Re *Approval of the Standalone Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc and XO Tennessee, Inc Pursuant to Sections 251 and 252 of the Telecommunications Act of 1996*
Docket No. 04-00119

Dear Chairman Tate

Pursuant to Section 252(e) of the Telecommunications Act of 1996, XO Tennessee, Inc and BellSouth Telecommunications, Inc are hereby submitting to the Tennessee Regulatory Authority the original and fourteen copies of the attached petition for Approval of the above-referenced Standalone Interconnection Agreement

Thank you for your attention to this matter.

Sincerely yours,

Guy M Hicks

In re: *Approval of the Standalone Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc. and XO Tennessee, Inc. Pursuant to Sections 251 and 252 of the Telecommunications Act of 1996*

Docket No. _____

PETITION FOR APPROVAL OF THE
STANDALONE INTERCONNECTION AGREEMENT NEGOTIATED
BETWEEN BELL SOUTH TELECOMMUNICATIONS, INC.
AND XO TENNESSEE, INC.
PURSUANT TO THE TELECOMMUNICATIONS ACT OF 1996

COME NOW, XO Tennessee, Inc. ("XO") and BellSouth Telecommunications, Inc., ("BellSouth"), and file this request for approval of the Standalone Interconnection Agreement (the "Agreement") negotiated between the two companies pursuant to Sections 251 and 252 of the Telecommunications Act of 1996, (the "Act"). In support of their request, XO and BellSouth state the following:

1. XO and BellSouth have entered into good faith negotiations pursuant to the Act to negotiate an interconnection agreement to replace the existing Interconnection Agreement between the parties which expired on December 31, 2003. Until such time as the parties execute the new interconnection agreement, BellSouth and XO shall continue to operate under the rates, terms and conditions of the expired agreement and the rates, terms and conditions for UNE Port/Loop Combinations. A copy of the Agreement is attached hereto and incorporated herein by reference.

2. Pursuant to Section 252(e) of the Telecommunications Act of 1996, XO and BellSouth are submitting their Agreement to the TRA for its consideration and approval.

3. In accordance with Section 252(e) of the Act, the TRA is charged with approving or rejecting the negotiated Agreement between BellSouth and XO within 90 days of its

submission. The Act provides that the TRA may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity.

4. XO and BellSouth aver that the Agreement is consistent with the standards for approval.

5. Pursuant to Section 252(i) of the Act, BellSouth shall make the Agreement available upon the same terms and conditions contained therein.

XO and BellSouth respectfully request that the TRA approve the Agreement negotiated between the parties.

This 19th day of April, 2004.

Respectfully submitted,

BELLSOUTH TELECOMMUNICATIONS, INC.

Interconnection Agreement
Between
BellSouth Telecommunications, Inc.
and
XO Tennessee, Inc.

**Agreement Between
BellSouth Telecommunications, Inc.
And
XO Tennessee, Inc.**

THIS AGREEMENT is made by and between BellSouth Telecommunications, Inc., ("BellSouth"), a Georgia corporation, and XO Tennessee, Inc. ("XO") a Washington corporation, and shall be effective on the date of the last signature executing this Agreement. This Agreement may refer either BellSouth or XO or both as a "Party" or "Parties".

WITNESSETH

WHEREAS, BellSouth as a local exchange telecommunications company authorized to provide telecommunications services in, the state of Tennessee; and

WHEREAS, XO is a CLEC authorized to provide telecommunications services in, the state of Tennessee; and

WHEREAS, BellSouth and XO have entered into good faith negotiations pursuant to the Act to negotiate an interconnection agreement ("New Interconnection Agreement") to replace the existing Interconnection Agreement between the Parties, which expired December 31, 2003 ("Expired Interconnection Agreement"); and

WHEREAS, until such time as the Parties execute the New Interconnection Agreement, BellSouth and XO shall continue to operate under the rates, terms and conditions of the Expired Interconnection Agreements; and

WHEREAS, XO desires to incorporate the rates, terms and conditions for UNE Port/Loop Combinations.

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, BellSouth and XO hereby covenant and agree as follows:

1. The Parties agree to delete Section 10 of Attachment 2 in its entirety and replace with Section 10 reflected as Exhibit 1, attached hereto and by reference incorporated into this Agreement.
2. Attachment 12, Pricing of the Expired Agreement is hereby amended to include the rates for UNE Port/Loop Combinations as set forth in

Exhibit 2, attached hereto and by reference incorporated into this Agreement.

3. The Parties agree that all of the other provisions of the Expired Agreement, dated November 4, 1999, shall remain in full force and effect.
4. The term of this Agreement shall be one year or until the Parties execute the New Interconnection Agreement, whichever is sooner. The terms of this Agreement shall apply to the state of Tennessee.
5. Notwithstanding any other provision in this Agreement, the Parties understand and agree that BellSouth is not obligated to provide and XO is not entitled to buy or lease under this Agreement any unbundled network element, interconnection service or other offering for which a rate is not reflected in the Agreement between the Parties dated November 4, 1999, as amended or is not set forth herein. In the event XO desires to purchase an unbundled network element, interconnection service, or other offering for which a rate has not been agreed to by the Parties, the Parties will execute an amendment establishing a mutually agreed to rate for such element, service or offering.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

1 Local Switching

1.1 BellSouth shall provide non-discriminatory access to local circuit switching capability and local tandem switching capability on an unbundled basis, except as set forth in the Sections below to XO for the provision of a telecommunications service.

1.2 Local Circuit Switching Capability, including Tandem Switching Capability

1.2.1 Local circuit switching capability is defined as all line-side and trunk-side facilities, plus the features, functions, and capabilities of the switch. The features, functions, and capabilities of the switch shall include the basic switching function of connecting lines to lines, lines to trunks, trunks to lines, and trunks to trunks. Local circuit switching includes all vertical features that the switch is capable of providing, including custom calling, custom local area signalling service features, and Centrex, as well as any technically feasible customized routing functions.

1.2.2 Notwithstanding BellSouth's general duty to unbundle local circuit switching, BellSouth shall not be required to unbundle local circuit switching for XO when XO: (1) serves an End User with four (4) or more voice-grade (DS0) equivalents or lines served by BellSouth in Zone 1 of one of the following MSAs: Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New Orleans, LA; or (2) serves an End User with a DS1 or higher capacity Loop in any service area covered by this Agreement. To the extent that XO is serving any End User as described in (2) above as of October 2, 2003, such arrangement may not remain in place any longer than April 1, 2004, after which such arrangement must be terminated by XO or BellSouth shall convert such arrangement to tariff pricing. The filing of this Agreement with the applicable Commission shall constitute the filing of the joint transition plan specified by the FCC.

1.2.3 Rates for unbundled switching at the DS1 level and above or for combinations with unbundled switching at the DS1 level and above provisioned prior to the Effective Date of this Agreement shall be those rates set forth in Exhibit 2 of this Agreement until April 1, 2004.

1.2.4 Local Switching that is not required to be provided as a UNE will be provided pursuant to a separate agreement or a tariff, at BellSouth's discretion.

1.2.5 Unbundled Local Switching consists of three separate unbundled elements: Unbundled Ports, End Office Switching Functionality, and End Office Interoffice Trunk Ports.

1.2.6 Unbundled Local Switching combined with Common Transport and, if necessary, Tandem Switching provides to XO's End User local calling and the ability to

presubscribe to a primary carrier for intraLATA and/or to presubscribe to a primary carrier for interLATA toll service.

- 1.2.7 Provided that XO purchases unbundled local switching from BellSouth and uses the BellSouth Carrier Identification Code (CIC) for its End Users' Local Preferred Interexchange Carrier (LPIC) or if a BellSouth local End User selects BellSouth as its LPIC, then the Parties will consider as local any calls originated by a XO local End User, or originated by a BellSouth local End User and terminated to a XO local End User, where such calls originate and terminate in the same LATA, except for those calls originated and terminated through switched access arrangements (i.e., calls that are transported by a Party other than BellSouth). For such calls, BellSouth will charge XO the UNE elements for the BellSouth facilities utilized. Neither Party shall bill the other originating or terminating switched access charges for such calls. Inter-carrier compensation for local calls between BellSouth and XO shall be as described in BellSouth's UNE Local Call Flows set forth on BellSouth's website.
- 1.2.8 Where XO purchases unbundled local switching from BellSouth but does not use the BellSouth CIC for its End Users' LPIC, BellSouth will consider as local those direct dialed telephone calls that originate from a XO End User and terminate within the basic local calling area or within the extended local calling areas and that are dialed using seven (7) or ten (10) digits as defined and specified in Section A3 of BellSouth's General Subscriber Services Tariffs (GSST). For such local calls, BellSouth will charge XO the UNE elements for the BellSouth facilities utilized. Inter-carrier compensation for local calls between BellSouth and XO shall be as described in BellSouth's UNE Local Call Flows set forth on BellSouth's website.
- 1.2.9 For any calls that originate and terminate through switched access arrangements (i.e., calls that are transported by a party other than BellSouth), BellSouth shall bill XO the UNE elements for the BellSouth facilities utilized. Each Party may bill the toll provider originating or terminating switched access charges as appropriate.
- 1.2.10 **Unbundled Port Features**
- 1.2.10.1 Charges for Unbundled Port are as set forth in Exhibit 2, and as specified in such exhibit, may or may not include individual features
- 1.2.10.2 Where applicable and available, non-switch-based services may be ordered with the Unbundled Port at BellSouth's retail rates
- 1.2.10.3 Any features that are not currently available but are technically feasible through the switch can be requested through the BFR/NBR process.
- 1.2.10.4 BellSouth will provide to XO selective routing of calls to a requested Operator System platform pursuant to this Attachment. Any other routing requests by XO will be made pursuant to the BFR/NBR Process as set forth in Attachment 11.

1.2.11 **Remote Call Forwarding**

1.2.11.1 As an option, BellSouth shall make available to XO an unbundled port with Remote Call Forwarding capability (URCF service). URCF service combines the functionality of unbundled local switching, tandem switching and common transport to forward calls from the URCF service telephone number (the number dialed by the calling party) to another telephone number selected by the URCF service subscriber. When ordering URCF service, XO will ensure that the following conditions are satisfied:

1.2.11.1.1 That the End User of the forward-to number (service) agrees to receive calls forwarded using the URCF service (if such End User is different from the URCF service End User);

1.2.11.1.2 That the forward-to number (service) is equipped with sufficient capacity to receive the volume of calls that will be generated from the URCF service;

1.2.11.1.3 That the URCF service will not be utilized to forward calls to another URCF or similar service; and

1.2.11.1.4 That the forward-to number (service) is not a public safety number (e.g. 911, fire or police number).

1.2.11.2 In addition to the charge for the URCF service port, BellSouth shall charge XO the rates set forth in Attachment 12 for unbundled local switching, tandem switching, and common transport, including all associated usage incurred for calls from the URCF service telephone number (the number dialed by the calling party) to the forward-to number (service).

1.2.12 **Provision for Local Switching**

1.2.12.1 BellSouth shall perform routine testing (e.g., Mechanized Loop Tests (MLT) and test calls such as 105, 107 and 108 type calls) and fault isolation on a mutually agreed upon schedule.

1.2.12.2 BellSouth shall control congestion points such as those caused by radio station call-ins and network routing abnormalities. All traffic shall be restricted in a non-discriminatory manner.

1.2.12.3 BellSouth shall perform manual call trace and permit customer originated call trace. BellSouth shall provide Switching Service Point (SSP) capabilities and signaling software to interconnect the signaling links destined to the Signaling Transfer Point Switch (STPS). These capabilities shall adhere to the technical specifications set forth in the applicable industry standard technical references.

- 1.2.12.4 BellSouth shall provide interfaces to adjuncts through Telcordia standard interfaces. These adjuncts can include, but are not limited to, the Service Circuit Node and Automatic Call Distributors. BellSouth shall offer to XO all Advanced Intelligent Network (AIN) triggers in connection with its SMS/SCE offering.
- 1.2.12.5 BellSouth shall provide access to SS7 Signaling Network or Multi-Frequency trunking if requested by XO.
- 1.2.13 **Local Switching Interfaces.**
- 1.2.13.1 XO shall order ports and associated interfaces compatible with the services it wishes to provide as listed in Exhibit 2. BellSouth shall provide the following local switching interfaces:
 - 1.2.13.1.1 Standard Tip/Ring interface including loopstart or groundstart, on-hook signaling (e g., for calling number, calling name and message waiting lamp);
 - 1.2.13.1.2 Coin phone signaling;
 - 1.2.13.1.3 Basic Rate Interface ISDN adhering to appropriate Telcordia Technical Requirements;
 - 1.2.13.1.4 Two-wire analog interface to PBX;
 - 1.2.13.1.5 Four-wire analog interface to PBX,
 - 1.2.13.1.6 Four-wire DS1 interface to PBX or customer provided equipment (e.g. computers and voice response systems);
 - 1.2.13.1.7 Primary Rate ISDN to PBX adhering to ANSI standards Q.931, Q.932 and appropriate Telcordia Technical Requirements;
 - 1.2.13.1.8 Switched Fractional DS1 with capabilities to configure Nx64 channels (where N = 1 to 24); and
 - 1.2.13.1.9 Loops adhering to Telcordia TR-NWT-08 and TR-NWT-303 specifications to interconnect Digital Loop Carriers.
- 1.2.14 All End Users of XO who have service provisioned via 4-Wire ISDN DS1 Port with E911 Locator Capability shall physically be located in the E911 Tandem Switch service area.
- 1.2.15 XO shall pass its End User's telephone number to BellSouth over the Primary Interface (PRI) trunk group via ANI or via direct Centralized Automated Message Accounting (CAMA) trunks to the appropriate E911 tandem switch.

- 1.2.16 XO shall maintain the individual telephone number and the correct corresponding address/location data, including maintaining the End User listed address as the actual physical End User location in the E911 Automatic Location Identification (ALI) Database.
- 1.2.17 XO will be responsible and liable for any errors resulting from the submission of invalid telephone number and address/location data for the CLEC's End Users.

2 Unbundled Network Element Combinations

- 2.1 For purposes of this Section, references to "Currently Combined" Network Elements shall mean that the particular Network Elements requested by XO are in fact already combined by BellSouth in the BellSouth network. References to "Ordinarily Combined" Network Elements shall mean that the particular Network Elements requested by XO are not already combined by BellSouth in the location requested by XO but are elements that are typically combined in BellSouth's network. References to "Not Typically Combined" Network Elements shall mean that the particular Network Elements requested by XO are not elements that BellSouth combines for its use in its network

- 2.1.1 Upon request, BellSouth shall perform the functions necessary to combine unbundled Network Elements in any manner, even if those elements are not ordinarily combined in BellSouth's network, provided that such combination is technically feasible and will not undermine the ability of other carriers to obtain access to unbundled Network Elements or to interconnect with BellSouth's network.

2.2 UNE Port/Loop Combinations

- 2.2.1 Combinations of port and loop unbundled Network Elements along with switching and transport unbundled Network Elements provide local exchange service for the origination or termination of calls. Port/loop combinations support the same local calling and feature requirements as described in the Unbundled Local Switching or Port section of this Attachment and the ability to presubscribe to a primary carrier for intraLATA toll service and/or to presubscribe to a primary carrier for interLATA toll service.
- 2.2.2 BellSouth is not required to provide combinations of port and loop Network Elements on an unbundled basis in locations where, pursuant to FCC and Commission rules, BellSouth is not required to provide local circuit switching as an unbundled Network Element.
- 2.2.3 BellSouth shall not be required to provide local circuit switching as a UNE in density Zone 1, as defined in 47 CFR 69.123 as of January 1, 1999 of the Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New

Orleans, LA, MSAs to XO if XO's customer has four (4) or more DS0 equivalent lines.

2.2.4 BellSouth shall not be required to provide local circuit switching as a UNE or combination of UNEs if the End User is being served by a BellSouth DS1 or higher capacity Loop in any service area covered by this Agreement. To the extent that XO is serving any End User as described above as of October 2, 2003, such arrangement may not remain in place any longer than April 1, 2004, after which such arrangement must be terminated by XO or BellSouth shall convert such arrangement to tariff pricing. The filing of this Agreement with the applicable Commission shall constitute the filing of the joint transition plan specified by the FCC.

2.2.5 BellSouth shall make 911 updates in the BellSouth 911 database for XO's UNE port/Loop combinations. BellSouth will not bill XO for 911 surcharges. XO is responsible for paying all 911 surcharges to the applicable governmental agency.

2.3 **Rates**

2.3.1 The rates for the Currently Combined Network Elements specifically set forth in Exhibit 2 of this Agreement shall be the rates associated with such combinations. Where a Currently Combined combination is not specifically set forth in Exhibit 2, the rate for such Currently Combined combination of Network Elements shall be the sum of the recurring rates for those individual Network Elements in addition to the applicable non-recurring switch-as-is charge set forth in Exhibit 2

2.3.2 The rates for the Ordinarily Combined Network Elements specifically set forth in Exhibit 2 of this Agreement shall be the non-recurring and recurring charges for those combinations. Where an Ordinarily Combined combination is not specifically set forth in Exhibit 2, the rate for such Ordinarily Combined combination of Network Elements shall be the sum of the recurring and non-recurring rates for those individual Network Elements as set forth in Exhibit 2.

2.3.3 Except as set forth in this Section 2, BellSouth shall provide UNE port/loop combinations specifically set forth in Exhibit 2 that are Currently Combined or Ordinarily Combined in BellSouth's network at the cost-based rates in Exhibit 2.

2.3.4 BellSouth shall provide other Currently Combined and Ordinarily Combined and Not Typically Combined UNE Combinations to XO in addition to those specifically referenced in this Section 2 above, where available. To the extent XO requests a combination for which BellSouth does not have rates and methods and procedures in place to provide such combination, rates and/or methods and procedures for such combination will be developed pursuant to the BFR/NBR process.
