BellSouth's First Discovery Requests, the
18 Consumer Advocate Division has indicated that "[f]or purposes of deciding the
19 issues in this docket, the Consumer Advocate will view both the intraLATA toll
20 service and interLATA toll service markets as being comparably competitive."

21
22 Q HOW IS PRICING INFLUENCED BY THE NUMBER OF COMPETITORS IN
23 A MARKET?

24

1 A. The more competitors there are providing a given service, the more pressure there
2 is for providers to offer pricing alternatives. Examples of pricing alternatives are
3 promotions (reduced prices for a limited time), discounts and offers of reduced
4 pricing for combinations of services. All of these alternatives have been used by
5 BellSouth as well as other providers in marketing intraLATA toll service in
6 Tennessee.

7
8 Q WHAT TYPE OF RELIEF IS BELL SOUTH SEEKING IN THIS DOCKET?

9
10 A. BellSouth seeks exemption under the statute in order to obtain the same flexibility
11 in its pricing that currently exists among BellSouth's competitors. While I am not
12 an attorney, I understand that BellSouth will seek an order in this docket
13 exempting intraLATA toll service to the full extent permitted under the statute
14 with the following caveats: First, unlike its competitors, BellSouth will be
15 prohibited from pricing its intraLATA toll services below cost. Second, unlike
16 some of its competitors, BellSouth will publish a public price list indicating the
17 price of its intraLATA toll services, and such price list will be specifically
18 referenced in, but not included in, BellSouth's tariff establishing the terms and
19 conditions for its intraLATA toll service

20
21 Q. DOES THIS CONCLUDE YOUR TESTIMONY?

22
23 A Yes

24
