| NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the Commissions. The electronic service ordering charge currently contained in this Exhibit is the BellSouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service                                                                                                                                      |               |                                                                                                                 |  |  |  |  |         |      |     |                      |            |              |        |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |       |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEK rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEK rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |               |                                                                                                                 |  |  |  |  |         |      |     |                      |            |              |        |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |       |
