Filed Electronically in Docket Office on 05/19/06

Mrs. Darlene Standley, Chief  
Utilities Division  
Tennessee Regulatory Authority  
460 James Robertson Parkway  
Nashville, TN 37243-0505

RE: Petition of Tennessee Wastewater Systems, Inc. To Expand Its Service Area to Include  
a Portion of Blount County in Tennessee Know As Griffiths Mill  
**Docket # 06-00076 – Griffiths Mill - Data Response**

Dear Mrs. Standley:

Tennessee Wastewater Systems, Inc. provides the following information per your request  
dated April 21, 2006.

1. Identify all complaints filed with any state agency involving your company or affiliated entities. Identify the nature of the complaint, the government agency or office receiving the complaint and how was the complaint resolved.

Response: During the last twelve months we have not received any written complaints from the Tennessee Regulatory Authority. While we have on-going correspondence with the Tennessee Department of Environment and Conservation concerning permit limits, appeals, etc., I would not classify that type of correspondence as a complaint.

2. Please revise and re-file your Pre-Filed Testimony attached to your petition to include the following:
  - a. A statement that TWS intends to comply with all TRA rules, statutes, and orders pertaining to the provision of wastewater services in Tennessee.
  - b. A notarized affidavit page.

Response: Please see the attached, revised Pre-filed Testimony.

3. Provide a legible map with a completely enclosed boundary that identifies the service area requested. Please reconcile the 615 acres referenced in your petition to the approximately 500 acres of total land at the site identified by Mr. Kerr in his letter attached to your petition.

Response: See Attached Map

The reference to 615 acres was an error. The parcels and portions of parcels included in the map encompass approximately 500 acres.

4. Please explain why TWS is requesting a Certificate to include additional acreage beyond the 160 acres that Mr. Kerr identifies in his letter as the property that will be developed.

Response: The 160 acres identified in Mr. Kerr's letter is the appropriate acreage for Phase I of the project. Remaining phases will take up the remainder of the property outlined on the map.

If you have any further questions, or need any additional information, please feel free to contact me.

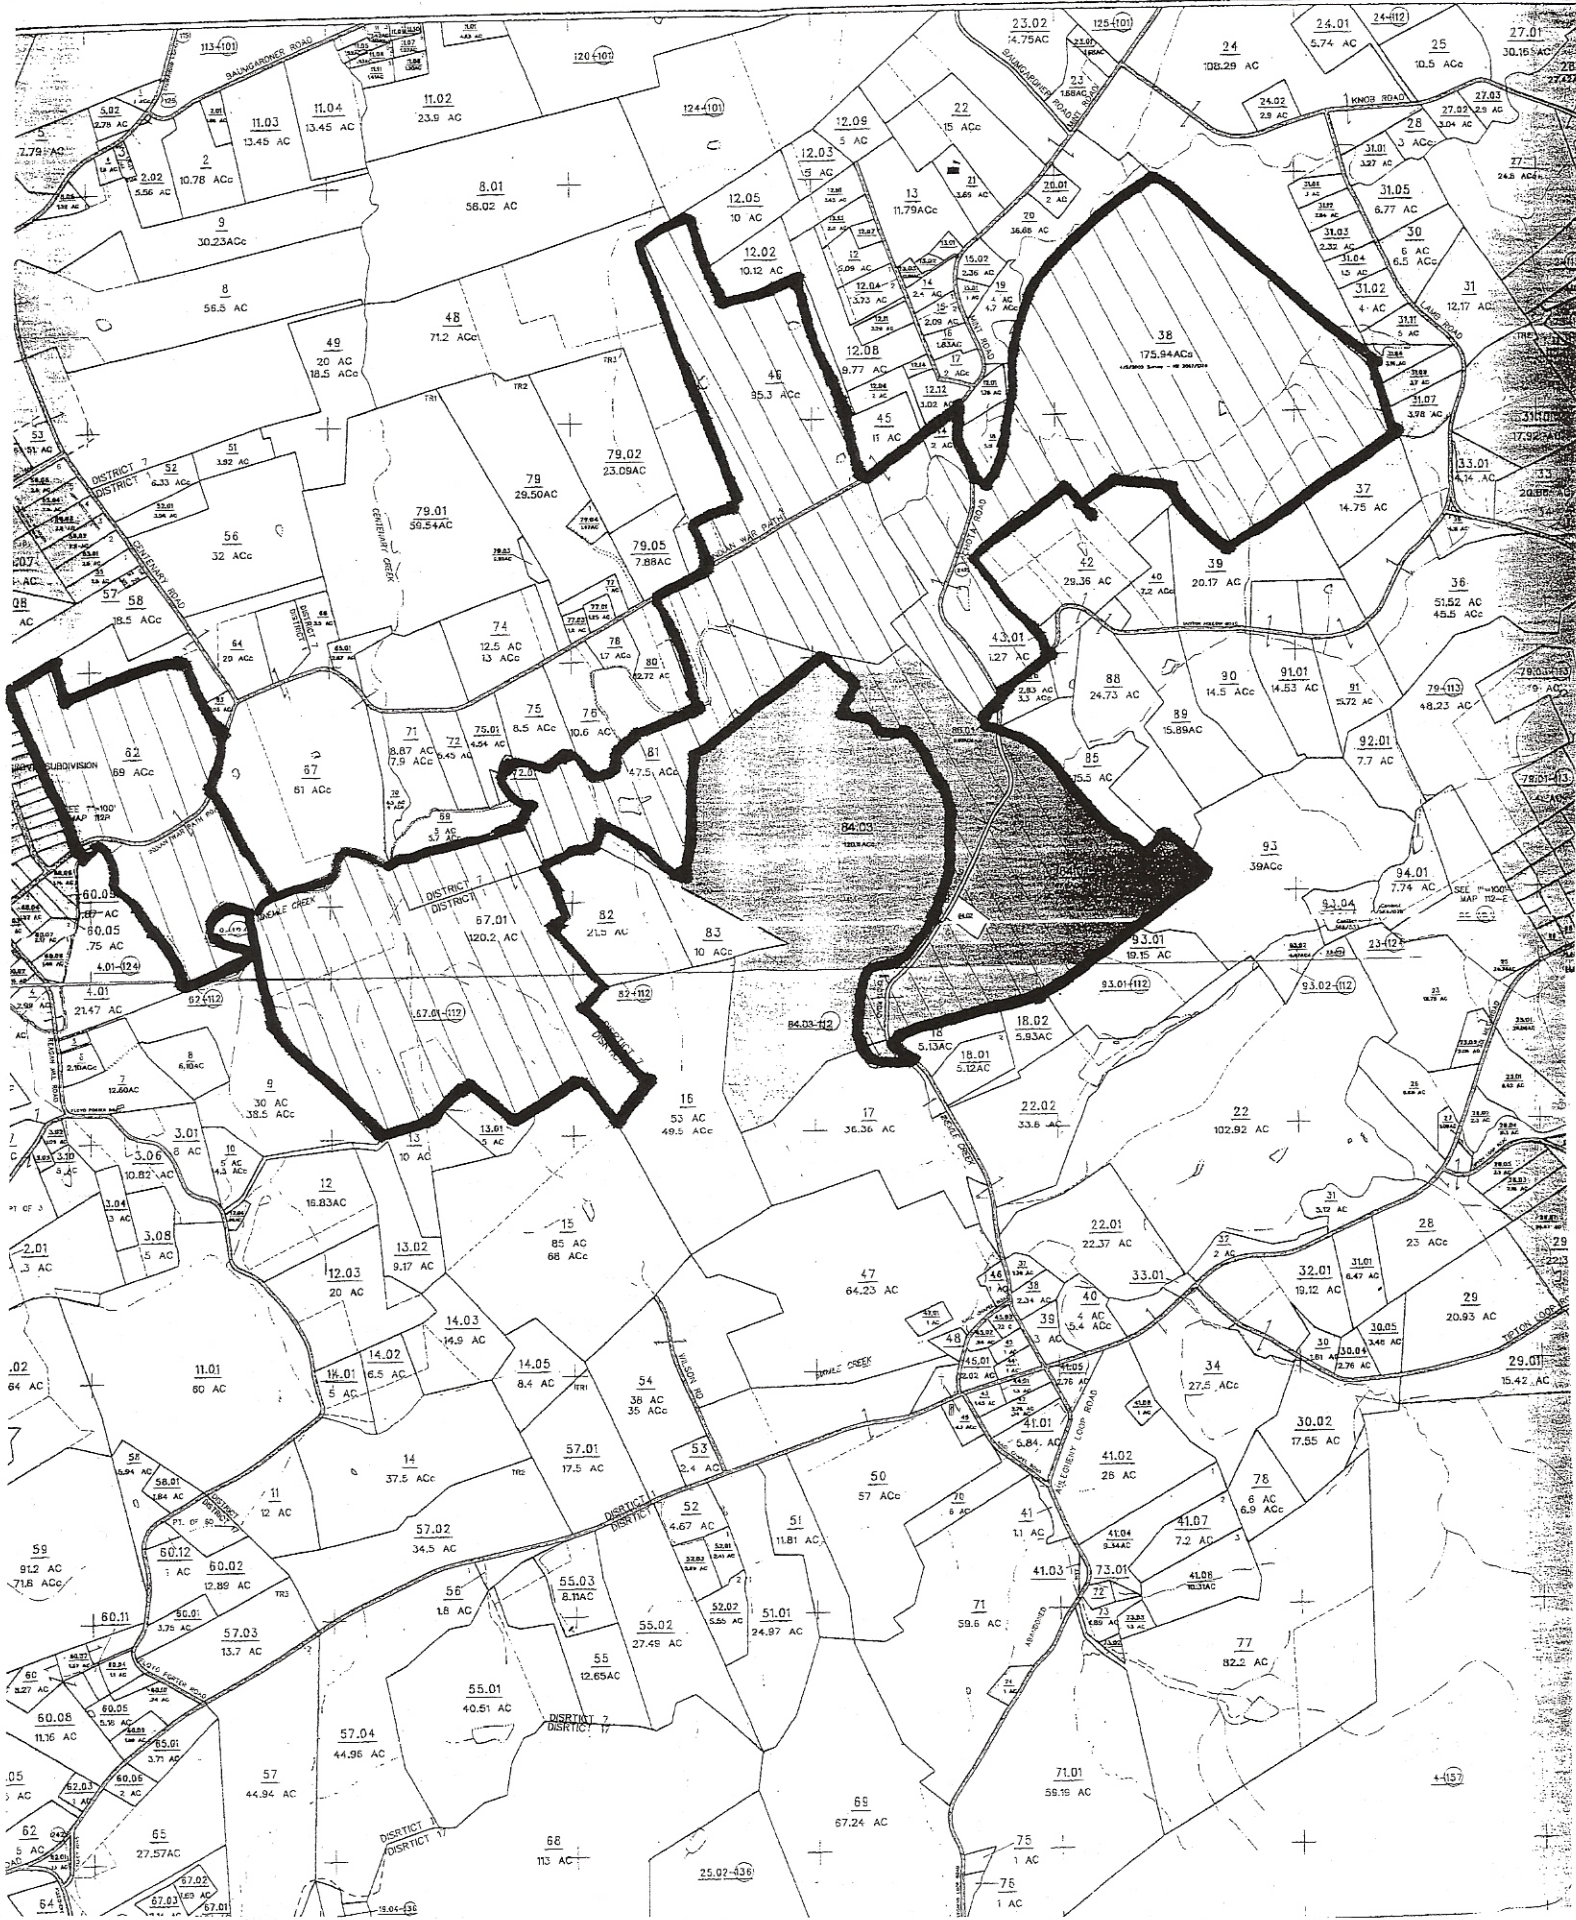

Sincerely,

Charles Pickney, Jr.  
President
