**ATMOS ENERGY CORPORATION'S SUPPLEMENTAL AND AMENDED
RESPONSES TO MINIMUM FILING REQUIREMENTS**

INTRODUCTION

In accordance with *Tennessee Rule of Civil Procedure* 26.05(2), Atmos Energy Corporation ("Atmos") submits this Supplemental and Amended Response to the Minimum Filing Requirements No. 52.

SUPPLEMENTAL AND AMENDED RESPONSE

(For convenience and context, Atmos has reset forth the entirety of the discovery request in this Supplemental Response.)

- 52. Break down budgeted plant additions between normal and special projects, using criteria defined above, for the months between the end of the last fiscal year and the end of the attrition period. Provide sufficient detail of each individual project as to the date of inception and completion, and the proposed methods of financing. Identify those budgeted plant additions that are in process or have already been completed. Basic assumptions underlying budgets should also be submitted including the assumptions for sales volumes.**

RESPONSE:

After reviewing its original response, Atmos discovered that the response did not provide the budgeted additions for 2006. That corrected response is attached.

Respectfully Submitted,
