RE: Phone Conversation with Mr. Charles Pickney

I had a telephone conversation with Charles on Tuesday, January 10, 2006 regarding a map showing the exact location of the wastewater system. The TRA Staff has requested the type of map that is provided by the TVA. Charles indicated that he has requested the map from TVA and wishes to personally deliver it to Staff when it is received to be sure it satisfies Staff's needs. He asked and I assured him that one original copy was all that we needed.
