| NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the Commissions. The electronic service ordering charge currently contained in this Exhibit is the BellSouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service ordering charge.                                                                                                                       |                                                                                                   |  |  |   |             |                         |       |        |            |              |        |                |                                               |                                                   |                                                                          |                                                                            |                                                                               |                                                                                     |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |                                                                                                   |  |  |   |             |                         |       |        |            |              |        |                |                                               |                                                   |                                                                          |                                                                            |                                                                               |                                                                                     |

| BellSouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in FL and NC. In the interim where BellSouth cannot bill Market Rates, BellSouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference. |  |                                                                            |         |      |       |       |            |              |        |                |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
| The Market Rate for unbundled ports includes all available features in all states.                                                                                                                                                                                                                                                                                                                                                    |  |                                                                            |         |      |       |       |            |              |        |                |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
| End Office & Tandem Switching Usage & Common Transport Usage rates in the Port section of this Exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations which have a flat rate usage charge (USOC: URECU).                                                                                                                                                                    |  |                                                                            |         |      |       |       |            |              |        |                |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
| For Not Currently Combined scenarios the NRC charges are listed in the First and Add'l NRC columns for each Port USOC. For Currently Combined scenarios, the NRC charges are listed in the NRC - Currently Combined section. Add'l NRCs may apply also and are categorized accordingly.                                                                                                                                               |  |                                                                            |         |      |       |       |            |              |        |                |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |

| NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the Commissions. The electronic service ordering charge currently contained in this Exhibit is the BellSouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service ordering charge.                                                                                                                     |                                                                                                                 |         |      |                      |       |            |              |       |                |                                  |                                      |                                       |                                       |                                       |                                       |            |       |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEc rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEc rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |                                                                                                                 |         |      |                      |       |            |              |       |                |                                  |                                      |                                       |                                       |                                       |                                       |            |       |
