RESPONSE: Consistent with the agreement between the parties, BellSouth is providing Excel spreadsheets containing the number of sold units for UNE-L and UNE-P elements relevant to this docket for year end 2001, 2002 and through September 30, 2003. These spreadsheets do not include data for a number of exchanges contained in the CAD's Discovery Request because these exchanges are not served by BellSouth. Also, certain BellSouth exchanges are not included if there is no data responsive to this request. This information is attached as Exhibits A, B and C, respectively. BellSouth is also providing a list showing the Number Plan Area ("NPA") for each exchange. This list is attached as Exhibit D.

REQUEST: Provide the annual number of loops resold for the year 2001, 2002, and for 9 months ending September 2003.

For each time period provide the data for Tennessee on a statewide basis, and for the area codes 423,615,731,865,901, and 931.

For each time period provide the data for each Tennessee exchange listed in request 2 above.

RESPONSE: Consistent with the agreement between the parties, BellSouth is providing the number of resold lines for year end 2001, 2002 and through September 30, 2003. This information is contained in the Excel spreadsheets attached to BellSouth's response to Request No. 2. These spreadsheets do not include data for a number of exchanges contained in the CAD's Discovery Request because these exchanges are not served by BellSouth. Also, certain BellSouth exchanges are not included if there is no data responsive to this request.

REQUEST: Regarding BellSouth's UNE and Interconnection pricing schedule, identify any network element or any group of network elements which BellSouth believes its competitors could acquire from a supplier other than BellSouth. For each network element or group of network elements identified by Bellsouth, provide a year, such as "2008" for example, when BellSouth expects an alternative supplier to be offering the network element. For each network element identified, provide the number of units that BellSouth expects to be provided by the alternative supplier.

RESPONSE: While BellSouth has not completed its switching analysis, BellSouth is not currently aware of any wholesale providers of switching in Tennessee. However, numerous competitors are self-provisioning switching. BellSouth is awaiting discovery responses from competitors and is developing a list of those which are self-provisioning switching.

RESPONSE PROVIDED BY: Pam Tipton
