UNBUNDLED PORT LOOP COMBINATIONS - MARKET RATES																
Market Rates shall apply where BellSouth is not required to provide unbundled local switching or switch ports per FCC and/or State Commission rules.																
This includes:																
Unbundled port/loop combinations that are Currently Combined or Not Currently Combined in Zone 1 of the Top 8 MSAs in BellSouth's region for end users with 4 or more DS0 equivalent lines.																
The Top 8 MSAs in BellSouth's region are: FL (Orlando, Ft. Lauderdale, Miami); GA (Atlanta); LA (New Orleans); NC (Greensboro-Winston Salem-Highpoint/Charlotte-Gastonia-Rock Hill); TN (Nashville).																
BellSouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in FL and NC. In the interim where BellSouth cannot bill Market Rates, BellSouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference.																
The Market Rate for unbundled ports includes all available features in all states.																
End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations which have a flat rate usage charge (USOC: URECU).																
For Not Currently Combined scenarios the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section.																
Additional NRCs may apply also and are categorized accordingly.

OPERATIONAL SUPPORT SYSTEMS																
NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the State Commissions. The electronic service ordering charge currently contained in this rate exhibit is the BellSouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service ordering charge.																
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.

BellSouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in FL and NC. In the interim where BellSouth cannot bill Market Rates, BellSouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference.																
The Market Rate for unbundled ports includes all available features in all states.																
End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations which have a flat rate usage charge (USOC: URECU).																
For Not Currently Combined scenarios the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section.																
Additional NRCs may apply also and are categorized accordingly.

**AMENDMENT
TO THE
AGREEMENT BETWEEN
BUDGET PHONE, INC.
AND
BELLSOUTH TELECOMMUNICATIONS, INC.
DATED MAY 2, 2002**

Pursuant to this Amendment, (the "Amendment"), Budget Phone, Inc. ("Budget Phone"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated May 2, 2002 ("Agreement").

WHEREAS, BellSouth and Budget Phone entered into the Agreement on May 2, 2002, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to delete Section 11.1, Attachment 1 and replace with the following:
 - 11.1 The Optional Daily Usage File (ODUF) Agreement with terms and conditions is included in this Attachment as Exhibit C. Rates for ODUF are as set forth in Exhibit F of this Attachment.
2. The Parties hereby agree to delete Section 12.1, Attachment 1 and replace with the following:
 - 12.1 The Enhanced Optional Daily Usage File (EODUF) service Agreement with terms and conditions is included in this Attachment as Exhibit D. Rates for EODUF are as set forth in Exhibit F of this Attachment.
3. The Parties agree to replace the Georgia rates as set forth in Exhibit F of Attachment 1, Exhibit B of Attachment 2, Exhibit A of Attachment 3, Exhibit D of Attachment 4 and Exhibit of Attachment 7 with the Georgia rates as set forth Exhibit 1, attached hereto and incorporated herein by this reference.

4. The Parties agree to add the following language to the Agreement:

The Parties recognize and agree that the rates incorporated in this Amendment are designed to implement the Georgia Public Service Commission's (GPSC) order dated June 24, 2003. If that order is stayed, reconsidered, vacated, or otherwise set aside by the GPSC or a court of competent jurisdiction, the Parties agree that this Amendment will be null and void, and the rates to be charged under the Agreement will be those rates that were in effect prior to the execution of this Amendment.

5. The Parties agree to add to the rates and services in Exhibit B of Attachment 2 the rates and services for Georgia and North Carolina CREX7 as set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.

6. The Parties agree to add the following language to Attachment 4 of the Agreement:

- 8.5.3.1 In Georgia, Budget Phone, at its sole cost and expense, has either implemented meters on its BDFBs, will install meters on its BDFBs or has procured clamp-on meters for use with its equipment if power is provided from a BellSouth BDFB. Budget Phone will submit a Subsequent Application for each location that Budget Phone wants to convert to the metered power usage measurement option in accordance with Attachment 4, Physical Collocation, Section 6.3.1, Subsequent Application Fee, of the Agreement and agrees to include in the Comments section of the Subsequent Application the following comments: "Budget Phone certifies that it has installed a meter on its BDFB, has provided a clamp-on ammeter, or that no additional equipment is necessary, and this Subsequent Application is being submitted to convert to the metered power usage measurement." BellSouth will bill Budget Phone a Subsequent Application fee, as set forth in Section 6.3.1, on the date that BellSouth provides an Application Response to the Subsequent Application. BellSouth shall then arrange in coordination with Budget Phone, via a BellSouth Certified Supplier, to take measurements of Budget Phone's actual power usage once each quarter at each of Budget Phone's collocation arrangements (i.e. quarterly metered reading service) for which Budget Phone has submitted a Subsequent Application to convert to metered power usage. After the actual power usage

measurement has been completed, the measurement will be used to calculate the DC power charge based upon the metered usage readings on Budget Phone's bill for the following three (3) months or until the next measurement has been taken. Based upon such measurement, BellSouth shall bill Budget Phone for collocation power for the following quarter based upon Budget Phone's actual metered usage and the applicable rates for DC power as set forth in Exhibit B of this Attachment.

Budget Phone agrees to submit a Subsequent Application to BellSouth for notification when Budget Phone has removed or installed telecommunications equipment in Budget Phone's collocated space. The associated change in the power usage will be reflected on the next quarterly power measurement billing cycle.

8.6.3.2 BellSouth will bill Budget Phone a one-time non-recurring charge of \$300.00 to set up BellSouth's billing systems to accept and manage the power usage measurement for the state of Georgia. BellSouth will bill Budget Phone a monthly recurring charge per site in accordance with Exhibit B of this Attachment for Budget Phone's collocation arrangements in Georgia, which represents 1) BellSouth's expenses that are associated with the loading of the measured power usage data into BellSouth's OSS and billing systems and 2) the costs for a BellSouth Certified Supplier to perform the task of measuring actual power usage.

8.6.3.3 BellSouth, or Budget Phone, at any time and at their own expense, shall have the right to verify the accuracy of Budget Phone's BDFB meter by performing its own meter reading via an alternate method, such as, but not limited to, a clamp-on ammeter. If the meter readings vary significantly, the Parties agree to perform a joint investigation. If Budget Phone's BDFB meter is found to be in error, then Budget Phone agrees to recalibrate, repair, or replace its meter as required. The Parties recognize that the meter readings discussed in this Amendment are instantaneous readings that can experience minor fluctuations due to usage traffic, voltage fluctuations, and calibration of the meters themselves. The readings must vary by greater than 10% or 5 Amps, whichever is greater, before any recalibration, repair, or replacement will be required. If the BellSouth reading is substantiated, then BellSouth has the right to adjust billing retroactive to the beginning of the quarter for which the last meter reading was taken.

The BellSouth Certified Supplier hired by BellSouth to perform the meter reading must have access to Budget Phone's collocation space. The BellSouth Certified Supplier shall provide Budget Phone with sufficient notification that access is required, defined

herein as a minimum of forty-eight (48) hours. Once the date and time of access has been agreed upon, Budget Phone and the BellSouth Certified Supplier shall adhere to the agreed upon date and time, or provide sufficient notification, defined herein as a minimum of three (3) hours, to the other party if the original commitment must be missed. If Budget Phone fails to provide access to its arrangements or fails to provide the BellSouth Certified Supplier with sufficient notification of the missed commitment, then Budget Phone will be assessed for each additional meter reading trip service as set forth in Exhibit B of this Attachment. BellSouth will then bill Budget Phone an "Additional Meter Reading Trip Charge" that BellSouth incurs from the BellSouth Certified Supplier. Budget Phone and the BellSouth Certified Supplier may jointly agree to relax notification requirements as convenience and practical business needs dictate on a location-by- location basis. Both Parties agree that "practical business needs" includes any service interruption/ restoration of service scenario."

7. This Amendment shall be deemed effective September 1, 2003.
8. All of the other provisions of the Agreement, dated February 5, 2003, shall remain in full force and effect.
9. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

The "Zone" shown in the sections for stand-alone loops or loops as part of a combination refers to Geographically Deaveraged UNE Zones. OPERATIONAL SUPPORT SYSTEMS (OSS)															
NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two.															
NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth.

UNBUNDLED PORT LOOP COMBINATIONS - MARKET RATES															
	Market Rates shall apply where BellSouth is not required to provide unbundled local switching or switch ports per FCC and/or State Commission rules.														
	This includes:														
	Unbundled port/loop combinations that are Currently Combined or Not Currently Combined in Zone 1 of the Top 8 MSAs in BellSouth's region for end users with 4 or more DS0 equivalent lines.														
	The Top 8 MSAs in BellSouth's region are: FL (Orlando, Ft. Lauderdale, Miami); GA (Atlanta); LA (New Orleans); NC (Greensboro-Winston Salem-Highpoint/Charlotte-Gastonia-Rock Hill); TN (Nashville).														
	BellSouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in FL and NC. In the interim where BellSouth cannot bill Market Rates, BellSouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference.														
	The Market Rate for unbundled ports includes all available features in all states.														
	End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations which have a flat rate usage charge (USOC: URECU).														
	For Not Currently Combined scenarios the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section.														
	Additional NRCs may apply also and are categorized accordingly.
