PAUL G. SUMMERS
ATTORNEY GENERAL AND REPORTER

MAILING ADDRESS

P.O. BOX 20207
NASHVILLE TN 37202

ANDY D. BENNETT
CHIEF DEPUTY ATTORNEY GENERAL

LUCY HONEY HAYNES
ASSOCIATE CHIEF DEPUTY
ATTORNEY GENERAL

MICHAEL E. MOORE
SOLICITOR GENERAL

CORDELL HULL AND JOHN SEVIER
STATE OFFICE BUILDINGS

TELEPHONE 615-741-3491
FACSIMILE 615-741-2009

September 20, 2005

Honorable Ron Jones
Chairman
Tennessee Regulatory Authority
460 James Robertson Parkway
Nashville, Tennessee 37243

**Re: Docket 05-00258 PETITION OF THE CONSUMER ADVOCATE REQUESTING A
SHOW-CAUSE IN REGARDS TO THE RATES OF ATMOS GAS COMPANY**

Dear Chairman Jones:

As requested by the Docket Clerk, the Consumer Advocate submits the accompanying disk containing a directory in PDF format to assist the TRA staff in navigating the information provided in the original petition and exhibits. Additional information regarding the directory and a description of the files are also attached. All parties served with the Consumer Advocate's petition will also be provided with a directory in PDF format. If you have any questions, please call me.

Sincerely,

A handwritten signature in black ink that reads "Vance Broemel".

Vance Broemel
Assistant Attorney General
(615)741-8700

Enclosures

cc: All Parties of Record

88083

Table Of Contents: Description Of Files On CD

1. MasterFile.xls

This is an Excel file that contains in summary form the data from the MorningStar and Yahoo Data Bases. The *MasterFile* is saved as a "Read-Only" file, which means that the file can be copied to another file but the data in the *MasterFile* can not be changed without a password. Data appears in Columns 2-14 and in Rows 3-5577. The headers, or the data-descriptions, appear in row 2. Columns 2-9 contain data from MorningStar and Columns 10-11 contain data from Yahoo. Columns 12-14 list the files that are the source of the data. For example, in the *MasterFile* at Row 3, there is data on the company "@Road," and its source files are listed in Columns 12-14. The data is arranged in alphabetical order by company. The number 99999 indicates the data was not reported. Rows 5579-5581 indicate how much data was not reported in each fiscal year. Once the data is copied to a new file, the new file's data can be arranged by market and by the equity returns to arrive at the stock-market values plotted in Charts 2 and 3.

2 Subfolder MStarScreens_ROE5Yrs

This folder is the major source for data in the *MasterFile* and contains 225 text files and 225 image files. At the time the text file was copied and downloaded from the internet, the MorningStar screen-source of the text file was also recorded as an image file as a way of verifying each text file in the event errors were discovered later. Each of these files contains approximately, but not always, 25 companies. The portion of the file name indicated by a number, such as "0128," indicates the order of the download. The file Mstar_ROE5Yrs_0128.txt was the 128th file downloaded.

For example, in the *MasterFile* at Row 3, there is data on the company "@Road," and its source files are listed in Columns 12-13 as Mstar_ROE5Yrs_0128. This means data on "@Road" is found in the text file Mstar_ROE5Yrs_0128.txt. In particular the third line of the file lists the company's name and the data. This file contains far more data on the company "@Road" than what appears in *MasterFile*. The actual format of the data in Mstar_ROE5Yrs_0128.txt appears in an image file Mstar_ROE5Yrs_0128.bmp, where the data descriptors appear at the top. The fiscal year equity returns for "@Road" begin as the 6th entry from the left, and are 7 39 1 48 -28.38 -63.97 -51.52 respectively for the Current Fiscal Year - ROE Yr1, Prior Fiscal Year - ROE Yr2, ROE Yr3, ROE Yr4, and ROE Yr5.

3 Subfolder. BetaFilesForTRA

This folder contains 5571 text files copied and downloaded from the Yahoo data base on the internet. For example, in the *MasterFile* at Row 3, Column 3 there is a stock ticker of "ARDI" listed for the company "@Road." The Yahoo file that matches is the text file "ARDI.txt." This file name is shorter than the original name "Beta_3959_ARDI.txt" appearing in Row 3, Column 14. This file also contains far

more data on the company "@Road" than what appears in *MasterFile*. In that file @Road's beta is listed as 3 029, the same number also appears in the *MasterFile* in Row 3, Column 10. In Column 10 the number 9999 indicates the beta was not reported.

4 Subfolder. DividendData

This folder contains 22 html files of dividend information copied and downloaded from MorningStar, for the comparable companies listed in Brown's Schedule 9.

5. Subfolders:

Atmos_United10kFilesOlderFiles,
SecFilesOfCompComps10KFiles_MostRcentAtSep105,
TennesseePrivateSector10KFiles.

These folders contain 10-K files downloaded from the United States Securities and Exchange Commission internet site. The SEC's data base is 10 years old and the files' formats change from one year to the next depending on the time the file was placed on the data base and on the individual company's choice of submitting a text file or an html file. Sometimes the 10-K file is fully contained in just one file, and sometimes the 10-K file is spread over several files. For example in the folder *SecFilesOfCompComps10KFiles_MostRcentAtSep105*, the file *1004155_AGL RESOURCES_10-K_2005_02_15_01.htm* is one of 17 separate files that compose that company's 10-K filing with the SEC. Most of the file names have the company's name and the date of the filing listed in the file name itself, such as "Company Name_FileType_Year_Mo_Day_Part," where "Year_Mo_Day" means filing date and "Part" means file order, such as 01 being the first file.

The subfolder *TennesseePrivateSector10KFiles* lists those files that the SEC identifies as having a Tennessee business address. But not all these companies have publicly traded stock. Brown's Schedule 4 identifies those companies that have a Tennessee business address and that have publicly traded stock. The tickers in Schedule 4 can be used to identify companies in the *MasterFile* that are Tennessee companies.

The subfolders, *Atmos_United10kFilesOlderFiles* and *SecFilesOfCompComps10KFiles_MostRcentAtSep105*, have capital structure data and cost-of-debt data which were used to develop Brown - Schedules 7, 8 and portions of Schedule 9, which is an update from the comparable company data used in Docket 04-00034. The SEC based data from that docket was provided to the Authority's staff in discovery during that docket. An SEC file S-3 filed by United Cities in 1994 is also provided because it identifies franchise areas in Tennessee.
