Nashville, Tennessee

RE: Petition for Expedited Review of Growth Code Denial by the Number Pooling
Administrator Relating to Williamson County Ready Mix Co.
TRA No. 03-00394

Lewis
Dear Mr. DeBoard:

Attached is additional information in support of BellSouth's Petition, as requested.

The first attachment is a revised Exhibit H that replaces the exhibit in our initial filing. This revised Exhibit H shows the code utilization for each NPA-NXX code in the Franklin Main Central Office switch. The original exhibit included some codes that were not assigned to this switch. We apologize for any confusion this error may have created.

Also attached is a 35-page report that shows all available number blocks in those codes with less than 100% utilization in the Franklin Main switch. This report documents the fact that there are no available 40-number sequential blocks in this switch.

We trust that this information addresses your concerns. Please contact me if you need any additional information.

Yours truly,

Paul Stinson
