PETITION FOR APPROVAL OF TENNESSEE)	DOCKET NO.
WASTEWATER SYSTEMS, INC, TO EXPAND)	06-00078
ITS SERVICE AREA TO INCLUDE A PORTION)	
OF SEVIER COUNTY, TENNESSEE, KNOWN)	
AS SUMMIT VIEW)	

**ORDER APPROVING PETITION TO AMEND
CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY**

This matter came before Chairman Sara Kyle, Director Eddie Roberson and Director Pat Miller of the Tennessee Regulatory Authority (the "Authority" or "TRA"), the voting panel assigned to this docket, at a Hearing held on July 24, 2006 to consider the *Petition of Tennessee Wastewater Systems, Inc. to Amend its Certificate of Convenience and Necessity* (the "*Petition*") requesting that the Authority expand its service area to include a portion of Sevier County, Tennessee known as Summit View.

Background

On April 6, 1994, Tennessee Wastewater Systems, Inc.¹ ("TWS" or "Company") received a Certificate of Public Convenience and Necessity ("CCN") in Docket No. 93-09040 from the Tennessee Public Service Commission to provide wastewater service to the Oakwood Subdivision in Maury County. Since that time, through various other dockets, the Company has been granted approval to expand its service territory to include other areas in Tennessee. The Company's principal office is located in Nashville, Tennessee. TWS filed the *Petition* in this matter, along with the Pre-filed Direct Testimony of Charles Pickney, Jr., on March 20, 2006. A

¹ Tennessee Wastewater Systems, Inc. was formerly known as On-Site Systems, Inc. This name change was effected by the TRA's order of February 19, 2004, in Docket No. 03-00518.

revised Pre-filed Direct Testimony of Charles Pickney, Jr. was filed along with TWS Data Responses on July 7, 2006.

Legal Standard for Granting Certificate of Public Convenience and Necessity

No public utility is permitted to begin construction or operation of a new utility facility or service before obtaining approval of the Authority. The procedure for obtaining a CCN evidencing such approval is set forth in Tenn. Code Ann. § 65-4-201(a) (Supp. 2005), which states as follows:

(a) No public utility shall establish or begin the construction of, or operate any line, plant, or system, or route in or into a municipality or other territory already receiving a like service from another public utility, or establish service therein, without first having obtained from the authority, after written application and hearing, a certificate that the present or future public convenience and necessity require or will require such construction, establishment, and operation, and no person or corporation not at the time a public utility shall commence the construction of any plant, line, system or route to be operated as a public utility, or the operation of which would constitute the same, or the owner or operator thereof, a public utility as defined by law, without having first obtained, in like manner, a similar certificate. . . .

The Authority promulgated public necessity rules for wastewater, effective December 29, 2005 through June 12, 2006. The permanent TRA Rule 1220-4-13-.04(b) became effective on June 12, 2006. TRA Rule 1220-4-13-.04(b) sets forth certain requirements for a CCN applicant as follows:

(b) Any public wastewater utility requesting a Certificate of Public Convenience and Necessity (CCN) authorizing such public utility to construct and/or operate a wastewater system or to expand the area in which such a system is operated, shall file an application in compliance with Rule 1220-1-1-.03 and this rule. All applicants shall demonstrate to the Authority that they are registered with the Secretary of State, have obtained the financial security required under 1220-4-13-.07, and possess sufficient managerial, financial, and technical abilities to provide the wastewater services for which they have applied. Each application shall justify existing public need and include the required financial security consistent with Tenn. Code Ann. § 65-4-201 and these rules.

The Petition

On March 20, 2006, TWS filed the *Petition* requesting that its service area be expanded to include a portion of Sevier County, Tennessee known as Summit View. The approximate acreage is 16. According to the *Petition*, the Company seeks to provide service to approximately 32 residential and commercial lots. TWS filed both commercial and residential sewer rates with the *Petition*.² TWS also attached a letter from the developer, Allen Hood, expressing his desire that TWS provide service to the parcel. In addition, TWS attached letters from other potential wastewater service providers stating that none of the potential providers currently serves the area or intends to extend wastewater service to Summit View.³ The Company also attached a service area map showing the location of Summit View.

The July 24, 2006 Hearing

Pursuant to Tenn. Code Ann. § 65-4-201(a) (Supp. 2005), public notice of the Hearing in this matter was issued by the Hearing Officer on July 12, 2006. No person sought intervention prior to or during the Hearing. During the Hearing held on July 24, 2006, Mr. Charles Pickney, Jr., President of TWS, participated, presented testimony and was subject to examination by the panel. Mr. Pickney testified that TWS has filed an application for the required permit with the Tennessee Department of Environment and Conservation (TDEC), and that approval for the permit is currently pending.⁴ Mr. Pickney's Pre-Filed Testimony was entered into the record in this matter. The Pre-Filed Testimony states that the Company has the managerial, technical and financial ability to provide wastewater services to Summit View.⁵ Additionally, the panel took administrative notice of TWS's 2005 annual report filed with the Authority.

² TWS filed with the *Petition* a Tariff Sheet with commercial sewer rates and a billing summary listing the Company's residential customers and indicating that the monthly residential rate will be \$35.11.

³ See *Petition* (unnumbered attachments) (March 20, 2006): Letter from Larry Waters, County Mayor of Sevier County, Tennessee (February 24, 2006); Letter from Earlene M. Teaster, City Manager of the City of Pigeon Forge, Tennessee, to Michael Hines (February 20, 2006).

⁴ See *Transcript of Authority Conference*, July 24, 2006, Testimony of Charles Pickney, Jr., President of TWS, p. 17.

⁵ Charles Pickney, Jr., Pre-Filed Testimony, p. 1 (March 20, 2006).

The panel found that TWS had met the requirements of Tenn. Code Ann. § 65-4-201(a) (Supp. 2005) and TRA Rule 1220-4-13-.04(b). The panel also found that the rates filed by TWS were identical to those rates previously filed by the Company.

Based upon the evidentiary and administrative record as a whole and relying on the standards set forth in Tenn. Code Ann. § 65-4-201(a) (Supp. 2005) and TRA Rule 1220-4-13-.04(b), the panel voted unanimously to grant approval of the *Petition*. Further, the panel unanimously approved the rates filed by the Company.

IT IS THEREFORE ORDERED THAT:

1. The *Petition of Tennessee Wastewater Systems, Inc. to Amend its Certificate of Convenience and Necessity* to expand its service area to include Summit View in Sevier County, Tennessee, as shown in the map attached to the *Petition*, is approved.
2. The Petitioner's rates for wastewater service shall be as listed in the Tariff and rate schedules filed with the *Petition*.

Sara Kyle, Chairman

Eddie Roberson, Director

Pat Miller, Director
