Re: *Approval of the Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc. and TelCove Operations, Inc. Pursuant to Sections 251 and 252 of the Telecommunications Act of 1996*  
Docket No. 06-00085

Dear Chairman Jones:

Enclosed are six paper copies and one electronic copy of the executed interconnection agreement between BellSouth Telecommunications, Inc. and TelCove, Inc. TelCove has adopted the KMC Data, LLC Interconnection Agreement in its entirety dated June 30, 2005. The parties request approval of the Interconnection Agreement by the Tennessee Regulatory Authority.

Thank you for your attention to this matter.

Sincerely yours,

A handwritten signature in black ink, appearing to be "Guy M. Hicks", written over a horizontal line.

BEFORE THE TENNESSEE REGULATORY AUTHORITY  
Nashville, Tennessee

In re: *Approval of the Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc. and TelCove Operations, Inc. Pursuant to Sections 251 and 252 of the Telecommunications Act of 1996*

Docket No. \_\_\_\_\_

**PETITION FOR APPROVAL OF THE**  
**INTERCONNECTION AGREEMENT NEGOTIATED**  
**BETWEEN BELL SOUTH TELECOMMUNICATIONS, INC.**  
**AND TELCOVE OPERATIONS, INC.**  
**PURSUANT TO THE TELECOMMUNICATIONS ACT OF 1996**

COME NOW, TelCove Operations, Inc. ("TelCove") and BellSouth Telecommunications, Inc., ("BellSouth"), and file this request for approval of the Interconnection Agreement (the "Agreement") between the two companies pursuant to Sections 251 and 252 of the Telecommunications Act of 1996, (the "Act"). In support of their request, TelCove and BellSouth state the following:

1. TelCove has adopted the KMC Data, LLC Interconnection Agreement in its entirety dated June 30, 2005. A copy of the Agreement is attached hereto and incorporated herein by reference.
2. Pursuant to Section 252(e) of the Telecommunications Act of 1996, TelCove and BellSouth are submitting their Agreement to the TRA for its consideration and approval.
3. In accordance with Section 252(e) of the Act, the TRA is charged with approving or rejecting the negotiated Agreement between BellSouth and TelCove within 90 days of its submission. The Act provides that the TRA may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity.

4. TelCove and BellSouth aver that the Agreement is consistent with the standards for approval.

5. Pursuant to 47 USC Section 252(i) and 47 C.F.R. Section 51.809, BellSouth shall make available the entire Agreement approved pursuant to 47 USC Section 252.

TelCove and BellSouth respectfully request that the TRA approve the Agreement negotiated between the parties.

This 25<sup>th</sup> day of March, 2006.

Respectfully submitted,

BELLSOUTH TELECOMMUNICATIONS, INC.

## AGREEMENT

This Agreement, which shall become effective thirty (30) days following the date of the last signature of both Parties ("Effective Date"), is entered into by and between TelCove Operations, Inc., collectively ("TelCove"), a Delaware corporation on behalf of itself and its certificated operating affiliates identified in Part A attached hereto and BellSouth Telecommunications, Inc., ("BellSouth"), a Georgia corporation, having an office at 675 W. Peachtree Street, Atlanta, Georgia, 30375, on behalf of itself and its successors and assigns.

**WHEREAS**, the Telecommunications Act of 1996 (the "Act") was signed into law on February 8, 1996; and

**WHEREAS**, section 252(i) of the Act requires BellSouth to make available any interconnection, service, or network element provided under an agreement approved by the appropriate state regulatory body to any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement in its entirety; and

**WHEREAS**, TelCove has requested that BellSouth make available the interconnection agreement in its entirety executed between BellSouth and KMC Data, LLC dated June 30, 2005 for the state(s) of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

**NOW, THEREFORE**, in consideration of the promises and mutual covenants of this Agreement, TelCove and BellSouth hereby agree as follows:

1. TelCove and BellSouth shall adopt in its entirety the KMC Data, LLC Interconnection Agreement dated June 30, 2005 and any and all amendments to said agreement executed and approved by the appropriate state regulatory commission as of the date of the execution of this Agreement. The KMC Data, LLC Interconnection Agreement and all amendments are attached hereto as Exhibit 1 and incorporated herein by this reference. The adoption of this agreement with amendment(s) consists of the following:

2. In the event that TelCove consists of two (2) or more separate entities as set forth in the preamble to this Agreement, all such entities shall be jointly and severally liable for the obligations of TelCove under this Agreement.

3. The term of this Agreement shall be from the Effective Date as set forth above and shall expire as set forth in section 3 of the General Terms and Conditions of the KMC Data, LLC Interconnection Agreement. For the purposes of determining the expiration date of this Agreement pursuant to section 3 of the KMC Data, LLC Interconnection Agreement, the effective date shall be thirty (30) days following the date of the last signature.

4. TelCove shall accept and incorporate any amendments to the KMC Data, LLC Interconnection Agreement executed as a result of any final judicial, regulatory, or legislative action.

5. Every notice, consent, approval, or other communications required or contemplated by this Agreement shall be in writing and shall be delivered in person or given by postage prepaid mail, address to:

**Interconnection Agreement**  
**Between**  
**BellSouth Telecommunications, Inc.**  
**and**  
**KMC Data, LLC**

## **AGREEMENT GENERAL TERMS AND CONDITIONS**

This agreement (Agreement) is made by and between BellSouth Telecommunications, Inc., (“BellSouth”), a Georgia corporation, and KMC Data, LLC (“KMC Data”), a limited liability company, and shall be effective on the Effective Date, as defined herein. This Agreement may refer to either BellSouth or KMC Data or both as a “Party” or “Parties.”

### **W I T N E S S E T H**

**WHEREAS**, BellSouth is an incumbent local exchange telecommunications company authorized to provide telecommunications services in the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee; and

**WHEREAS**, KMC Data is or seeks to become a CLEC authorized to provide telecommunications services in the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee; and

**WHEREAS**, KMC Data wishes to resell BellSouth’s telecommunications services and purchase network elements and other services, and, primarily in connection therewith, may wish to utilize collocation space as set forth in Attachment 4 of this Agreement); and

**WHEREAS**, the Parties wish to interconnect their facilities and exchange traffic pursuant to and consistent with the rights and obligations set forth in Sections 251 and 252 of the Act.

**NOW THEREFORE**, in consideration of the mutual agreements contained herein, BellSouth and KMC Data agree as follows:

**1. Definitions**

The use of the term end user or customer throughout this Agreement shall not be construed to expand on or eliminate any rights or obligations of the Parties.

1.1 The definitions set forth in this Section apply to the Agreement as a whole and both Parties’ conduct thereunder. Additional definitions are included in the various attachments to this Agreement. Unless the context clearly indicates otherwise, any term defined or used in the singular shall include the plural.

1.2 **Affiliate** is defined as a person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another person. For purposes of this paragraph, the term “own” means to own an equity interest (or equivalent thereof) of more than ten (10) percent.

- 1.3 **Commission** is defined as the appropriate regulatory agency in each state of BellSouth's nine-state region (Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee).
- 1.4 **Competitive Local Exchange Carrier (CLEC)** means a telephone company certified by the Commission to provide local exchange service within BellSouth's franchised area.
- 1.5 **Day** is defined to mean calendar day, unless otherwise expressly noted.
- 1.6 **Effective Date** is defined as the date that the Agreement is effective and it shall be effective June 30, 2005. Upon request by KMC Data for a future amendment to incorporate Commission ordered rates, at KMC Data's request BellSouth shall only propose an amendment with language and rates that are necessary in order to implement such order. Such amendment shall be effective ten (10) days after the date of the last signature executing the amendment or as otherwise ordered in a FCC or Commission order or rule. Non rate impacting future amendments will be effective as of the date of the last signature executing the amendment or as otherwise ordered in a FCC or Commission order or rule. The Parties agree that such signature shall not be unreasonably delayed.
- 1.7 **FCC** means the Federal Communications Commission.
- 1.8 **General Terms and Conditions** means this document including all of the terms, provisions and conditions set forth herein.
- 1.9 **National Holiday** means New Year's Day, Martin Luther King Jr. Day, President's Day/Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, Christmas Day. In the calculation of intervals of less than ten (10) days national holidays will be excluded.
- 1.10 **Project Management** means the BellSouth Professional Services organization.
- 1.11 **Telecommunications** means the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received.
- 1.12 **Telecommunications Service** means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.
- 1.13 **Telecommunications Act of 1996 (1996 Act)** means Public Law 104-104 of the United States Congress effective February 8, 1996. The 1996 Act is part of the Communications Act of 1934 (47 U.S.C. Section 1 et. seq.) as amended (the Act).
2. **CLEC Certification**

- 2.1 Prior to execution of this Agreement, BellSouth may request and KMC Data agrees to provide BellSouth in writing KMC Data's CLEC certification for all states covered by this Agreement except Kentucky. BellSouth will file this Agreement with the appropriate Commission for approval.
- 2.2 To the extent KMC Data is not certified as a CLEC in each state covered by this Agreement as of the execution hereof, KMC Data will notify BellSouth in writing and provide CLEC certification when it becomes certified to operate in any other state covered by this Agreement. Upon notification, BellSouth will file this Agreement with the appropriate Commission for approval.

3. **Term of the Agreement**

- 3.1 The term of this Agreement shall be three and one half (3 ½) years, beginning on the Effective Date and shall apply to the BellSouth territory in the state(s) of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee. Notwithstanding any prior agreement of the Parties, the rates, terms and conditions of this Agreement shall not be applied retroactively prior to the Effective Date.
- 3.2 The Parties agree that by no earlier than two hundred seventy (270) days and no later than one hundred and eighty (180) days prior to the expiration of this Agreement, they shall commence negotiations for a new agreement for a new agreement to be effective beginning on the expiration date of this Agreement (Subsequent Agreement).
- 3.3 If, within one hundred and thirty-five (135) days of the designated start date of the negotiation referred to in Section 3.2, above, the Parties are unable to satisfactorily negotiate new terms, conditions and prices for a Subsequent Agreement, either Party may petition the Commission to establish appropriate terms, conditions and prices pursuant to 47 U.S.C. § 252. The Parties agree that, in such event, they shall encourage the Commission to issue its order regarding the Subsequent Agreement no later than the expiration date of this Agreement. The Parties further agree that in the event the Commission does not issue its Arbitration order prior to the expiration date of this Agreement, or if the Parties continue beyond the expiration date of this Agreement to negotiate the Subsequent Agreement, the Subsequent Agreement ultimately ordered by the Commission, or negotiated by the Parties, will be effective upon the effective date set forth in the Subsequent Agreement.
- 3.4 Notwithstanding the foregoing and except as set forth in Section 3.4.1 below, in the event that, as of the date of the expiration of this Agreement and conversion of this Agreement to a month-to-month term, the Parties have not entered into a Subsequent Agreement and no arbitration proceeding has been filed in accordance with Section 252 of the Act, then either Party may terminate this Agreement upon sixty (60) days notice to the other Party. In the event that BellSouth terminates this Agreement as provided above, BellSouth shall continue to offer services to KMC

Data pursuant to BellSouth's then current standard interconnection agreement or KMC Data may exercise its rights under Section 252(i) of the Act. In the event that BellSouth's standard interconnection agreement becomes effective as between the Parties or KMC Data adopts another agreement, the Parties may continue to negotiate a Subsequent Agreement, and the terms of such Subsequent Agreement shall be effective as of the effective date stated in such Subsequent Agreement.

- 3.4.1 If an arbitration proceeding has been filed in accordance with Section 252 of the Act and if the Commission does not issue its order prior to the expiration of this Agreement, this Agreement shall be deemed extended on a month-to-month basis until the Subsequent Agreement becomes effective. The terms of such Subsequent Agreement shall be effective as of the effective date stated in such Subsequent Agreement and shall not be applied retroactively to the expiration date of this Agreement unless the Parties agree otherwise. Neither Party shall refuse to provide services to the other Party during the negotiation of the Subsequent Agreement or the transition from this Agreement to the Subsequent Agreement.

#### 4. **Termination**

- 4.1 KMC Data may terminate any network element, interconnection or other services provided under this Agreement upon thirty (30) days written notice to BellSouth. In such cases, KMC Data's obligation to pay for such network element, interconnection or other services shall be limited to the amounts due provided up to and including the date of termination.
- 4.2 Upon notice of termination, the Parties agree to cooperate in an orderly and efficient transition to KMC Data or another vendor and to exercise their best efforts to effect an orderly and efficient transition.

#### 5. **Operational Support Systems**

- 5.1 KMC Data shall pay charges for Operational Support Systems (OSS) as set forth in this Agreement in Attachment 1 and/or in Attachments 2, 3 and 5, as applicable.

#### 6. **Parity**

- 6.1 When KMC Data purchases services from BellSouth pursuant to Attachment 1 of this Agreement for the purposes of Resale to its customers, such services shall be at least equal in quality, subject to the same conditions, and provided within the same provisioning time intervals that BellSouth provides to its Affiliates, subsidiaries and customers. To the extent technically feasible, the quality of a Network Element, as well as the quality of the access to such Network Element provided by BellSouth to KMC Data shall be at least equal in quality to that which BellSouth provides to itself, its Affiliates or any other Telecommunications carrier. The quality of the interconnection between the network of BellSouth and the network of KMC Data shall be at a level that is at least equal to that which BellSouth provides itself, a subsidiary, an Affiliate, or any other party. The interconnection facilities shall be designed to meet the same technical criteria and

service standards that are used within BellSouth's network and shall extend to a consideration of service quality as perceived by BellSouth's customers and service quality as perceived by KMC Data and its customers.

## **7. White Pages Directory Listings Requirements**

- 7.1 Listings. KMC Data shall provide all new, changed and deleted listings on a timely basis and BellSouth or its agent will include KMC Data residential and business customer listings in the appropriate White Pages (residential and business) or alphabetical directories in the geographic areas covered by this Interconnection Agreement in a nondiscriminatory manner and at parity. Directory listings will make no distinction between KMC Data and BellSouth subscribers.
- 7.1.1 Rates. So long as KMC Data provides subscriber listing information (SLI) to BellSouth in accordance with Section 7.2 below, BellSouth shall provide to KMC Data one (1) primary White Pages listing per KMC Data subscriber at no charge for the initial listing. Additions or changes to the initial subscriber White Pages listing shall incur a secondary service charge in accordance with Section A4.2 of BellSouth's General Subscriber Services Tariff (GSST).
- 7.2 Procedures for Submitting KMC Data SLI are found in The BellSouth Business Rules for Local Ordering located at <http://www.interconnection.bellsouth.com>.
- 7.2.1 KMC Data authorizes BellSouth to release all KMC Data SLI provided to BellSouth by KMC Data to qualifying third parties via either license agreement or BellSouth's Directory Publishers Database Service (DPDS), GSST, Section A38.2, as the same may be amended from time to time. Such KMC Data SLI shall be intermingled with BellSouth's own customer listings and listings of any other CLEC that has authorized a similar release of SLI.
- 7.2.2 No compensation shall be paid to KMC Data for BellSouth's receipt of KMC Data SLI, or for the subsequent release to third parties of such SLI. In addition, to the extent BellSouth incurs costs to modify its systems to enable the release of KMC Data's SLI, or costs on an ongoing basis to administer the release of KMC Data's SLI, KMC Data shall pay to BellSouth its proportionate share of the reasonable costs associated therewith. At any time that costs may be incurred to administer the release of KMC Data's SLI, KMC Data will be notified. If KMC Data does not wish to pay its proportionate share of these reasonable costs, KMC Data may instruct BellSouth that it does not wish to release its SLI to independent publishers, and KMC Data shall amend this Agreement accordingly. KMC Data will be liable for all costs incurred until the effective date of the amendment.
- 7.2.3 Neither BellSouth nor any agent shall be liable for the content or accuracy of any SLI provided by KMC Data under this Agreement. Except to the extent caused by gross negligence or willful misconduct by BellSouth, KMC Data shall indemnify, hold harmless and defend BellSouth and its agents from and against any damages, losses, liabilities, demands, claims, suits, judgments, costs and expenses (including

but not limited to reasonable attorneys' fees and expenses) arising from BellSouth's tariff obligations or otherwise and resulting from or arising out of any third party's claim of inaccurate KMC Data listings or use of the SLI provided pursuant to this Agreement. BellSouth may forward to KMC Data any complaints received by BellSouth relating to the accuracy or quality of KMC Data listings.

- 7.2.4 BellSouth agrees to address any issue regarding a directory listing raised by a KMC Data customer in the same manner that BellSouth does for BellSouth's customers.
- 7.2.5 Listings and subsequent updates will be released consistent with BellSouth system changes and/or update scheduling requirements.
- 7.3 Unlisted/Non-Published Subscribers. KMC Data will be required to provide to BellSouth the names, addresses and telephone numbers of all KMC Data customers who wish to be omitted from directories.
- 7.4 Inclusion of KMC Data Customers in Directory Assistance Database. BellSouth will include and maintain KMC Data subscriber listings in BellSouth's Directory Assistance databases at no recurring charge and KMC Data shall provide such Directory Assistance listings to BellSouth at no recurring charge.
- 7.5 Listing Information Confidentiality. BellSouth will afford KMC Data's directory listing information the same level of confidentiality that BellSouth affords its own directory listing information.
- 7.6 Additional, Designer, Non-Listed and Non-Published Listings. BellSouth shall provide Additional, Designer, Non-Listed and Non-Published White Pages Listings to KMC Data's customers under the same rates, terms and conditions as BellSouth makes such listings available to its own customers. Where BellSouth charges its customers for Additional, Designer, Non-Listed and Non-Published White Pages Listings, BellSouth shall publish such listings under the same rates, terms and conditions to KMC Data for its Resale customers subject to the applicable wholesale rates in Attachment 1.
- 7.7 Directories. BellSouth or its agent shall make available White Pages directories to KMC Data subscribers at no charge or as specified in a separate agreement with BellSouth's agent.
- 7.7.1 Delivery. BellSouth or its agent shall deliver White Pages directories to KMC Data customers at parity with BellSouth's delivery of directories to its own customers.
- 8. **Local Dialing Parity**
- 8.1 BellSouth shall provide local dialing parity as described in the Act and required by FCC rules, regulations and policies. KMC Data customers shall not have to dial any greater number of digits than BellSouth customers to complete the same call.

In addition, KMC Data customers shall experience at least the same service quality as BellSouth customers in terms of post-dial delay, call completion rate and transmission quality.

9. **Court Ordered Requests for Call Detail Records and Other Subscriber Information**

9.1 Subpoenas Directed to BellSouth. Where BellSouth provides resold services or local switching for KMC Data, BellSouth shall respond to subpoenas and court ordered requests delivered directly to BellSouth for the purpose of providing call detail records when the targeted telephone numbers belong to KMC Data customers or its Customer's customers. Billing for such requests will be generated by BellSouth and directed to the law enforcement agency initiating the request. BellSouth shall maintain such information for KMC Data customers or its Customer's customers for the same length of time it maintains such information for its own customers.

9.2 Subpoenas Directed to KMC Data. Where BellSouth is providing to KMC Data Telecommunications Services for resale or providing to KMC Data the local switching function, then KMC Data agrees that in those cases where KMC Data receives subpoenas or court ordered requests regarding targeted telephone numbers belonging to KMC Data customers, and where KMC Data does not have the requested information, KMC Data will advise the law enforcement agency initiating the request to redirect the subpoena or court ordered request to BellSouth for handling in accordance with Section 9.1 above.

9.3 In all other instances, where either Party receives a request for information involving the other Party's customer, the Party receiving the request will advise the law enforcement agency initiating the request to redirect such request to the other Party.

10. **Liability and Indemnification**

10.1 KMC Data Liability. In the event that KMC Data consists of two (2) or more separate entities as set forth in this Agreement and/or any Amendments hereto, all such entities that are Parties to this Agreement shall be jointly and severally liable for the obligations of KMC Data under this Agreement.

10.2 The Parties have negotiated specific provisions in Section 10 of Attachment 3 and Section 5 of Attachment 7 to which the provisions of the following sentence shall not apply. For all other matters, BellSouth shall take financial responsibility for its own actions in causing or contributing to unbillable or uncollectible, KMC Data revenue.

10.3 Liability for Acts or Omissions of Third Parties. The Parties shall not be liable to each other for any act or omission of another Telecommunications company.

10.4 Limitation of Liability

- 10.4.1 Except for any indemnification obligations of the Parties hereunder, and except in cases of the provisioning Party's gross negligence or willful misconduct, each Party's liability to the other for any loss, cost, claim, injury, liability or expense, including reasonable attorneys' fees relating to or arising out of any negligent act or omission in its performance of this Agreement, whether in contract or in tort, shall be limited to a credit for the actual cost of the services or functions not performed or improperly performed.
- 10.4.2 Limitations in Tariffs. A Party may, in its sole discretion, provide in its tariffs and contracts with its customer, Customers and third parties that relate to any service, product or function provided or contemplated under this Agreement, that to the maximum extent permitted by Applicable Law, such Party shall not be liable to the customer or third party for (i) any loss relating to or arising out of this Agreement, whether in contract, tort or otherwise, that exceeds the amount such Party would have charged that applicable person for the service, product or function that gave rise to such loss and (ii) consequential damages. To the extent that a Party elects not to place in its tariffs or contracts such limitations of liability, and the other Party incurs a loss as a result thereof, such Party shall indemnify and reimburse the other Party for that portion of the loss that would have been limited had the first Party included in its tariffs and contracts the limitations of liability that such other Party included in its own tariffs at the time of such loss.
- 10.4.3 Neither BellSouth nor KMC Data shall be liable for physical damage to the other Party's premises, facilities and equipment or customer or customer premises resulting from the furnishing of a service, including, but not limited to, the installation and removal of equipment or associated wiring, except to the extent caused by a Party's negligence, gross negligence or willful misconduct or by a Party's failure to ground properly a local loop after disconnection.
- 10.4.4 Nothing in this Section 10 shall limit a Party's obligation to indemnify or hold harmless the other Party set forth elsewhere in this Agreement. Except in cases of gross negligence or willful or intentional misconduct, under no circumstance shall a Party be responsible or liable for indirect, incidental, or consequential damages. In connection with this limitation of liability, each Party recognizes that the other Party may, from time to time, provide advice, make recommendations, or supply other analyses related to the services or facilities described in this Agreement, and, while each Party shall use diligent efforts in this regard, the Parties acknowledge and agree that this limitation of liability shall apply to provision of such advice, recommendations, and analyses.
- 10.4.5 To the extent any specific provision of this Agreement purports to impose liability, or limitation of liability, on either Party different from or in conflict with the liability or limitation of liability set forth in this Section, then with respect to the particular facts or circumstances covered by the more specific provision, the liability or limitation of liability contained in such specific provision shall apply. Nothing in this Section shall be interpreted to limit KMC Data's rights to remedies and/or claims provided or contemplated elsewhere in this Agreement.

- 10.5 Indemnification for Certain Claims. The Party providing services hereunder, its Affiliates and its parent company, shall be indemnified, except to the extent caused by the providing Party's gross negligence or willful misconduct, defended and held harmless by the Party receiving services hereunder against any claim, loss or damage arising from the receiving Party's use of the services provided under this Agreement pertaining to (1) claims for libel, slander or invasion of privacy arising from the content of the receiving Party's own communications, or (2) any claim, loss or damage claimed by the customer of the Party receiving services arising from such company's use or reliance on the providing Party's services, actions, duties, or obligations arising out of this Agreement.
- 10.5.1 Promptly after receipt of notice of the commencement of, or of any definite and colorable written claim or written threat as to the commencement of any action or proceeding relating to a matter or matters for which a Party may seek indemnification pursuant to this Section 10.5.1, such Party (the "Indemnified Party") shall promptly give written notice to the other Party (the "Indemnifying Party") of the action or proceeding so commenced (or claimed or threatened for commencement as aforesaid), whereupon the Indemnifying Party shall, be obligated (unless the Indemnified Party shall have otherwise waived such obligation in its sole and absolute discretion by its written election to maintain its own defense, subject, in such event and in all respects, to the exemptions from and limitations applicable to the Indemnifying Party's liability as provided in the final sentence of this Section 10.5.1) to assume the defense thereof at its sole cost and expense using counsel selected by the Indemnifying Party and reasonably acceptable to the Indemnified Party in its reasonable and good faith business judgment; provided that, the Parties hereby acknowledge and agree that the failure by an Indemnified Party to notify the Indemnifying Party as to a claim or the commencement (or written claim or threat of commencement) of any action or proceeding as aforesaid shall not relieve the Indemnifying Party of any liability it may have to the Indemnified Party with respect thereto, except and to the extent that the Indemnifying Party shall have actually and demonstrably incurred material prejudice, or suffered forfeiture of material substantive defenses or claims, resulting directly and exclusively from the failure to so notify. From and after assumption by an Indemnifying Party of the defense of any such pending (or claimed or threatened, as above) claim, action or proceeding, the Indemnified Party shall cooperate in a good faith and commercially-reasonable manner with the Indemnifying Party's reasonable requests for assistance or information relating to such action or proceeding, at the Indemnifying Party's sole cost and expense. The Indemnified Party shall retain the right to participate in the investigation and defense of such action or proceeding, with separate counsel chosen and paid for by the Indemnified Party. Unless the Indemnified Party shall have elected in its sole and absolute discretion to waive any further right to be indemnified with respect to any such action, proceeding or claim the Indemnified Party's counsel shall not unreasonably interfere with the defense by the Indemnifying Party and its counsel, and, absent a good faith and commercially reasonable basis therefore, as communicated in writing to the Indemnifying Party in reasonable detail, the

Indemnified Party's counsel shall not raise any claims, defenses, or objections or otherwise take a course of action in representation of the Indemnified Party when such course of action would unreasonably conflict with a course of action or inaction chosen by the Indemnifying Party. An Indemnifying Party shall not be liable under this Section 10.5.1 for settlements or compromises by the Indemnified Party of any claim, action or proceeding commenced (or claimed or threatened for commencement as aforesaid) as described in this Section 10.5.1 unless the Indemnifying Party shall have previously consented in writing thereto (such consent not to be unreasonably withheld, conditioned or delayed) or unless the Indemnifying Party has been given notice and reasonable opportunity to defend such claim, action or proceeding and has failed to promptly undertake the defense.

- 10.6 Disclaimer. EXCEPT AS SPECIFICALLY PROVIDED TO THE CONTRARY IN THIS AGREEMENT INCLUDING ALL ATTACHMENTS AND EXHIBITS HERETO AND ANY APPLICABLE SERVICE QUALITY STANDARDS, MEASURES, ASSURANCES AND ASSOCIATED REMEDIES ORDERED BY THE FCC OR COMMISSION, NEITHER PARTY MAKES ANY REPRESENTATIONS OR WARRANTIES TO THE OTHER PARTY CONCERNING THE SPECIFIC QUALITY OF ANY SERVICES, OR FACILITIES PROVIDED UNDER THIS AGREEMENT. THE PARTIES DISCLAIM, WITHOUT LIMITATION, ANY WARRANTY OR GUARANTEE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR FROM USAGES OF TRADE.

## 11. **Intellectual Property Rights and Indemnification**

- 11.1 No License. No patent, copyright, trademark or other proprietary right is licensed, granted or otherwise transferred by this Agreement. A Party's use of the other Party's name, service marks and trademarks shall be in accordance with Applicable Law.
- 11.2 Ownership of Intellectual Property. Any intellectual property that originates from or is developed by a Party shall remain the exclusive property of that Party. Except for a limited, non-assignable, non-exclusive, non-transferable license to use patents or copyrights to the extent necessary for the Parties to use any facilities or equipment (including software) or to receive any service solely as provided under this Agreement, no license in patent, copyright, trademark or trade secret, or other proprietary or intellectual property right, now or hereafter owned, controlled or licensable by a Party, is granted to the other Party. Neither shall it be implied nor arise by estoppel. Any trademark, copyright or other proprietary notices appearing on software or documents provided by one Party to the other Party for the receiving Party's internal use, shall not be removed provided that such notices are neither visible to nor detectable by the receiving Party's customers. It is the responsibility of each Party to ensure at no additional cost to the other Party that it has obtained any necessary licenses in relation to intellectual property of third Parties used in its network that may be required to enable the other Party to use

any facilities or equipment (including software), to receive any service, or to perform its respective obligations under this Agreement.

- 11.3 Indemnification. The Party providing a service pursuant to this Agreement will defend the Party receiving such service or data provided as a result of such service against claims of infringement arising solely from the use by the receiving Party of such service in the manner contemplated under this Agreement and will indemnify and hold harmless the receiving Party from and against any loss, cost, expense or liability associated with claims.
- 11.4 Claim of Infringement. In the event that use of any facilities or equipment (including software), becomes, or in the reasonable judgment of the Party who owns the affected network is likely to become, the subject of a claim, action, suit, or proceeding based on intellectual property infringement, then said Party shall promptly and at its sole expense:
- 11.4.1 modify or replace the applicable facilities or equipment (including software) while maintaining form and function, or
- 11.4.2 obtain a license sufficient to allow such use to continue, or
- 11.4.3 in the event that the actions contemplated by Section 11.4.1 or 11.4.2 are commercially unreasonable, then said Party may terminate, upon reasonable notice, this contract with respect to use of, or services provided through use of, the affected facilities or equipment (including software), but solely to the extent required to avoid the infringement claim.
- 11.4.4 Neither Party's obligations under this Section shall apply to the extent the infringement is caused by: (i) modification of the facilities or equipment (including software) by the indemnitee; (ii) use by the indemnitee of the facilities or equipment (including software) in combination with equipment or facilities (including software) not provided or authorized by the indemnitor, provided the facilities or equipment (including software) would not be infringing if used alone; (iii) conformance to specifications of the indemnitee which would necessarily result in infringement; or (iv) continued use by the indemnitee of the affected facilities or equipment (including software) after being placed on notice to discontinue use as set forth herein.
- 11.4.5 The foregoing shall constitute the Parties' sole and exclusive remedies and obligations with respect to a third party claim of intellectual property infringement arising out of the conduct of business under this Agreement.
- 11.5 Dispute Resolution. Any claim arising under this Section shall be excluded from the dispute resolution procedures set forth in Section 13 below and shall be brought in a court of competent jurisdiction.

12. **Proprietary and Confidential Information**

- 12.1 Proprietary and Confidential Information. It may be necessary for BellSouth and KMC Data, each as the “Discloser,” to provide to the other Party, as “Recipient,” certain proprietary and confidential information (including trade secret information) including but not limited to technical, financial, marketing, staffing and business plans and information, strategic information, proposals, request for proposals, specifications, drawings, maps, prices, costs, costing methodologies, procedures, processes, business systems, software programs, techniques, customer account data, call detail records and like information (collectively the “Information”). All such Information conveyed in writing or other tangible form shall be clearly marked with a confidential or proprietary legend. Information conveyed orally by the Discloser to Recipient shall be designated as proprietary and confidential at the time of such oral conveyance, shall be reduced to writing by the Discloser within forty-five (45) days thereafter, and shall be clearly marked with a confidential or proprietary legend.
- 12.1.1 Each Party shall have the right to correct an inadvertent failure to identify information as Confidential Information by giving written notification within forty-five (45) days after the information is disclosed. The Recipient shall, from that time forward, treat such information as Confidential Information subject to the provisions of this Section 12.
- 12.2 Use and Protection of Information. Recipient agrees to protect such Information of the Discloser provided to Recipient from whatever source from distribution, disclosure or dissemination to anyone except employees of Recipient with a need to know such Information solely in conjunction with Recipient’s analysis of the Information and for no other purpose except as authorized herein or as otherwise authorized in writing by the Discloser. Recipient will not make any of any kind of the Information inspected by it. The Recipient will use the same standard of care to protect Information received, as they would use to protect their own confidential and proprietary Information. Upon request the Information will be returned by the Recipient to the Discloser within thirty (30) days of completion of any use.
- 12.3 Exceptions. Recipient will not have an obligation to protect any portion of the Information which:
- 12.3.1 (a) is made publicly available by the Discloser or lawfully by a nonparty to this Agreement; (b) is lawfully obtained by Recipient from any source other than Discloser; (c) is previously known to Recipient without an obligation to keep it confidential; or (d) is released from the terms of this Agreement by Discloser upon written notice to Recipient.
- 12.4 Recipient agrees to use the Information solely for the purposes of negotiations pursuant to 47 U.S.C. § 251 or in performing its obligations under this Agreement and for no other entity or purpose, except as may be otherwise agreed to in writing by the Parties. Nothing herein shall prohibit Recipient from providing information requested by the FCC or a state regulatory agency with jurisdiction over this

matter, or to support a request for arbitration or an allegation of failure to negotiate in good faith.

- 12.5 Recipient agrees not to publish or use the Information for any advertising, sales or marketing promotions, press releases, or publicity matters that refer either directly or indirectly to the Information or to the Discloser or any of its affiliated companies.
- 12.6 The disclosure of Information neither grants nor implies any license to the Recipient under any trademark, patent, copyright, application or other intellectual property right that is now or may hereafter be owned by the Discloser.
- 12.7 Survival of Confidentiality Obligations. The Parties' rights and obligations under this Section 12 shall survive and continue in effect until two (2) years after the expiration or termination date of this Agreement with regard to all Information exchanged during the term of this Agreement. Thereafter, the Parties' rights and obligations hereunder survive and continue in effect with respect to any Information that is a trade secret under applicable law.

### 13. **Resolution of Disputes**

- 13.1 Except for procedures that outline the resolution of billing disputes which are set forth in Section 2 of Attachment 7 or as otherwise set forth in this Agreement, each Party agrees to notify the other Party in writing of a dispute concerning this Agreement. If the Parties are unable to resolve the issues relating to the dispute in the normal course of business then either Party shall file a complaint with the Commission or FCC to resolve such issues or, as explicitly otherwise provided for in this Agreement, may proceed with any other remedy pursuant to law or equity as provided for in this Section 13.
- 13.2 Except as otherwise stated in this Agreement, or for such matters which lie outside the jurisdiction or expertise of the Commission or FCC, if any dispute arises as to the enforcement of terms and conditions of this Agreement, and/or as to the interpretation of any provision of this Agreement, the aggrieved Party, to the extent seeking resolution of such dispute, must seek such resolution before the Commission or FCC in accordance with the Act. Each Party reserves any rights it may have to seek judicial review of any ruling made by the Commission or FCC concerning this Agreement. Either Party may seek expedited resolution by the Commission or FCC. Until the dispute is finally resolved, each Party shall continue to perform its obligations under this Agreement, unless the issue as to how or whether there is an obligation to perform is the basis of the dispute, and shall continue to provide all services and payments as prior to the dispute provided however, that neither Party shall be required to act in any unlawful fashion.
- 13.3 Except to the extent the Commission or FCC is authorized to grant temporary equitable relief with respect to a dispute arising as to the enforcement of terms and conditions of this Agreement, and/or as to the interpretation of any provision of this Agreement, this Section 13 shall not prevent either Party from seeking any

temporary equitable relief, including a temporary restraining order, in a court of competent jurisdiction.

- 13.4 In addition to Sections 13.1 and 13.2 above, each Party shall have the right to seek legal and equitable remedies on any and all legal and equitable theories in any court of competent jurisdiction for any and all claims, causes of action, or other proceedings not arising: (i) as to the enforcement of any provision of this Agreement, or (ii) as to the enforcement or interpretation under applicable federal or state telecommunications law. Moreover, if the Commission or FCC would not have authority to grant an award of damages after issuing a ruling finding fault or liability in connection with a dispute under this Agreement, either Party may pursue such award in any court of competent jurisdiction after such Commission or FCC finding.

14. **Taxes**

- 14.1 Definition. For purposes of this Section, the terms “taxes” and “fees” shall include but not be limited to federal, state or local sales, use, excise, gross receipts or other taxes or tax-like fees of whatever nature and however designated (including tariff surcharges and any fees, charges or other payments, contractual or otherwise, for the use of public streets or rights of way, whether designated as franchise fees or otherwise) imposed, or sought to be imposed, on or with respect to the services furnished hereunder or measured by the charges or payments therefore, excluding any taxes levied on income.

14.2 Taxes and Fees Imposed Directly On Either Providing Party or Purchasing Party.

- 14.2.1 Taxes and fees imposed on the providing Party, which are not permitted or required to be passed on by the providing Party to its customer or Customer, shall be borne and paid by the providing Party.

- 14.2.2 Taxes and fees imposed on the purchasing Party, which are not required to be collected and/or remitted by the providing Party, shall be borne and paid by the purchasing Party.

14.3 Taxes and Fees Imposed on Purchasing Party But Collected And Remitted By Providing Party.

- 14.3.1 Taxes and fees imposed on the purchasing Party shall be borne by the purchasing Party, even if the obligation to collect and/or remit such taxes or fees is placed on the providing Party.

- 14.3.2 To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing Party at the time that the respective service is billed.

- 14.3.3 If the purchasing Party determines that in its opinion any such taxes or fees are not payable, the providing Party shall not bill such taxes or fees to the purchasing Party if the purchasing Party provides written certification, reasonably satisfactory to the providing Party, stating that it is exempt or otherwise not subject to the tax or fee, setting forth the basis therefor, and satisfying any other requirements under applicable law. If any authority seeks to collect any such tax or fee that the purchasing Party has determined and certified not to be payable, or any such tax or fee that was not billed by the providing Party, the purchasing Party may contest the same in good faith, at its own expense. In any such contest, the purchasing Party shall promptly furnish the providing Party with copies of all filings in any proceeding, protest, or legal challenge, all rulings issued in connection therewith, and all correspondence between the purchasing Party and the taxing authority.
- 14.3.4 In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.
- 14.3.5 If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.
- 14.3.6 Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other charges or payable expenses (including reasonable attorney fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or contest of any such tax or fee.
- 14.3.7 Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) days after receipt of such assessment, proposed assessment or claim.
- 14.4 Taxes and Fees Imposed on Providing Party But Passed On To Purchasing Party.
- 14.4.1 Taxes and fees imposed on the providing Party, which are permitted or required to be passed on by the providing Party to its customer or Customer, shall be borne by the purchasing Party.
- 14.4.2 To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing

Party at the time that the respective service is billed. The Parties agree to use good faith efforts to bill taxes promptly.

- 14.4.3 If the purchasing Party disagrees with the providing Party's determination as to the application or basis for any such tax or fee, the Parties shall consult with respect to the imposition and billing of such tax or fee. Notwithstanding the foregoing, the providing Party shall retain ultimate responsibility for determining whether and to what extent any such taxes or fees are applicable, and the purchasing Party shall abide by such determination and pay such taxes or fees to the providing Party. The purchasing Party shall retain the right to contest, or to have the providing Party contest on its behalf, the imposition of such taxes and fees; provided however, that any such contest undertaken by or at the request of the purchasing Party shall be at the purchasing Party's expense.
- 14.4.4 In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.
- 14.4.5 If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.
- 14.4.6 Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other reasonable charges or payable expenses (including reasonable attorneys' fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or contest of any such tax or fee.
- 14.4.7 Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) days after receipt of such assessment, proposed assessment or claim.
- 14.5 Mutual Cooperation. In any contest of a tax or fee by one Party, the other Party shall cooperate fully by providing records, testimony and such additional information or assistance as may reasonably be necessary to pursue the contest. Further, the other Party shall be reimbursed for any reasonable and necessary out-of-pocket copying and travel expenses incurred in assisting in such contest.

## 15. **Network Maintenance and Management**

- 15.1 The Parties shall work cooperatively to implement this Agreement. The Parties shall exchange appropriate information (e.g., maintenance contact numbers,

network information, information required to comply with law enforcement and other security agencies of the Government, etc.) as reasonably required to implement and perform this Agreement.

15.2 Each Party hereto shall design, maintain and operate their respective networks as necessary to ensure that the other Party hereto receives service quality which is consistent with generally accepted industry standards at least at parity with the network service quality given to itself, its Affiliates, its customers or any other Telecommunications Carrier.

15.3 BellSouth agrees to provide KMC Data prior notice consistent with applicable FCC rules and the Act of changes in information or technical specifications necessary for the transmission and routing of services using BellSouth's facilities or networks, as well as other changes that affect the interoperability of those respective facilities and networks.

## 16. **Force Majeure**

16.1 In the event performance of this Agreement, or any obligation hereunder, is either directly or indirectly prevented, restricted, or interfered with by reason of fire, flood, earthquake or like acts of God, wars, revolution, civil commotion, explosion, acts of public enemy, embargo, acts of the government in its sovereign capacity, labor difficulties, including without limitation, strikes, slowdowns, picketing, or boycotts, unavailability of equipment from vendor, changes requested by KMC Data, or any other circumstances beyond the reasonable control and without the fault or negligence of the Party affected, the Party affected, upon giving prompt notice to the other Party, shall be excused from such performance on a day-to-day basis to the extent of such prevention, restriction, or interference (and the other Party shall likewise be excused from performance of its obligations on a day-to-day basis until the delay, restriction or interference has ceased); provided, however, that the Party so affected shall use diligent efforts to avoid or remove such causes of non-performance and both Parties shall proceed whenever such causes are removed or cease.

## 17. **Modification of Agreement**

17.1 BellSouth shall make agreements available to KMC Data in accordance with 47 USC § 252(i) and 47 C.F.R. § 51.809.

17.2 If KMC Data changes its name or makes changes to its company structure that affects the identity of KMC Data due to a merger, acquisition, transfer or any other reason, it is the responsibility of KMC Data to notify BellSouth of said change and request that an amendment to this Agreement, if necessary, be executed to reflect said change.

17.3 No modification, amendment, supplement to, or waiver of the Agreement or any of its provisions shall be effective and binding upon the Parties unless it is made in writing and duly signed by the Parties.

17.4 In the event that any (1) effective legislative, regulatory, judicial or other legal action or (2) obligation or commitment regarding interconnection, resale or access to network elements which obligation or commitment expressly applies generically to all CLECs made by BellSouth to any state or federal regulatory authority or the U.S. Department of Justice (Governmental Body) in connection with any merger or regulatory proceeding regarding BellSouth's obligations under the Act,) materially affects any material terms of this Agreement, or the ability of KMC Data or BellSouth to perform any material terms of this Agreement, KMC Data or BellSouth may, on thirty (30) days' written notice, require that such terms be renegotiated, and the Parties shall renegotiate in good faith such mutually acceptable new terms as may be required. In the event that such new terms are not renegotiated within forty-five (45) days after such notice, the Dispute may at any time thereafter be resolved in accordance with the Dispute Resolution procedure set forth in this Agreement.

18. **Non-Waiver of Legal Rights**

18.1 Execution of this Agreement by either Party does not confirm or imply that the executing Party agrees with any decision(s) issued pursuant to the Telecommunications Act of 1996. Neither Party waives its rights to appeal or otherwise challenge any such decision(s) and each Party reserves all of its rights to pursue any and all legal and/or equitable remedies, including appeals of any such decision(s).

19. **One Agreement**

19.1 Subject to the provisions of Sections 17 and 20, the Parties acknowledge that they negotiated this Agreement as a single contract and do not consider the separate Attachments of this Agreement to be separate contracts. Each Attachment contains provisions that are subject to the provisions of the General Terms and Conditions; application of some provisions may require or trigger application of provisions in other Attachments hereto.

20. **Severability**

20.1 If any provision of this Agreement, or part thereof, shall be held to be invalid or unenforceable in any respect, such invalidity or unenforceability shall not invalidate the entire Agreement, unless such construction would be unreasonable. The Agreement shall be construed as if it did not contain the invalid or unenforceable provision or provisions, and the rights and obligations of each Party shall be construed and enforced accordingly. Provided, however, that in the event such invalid or unenforceable provision or provisions are essential elements of this Agreement and substantially impair the rights or obligations of either Party, the Parties shall promptly negotiate a replacement provision or provisions. In the event the Parties are unable to mutually negotiate such replacement language, either Party may elect to pursue the dispute resolution process set forth in Section 13 above.

21. **No Waiver**

21.1 A failure or delay of either Party to enforce any of the provisions hereof, to exercise any option which is herein provided, or to require performance of any of the provisions hereof shall in no way be construed to be a waiver of such provisions or options, and each Party, notwithstanding such failure, shall have the right thereafter to insist upon the performance of any and all of the provisions of this Agreement.

22. **Governing Law**

22.1 Where applicable, this Agreement shall be governed by and construed in accordance with federal and state substantive telecommunications law, including rules and regulations of the FCC and appropriate Commission. In all other respects, this Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Georgia without regard to its conflict of laws principles.

23. **Assignments**

23.1 Except as provided herein, any assignment by either Party to any non-affiliated entity of any right, obligation or duty, or of any other interest hereunder, in whole or in part, without the prior written consent of the other Party shall be void. A Party may assign this Agreement or any right, obligation, duty or other interest hereunder to an Affiliate of the Party or to an entity purchasing all or substantially all of the Party's assets without the consent of the other Party; provided, however, that the assigning Party shall notify the other Party in writing of such assignment thirty (30) days prior to the Effective Date thereof and, provided further, if the assignee is an assignee of KMC Data, the assignee must provide evidence of Commission CLEC certification. The Parties shall amend this Agreement to reflect such assignments and shall work cooperatively to implement any changes required due to such assignment. All obligations and duties of any Party under this Agreement shall be binding on all successors in interest and assigns of such Party. No assignment or delegation hereof shall relieve the assignor of its obligations under this Agreement in the event that the assignee fails to perform such obligations. Notwithstanding anything to the contrary in this Section and unless the Parties agree otherwise, KMC Data shall not assign this Agreement to any Affiliate or non-affiliated entity unless either (1) KMC Data pays all bills, past due and current, under this Agreement, or (2) KMC Data's assignee expressly assumes liability for payment of such bills.

24. **Notices**

24.1 Every notice, consent, approval, or other communications required or contemplated by this Agreement shall be in writing and shall be delivered by hand, by overnight courier or by U.S. Mail postage prepaid, addressed to:

**BellSouth Telecommunications, Inc.**

BellSouth Local Contract Manager  
600 North 19<sup>th</sup> Street, 8<sup>th</sup> floor  
Birmingham, Alabama 35203

and

ICS Attorney  
Suite 4300  
675 W. Peachtree St.  
Atlanta, GA 30375

**KMC Telecom II, LLC**

**Marva Johnson**  
Senior Regulatory Counsel  
1755 North Brown Road, 3<sup>rd</sup> Floor  
Lawrenceville, GA 30043

- 24.2 Unless otherwise provided in this Agreement, notice by mail shall be effective on the date it is officially recorded as delivered by return receipt or equivalent, and in the absence of such record of delivery, it shall be presumed to have been delivered the fifth (5<sup>th</sup>) day, or next business day after the fifth (5<sup>th</sup>) day, after it was deposited in the mail. Notice by overnight courier shall be effective on the date it was delivered, except that notice delivered on a non-business day shall be deemed effective on the next business day.
- 24.3 Subject to Section 45.2 below, BellSouth will post changes to business processes and policies, notices of new service offerings, and changes to service offerings not requiring an amendment to this Agreement, notices required to be posted to BellSouth's web site, and any other information of general applicability to KMC Data.
25. **Rule of Construction**
- 25.1 No rule of construction requiring interpretation against the drafting Party hereof shall apply in the interpretation of this Agreement.
26. **Headings of No Force or Effect**
- 26.1 The headings of Articles and Sections of this Agreement are for convenience of reference only, and shall in no way define, modify or restrict the meaning or interpretation of the terms or provisions of this Agreement.
27. **Cooperation in Preventing Customer Fraud**

27.1 The Parties agree to cooperate fully with one another to investigate, minimize, prevent and take action in cases of fraud by a customer involving the provision of services to KMC Data under this Agreement.

28. **Revenue Protection**

28.1 BellSouth shall make available to KMC Data fraud prevention or revenue protection features, including prevention, detection, or control functionality embedded within any of the Network Elements or services provided pursuant to this Agreement. These features include switch functions such as screening codes and call blocking of international, 900 and 976 numbers. To the extent separate charges apply for such features, the charges will be set forth in the appropriate attachment to this Agreement or will be negotiated between the Parties and added to this Agreement via an amendment at such time as KMC Data requests the features.

29. **Law Enforcement Interface**

29.1 Both Parties shall work cooperatively to comply with all legal or regulatory requirements related to number recording devices, including, for example, orders related to trap and trace and wire taps.

30. **Multiple Counterparts**

30.1 This Agreement may be executed in multiple counterparts, each of which shall be deemed an original, but all of which shall together constitute but one and the same document.

31. **Filing of Agreement**

31.1 Upon execution of this Agreement BellSouth shall file the Agreement with the appropriate state regulatory agency pursuant to the requirements of Section 252 of the Act. Notwithstanding the foregoing, this Agreement shall not be submitted for approval by the appropriate state regulatory agency unless and until such time as KMC Data is duly certified as a local exchange carrier in such state, except as otherwise required by a Commission.

32. **Compliance with Applicable Law**

32.1 Each Party shall comply at its own expense with all applicable federal, state, and local statutes, laws, rules, regulations, codes, effective orders, injunctions, judgments and binding decisions, awards and decrees that relate to its obligations under this Agreement (Applicable Law).

32.2 This Agreement is intended to memorialize the Parties' mutual agreement with respect to their obligations under the Act and applicable FCC and Commission rules and orders. To the extent that either Party asserts that an obligation, right or other requirement, not expressly memorialized herein, is applicable under this

Agreement by virtue of a reference to an FCC or Commission rule or order or, with respect to substantive Telecommunications law only, Applicable Law, and such obligation, right or other requirement is disputed by the other Party, the Party asserting that such obligation, right or other requirement is applicable shall petition the Commission for resolution of the dispute and the Parties agree that any finding by the Commission that such obligation, right or other requirement exists shall be applied prospectively by the Parties upon amendment of the Agreement to include such obligation, right or other requirement and any necessary rates, terms and conditions, and the Party that failed to perform such obligation, right or other requirement shall be held harmless from any liability for such failure until the obligation, right or other requirement is expressly included in this Agreement by amendment hereto.

- 32.3 Where a Commission has adopted rates for network elements or services provided under this Agreement, as of the Effective Date, it is the intent of the Parties that the rate exhibits incorporated into this Agreement will be those rates, unless otherwise negotiated by the Parties. Upon request of either Party, errors in rate sheets will be corrected up to ninety (90) days retroactively, and prospectively, by amendment to this Agreement. This section shall not affect either Party's rights pursuant to Section 1.1.3 of Attachment 7 of this Agreement for charges other than those for which there is an error in the rates sheets.

### 33. **Necessary Approvals**

- 33.1 Each Party shall be responsible for obtaining and keeping in effect all approvals from, and rights granted by, governmental authorities, building and property owners, other carriers, and any other persons that may be required in connection with the performance of its obligations under this Agreement. Each Party shall reasonably cooperate with the other Party in obtaining and maintaining any required approvals and rights for which such Party is responsible.

### 34. **Good Faith Performance**

- 34.1 Each Party shall act in good faith in its performance under this Agreement. Where notice, approval, consent, agreement or similar action by a Party is permitted or required by any provision of this Agreement (including without limitation, the obligation of the Parties to further negotiate the resolution of new or open issues under this Agreement), such action will not be unreasonably delayed, withheld or conditioned.

### 35. **Independent Contracting Parties**

- 35.1 Each Party is an independent contractor, and has and hereby retains the right to exercise full control of and supervision over its own performance of its obligations under this Agreement, and retains full control over the employment, direction, compensation and discharge of its employees assisting in the performance of such obligations. Each Party shall be solely responsible for all matters relating to payment of such employees, including compliance with social security taxes,

withholding taxes and all other regulations governing such matters. Subject to the limitations on liability and except as otherwise provided in this Agreement, each Party shall be responsible for (i) its own acts and performance of all obligations imposed by Applicable Law in connection with its activities, legal status and property, real or personal and, (ii) the acts of its own Affiliates, employees, agents and contractors during the performance of the Party's obligations hereunder.

36. **Subcontracting**

36.1 If any obligation is performed through a subcontractor, each Party shall remain fully responsible for the performance of this Agreement in accordance with its terms, including any obligations either Party performs through subcontractors, and each Party shall be solely responsible for payments due the Party's subcontractors. No contract, subcontract or other Agreement entered into by either Party with any third party in connection with the provision of any facilities or services provided herein, shall provide for any indemnity, guarantee or assumption of liability by, or other obligation of, the other Party to this Agreement with respect to such arrangement, except as consented to in writing by the other Party. No subcontractor shall be deemed a third party beneficiary for any purposes under this Agreement. Any subcontractor who gains access to CPNI or Confidential Information covered by this Agreement shall be required by the subcontracting Party to protect such CPNI or Confidential Information to the same extent that the subcontracting Party is required to protect the same under the terms of this Agreement.

37. **Labor Relations**

37.1 The Parties shall endeavor to minimize impairment of service to the other Party in the event of a labor dispute to the extent permitted by Applicable Law.

38. **Compliance with the Communications Assistance for Law Enforcement Act of 1994 (CALEA)**

38.1 Each Party represents and warrants that any equipment, facilities or services provided to the other Party under this Agreement comply with CALEA. Each Party shall indemnify and hold the other Party harmless from any and all penalties imposed upon the other Party for such other Party's noncompliance.

39. **Customer Inquiries**

39.1 Calls About the Other Party's Products and Services. Each Party shall refer all questions regarding the other Party's services or products directly to the other Party at a telephone number specified by the other Party. Each Party shall ensure that all their representatives who receive inquiries regarding the other Party's services or products: (i) provide such numbers, if available to the personnel receiving the call, to callers who inquire about the other Party's services or products; (ii) do not in any way disparage or discriminate against the other Party, or its products or services; and (iii) do not provide information about their

products or services during that same inquiry/subscriber contact, unless that information specifically is requested by the caller. Subject to the limitations of this Section, both Parties maintain the right to serve directly any customer within the service area of the other Party. Both Parties may directly market their own telecommunications products and services and in doing so may establish independent relationships with customers of the other Party.

40. **Additional Fair Competition Requirements**

40.1 In the event that BellSouth transfers facilities or other assets to an Affiliate during the term of this Agreement, which are necessary in order for BellSouth to comply with its obligations under this Agreement, and BellSouth is required by law to continue to provide such interconnection, services or network elements under this Agreement even after such transfer, then such obligations hereunder shall survive and BellSouth shall continue to perform such obligations. In the event that BellSouth transfers facilities or other assets to an Affiliate during the term of this Agreement, which are necessary in order for BellSouth to comply with its obligations under this Agreement, and BellSouth is relieved of its obligations to provide such interconnection, services or network elements, but such Affiliate is required by law to perform such obligations to the extent that BellSouth was required to, then BellSouth shall be relieved of its obligations hereunder and such obligations shall survive and transfer to such Affiliate pursuant to the Assignment Section hereof.

40.2 BellSouth shall allow KMC Data's local exchange customer to select BellSouth for the provision of intraLATA toll services to the extent BellSouth makes such stand alone intraLATA services available to the general public on a nondiscriminatory basis.

40.3 Each Party shall protect the confidentiality of proprietary information of, and relating to, the other Party and its customers or any other carrier. If either Party receives or obtains proprietary information from the other for the purposes of providing services under this agreement, such Party shall use such information only for such purpose and shall not use such information for its own marketing purpose.

41. **Posting of Agreements**

41.1 BellSouth shall post on its Web site any BellSouth interconnection agreement between BellSouth and any third party no later than ten (10) days after the approval of such agreement with the Commission.

42. **Nonexclusive Dealings**

42.1 This Agreement does not prevent either Party from providing or purchasing services to or from any other person.

43. **Rate True-Up**

- 43.1 This Section applies to Network Interconnection and/or Unbundled Network Elements and Other Services rates that are expressly subject to true-up under this Agreement.
- 43.2 The designated true-up rates shall be trued-up, either up or down, based on final prices determined either by further agreement between the Parties, or by a final order of the Commission. The Parties shall implement the true-up by comparing the actual volumes and demand for each item, together with the designated true-up rates for each item, with the final prices determined for each item. Each Party shall keep its own records upon which the true-up can be based, and any final payment from one Party to the other shall be in an amount agreed upon by the Parties based on such records. In the event of any disagreement as between the records or the Parties regarding the amount of such true-up, the Parties shall submit the matter to the Dispute Resolution process in accordance with the provisions of Section 13 above of the General Terms and Conditions of this Agreement.
44. **Survival**
- 44.1 In no event shall the expiration or termination for any reason of this Agreement relieve either Party of any liability or obligation accruing in favor of the other Party in respect of acts or omissions occurring prior thereto. Any liabilities and all obligations of each Party under the provisions regarding indemnification, confidentiality of information, liability, and any other provisions of this Agreement that by their specific nature or express terms are contemplated to survive (or be performed) thereafter shall survive expiration or termination.
45. **Entire Agreement**
- 45.1 This Agreement means the General Terms and Conditions, the Attachments identified in Section 45.4 below, and subject to the limitations set forth in Section 45.2 all documents identified herein. This Agreement sets forth the entire understanding and supersedes prior agreements between the Parties relating to the subject matter contained in this Agreement and merges all prior discussions between them. Any orders placed under prior agreements between the Parties shall be governed by the terms of this Agreement. Any and all amounts and obligations owed for services provisioned or orders placed under prior agreements between the Parties, related to the subject matter hereof, shall be due and owing under this Agreement and be governed by the terms and conditions of this Agreement as if such services or orders were provisioned or placed under this Agreement. Neither Party shall be bound by any definition, condition, provision, representation, warranty, covenant or promise other than as expressly stated in this Agreement or as is contemporaneously or subsequently set forth in writing and executed by a duly authorized officer or representative of the Party to be bound thereby.
- 45.2 **Guides**

#### 45.2.1

The Parties acknowledge that certain provisions of this Agreement reference certain BellSouth documents and publications (collectively referred to herein as the "Guides"). All Guides referred to in this Agreement, are incorporated herein and made a part hereof by reference. To the extent that there is a conflict between a provision of a Guide and a provision of this Agreement, the provision of this Agreement shall prevail. BellSouth may, from time to time during the term hereof, change or alter said Guides (including replacing a Guide entirely with a successor Guide with a different name). The Parties agree that if the change or alteration was made to BellSouth's OSS interface Guides as a result of the Change Control Process (CCP), results from a revision to a generally accepted and implemented industry standard or guideline (e.g. Ordering Billing Forum (OBF), Telcordia guidelines, etc.), or other legal requirement directly affecting the Guides provided, if such legal requirement would be subject to the change of law provision in these General Terms and Conditions, the change to the Guide would not be applicable until this Agreement is amended to reflect the update to the Guide, or if KMC Data agrees to such change or alteration, any such change or alteration shall become effective as specified in the terms of the notice to KMC Data via the applicable Internet website posting. In all other cases, a change in a Guide which (1) alters, amends or conflicts with any term of this Agreement; (2) changes any charge or rate, or the application of any charge or rate, specified in this Agreement; (3) adds a new rate or rate element not previously specified in the Agreement; (4) causes KMC Data to incur material cost or expense to implement the change or alteration; or (5) increases an interval set forth in this agreement, will not be effective with respect to KMC Data until BellSouth and KMC Data sign an amendment to this Agreement reflecting the changes described in items (1), (2), (3) or (5); or unless KMC Data fails to inform BellSouth in writing that it does not agree to such change or alteration within forty-five (45) days of notice of such change being given to KMC Data for item (4). For purposes of item (4), a cost or expense shall be deemed material if it imposes a financial burden on KMC Data, but shall not include costs associated with disseminating notice of the change or providing training regarding the change to employees. In addition, BellSouth will use its best efforts, upon KMC Data's request to BellSouth's Interconnection Services (ICS) Web site group at [wmag@bellsouth.com](mailto:wmag@bellsouth.com), to provide such notices via e-mail to the address specified by KMC Data.

In the event that the Parties disagree as to whether any alteration or amendment described in this Section is effective as to KMC Data pursuant to the requirements of this Section, either Party may, at its option, seek resolution of the dispute in accordance with the Dispute Resolution provisions in the General Terms and Conditions of this Agreement. In cases where there is a dispute with respect to any alteration or amendment described in this Section becoming effective as to KMC Data, such alteration or amendment described in this Section shall not become effective as to KMC Data until there is mutual agreement between the Parties that it should become effective or an order resulting from the Dispute Resolution process finding in favor of its becoming effective.

45.3 In various provisions of this Agreement, the Parties have included references to tariffs filed by the Parties. If such tariff is referenced for the purposes of a service that is provisioned pursuant to such tariff, and there is a conflict between such referenced tariff provisions and this Agreement, the terms of the tariff shall control. If the service is provisioned pursuant to this Agreement but the tariff is referenced for a rate, an interval or another purpose, to the extent that there is a conflict between such referenced tariff provision and this Agreement, and except as otherwise set forth in this Agreement, the terms of this Agreement shall prevail.

45.4 This Agreement includes eleven (11) Attachments with provisions for the following:

- Resale
- Network Elements and Other Services
- Network Interconnection
- Collocation
- Access to Numbers and Number Portability
- Pre-Ordering, Ordering, Provisioning, Maintenance and Repair
- Billing
- Rights-of-Way, Conduits and Pole Attachments
- Performance Measurements
- BellSouth Disaster Recovery Plan
- Bona Fide Request/New Business Request Process

45.5 The following services are included as options for purchase by KMC Data pursuant to the terms and conditions set forth in this Agreement. KMC Data may elect to purchase said services by written request to its Local Contract Manager if applicable:

- Optional Daily Usage File (ODUF)
- Enhanced Optional Daily Usage File (EODUF)
- Access Daily Usage File (ADUF)
- Line Information Database (LIDB) Storage
- Centralized Message Distribution Service (CMDS)
- Calling Name (CNAM)
- LNP Data Base Query Service

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

## **RESALE**

### **1. Discount Rates**

- 1.1 The Commission-approved discount rates applied to KMC Data purchases of BellSouth Telecommunications Services for the purpose of resale shall be as set forth in Exhibit E. Such discounts have been determined by the applicable Commission to reflect the costs avoided by BellSouth when selling a service for wholesale purposes.
- 1.2 The telecommunications services available for purchase by KMC Data for the purposes of resale to KMC Data's customers shall be available at BellSouth's tariffed rates less the discount set forth in Exhibit E to this Agreement and subject to the exclusions and limitations set forth in Exhibit A to this Agreement.

### **2. Definition of Terms**

- 2.1 CUSTOMER OF RECORD means the entity responsible for placing application for service; requesting additions, rearrangements, maintenance or discontinuance of service; payment in full of charges incurred such as nonrecurring, monthly recurring, toll, directory assistance, etc.
- 2.2 RESALE means an activity wherein a certificated CLEC, such as KMC Data, subscribes to the telecommunications services of BellSouth and then offers those telecommunications services to the public.

### **3. General Provisions**

- 3.1 All of the negotiated rates, terms and conditions set forth in this Attachment pertain to the resale of BellSouth's retail telecommunications services and other services specified in this Attachment. BellSouth shall make available to KMC Data for resale those telecommunications services that BellSouth is required to offer for resale pursuant to the 1996 Act and applicable FCC and Commission rules and orders. BellSouth currently makes such services available pursuant to its General Subscriber Services Tariff (GSST) and Private Line Services Tariff.
- 3.1.1 When KMC Data provides Resale service in a cross boundary area (areas that are part of the local serving area of another state's exchange) the rates, regulations and discounts for the tariffing state will apply. Billing will be from the serving state.
- 3.1.2 In Tennessee, if KMC Data does not resell Lifeline service to any end users, and if KMC Data agrees to order an appropriate Operator Services/Directory Assistance block as set forth in BellSouth's General Subscriber Services Tariff, the discount shall be 21.56%.

- 3.1.2.1 In the event KMC Data resells Lifeline service to any end user in Tennessee, BellSouth will begin applying the 16% discount rate to all services. Upon KMC Data and BellSouth's implementation of a billing arrangement whereby a separate Master Account (Q-account) associated with a separate Operating Customer Number (OCN) is established for billing of Lifeline service end users, the discount shall be applied as set forth in 3.1.2 preceding for the non-Lifeline affected Master Account (Q-account).
- 3.1.2.2 KMC Data must provide written notification to BellSouth within thirty (30) days prior to either providing its own operator services/ directory services or orders the appropriate operator services/directory assistance blocking, to qualify for the higher discount rate of 21.56%.
- 3.2 KMC Data may purchase resale services from BellSouth for its own use in operating its business. The resale discount will apply to those services under the following conditions:
  - 3.2.1 KMC Data must resell services to other customers.
  - 3.2.2 KMC Data cannot be a CLEC for the single purpose of selling to itself.
- 3.3 KMC Data will be the customer of record for all services purchased from BellSouth. Except as specified herein, BellSouth will take orders from, bill and receive payment from KMC Data for said services.
- 3.4 BellSouth shall have no contact with the customer except to the extent provided for in this Agreement.
- 3.5 Nothing herein shall affect BellSouth's rights, consistent with applicable law, to: (i) bill the customer for any services that the customer specifies it wishes to receive directly from BellSouth, (ii) serve directly any customer within the service area of KMC Data, or (iii) market directly its own telecommunications products and services and in doing so may establish independent relationships with customers of KMC Data consistent with applicable law.
  - 3.5.1 When a customer of KMC Data or BellSouth elects to change his/her carrier to the other Party, both Parties agree to release the customer's service to the other Party concurrent with the due date of the service order, which shall be established based on the reasonable and non discriminatory standard interval for the customer's requested service as set forth in the BellSouth Product and Services Interval Guide.
  - 3.5.2 BellSouth and KMC Data will refrain from contacting a customer who has placed or whose selected carrier has placed on the customer's behalf an order to change the customer's service provider from BellSouth or KMC Data to the other Party until such time that the order for service has been completed. The Parties agree to

comply with any applicable FCC and Commission rules and orders with respect to contacting customers who have elected to change telecommunications carriers.

- 3.6 Neither Party nor the customer has a property right to the telephone number or any other call number designation associated with services furnished by BellSouth, and no right to the continuance of service through any particular central office. The customer to whom a telephone number associated with services furnished by BellSouth has been assigned has the right to continue using the telephone number to receive those services unless BellSouth is required to change the telephone number in connection with the implementation of area code relief in the form of a geographic split and/or NXX change, in which case BellSouth shall have the right to change the telephone numbers, the central office designation associated with such numbers or both after providing KMC Data a period of notice in accordance with the FCC's Notices of Network Change rules. Such number changes shall be done only when BellSouth deems it necessary to do so in the conduct of its business and in accordance with BellSouth practices and procedures on a reasonable and nondiscriminatory basis. Nothing in this Agreement shall affect the ability of a customer to port any telephone number associated with services furnished by BellSouth to a different service provider in accordance with applicable FCC rules and industry guidelines.
- 3.7. Service is furnished subject to the condition that it will not be used for any unlawful purpose.
- 3.8. Service will be discontinued if any law enforcement agency advises that the service being used is in violation of the law.
- 3.9. BellSouth can refuse service in accordance with Section A2.2.9 of its GSST and Section B2.2.2 of its Private Line Services Tariffs.
- 3.10. BellSouth will cooperate with law enforcement agencies with subpoenas and court orders relating to KMC Data's customers, pursuant to Section 6 of the General Terms and Conditions.
- 3.11. If appropriate KMC Data personnel have actual knowledge that one of its customers is utilizing a BellSouth resold telecommunications service in a manner that is not consistent with the terms and conditions of the tariff applicable to such service, KMC Data will take corrective action and will discontinue provisioning of such service if not cured within thirty (30) days.
- 3.12 Facilities and/or equipment utilized by BellSouth to provide service to KMC Data remain the property of BellSouth.
- 3.13 White page directory listings for KMC Data customers will be provided in accordance with Section 5 of the General Terms and Conditions.
- 3.14 Service Ordering and Operational Support Systems (OSS)

- 3.14.1 KMC Data must order services through resale interfaces, i.e., the Local Carrier Service Center (LCSC) and/or appropriate Complex Resale Support Group (CRSG) pursuant to this Agreement. BellSouth has developed and made available the interactive interfaces by which KMC Data may submit a Local Service Request (LSR) electronically as set forth in Attachment 2 of this Agreement. Service orders will be in a reasonable standard format designated by BellSouth and will be required on a nondiscriminatory basis.
- 3.14.2 LSRs submitted by means of one of these interactive interfaces will incur an OSS electronic charge as set forth in Exhibit E to this Attachment 1. An individual LSR will be identified for billing purposes by its Purchase Order Number (PON). LSRs submitted by means other than one of these interactive interfaces (Mail, fax, courier, etc.) will incur a manual order charge as set forth in Exhibit E to this Attachment 1. Supplements or clarifications to a previously billed LSR will not incur an additional OSS charge over and above the original OSS charge.
- 3.14.3 Denial/Restoral OSS Charge. In the event KMC Data provides a list of customers to be denied and restored, rather than an LSR, each location on the list will require a separate PON and therefore will be billed as one LSR per location.
- 3.14.4 Cancellation OSS Charge. KMC Data will incur an OSS charge for an accepted LSR that is later canceled.
- 3.15 BellSouth shall provide 911/E911 for KMC Data customers in the same manner that it is provided to BellSouth customers. BellSouth shall provide and validate KMC Data customer information to the Public Service Answering Point (PSAP). BellSouth shall use its service order process to update and maintain, on the same schedule that it uses for its customers, the KMC Data customer service information in the ALI/DMS (Automatic Location Identification/Location Information) databases used to support 911/E911 services.
- 3.16 BellSouth shall bill, and KMC Data shall pay, the customer line charge associated with implementing Number Portability as set forth in BellSouth's FCC No. 1 tariff. This charge is not subject to the wholesale discount.
- 3.17 Pursuant to 47 C.F.R. § 51.617, BellSouth shall bill to KMC Data, and KMC Data shall pay, the customer common line charges identical to the customer common line charges BellSouth bills its customers.
- 3.18 New Resale Services/Changes in Provision of Resale Services. BellSouth may provide KMC Data notice via Internet posting of price changes and changes to the terms and conditions of services available for resale. BellSouth shall provide notice within the timeframes ordered by the Commission for the provision of notice to CLECs by BellSouth regarding changes to resold services. Where no such Commission requirement exists, BellSouth shall provide notice of discontinuance of resold services and notice of rate increases on resold services ten (10) days prior

to KMC Data's obligation to provide notice of discontinuance of resold services and notice of rate increases on resold services to its customers pursuant to Commission rule or order. BellSouth will post on its website changes to business processes and policies, notices of new service offerings, and changes to service offerings not requiring an amendment to this Agreement, notices required to be posted, and any other information of general applicability to CLECs.

**4. BellSouth's Provision of Services to KMC Data for Resale**

4.1 The resale of telecommunications services shall be limited to users and uses conforming to the class of service restrictions.

4.1.1 BellSouth may request relevant documentation related to services purchased by KMC Data to verify KMC Data's claims for discounts and asserted volumes, if BellSouth has a reasonable basis upon which to suspect that such claims are invalid. Such request shall be made on a nondiscriminatory basis and shall not occur more than once in a twelve (12) month period. KMC Data shall maintain sufficient records and data, for a period up to six (6) months, that are relevant and reasonably necessary to determine compliance with tariff provisions regarding such discounts and for verifying asserted volumes to BellSouth. BellSouth shall bear the costs associated with said request if such claims for discounts and volumes are valid. Any information provided by KMC Data for purposes of such request shall be deemed Confidential Information pursuant to the General Terms and Conditions of this Agreement.

4.2 Subject to Exhibit A hereto, resold services can only be used in the same manner as specified in BellSouth's Tariffs. Resold services are subject to the same terms and conditions as are specified for such services when furnished to an individual customer of BellSouth in the appropriate section of BellSouth's Tariffs. In accordance with FCC 47 C.F.R. § 51.603, BellSouth will provide services to KMC Data for resale that are equal in quality, subject to the same conditions, and provided within the same provisioning time intervals that BellSouth provides these services to others, including customers. Usage allowances (e.g., Business Plus\* service) described in BellSouth's tariffs shall not be aggregated for more than one customer or across multiple resold services. Volume discount offerings (e.g., Watsaver® service) may be aggregated by KMC Data for multiple customers.

4.3 KMC Data may resell services only within the specific service area as defined in its certificate of operation approved by the Commission.

4.4 If KMC Data cancels an order for resold services, any costs incurred by BellSouth in conjunction with provisioning of such order will be recovered in accordance with BellSouth's GSST and Private Line Services Tariffs.

4.5 Service Jointly Provisioned with an Independent Company or Competitive Local Exchange Company Areas

- 4.5.1 BellSouth will in some instances provision resold services in accordance with the GSST and Private Line Tariffs jointly with an Independent Company or other CLEC.
- 4.5.2 When KMC Data assumes responsibility for such service, all terms and conditions defined in the Tariff will apply for services provided within the BellSouth service area only.
- 4.5.3 Service terminating in an Independent Company (ICO) or other CLEC area will be provisioned and billed by the ICO or other CLEC directly to KMC Data.
- 4.5.4 KMC Data must establish a billing arrangement with the ICO or other CLEC prior to assuming a customer account where such circumstances apply.
- 4.6 Requirements for Specific Services. BellSouth shall make available for resale the services included in this Section 4.6 at the discounts set forth in Exhibit E to this Attachment and in accordance with Exhibit A to this Attachment.
- 4.6.1 Lifeline and Link-up. BellSouth shall make available Lifeline and Link-up Services for resale in accordance with Commission and FCC rules and regulations and with the reasonable and nondiscriminatory terms and conditions set forth in BellSouth's applicable tariffs. Such services shall be available to KMC Data for resale only to those KMC Data subscribers who meet the qualifications as set forth in applicable regulations. BellSouth shall indicate with a USOC on the customer service record if an end user is subscribing to Lifeline or Link-up. KMC Data shall comply with all aspects of the FCC's and the Commission's orders and rules implementing Lifeline and Link-up programs. To the extent other Voluntary Federal Subscriber Financial Assistance Programs are offered by BellSouth and to the extent BellSouth is required to make such programs available for resale, such programs shall be offered to KMC Data on rates, terms and conditions as required by Applicable Law.
- 4.6.2 Grandfathered Services. BellSouth shall offer for resale to KMC Data pursuant to FCC 47 C.F.R. § 51.615 all grandfathered services.
- 4.6.3 N11 Service. BellSouth shall make available for resale any existing N11 services at the discount rates set forth in Exhibit E to this Attachment 1 and in accordance with Exhibit A to this Attachment 1.
- 4.6.4 911/E911 Service. KMC Data shall have the right to resell 911 or E911 services.
- 4.6.5 Customer Specific Offerings Including Contract Service Arrangements (CSAs) and other contractual arrangements. CSAs shall be available for resale, at the same rates, terms and conditions offered to BellSouth's customers, and in accordance with Commission and FCC Rules and Regulations less the wholesale discount set forth in Exhibit E to this Attachment 1. In cases where KMC Data resells an existing CSA, termination liability will not be triggered by a transfer of the CSA

from BellSouth to KMC Data. KMC Data may resell an existing CSA to the existing customer or to another similarly situated customer. Customers are similarly situated if their quantity of use and time of use, and the manner and costs of service are the same.

- 4.6.6 Promotions. For purposes of this Agreement, a “short term” promotion will be as set forth in FCC 47 C.F.R. § 51.613.
- 4.6.6.1 BellSouth shall make Telecommunications Services subject to short term promotions available to KMC Data at the short term promotional rate consistent with Exhibit A.
- 4.6.6.2 The inclusion of a telecommunications service, available for resale at a resale discount, as a component of a promotion, shall not relieve BellSouth of the obligation to offer such underlying telecommunications service separately for resale at the resale discount.
- 4.6.6.3 Promotions of greater than 90 days will be available to KMC Data for resale.
- 4.6.7 Special Assemblies. Existing special assembly agreements for telecommunications services shall be available for resale, at the same terms and conditions offered to BellSouth’s customers. A special assembly shall be made available for resale at the price of the special assembly less the wholesale discount. KMC Data shall be responsible for all terms and conditions of such special assembly including but not limited to termination liability if applicable. Termination liability will not be triggered as a result of a transfer of the special assembly from BellSouth to KMC Data.
- 4.6.8 Volume Discount Plans. Subject to Section 4.2 to the extent BellSouth offers, pursuant to its Tariffs, any services the rate for which varies depending upon the volume purchased or the term for which the subscribers commit to purchase such service, BellSouth shall offer such services on the same terms and conditions to KMC Data.
- 4.6.9 Pay Phone Service. BellSouth shall make available to KMC Data for resale Public Telephone Access Services (pay phone/PTAS) to the extent BellSouth is required to do so pursuant to FCC and Commission rules.
- 4.6.10 Voice Mail Service. Where available to BellSouth’s customers, BellSouth shall provide the following Telecommunications Services at a discount, as set forth in Exhibit E of this Attachment 1, for use in conjunction with voice mail services:
- Message Waiting Indicator (MWI) stutter dial tone and message waiting light feature capabilities.
  - CF/Busy (Call Forward Busy Line).
  - CF/DA (Call Forward Don’t Answer).

The services listed in BellSouth's Messaging Services Information Package shall be made available for resale, without the wholesale discount, in conjunction with other tariff services offered for resale.

- 4.6.11 BellSouth shall provide branding for, or shall unbrand, voice mail services for KMC Data per the Bona Fide Request/New Business Request process as set forth in Attachment 11 of this Agreement.
- 4.6.12 Hotel and Hospital PBX services are the only telecommunications services available for resale to Hotel/Motel and Hospital customers, respectively in accordance with Section A2 of BellSouth's GSST. Similarly, Access Line Service for Customer Provided Coin Telephones is the only local service available for resale to Payphone Service Provider (PSP) customers in accordance with Section A7 of BellSouth's GSST. Shared Tenant Service customers can only be sold those local exchange access services available in Section A23 of BellSouth's GSST in the states of Florida, Georgia, North Carolina and South Carolina, and in Section A27 of BellSouth's GSST in the states of Alabama, Kentucky, Louisiana, Mississippi and Tennessee. Notwithstanding the foregoing, if BellSouth offers other services that BellSouth is obligated to make available for resale to CLECs at the wholesale discount to Hotel/Motel and Hospital customers, PSPs and shared tenant services customers, such services shall be available to KMC Data for resale to such customers.
- 4.6.13 Advanced Intelligent Network (AIN). BellSouth shall provide for resale all Advanced Intelligent Network (AIN) services currently provided pursuant to BellSouth's GSST.
- 4.6.14 Miscellaneous Service Arrangements. KMC Data may purchase at the wholesale discount set forth in Exhibit E to this Attachment 1, the entire set of Miscellaneous Service Arrangements (contained in Section A13 of the GSST with the exception of Information Services), or a subset of any one or any combination of such features on an customer-specific basis, without restriction on the minimum or maximum number of lines and features that may be purchased for any one level of service to the extent such restrictions do not apply to BellSouth's retail customers.
- 4.6.15 Blocking Service. BellSouth shall provide call blocking of 700, 900, and 976 services upon request as well as bill to third party and collect calls from KMC Data on a line or trunk basis at parity pursuant to Section A13.9 of BellSouth's GSST.
- 4.6.16 Busy Line Verification (BLV) and Emergency Line Interrupt (ELI). Where BellSouth does not route operator services traffic to KMC Data's platform, BellSouth shall perform BLV/ELI for KMC Data on resold BellSouth lines.

- 4.6.17 Inside Wire Maintenance Plan. BellSouth's Inside Wire Maintenance Service Plan is available for resale in accordance with Exhibit A to this Attachment 1 and with Commission and FCC rules and regulations.
- 4.6.18 MemoryCall Service. BellSouth's MemoryCall Service is available for resale in accordance with Exhibit A to this Attachment 1 and with Commission and FCC rules and regulations.
- 4.6.19 Mobile Services. BellSouth's Mobile Services is available for resale in accordance with Exhibit A to this Attachment 1 and with Commission and FCC rules and regulations.
- 4.6.20 Federal Subscriber Line Charges. BellSouth's Federal Subscriber Line Charges will be passed on to KMC Data.
- 4.6.21 NonRecurring Charges. NonRecurring Charges associated with services available for resale, where applicable, will be assessed at the discount rates set forth in Exhibit E to this Attachment 1 and in accordance with Exhibit A to this Attachment and with Commission and FCC rules and regulations.
- 4.6.22 Customer Line Change/Number Portability Charge. BellSouth's Customer Line Change/Federal Number Portability Charge will be passed on to KMC Data.
- 4.6.23 AdWatch Service. BellSouth's AdWatch Service is available for resale at the discount rates set forth in Exhibit E to this Attachment 1 and in accordance with Exhibit A to this Attachment and with Commission and FCC rules and regulations.

## **5. Maintenance of Services**

- 5.1 Services resold pursuant to this Attachment and BellSouth's GSST and Private Line Service Tariff and facilities and equipment provided by BellSouth shall be maintained by BellSouth.
- 5.2 KMC Data or its customers may not rearrange, move, disconnect, remove or attempt to repair any facilities owned by BellSouth except with the written consent of BellSouth.
- 5.3 To the extent known by appropriate personnel, KMC Data will use best efforts to notify BellSouth of situations that arise that may result in a service problem. BellSouth will advise KMC Data of any central office, facility, or network failure that is known at the time of any inquiry or trouble report by KMC Data.
- 5.4 KMC Data will contact the appropriate repair centers in accordance with procedures established in the BellSouth Operational Understanding Guide located at [http://www.interconnection.bellsouth.com/guides/html/other\\_guides/html](http://www.interconnection.bellsouth.com/guides/html/other_guides/html).

- 5.5 For all repair requests, KMC Data shall adhere to BellSouth's prescreening guidelines prior to referring the trouble to BellSouth as set forth in the BellSouth Operational Understanding Guide located at [http://www.interconnection.bellsouth.com/guides/html/other\\_guides/html](http://www.interconnection.bellsouth.com/guides/html/other_guides/html).
- 5.6 BellSouth will bill KMC Data for handling troubles that are found not to be in BellSouth's network pursuant to its standard time and material charges. The standard time and material charges will be no more than what BellSouth charges to its retail customers for handling troubles that are not found to be in BellSouth's network.
- 5.7 BellSouth reserves the right to contact KMC Data's customers, if deemed necessary, for maintenance purposes.
- 6. Establishment of Account**
- 6.1 Establishment of an account for resale will be done according to the terms of Section 1.2 of Attachment 7 to this Agreement.
- 7 Establishment of Service**
- 7.1 BellSouth will accept a request directly from the customer for conversion of the customer's service from KMC Data to BellSouth or will accept a request from another CLEC for conversion of the customer's service from KMC Data to such other CLEC. Upon completion of the conversion BellSouth will notify KMC Data that such conversion has been completed.
- 8. Discontinuance of Service to Customers**
- 8.1 The procedures for discontinuing service to a customer are as follows:
- 8.1.1 BellSouth will deny service to KMC Data's customer on behalf of, and at the request of, KMC Data. Upon restoration of the customer's service, restoral charges will apply and will be the responsibility of KMC Data.
- 8.1.2 At the request of KMC Data, BellSouth will disconnect a KMC Data customer.
- 8.1.3 All requests by KMC Data for denial or disconnection of a customer for nonpayment must be in writing.
- 8.1.4 KMC Data will be made solely responsible for notifying the customer of the proposed disconnection of the service.

**9. Discontinuance of Service to KMC Data**

- 9.1 Discontinuance of service to KMC Data will be done according to the terms of Section 1.6 of Attachment 7 to this Agreement.

**10. Operator Services (Operator Call Processing and Directory Assistance)**

- 10.1 Operator Call Processing (OCP). OCP provides: (1) operator handling for call completion (for example, collect, third number billing, and manual calling-card calls). (2) operator or automated assistance for billing after the customer has dialed the called number (for example, calling card calls); and (3) special services including but not limited to BLV and ELI, Emergency Agency Call and Operator-assisted Directory Assistance (DA).
- 10.2 Upon request for BellSouth OCP, BellSouth shall:
- 10.2.1 Process 0+ and 0- dialed local calls.
  - 10.2.2 Process 0+ and 0- intraLATA toll calls.
  - 10.2.3 Process calls that are billed to KMC Data customer's calling card that can be validated by BellSouth.
  - 10.2.4 Process person-to-person calls.
  - 10.2.5 Process collect calls.
  - 10.2.6 Provide the capability for callers to bill a third party and shall also process such calls.
  - 10.2.7 Process station-to-station calls.
  - 10.2.8 Process BLV and ELI requests.
  - 10.2.9 Process emergency call trace originated by PSAPs.
  - 10.2.10 Process operator-assisted DA calls.
  - 10.2.11 Adhere to equal access requirements, providing KMC Data local customers the same IXC access that BellSouth provides its own operator service.
  - 10.2.12 Exercise at least the same level of fraud control in providing Operator Service to KMC Data that BellSouth provides for its own operator service.
  - 10.2.13 Perform Billed Number Screening when handling Collect, Person-to-Person, and Billed-To-Third-Party calls.

- 10.2.14 Direct customer account and other similar inquiries to the customer service center designated by KMC Data.
- 10.2.15 Provide call records to KMC Data in accordance with ODUF standards.
- 10.2.16 The interface requirements shall conform to the interface specifications for the platform used to provide Operator Services (OS) as long as the interface conforms to industry standards.
- 10.3 Directory Assistance (DA) Service
- 10.3.1 DA Service provides local and non-local customer telephone number listings with the option to complete the call at the caller's direction separate and distinct from local switching.
- 10.3.2 DA Service shall provide up to two (2) listing requests per call, if available and if requested by KMC Data's customer. BellSouth shall provide caller-optional DA call completion service at rates set forth in BellSouth's GSST to one (1) of the provided listings.
- 10.4 DA Service Updates
- 10.4.1 BellSouth shall update customer listings changes daily. These changes include:
- 10.4.2 New customer connections.
- 10.4.3 Customer disconnections.
- 10.4.4 Customer address changes.
- 10.4.5 These updates shall also be provided for non-listed and non-published numbers for use in emergencies.
- 10.5 Branding for OCP and DA
- 10.5.1 BellSouth's branding feature provides a definable announcement to KMC Data customers using DA/ OCP prior to placing such customers in queue or connecting them to an available operator or automated operator system. This feature allows KMC Data's name on whose behalf BellSouth is providing DA and/or OCP. Rates for the branding features are set forth in Exhibit E of this Attachment.
- 10.5.2 BellSouth offers three branding offering options to KMC Data when ordering BellSouth's DA and OCP: BellSouth Branding, Unbranding and Custom Branding.
- 10.5.3 Upon receipt of the branding order from KMC Data, the order is considered firm after ten (10) business days. Should KMC Data decide to cancel the order, written notification to KMC Data's BellSouth Account Executive is required. If KMC

Data decides to cancel after ten (10) business days from receipt of the branding order, KMC Data shall pay all charges per the order.

10.6      Selective Call Routing using Line Class Codes (SCR-LCC)

- 10.6.1      Where KMC Data resells BellSouth's services and utilizes an operator services provider other than BellSouth, BellSouth will route KMC Data's customer calls to that provider through Selective Call Routing (SCR).
- 10.6.2      SCR-LCC provides the capability for KMC Data to have its OCP/DA calls routed to BellSouth's OCP/DA platform for BellSouth provided Custom Branded or Unbranded OCP/DA or to its own or an alternate OCP/DA platform for Self-Branded OCP/DA. SCR-LCC is only available if line class code capacity is available in the requested BellSouth end office switches.
- 10.6.3      Custom Branding for DA is not available for certain classes of service, including but not limited to Hotel/Motel services, WATS service and certain PBX services.
- 10.6.4      Where available, KMC Data specific and unique line class codes are programmed in each BellSouth end office switch where KMC Data intends to service customers with customized OCP/DA branding. The line class codes specifically identify KMC Data's customers so OCP/DA calls can be routed over the appropriate trunk group to the request OCP/DA platform. Additional line class codes are required in each end office if the end office serves multiple NPAs (i.e., a unique LCC is required per NPA), and/or if the end office switch serves multiple rate areas and KMC Data intends to provide KMC Data branded OCP/DA to its customers in these multiple rate areas.
- 10.6.5      BellSouth Branding is the default branding offering.
- 10.6.6      SCR-LCC supporting Custom Branding and Self Branding require KMC Data to order dedicated transport and trunking from each BellSouth end office identified by KMC Data, either to the BellSouth Traffic Operator Position System (TOPS) for Custom Branding or to the KMC Data Operator Service Provider for Self Branding. Separate trunk groups are required for Operator Services and for Directory Assistance. Rates, terms and conditions for transport and trunks shall be in accordance with Section 4.8.1.1 of Attachment 3.
- 10.6.7      The rates for SCR-LCC are as set forth in Exhibit E of this Attachment. There is a nonrecurring charge for the establishment of each Line Class Code in each BellSouth central office.
- 10.6.8      Unbranded DA and/or OCP calls ride common trunk groups provisioned by BellSouth from those end offices identified by KMC Data to the BellSouth Tops. The calls are routed to "No Announcement."
- 10.7      Branding via Originating Line Number Screening (OLNS)

- 10.7.1 BellSouth Branding, Unbranding and Custom Branding are also available for DA, OCP or both via OLNS software. When utilizing this method of Unbranding or Custom Branding KMC Data shall not be required to purchase direct trunking.
- 10.7.2 BellSouth Branding is the default branding offering.
- 10.7.3 For BellSouth to provide Unbranding or Custom Branding via OLNS software for OCP or for DA KMC Data must have its Operating Company Number (OCN(s)) and telephone numbers reside in BellSouth's LIDB; however, a BellSouth LIDB Storage Agreement is not required. To implement Unbranding and Custom Branding via OLNS software, KMC Data must submit a manual order form which requires, among other things, KMC Data's OCN and a forecast for the traffic volume anticipated for each BellSouth TOPS during the peak busy hour. KMC Data shall provide updates to such forecast on a quarterly basis and at any time such forecasted traffic volumes are expected to change significantly. Upon KMC Data's purchase of Unbranding and Custom Branding using OLNS software for any particular TOPS, all KMC Data customers served by that TOPS will receive the Unbranded "no announcement" or the Custom Branded announcement.
- 10.7.4 Rates for Unbranding and Custom Branding via OLNS software for DA and for OCP are as set forth in Exhibit E of this Attachment. Notwithstanding anything to the contrary in this Agreement, to the extent BellSouth is unable to bill KMC Data applicable charges currently, BellSouth shall track such charges and will bill the same retroactively at such time as a billing process is implemented. In addition to the charges for Unbranding and Custom Branding via OLNS software, KMC Data shall continue to pay BellSouth applicable labor and other charges for the use of BellSouth's DA and Call Processing platforms as set forth in Exhibit E of this Attachment.
- 10.7.5 Customized Branding includes charges for the recording of the branding announcement and the loading of the audio units in each TOPS Switch and Network Applications Vehicle (NAV) equipment for which KMC Data requires service.
- 10.7.6 DA customized branding uses:
  - 10.7.6.1 The recording of KMC Data.
  - 10.7.6.2 The loading of the recording in each switch.
- 10.7.7 OCP customized branding uses:
  - 10.7.7.1 The recording of KMC Data.
  - 10.7.7.2 The loading of the recording in each switch.

- 10.7.7.3 The loading on the NAV. All NAV shelves within the region where KMC Data is offering service must be loaded.

**11. Line Information Database (LIDB)**

- 11.1 BellSouth will store in its LIDB records relating to service only in the BellSouth region. The LIDB Storage Agreement is included in this Attachment as Exhibit B.
- 11.2 BellSouth will provide LIDB Storage upon written request to KMC Data's Account Manager stating a requested activation date.

**12. RAO Hosting**

- 12.1 RAO Hosting is not required for resale in the BellSouth region.

**13. Optional Daily Usage File (ODUF)**

- 13.1 The ODUF Agreement with terms and conditions is included in this Attachment as Exhibit C. Rates for ODUF are as set forth in Exhibit E of this Attachment.
- 13.2 BellSouth will provide ODUF service upon written request to its Account Manager stating a requested activation date.

**14. Enhanced Optional Daily Usage File (EODUF)**

- 14.1 The EODUF service Agreement with terms and conditions is included in this Attachment as Exhibit D. Rates for EODUF are as set forth in Exhibit E of this Attachment.
- 14.2 BellSouth will provide EODUF service upon written request to its Account Manager stating a requested activation date.

**EXCLUSIONS AND LIMITATIONS ON SERVICES AVAILABLE FOR RESALE (Note 3)**

| Type of Service                         | AL                                                                                                                                                                            |          | FL     |          | GA     |          | KY     |          | LA     |          | MS     |          | NC     |          | SC     |          | TN     |          |

## **LINE INFORMATION DATA BASE (LIDB)**

### **RESALE STORAGE AGREEMENT**

#### **I. Definitions (from Addendum)**

- A. Billing number - a number used by BellSouth for the purpose of identifying an account liable for charges. This number may be a line or a special billing number.
- B. Line number - a ten (10) digit number assigned by BellSouth that identifies a telephone line associated with a resold local exchange service.
- C. Special billing number - a ten (1) digit number that identifies a billing account established by BellSouth in connection with a resold local exchange service.
- D. Calling Card number - a billing number plus PIN number assigned by BellSouth.
- E. PIN number - a four (4) digit security code assigned by BellSouth that is added to a billing number to compose a fourteen (14) digit calling card number.
- F. Toll billing exception indicator - associated with a billing number to indicate that it is considered invalid for billing of collect calls or third number calls or both, by KMC Data.
- G. Billed Number Screening - refers to the query service used to determine whether a toll billing exception indicator is present for a particular billing number.
- H. Calling Card Validation - refers to the query service used to determine whether a particular calling card number exists as stated or otherwise provided by a caller.
- I. Billing number information - information about billing number or Calling Card number as assigned by BellSouth and toll billing exception indicator provided to BellSouth by KMC Data.
- J. Get-Data - refers to the query service used to determine, at a minimum, the Account Owner and/or Regional Accounting Office for a line number. This query service may be modified to provide additional information in the future.
- K. OLNS - refers to the query service used to determine the billing, screening and call handling indicators, station type and Account Owner provided to BellSouth by KMC Data for originating line numbers.
- L. Account Owner - name of the local exchange telecommunications company that is providing dialtone on a subscriber line.

## **II. General**

A. This Agreement sets forth the terms and conditions pursuant to which BellSouth agrees to store in its LIDB certain information at the request of KMC Data and pursuant to which BellSouth, its LIDB customers and KMC Data shall have access to such information. In addition, this Agreement sets forth the terms and conditions for KMC Data's provision of billing number information to BellSouth for inclusion in BellSouth's LIDB. KMC Data understands that BellSouth provides access to information in its LIDB to various telecommunications service providers pursuant to applicable tariffs and agrees that information stored at the request of KMC Data, pursuant to this Agreement, shall be available to those telecommunications service providers. The terms and conditions contained herein shall hereby be made a part of this Agreement upon notice to KMC Data's account team and/or Local Contract Manager activate this LIDB Storage Agreement. The General Terms and Conditions of the Agreement shall govern this LIDB Storage Agreement.

B. BellSouth will provide responses to on-line, call-by-call queries to billing number information for the following purposes:

1. Billed Number Screening

BellSouth is authorized to use the billing number information to determine whether KMC Data has identified the billing number as one that should not be billed for collect or third number calls.

2. Calling Card Validation

BellSouth is authorized to validate a fourteen (14) digit Calling Card number where the first ten (10) digits are a line number or special billing number assigned by BellSouth, and where the last four (4) digits (PIN) are a security code assigned by BellSouth.

3. OLNS

BellSouth is authorized to provide originating line screening information for billing services restrictions, station type, call handling indicators, presubscribed interLATA and local carrier and account owner on the lines of KMC Data from which a call originates.

4. GetData

BellSouth is authorized to provide, at a minimum, the account owner and/or Regional Accounting Office information on the lines of KMC Data indicating the

local service provider and where billing records are to be sent for settlement purposes. This query service may be modified to provide additional information in the future.

5. Fraud Control

BellSouth will provide seven days per week, 24-hours per day, fraud monitoring on Calling Cards, bill-to-third and collect calls made to numbers in BellSouth's LIDB, provided that such information is included in the LIDB query. BellSouth will establish fraud alert thresholds and will notify KMC Data of fraud alerts so that KMC Data may take action it deems appropriate.

**III. Responsibilities of the Parties**

- A. BellSouth will administer all data stored in the LIDB, including the data provided by KMC Data pursuant to this Agreement, in the same manner as BellSouth's data for BellSouth's customers. BellSouth shall not be responsible to KMC Data for any lost revenue which may result from BellSouth's administration of the LIDB pursuant to its established practices and procedures as they exist and as they may be changed by BellSouth in its sole discretion from time to time.

B. Billing and Collection Customers

BellSouth currently has in effect numerous billing and collection agreements with various interexchange carriers and billing clearing houses and as such these billing and collection customers (B&C Customers) query BellSouth's LIDB to determine whether to accept various billing options from customers. Until such time as BellSouth implements in its LIDB and its supporting systems the means to differentiate KMC Data's data from BellSouth's data, the following shall apply:

- (1) BellSouth will identify KMC Data customer originated long distance charges and will return those charges to the interexchange carrier as not covered by the existing B&C agreement. KMC Data is responsible for entering into the appropriate agreement with interexchange carriers for handling of long distance charges by their customers.
- (2) BellSouth shall have no obligation to become involved in any disputes between KMC Data and B&C Customers. BellSouth will not issue adjustments for charges billed on behalf of any B&C Customer to KMC Data. It shall be the responsibility of KMC Data and the B&C Customers to negotiate and arrange for any appropriate adjustments.

**IV. Fees for Service and Taxes**

- A. KMC Data will not be charged a fee for storage services provided by BellSouth to KMC Data, as described in this LIDB Resale Storage Agreement.

- B. Sales, use and all other taxes (excluding taxes on BellSouth's income) determined by BellSouth or any taxing authority to be due to any federal, state or local taxing jurisdiction with respect to the provision of the service set forth herein will be paid by KMC Data in accordance with the tax provisions set forth in the General Terms and Conditions of this Agreement.

**Optional Daily Usage File**

1. Upon written request from KMC Data, BellSouth will provide the ODUF service to KMC Data pursuant to the terms and conditions set forth in this section. ODUF data delivery accuracy, completeness, timeliness and mean time to deliver will be in accordance with SQMs B3, B4, B5 and B6.
2. KMC Data shall furnish all relevant information required by BellSouth for the provision of the ODUF.
3. The ODUF feed will contain messages that were carried over the BellSouth Network and processed in the BellSouth Billing System, but billed to a KMC Data customer.
4. Charges for ODUF will appear on KMC Data's monthly bills for the previous month's usage. The charges are as set forth in Exhibit E to this Attachment. KMC Data will be billed at the ODUF rates that are in effect at the end of the previous month.
5. The ODUF feed will contain both rated and unrated messages. All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format.
6. Messages that error in the billing system of KMC Data will be the responsibility of KMC Data. If, however, KMC Data should encounter significant volumes of errored messages that prevent processing by KMC Data within its systems, BellSouth will work with KMC Data to determine the source of the errors and the appropriate resolution. Upon request from KMC Data, BellSouth shall resend errored messages in accordance with SQM B-9.
6. The following specifications shall apply to the ODUF feed.
  - 6.1 ODUF Message to be Transmitted
    - 6.1.1 The following messages recorded by BellSouth will be transmitted to KMC Data:
      - Message recording for per use/per activation type services (examples: Three Way Calling, Verify, Interrupt, Call Return, etc.)
      - Measured Local
      - DA messages
      - IntraLATA Toll
      - WATS and 800 Service

- N11
  - Information Service Provider Messages
  - Operator Services Messages
  - Operator Services Message Attempted Calls (Network Element only)
  - Credit/Cancel Records
  - Usage for Voice Mail Message Service
- 6.1.2 Rated Incollects (messages BellSouth receives from other revenue accounting companies) can also be on ODUF. Rated Incollects will be intermingled with BellSouth recorded rated and unrated usage. Rated Incollects will not be packed separately.
- 6.1.3 BellSouth will perform duplicate record checks on records processed to ODUF. Any duplicate messages detected will be deleted and not sent to KMC Data.
- 6.1.4 In the event that KMC Data detects a duplicate on ODUF they receive from BellSouth, KMC Data will drop the duplicate message and will not return the duplicate to BellSouth).
- 6.2 ODUF Physical File Characteristics
- 6.2.1 ODUF will be distributed to KMC Data via CONNECT:Direct, Connect: Enterprise Client or another mutually agreed medium. The ODUF feed will be a variable block format. The data on the ODUF feed will be in a non-compacted EMI format (one hundred seventy-five (175) byte format plus modules). It will be created on a daily basis Monday through Friday except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one (1) dataset per workday per OCN.
- 6.2.2 Data circuits (private line or dial-up) will be required between BellSouth and KMC Data for the purpose of data transmission when utilizing CONNECT:Direct. Where a dedicated line is required, KMC Data will be responsible for ordering the circuit, and coordinating the installation with BellSouth. KMC Data will also be responsible for any charges associated with this line. CSU/DSU equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit data will be the responsibility of KMC Data. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to KMC Data. Additionally, all message toll charges associated with the use of the dial circuit by KMC Data will be the responsibility of KMC Data. Associated equipment on the BellSouth end, including a modem, will be the responsibility of

BellSouth. All equipment, including modems and software, that is required on KMC Data end for the purpose of data transmission will be the responsibility of KMC Data.

- 6.2.3 If KMC Data utilizes CONNECT:Enterprise Client for data file transmission, purchase of the CONNECT:Enterprise Client software will be the responsibility of KMC Data.

### 6.3 ODUF Packing Specifications

- 6.3.1 A pack will contain a minimum of one (1) message record or a maximum of ninety-nine thousand nine hundred and ninety-nine (99,999) message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of ninety-nine (99) packs and a minimum of one (1) pack.

- 6.3.2 The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to KMC Data which BellSouth RAO that is sending the message. BellSouth and KMC Data will use the invoice sequencing to control data exchange. BellSouth will be notified of sequence failures identified by KMC Data and resend the data as quickly as technically possible.

The data will be packed using ATIS EMI records.

### 6.4 ODUF Pack Rejection

- 6.4.1 KMC Data will notify BellSouth within one (1) business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (i.e., out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI Error Codes will be used. KMC Data will not be required to return the actual rejected data to BellSouth. Rejected packs will be corrected and retransmitted to KMC Data by BellSouth.

### 6.5 ODUF Control Data

KMC Data will send one (1) confirmation record per pack that is received from BellSouth. This confirmation record will indicate KMC Data's receipt of the pack and acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by KMC Data for reasons stated in the above section.

### 6.6 ODUF Testing

- 6.6.1 Upon request from KMC Data, BellSouth shall send ODUF test files to KMC Data. The Parties agree to review and discuss the ODUF content and/or format. For testing of usage results, BellSouth shall request that KMC Data set up a production (live) file. The live test may consist of KMC Data's employees making test calls for the types of services KMC Data requests on ODUF. These test calls are logged by KMC Data,

and the logs are provided to BellSouth. These logs will be used to verify the files. Testing will be completed within thirty (30) days from the date on which the initial test file was sent.

**Enhanced Optional Daily Usage File**

1. Upon written request from KMC Data, BellSouth will provide the EODUF service to KMC Data pursuant to the terms and conditions set forth in this section. EODUF will only be sent to existing ODUF subscribers who request the EODUF option.
2. KMC Data shall furnish all relevant information required by BellSouth for the provision of the EODUF.
3. The EODUF will provide usage data for local calls originating from resold Flat Rate Business and Residential Lines.
4. Charges for delivery of the EODUF will appear on KMC Data's monthly bills for the previous month's usage. The charges are as set forth in Exhibit E to this Attachment. KMC Data will be billed at the EODUF rates that are in effect at the end of the previous month.
5. All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format.
6. Messages that error in the billing system of KMC Data will be the responsibility of KMC Data. If, however, KMC Data should encounter significant volumes of errored messages that prevent processing by KMC Data within its systems, BellSouth will work with KMC Data to determine the source of the errors and the appropriate resolution. Upon request from KMC Data, BellSouth shall resend errored messages as required by SQM B-9.
7. The following specifications shall apply to the EODUF feed.
  - 7.1 Usage To Be Transmitted
    - 7.1.1 The following messages recorded by BellSouth will be transmitted to KMC Data:

Customer usage data for flat rated local call originating from KMC Data's customer lines (1FB or 1FR). The EODUF record for flat rate messages will include:

Date of Call

From Number

To Number

Connect Time

Conversation Time

Method of Recording

From RAO

Rate Class

Message Type

Billing Indicators

Bill to Number

- 7.1.2 BellSouth will perform duplicate record checks on EODUF records processed to ODUF. Any duplicate messages detected will be deleted and not sent to KMC Data.
- 7.1.3 In the event that KMC Data detects a duplicate on EODUF they receive from BellSouth, KMC Data will drop the duplicate message (KMC Data will not return the duplicate to BellSouth).
- 7.2 Physical File Characteristics
  - 7.2.1 The EODUF feed will be distributed to KMC Data over their existing ODUF feed. The EODUF messages will be intermingled among KMC Data's ODUF messages. The EODUF will be a variable block format (2476) with a LRECL of 2472. The data on the EODUF will be in a non-compacted EMI format (one hundred seventy-five (175) byte format plus modules). It will be created on a daily basis (Monday through Friday except holidays).
  - 7.2.2 Data circuits (private line or dial-up) may be required between BellSouth and KMC Data for the purpose of data transmission as set forth in Section 6.2.2 above.
  - 7.2.3 Data circuits (private line or dial-up) will be required between BellSouth and KMC Data for the purpose of data transmission when utilizing CONNECT:Direct. Where a dedicated line is required, KMC Data will be responsible for ordering the circuit, and coordinating the installation with BellSouth. KMC Data will also be responsible for any charges associated with this line. CSU/DSU equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit data will be the responsibility of KMC Data. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to KMC Data. Additionally, all message toll charges associated with the use of the dial circuit by KMC Data will be the responsibility of KMC Data. Associated equipment on the BellSouth end, including a modem, will be the responsibility of BellSouth. All equipment, including modems and software, that is required on KMC Data end for the purpose of data transmission will be the responsibility of KMC Data.

### 7.3 Packing Specifications

- 7.3.1 A pack will contain a minimum of one (1) message record or a maximum of ninety-nine thousand nine hundred ninety-nine (99,999) message records plus a pack header record and a pack trailer record. One (1) transmission can contain a maximum of ninety-nine (99) packs and a minimum of one (1) pack.
- 7.3.2 The OCN, From (RAO), and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to KMC Data which BellSouth RAO is sending the message. BellSouth and KMC Data will use the invoice sequencing to control data exchange. BellSouth will be notified of sequence failures identified by KMC Data and resend the data as quickly as technically possible.
- 7.3.3 The data will be packed using ATIS EMI Records.

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states. |               |                                                                                      |  |  |  |         |      |     |        |           |              |          |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |               |        |       |       |       |       |       |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states. |                                            |                                                                                      |  |  |  |         |      |        |            |           |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states. |                                                                                      |         |      |     |      |            |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |               |               |       |            |       |        |       |       |       |       |       |  |  |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states. |                                            |                                                                                      |  |  |  |         |      |     |        |           |              |          |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states. |               |                                                                                      |  |  |  |         |      |     |        |           |              |          |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |  |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states. |               |                                                                                      |  |  |  |         |      |     |        |           |              |          |              |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |  |

## ACCESS TO NETWORK ELEMENTS AND OTHER SERVICES

### 1 General

- 1.1 This Attachment sets forth rates, terms and conditions for Unbundled Network Elements (UNEs) and combinations of UNEs with other UNEs (Combinations) that BellSouth shall offer to KMC Data in accordance with its obligations under Section 251(c)(3) of the Act. Additionally, this Attachment sets forth the rates, terms and conditions for other facilities and services BellSouth makes available to KMC Data (Other Services). The rates for each UNE, Combination and Other Services are set forth in Exhibits A and/or B of this Attachment. In providing access or obtaining access to UNEs, Combinations and Other Services, the Parties shall comply with all applicable FCC rules and orders and Commission rules and orders.
- 1.1.1 Network Element is as defined in the FCC's rules.
- 1.1.2 Technically Feasible is as defined in the FCC's rules.
- 1.1.3 UNE is defined to mean the Network Elements that BellSouth is required to make available on an unbundled basis by the FCC or Commission pursuant to Section 251(c)(3) of the Act, FCC rules and orders and/or Commission rules and orders that are set forth in this Attachment.
- 1.2 BellSouth shall provide and KMC Data may access UNEs and Other Services in accordance with all applicable FCC and Commission rules and orders, including but not limited to: 47 C.F.R. §§ 51.307, 51.309, 51.311, 51.313, 51.315, 51.316, 51.318, 51.319.
- 1.3 BellSouth shall comply with the requirements set forth in the technical references identified in this Attachment. Such requirements shall be applied in a non-discriminatory manner and at parity and shall be in accord with all FCC and Commission requirements.
- 1.4 KMC Data shall not obtain a Network Element for the exclusive provision of mobile wireless services or interexchange services.
- 1.5 Conversions
- 1.5.1 Upon request, BellSouth shall convert a wholesale service, or group of wholesale services, to the equivalent UNE, or Combination and shall convert a UNE or a Combination to an equivalent wholesale service or group of wholesale services in accordance with FCC 47 C.F.R. § 51.316 (Conversion). Nonrecurring switch-as-is rates for such Conversions are contained in Exhibit A. Conversions shall be considered termination for purposes of any volume and/or term commitments and/or grandfathered status-applicable to such converted services. Any change from a wholesale service/group of wholesale services to a

UNE/Combination, or vice versa, that requires a physical rearrangement of the UNE/Combination or wholesale/group of wholesale services will not be considered a Conversion for purposes of this Agreement. For arrangements that require a re-termination or other physical rearrangement of circuits to comply with the terms of this Agreement, nonrecurring charges for the UNE or Combination or cross connect from Exhibit A will apply. For arrangements that require a re-termination or other physical rearrangement of circuits to comply with the terms of the tariff or contract governing the wholesale service(s), nonrecurring charges for the wholesale service/wholesale services from such tariff or contract will apply. BellSouth will not require physical rearrangement if the Conversion can be completed through record changes only.

- 1.5.2 Any price changes resulting from the Conversion will be effective as of the next billing cycle following BellSouth's receipt of a complete and accurate Conversion request from KMC Data. The fact that the Parties have agreed to this Section 1.5.2 shall not be used by either Party against the other in any dispute raised prior to the Effective Date of this Agreement regarding the effective date for billing changes resulting from a Conversion; provided, however, that this provision does not preclude either Party from making any arguments based on the FCC's decision in the TRO in any such dispute.
- 1.5.3 If KMC Data wants to convert a UNE or Combination (or part thereof) to wholesale services KMC Data shall submit a spreadsheet (and a commingling ordering document that indicates which part is to be filled as a UNE, if applicable). BellSouth shall charge KMC Data the same nonrecurring switch-as-is charge found in Exhibit A for the Conversion of a single UNE as it does for a Combination.
- 1.6 Except to the extent expressly provided otherwise in this Attachment, KMC Data may not maintain UNEs or Combinations that are no longer offered pursuant to this Agreement (collectively "Arrangements"). In the event BellSouth identifies non-compliant Arrangements, BellSouth shall provide KMC Data thirty (30) days written notice of BellSouth's intent to disconnect or convert such Arrangements. If KMC Data fails to submit orders to disconnect or convert such Arrangements within such thirty (30) day period, BellSouth will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 1.6 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs. The applicable recurring tariff charge shall apply to each circuit as of the Effective Date of this Agreement.
- 1.7 When submitting an order pursuant to this Agreement for high capacity (DS1 or above) Dedicated Transport or high capacity Loops KMC Data self-certifies that to the best of KMC Data's knowledge, the high capacity Dedicated Transport or high capacity Loop requested is available as a Network Element pursuant to this

Agreement. Upon receiving such order, BellSouth shall process the request in reliance upon KMC Data's self-certification. To the extent BellSouth believes that such request does not comply with the terms of this Agreement, BellSouth shall seek dispute resolution in accordance with the General Terms and Conditions of this Agreement. Notwithstanding anything to the contrary provided in this Agreement, any dispute between the Parties related to KMC Data's self certification and whether high capacity Dedicated Transport or Loops are available as Network Elements in a particular wire center shall be brought to the FCC for resolution. In the event such dispute is resolved in BellSouth's favor, BellSouth shall bill KMC Data the difference between the rates for such circuits pursuant to this Agreement and the applicable nonrecurring and recurring charges for the equivalent tariffed service from the date of installation to the date the circuit is transitioned to the equivalent tariffed service. Within thirty (30) days following a decision finding in BellSouth's favor, KMC Data shall submit a spreadsheet identifying those non-compliant circuits to be transitioned to tariffed services or disconnected.

- 1.8 KMC Data may utilize UNEs and Other Services in a manner consistent with applicable industry standards and applicable BellSouth Technical References incorporated into BellSouth's Guides found on BellSouth's Web site at <http://interconnection.bellsouth.com>. In the event that KMC Data perceives that BellSouth Technical References include provisions that unreasonably limit KMC Data's ability to access and utilize UNEs in accordance with this Attachment, KMC Data shall notify BellSouth and the Parties shall attempt to resolve the issue. If the Parties are unable to resolve the issue, the dispute shall be handled in accordance with the dispute resolution provisions in Section 13 of the General Terms and Conditions of this Agreement.

1.9 Routine Network Modifications (RNMs)

- 1.9.1 BellSouth will perform RNMs in accordance with FCC 47 C.F.R. § 51.319 (a)(7) and (e)(4). Except to the extent expressly provided otherwise in this Attachment, if BellSouth has anticipated such RNMs and performs them during normal operations and such function was included in BellSouth's cost studies that, through Commission proceedings or agreement by the Parties resulted in rates set forth in Exhibit A, then BellSouth shall perform such RNMs at no additional charge. RNMs shall be performed within the intervals established for the UNE and subject to the performance measurements and associated remedies set forth in Attachment 9 of this Agreement to the extent such RNMs were anticipated in the setting of such intervals. If BellSouth has not anticipated a requested network modification as being a RNM and has not recovered the costs of such RNM in the rates set forth in Exhibit A, then KMC Data must submit a LSR to have the work performed. Each request will be handled as a project on an individual case basis until such time as BellSouth incorporates such RNM into its normal operations and develops a charge for such RNM that is included in this Agreement by Amendment hereto. If KMC Data believes that a RNM should be incorporated into BellSouth's

normal operations and BellSouth disagrees with such determination, the dispute shall be resolved pursuant to the resolution of disputes provision of the General Terms and Conditions. BellSouth will provide a price quote for the request, and upon receipt of payment from KMC Data, BellSouth shall perform the RNM. If KMC Data believes that BellSouth's firm price quote is not consistent with the requirements of the Act, either Party may seek dispute resolution in accordance with the dispute resolution provisions set forth in the General Terms and Conditions of this Agreement. While the dispute is pending, KMC Data shall have the option of requesting BellSouth to perform the RNM subject to a retroactive pricing true-up upon an effective Commission order resolving the dispute. The Parties agree that subsequent true-ups may result from multiple rounds of appellate or reconsideration decisions, should the relevant Party pursue such appeals/reconsiderations/review and prevail. BellSouth will provide a cost study upon request after the firm quote.

- 1.10 Notwithstanding any other provision of this Agreement, BellSouth will not commingle UNEs or Combinations with any service, Network Element or other offering that it is obligated to make available only pursuant to Section 271 of the Act. Nothing in this Section shall prevent KMC Data from commingling Network Elements with other wholesale services that do not constitute services, Network Elements or Other Services that BellSouth is willing to make available only pursuant to Section 271 of the Act.
- 1.11 Commingling of Services
  - 1.11.1 BellSouth shall provide commingling of services in accordance with 47 C.F.R. § 51.309.
  - 1.11.2 BellSouth will not "ratchet" (i.e., billing a single circuit at multiple rates to develop a single, blended rate for) a commingled circuit. Unless otherwise agreed to by the Parties, the UNE portion of such circuit will be billed at the rates set forth in this Agreement and the remainder of the circuit or service will be billed in accordance with BellSouth's tariffed or other contract rates.
  - 1.11.3 When multiplexing equipment is attached to a commingled circuit, the multiplexing equipment will be billed from the same jurisdictional authorization (agreement or tariff) as the higher bandwidth service. The Central Office Channel Interface will be billed from the same jurisdictional authorization (tariff or agreement) as the lower bandwidth service.
  - 1.11.4 If KMC Data reports a trouble on a UNE or Other Service and no trouble actually exists on the BellSouth portion, BellSouth will charge KMC Data at the rates set forth in Exhibit A for any dispatching and testing (both inside and outside the Central Office (CO)) required by BellSouth in order to confirm the working status. If KMC Data reports the same trouble on the same UNE or Other Service within thirty (30) days of BellSouth's notification to KMC Data of its disposition of the

prior trouble, and BellSouth is able to determine that such trouble does exist on BellSouth's network, KMC Data shall be credited on the next billing cycle for charges associated with the prior trouble.

## 1.12 Rates

- 1.12.1 The prices that KMC Data shall pay to BellSouth for UNEs, Combinations and Other Services are set forth in Exhibits A and/or B of this Attachment. To the extent a rate is required to be TELRIC-compliant, the rate in Exhibit A shall be TELRIC-compliant, and if Commission approved, is the Commission approved rates. If KMC Data purchases a service(s) from a tariff, all terms and conditions and rates as set forth in such tariff shall apply. If no rate is identified in this Agreement for an UNE, Combination or Other Service that is required to be a TELRIC-compliant rate, the rate will be a TELRIC-compliant rate set by the Commission, or if no such rate has been set by a Commission, BellSouth shall propose an interim TELRIC-compliant rate based upon a cost study that BellSouth will provide upon request from KMC Data. If the rate is not required to be TELRIC-compliant, then the rate may be negotiated by the Parties upon request by either Party. If the Parties are unable to agree upon a rate, either Party may pursue dispute resolution.
- 1.12.2 Rates, terms and conditions for order cancellation charges and Service Date Advancement Charges will apply in accordance with Attachment 6 of this Agreement. Service Date Advancement charges for expediting UNEs and Other Services orders and are as set forth in Exhibit A.
- 1.12.3 If KMC Data modifies an order (Order Modification Charge (OMC)) after being sent a Firm Order Confirmation (FOC) from BellSouth, any costs incurred by BellSouth to accommodate the modification will be paid by KMC Data in accordance with the rates set forth in Exhibit A.
- 1.12.4 Fractionalized billing shall apply to all UNEs and Combinations such that recurring charges will be prorated based upon the number of days that the UNEs are in service. Nonrecurring charges shall not be fractionalized.

## 2 **Unbundled Loops**

### 2.1 General

- 2.1.1 BellSouth shall provide KMC Data with nondiscriminatory access to the local loop on an unbundled basis, in accordance with 47 C.F.R. § 51.319(a). The various Loops that BellSouth currently offers and is required to make available are set forth herein.
- 2.1.1.1 For the purposes of this Agreement, and not by way of limitation, the phrase 'end user customer premises' as used in 47 C.F.R. §51.319(a) shall no be interpreted to include such places as a carrier's mobile switching center, base station, cell site, or

other similar facility, except to the extent that a carrier may require loops to such locations for the purpose of providing telecommunications services to its personnel at those locations.

- 2.1.1.2 When KMC Data is purchasing a Loop, KMC Data shall purchase the entire bandwidth of the Loop and, except as required herein or as otherwise agreed to by the Parties, BellSouth shall not subdivide the frequency of the Loop.
- 2.1.2 The loop shall include the use of all test access functionality, including without limitation, smart jacks, for both voice and data.
- 2.1.3 The provisioning of a Loop to KMC Data's collocation space will require BellSouth to provide cross office cabling and cross connections within the central office to connect the Loop to the demarcation point associated with the collocation space. These cross connects are separate components that are not considered a part of the Loop, and thus, have a separate TELRIC charge as set forth in Exhibit A of Attachment 4.
- 2.1.4 Where facilities are available, BellSouth will install Loops in compliance with BellSouth's Products and Services Interval Guide available at the Web site at <http://www.interconnection.bellsouth.com>. For orders of fifteen (15) or more Loops, the installation and any applicable Order Coordination (OC) as described below will be handled on a project basis, and reasonable and nondiscriminatory intervals will be set by the BellSouth project manager for that order. When Loops require a Service Inquiry (SI) prior to issuing the order to determine if facilities are available, the interval for the SI process is separate from the installation interval.
- 2.1.5 The Loop shall be provided to KMC Data in accordance with this Agreement and the reasonable and nondiscriminatory technical provisions set forth in BellSouth's TR73600 Unbundled Local Loop Technical Specification and applicable industry standard technical references.
- 2.1.6 BellSouth will provision, maintain and repair the Loops to the standards that are consistent with the type of Loop ordered.
- 2.1.7 When a BellSouth technician is required to be dispatched to provision the Loop, BellSouth will tag the Loop with the Circuit ID number and the name of the ordering CLEC. When a dispatch is not required to provision the Loop, BellSouth will tag the Loop on the next required premises visit. If KMC Data wants to ensure the Loop is tagged during the provisioning process for Loops that may not require a dispatch (e.g., UVL-SL1, UVL-SL2, and UCL-ND), KMC Data may order Loop Tagging. Rates for Loop Tagging are as set forth in Exhibit A.
- 2.2 Transition for DS1 and DS3 Loops in Non-Impaired Wire Centers
- 2.2.1 For purposes of this Section 2, the Transition Period for the Embedded Base of DS1 and DS3 Loops and for the Excess DS1 and DS3 Loops (defined in 2.2.3) is

the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

- 2.2.2 For purposes of this Section 2, Embedded Base means DS1 and DS3 Loops that were in service for KMC Data as of March 10, 2005, or which have been added subsequent to March 10, 2005 pursuant to Section 1.7 of this Attachment, in those wire centers that, as of such date, met the criteria set forth in 2.2.5.1 or 2.2.5.2. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.
- 2.2.3 Excess DS1 and DS3 Loops are those KMC Data DS1 and DS3 Loops in service as of March 10, 2005, in excess of the caps set forth in Sections 2.3.4.1 and 2.3.5.1, respectively. Subsequent disconnects or loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 2.2.4 For purposes of this Section 2, a Business Line is defined in 47 C.F.R. § 51.5.
- 2.2.5 Notwithstanding anything to the contrary in this Agreement, and except as set forth in Section 2.2.12, BellSouth shall make available DS1 and DS3 Loops as described in this Section 2.2 only for KMC Data's Embedded Base during the Transition Period:
  - 2.2.5.1 DS1 Loops at any location within the service area of a wire center containing 60,000 or more Business Lines and four (4) or more fiber-based collocators.
  - 2.2.5.2 DS3 Loops at any location within the service area of a wire center containing 38,000 or more Business Lines and four (4) or more fiber-based collocators.
- 2.2.6 A list of wire centers meeting the criteria set forth in Section 2.2.5 above as of March 10, 2005, is available on BellSouth's Interconnection Services Web site at [www.interconnection.bellsouth.com](http://www.interconnection.bellsouth.com).
- 2.2.7 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for KMC Data's Embedded Base of DS1 and DS3 Loops and KMC Data's Excess DS1 and DS3 Loops described in this Section 2.2 shall be as set forth in Exhibit B.
- 2.2.8 The Transition Period shall apply only to (1) KMC Data's Embedded Base and (2) KMC Data's Excess DS1 and DS3 Loops. KMC Data shall not add new DS1 or DS3 loops as described in this Section 2.2 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 1.7 of this Attachment and as set forth in Section 2.2.12 below.
- 2.2.9 Once a wire center exceeds both of the thresholds set forth in Sections 2.2.5.1 and 2.2.5.2, no future DS1 Loop unbundling will be required in that wire center.

- 2.2.10 Once a wire center exceeds both of the thresholds set forth in Sections 2.2.5.1 and 2.2.5.2, no future DS3 Loop unbundling will be required in that wire center.
- 2.2.11 No later than December 9, 2005 KMC Data shall submit spreadsheet(s) identifying all of the Embedded Base of circuits and Excess DS1 and DS3 Loops to be either disconnected or converted to other BellSouth services pursuant to Section 1.5. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base and Excess DS1 and DS3 Loops.
- 2.2.11.1 If KMC Data fails to submit the spreadsheet(s) specified in Section 2.2.11 above for all of its Embedded Base and Excess DS1 and DS3 Loops prior to December 9, 2005, BellSouth will identify KMC Data's remaining Embedded Base and Excess DS1 and DS3 Loops, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.2.11.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.2.11.2 For Embedded Base circuits and Excess DS1 and DS3 Loops converted pursuant to Section 2.2.11 or transitioned pursuant to 2.2.11.1, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or March 11, 2006.
- 2.2.12 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 2.2.12.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 2.2.5, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a carrier notification letter ("CNL"). Each such list of additional wire centers shall be considered a "Subsequent Wire Center List".
- 2.2.12.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to unbundle DS1 and/or DS3 Loops, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.7 of this Attachment.
- 2.2.12.3 For purposes of Section 2.2.12, BellSouth shall make available DS1 and DS3 Loops that were in service for KMC Data in a wire center on the Subsequent Wire Center List as of the tenth (10<sup>th</sup>) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List ("Subsequent Embedded Base") until ninety (90) days after the tenth (10<sup>th</sup>) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List ("Subsequent Transition Period").

- 2.2.12.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 2.2.12.5 The rates set forth in Exhibit B shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 2.2.12.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List KMC Data shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
- 2.2.12.6.1 If KMC Data fails to submit the spreadsheet(s) specified in Section 2.2.12.6 above for all of its Subsequent Embedded Base, within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify KMC Data's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 2.2.12.6.2 For Subsequent Embedded Base circuits Converted pursuant to Section 2.2.12.6 or transitioned pursuant to Section 2.2.12.6.1, the recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.
- 2.3 Loops
- 2.3.1 Copper Loops. BellSouth will provide access to unbundled Copper Loops as required in 47 C.F.R § 51.319(a)(1).
- 2.3.2 Hybrid Loops. BellSouth will provide access to unbundled Hybrid Loops as required in 47 C.F.R § 51.319(a)(2).
- 2.3.3 BellSouth will provide access to unbundled Fiber-to-the-Home loops as required in 47. C.F.R. § 51.319(a)(3). FTTH facilities include fiber loops deployed to the minimum point of entry (MPOE) of a multiple dwelling unit (MDU) that is predominantly residential, regardless of the ownership of the inside wiring from the MPOE to each user in the MDU.
- 2.3.4 DS1 loops. A DS1 loop is a digital local loop having a total digital signal speed of 1.544 megabytes (Mbps) per second. DS1 loops include, but are not limited to, two-wire and four-wire copper loops capable of providing high-bit rate digital subscriber line services, including T1 services.

- 2.3.4.1 BellSouth shall not provide more than ten (10) unbundled DS1 Loops to KMC Data at any single building in which DS1 Loops are available as unbundled Loops.
- 2.3.5 DS3 loops. A DS3 loop is a digital local loop having a total digital signal speed of 44.736 Mbps per second.
- 2.3.5.1 KMC Data may obtain a maximum of a single Unbundled DS3 Loop to any single building in which DS3 Loops are available as Unbundled Loops.
- 2.3.6 Dark Fiber Loops. Dark Fiber Loop is fiber within an existing fiber optic cable that has not been activated through the use of optronics to render it capable of carrying communications services that extends from the demarcation point at a customer's premises and the BellSouth central office. Dark Fiber Loops may be strands of optical fiber existing in aerial or underground structure.
- 2.4 Loop Testing/Trouble Reporting
- 2.4.1 KMC Data will be responsible for testing and isolating troubles on the Loops. KMC Data must test and isolate trouble to the BellSouth portion of a designed/non-designed unbundled Loop (e.g., UVL-SL2, UCL-D, UVL-SL1, UCL-ND, etc.) before reporting repair to the UNE Customer Wholesale Interconnection Network Services (CWINS) Center. Upon request from BellSouth at the time of the trouble report, KMC Data will be required to provide the results of the KMC Data test which indicate a problem on the BellSouth provided Loop.
- 2.4.2 Once KMC Data has isolated a trouble to the BellSouth provided Loop, and had issued a trouble report to BellSouth on the Loop, BellSouth will take the actions necessary to repair the Loop if a trouble actually exists. BellSouth will repair these Loops in a reasonable and nondiscriminatory manner and in time frames that are as favorable as those in which BellSouth repairs similarly situated Loops to its customers.
- 2.4.3 If KMC Data reports a trouble on a non-designed or designed Loop and no trouble actually exists, BellSouth will charge KMC Data for any dispatching and testing (both inside and outside the CO) required by BellSouth in order to confirm the Loop's working status. BellSouth will assess the applicable Maintenance of Service Charge rates from BellSouth's FCC No. 1, Section 13.3.1 for designed circuits, Section A4.3.1 of the GSSTs for Alabama, Kentucky, Louisiana, Mississippi and Tennessee where trouble determination for non-designed circuits is covered under premises work charges, Section A15.4.1 of the GSSTs for Florida and North Carolina where trouble determination for non-designed circuits is covered under trouble location charges, and Section N1.1.2 of the Non-Regulated Services Pricing tariff for Georgia and South Carolina where trouble determination for non-designed circuits is covered under trouble determination charges. If KMC Data reports the same trouble on the same UNE Loop within thirty (30) days of BellSouth's notification to KMC Data of its disposition of the prior trouble, and

BellSouth is able to determine that such trouble does exist on BellSouth's network, KMC Data shall be credited on the next billing cycle for charges associated with the prior trouble.

- 2.4.4 In the event BellSouth must dispatch to the customer's location more than once due to incorrect or incomplete information provided by KMC Data (e.g., incomplete address, incorrect contact name/number, etc.), BellSouth will bill KMC Data for each additional dispatch required to repair the circuit due to the incorrect/incomplete information provided, in accordance with rates set forth in Exhibit A.
- 2.4.5 BellSouth shall test all Loops at parity in a nondiscriminatory manner. The results of such testing, to the extent available, shall be provided to KMC Data upon request.
- 2.5 OC and Order Coordination-Time Specific (OC-TS)
- 2.5.1 OC allows BellSouth and KMC Data to coordinate the installation of the SL2 Loops, Unbundled Digital Loops (UDL) and other Loops where OC may be purchased as an option, to KMC Data's facilities to limit customer service outage. OC is available when the Loop is provisioned over an existing circuit that is currently providing service to the customer. OC for physical conversions will be scheduled at BellSouth's discretion during normal working hours on the committed due date. OC shall be provided in accordance with the chart set forth below.
- 2.5.2 OC-TS allows KMC Data to order a specific time for OC to take place. BellSouth will make every effort to accommodate KMC Data's specific conversion time request. However, BellSouth reserves the right to negotiate with KMC Data a conversion time based on load and appointment control when necessary. This OC-TS is a chargeable option for all Loops except Unbundled Copper Loops (UCL) and is billed in addition to the OC charge. KMC Data may specify a time between 9:00 a.m. and 4:00 p.m. (location time) Monday through Friday (excluding holidays). If KMC Data specifies a time outside this window, or selects a time or quantity of Loops that requires BellSouth technicians to work outside normal work hours, overtime charges will apply in addition to the OC and OC-TS charges. Overtime charges will be applied based on the amount of overtime worked and in accordance with the rates established in BellSouth's Access Services Tariff, Section E13.2, for each state. The OC-TS charges for an order due on the same day at the same location will be applied on a per Local Service Request (LSR) basis.
- 2.5.3 For a coordinated conversion, i.e., to LNP with loop or to stand alone loop where OC is provided for in this agreement, BellSouth shall verbally coordinate the disconnect with KMC Data and perform any switch translations so as to limit

customer service outage. When OC is provided, BellSouth will call KMC Data twenty-four (24) to forty-eight (48) hours prior to the actual conversion to ensure KMC Data will be ready on the due date and to review the details of the cutover. KMC Data may designate the conversion time when the conversion involves a loop with LNP by ordering Time Specific conversion at rates designated in this agreement. For Time Specific conversions, BellSouth and KMC Data shall mutually agree upon cut over time and BellSouth will verify the cut over time designated by KMC Data twenty-four (24) to forty-eight (48) hours in advance to ensure that the conversion is to be completed as ordered. Both Parties will use best efforts to ensure that conversions will commence within fifteen (15) minutes of the established time, with the exception of conversions involving IDLC where the Commission has granted extended conversion windows. For coordinated conversions, BellSouth's target interval for service disruption to the customer is fifteen (15) minutes or less.

|                                                                              | <b>Order Coordination (OC)</b>          | <b>Order Coordination – Time Specific (OC-TS)</b>       | <b>Test Points</b>           | <b>DLR</b>                                                      | <b>CHARGE FOR DISPATCH AND TESTING IF NO TROUBLE FOUND</b> |
|------------------------------------------------------------------------------|-----------------------------------------|---------------------------------------------------------|------------------------------|-----------------------------------------------------------------|------------------------------------------------------------|
| <b>SL-1 (Non-Designed)</b>                                                   | Chargeable Option                       | Chargeable Option                                       | Not available                | Chargeable Option – ordered as Engineering Information Document | Charged for Dispatch inside and outside Central Office     |
| <b>UCL-ND (Non-Designed)</b>                                                 | Chargeable Option                       | Not Available                                           | Not Available                | Chargeable Option – ordered as Engineering Information Document | Charged for Dispatch inside and outside Central Office     |
| <b>Unbundled Voice Loops - SL-2 (including 2- and 4-wire UVL) (Designed)</b> | Included                                | Chargeable Option                                       | Included                     | Included                                                        | Charged for Dispatch outside Central Office                |
| <b>Unbundled Digital Loop (Designed)</b>                                     | Included                                | Chargeable Option (except on Universal Digital Channel) | Included (where appropriate) | Included                                                        | Charged for Dispatch outside Central Office                |
| <b>Unbundled Copper Loop (DESIGNED)</b>                                      | Chargeable in accordance with Section 2 | Not available                                           | Included                     | Included                                                        | Charged for Dispatch outside Central Office                |

|                                                                                                         |  |  |  |  |  |
|---------------------------------------------------------------------------------------------------------|--|--|--|--|--|
| )                                                                                                       |  |  |  |  |  |
| For UVL-SL1 and UCLs, KMC Data must order and will be billed for both OC and OC-TS if requesting OC-TS. |  |  |  |  |  |

## 2.6 CLEC to CLEC Conversions for Unbundled Loops

2.6.1 The CLEC to CLEC conversion process, located on BellSouth's Web site at <http://www.interconnection.bellsouth.com/guides/unedocs/c2c.pdf>, for unbundled Loops may be used by KMC Data when converting an existing unbundled Loop from another CLEC for the same customer. The Loop type being converted must be included in KMC Data's Interconnection Agreement before requesting a conversion.

2.6.2 To utilize the CLEC to CLEC conversion process, the Loop being converted must be the same Loop type with no requested changes to the Loop, must serve the same customer location from the same serving wire center, and must not require an outside dispatch to provision.

2.6.3 The Loops converted to KMC Data pursuant to the CLEC to CLEC conversion process shall be provisioned in the same manner and with the same functionality and options as described in this Attachment for the specific Loop type.

## 2.7 Bulk Migration

2.7.1 If KMC Data requests to migrate twenty-five (25) or more UNE-Port/Loop Combination (UNE-P) customers to UNE-Loop (UNE-L) in the same Central Office on the same due date, KMC Data must use the Bulk Migration process, which is described in the BellSouth CLEC Information Package, "UNE-Port/Loop Combination (UNE-P) to UNE-Loop (UNE-L) Bulk Migration" located at BellSouth's Web site: <http://interconnection.bellsouth.com/guides/unedocs/BulkManpkg.pdf>. The rates for the Bulk Migration process shall be the nonrecurring rates associated with the Loop type being requested in the Bulk Migration asset forth in Exhibit A. Additionally, an electronic OSS charges will apply for each customer account subject to the Bulk Migration Request. The migration of loops from Integrated Digital Loop Carrier (IDLC) will be done pursuant to Section 2.13.1 below.

## 2.8 Ordering Guidelines and Processes

2.8.1 Ordering and provisioning for UNEs and Other Services shall be as set forth in Attachment 6 of this Agreement.

2.8.2 Additional UNE product information may also be found in the individual CLEC Information Packages found on the "CLEC UNE Products" BellSouth's Web site located at <http://www.interconnection.bellsouth.com/guides/html/unec.html>.

- 2.9 Unbundled Voice Loops (UVLs)
- 2.9.1 BellSouth shall make available the following UVLs:
  - 2.9.1.1 2-wire Analog Voice Grade Loop – SL1 (Non-Designed)
  - 2.9.1.2 2-wire Analog Voice Grade Loop – SL2 (Designed)
  - 2.9.1.3 4-wire Analog Voice Grade Loop (Designed)
- 2.9.2 UVL may be provisioned using any type of facility that will support voice grade services. This may include loaded copper, non-loaded copper, digital loop carrier systems, fiber/copper combination (hybrid loop) or a combination of any of these facilities. BellSouth, in the normal course of maintaining, repairing, and configuring its network, may also change the facilities that are used to provide any given voice grade circuit. This change may occur at any time and shall result in no voice grade service disruption or degradation to the customer. In these situations, BellSouth will ensure that the newly provided facility will support a 64 kbps channel capable of supporting voice grade services. BellSouth will not guarantee that KMC Data will be able to continue to provide any advanced services over the new facility. BellSouth will offer UVL in two (2) different service levels - Service Level One (SL1) and Service Level Two (SL2).
  - 2.9.2.1 Unbundled Voice Loop - SL1 (UVL-SL1). Loops are 2-wire Loop start circuits, will be non-designed, and will not have remote access test points. OC will be offered as a chargeable option on SL1 Loops when reuse of existing facilities has been requested by KMC Data. KMC Data may also order OC-TS when a specified conversion time is requested. OC-TS is a chargeable option for any coordinated order and is billed in addition to the OC charge. An Engineering Information (EI) document can be ordered as a chargeable option. The EI document provides Loop MakeUp (LMU) information, which is similar to the information normally provided in a Design Layout Record (DLR). Upon issuance of a non-coordinated order in the service order system, SL1 Loops will be activated on the due date in the same manner and time frames that BellSouth normally activates POTS-type Loops for its customers. For SL1 orders that include the OC option, BellSouth will use best efforts to notify KMC Data within thirty (30) minutes of the completion of the physical wire work.
    - 2.9.2.1.1 For an additional charge BellSouth will make available additional Loop Testing so that KMC Data may request further testing on new UVL-SL1 Loops. Rates for additional Loop Testing are as set forth in Exhibit A.
  - 2.9.2.2 Unbundled Voice Loop – SL2 (UVL-SL2). Loops may be 2-wire or 4-wire circuits, shall have remote access test points, and will be designed with a DLR provided to KMC Data. SL2 circuits can be provisioned with loop start, ground start or reverse battery signaling. OC is provided as a standard feature on SL2

Loops. The OC feature will allow KMC Data to coordinate the installation of the Loop with the disconnect of an existing customer's service and/or number portability service. In these cases, BellSouth will perform the order conversion with standard order coordination at BellSouth's discretion during normal work hours.

## 2.10 Unbundled Digital Loops

- 2.10.1 BellSouth will offer Unbundled Digital Loops (UDL). UDLs are service specific, will be designed, will be provisioned with test points (where appropriate), and will come standard with OC and a DLR. The various UDLs are intended to support a specific digital transmission scheme or service.
- 2.10.2 BellSouth shall make available the following UDLs as set forth below:
  - 2.10.2.1 2-wire Unbundled ISDN Digital Loop
  - 2.10.2.2 2-wire Unbundled ADSL Compatible Loop
  - 2.10.2.3 2-wire Unbundled HDSL Compatible Loop
  - 2.10.2.4 4-wire Unbundled HDSL Compatible Loop
  - 2.10.2.5 4-wire Unbundled DS1 Digital Loop
  - 2.10.2.6 4-wire Unbundled Digital Loop/DS0 – 64 kbps, 56 kbps and below
  - 2.10.2.7 DS3 Loop
  - 2.10.2.8 STS-1 Loop
- 2.10.3 2-Wire Unbundled ISDN Digital Loops will be provisioned according to industry standards for 2-Wire Basic Rate ISDN services and will come standard with a test point, OC, and a DLR. KMC Data will be responsible for providing BellSouth with a Service Profile Identifier (SPID) associated with a particular ISDN-capable Loop and customer. With the SPID, BellSouth will be able to adequately test the circuit and ensure that it properly supports ISDN service. When ISDN Loops are provisioned using a Digital Loop Carrier (DLC) system, BellSouth will ensure that the Loops are provisioned on time slots that are compatible with data-only services such as IDSL.
- 2.10.3.1 Upon the Effective Date of this Agreement, Universal Digital Channel (UDC) elements will no longer be offered by BellSouth and no new orders for UDC will be accepted. Any existing UDCs that were provisioned prior to the Effective Date of this Agreement will be grandfathered at the rates set forth in the Parties' interconnection agreement that was in effect immediately prior to the Effective Date of this Agreement. Existing UDCs that were provisioned prior to the

Effective Date of this Agreement may remain connected, maintained and repaired according to BellSouth's TR73600 until such time as they are disconnected by KMC Data or BellSouth provides ninety (90) days notice that such UDC must be terminated at which point the Parties will coordinate the transition in a cooperative manner. KMC Data may order an ISDN loop, if available, to provide the same functionality as the previously offered UDC product.

- 2.10.4 2-Wire ADSL-Compatible Loop. This is a designed Loop that is provisioned according to Revised Resistance Design (RRD) criteria and may be up to eighteen thousand (18,000) feet long and may have up to six thousand (6,000) feet of bridged tap (inclusive of Loop length). The Loop is a 2-wire circuit and will come standard with a test point, OC, and a DLR.
- 2.10.5 2-Wire or 4-Wire HDSL-Compatible Loop. This is a designed Loop that meets Carrier Serving Area (CSA) specifications, may be up to twelve thousand (12,000) feet long and may have up to two thousand five hundred (2,500) feet of bridged tap (inclusive of Loop length). It may be a 2-wire or 4-wire circuit and will come standard with a test point, OC, and a DLR.
- 2.10.6 4-Wire Unbundled DS1 Digital Loop. This is a designed 4-wire Loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point, OC, and a DLR. A DS1 Loop may be provisioned over a variety of loop transmission technologies including copper, HDSL-based technology or fiber optic transport systems. It will include a 4-Wire DS1 Network Interface at the customer's location.
- 2.10.7 4-Wire Unbundled Digital/DS0 Loop. These are designed 4-wire Loops that may be configured as 64kbps, 56kbps, 19kbps, and other sub-rate speeds associated with digital data services and will come standard with a test point, OC, and a DLR.
- 2.10.8 DS3 Loop. DS3 Loop is a two-point digital transmission path which provides for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital electrical signals at a transmission rate of 44.736 megabits per second (Mbps) that is dedicated to the use of the ordering CLEC in its provisioning of local exchange and associated exchange access services. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated DS3 transport is a metallic-based electrical interface. DS3 Loops come with a test point and a DLR. DS3 Loops require a SI in order to ascertain availability. Rates are mileage sensitive and the mileage is in airline miles, rounded up and a minimum of one (1) mile applies. BellSouth TR 73501 LightGate® Service Interface and Performance Specifications, Issue D, June 1995 applies to DS3 service
- 2.10.9 STS-1 Loop. STS-1 Loop is a high-capacity digital transmission path with SONET VT1.5 mapping that is dedicated for the use of the ordering customer for

the purpose of provisioning local exchange and associated exchange access services. It is a two-point digital transmission path that provides for simultaneous two-way transmission of serial bipolar return-to-zero synchronous digital electrical signals at a transmission rate of 51.84 Mbps. It may provide transport for twenty-eight (28) DS1 channels, each of which provides the digital equivalent of twenty-four (24) analog voice grade channels. The interface to unbundled dedicated STS-1 transport is a metallic-based electrical interface. STS-1 Loops come with a test point and a DLR. STS-1 Loops require a SI in order to ascertain availability.

## 2.11 Unbundled Copper Loops (UCL)

2.11.1 BellSouth shall make available UCLs. The UCL is a copper twisted pair Loop that is unencumbered by any intervening equipment (e.g., filters, load coils, range extenders, digital loop carrier, or repeaters) and is not intended to support any particular telecommunications service. The UCL will be offered in two (2) types Designed and Non-Designed.

### 2.11.2 Unbundled Copper Loop – Designed (UCL-D)

2.11.2.1 The UCL-D will be provisioned as a dry copper twisted pair (2 or 4-wire) Loop that is unencumbered by any intervening equipment (e.g., filters, load coils, range extenders, digital loop carrier, or repeaters).

2.11.2.2 A UCL-D will be eighteen thousand (18,000) feet or less in length and is provisioned according to Resistance Design parameters, may have up to six thousand (6,000) feet of bridged tap and will have up to thirteen hundred (1300) Ohms of resistance.

2.11.2.3 The UCL-D is a designed circuit, is provisioned with a test point, and comes standard with a DLR. OC is a chargeable option for a UCL-D; however, OC is always required on UCLs where a reuse of existing facilities has been requested by KMC Data.

2.11.2.4 These Loops are not intended to support any particular services and may be utilized by KMC Data to provide a wide-range of telecommunications services as long as those services do not adversely affect BellSouth's network. This facility will include a Network Interface Device (NID) at the customer location for the purpose of connecting the Loop to the customer's inside wire.

### 2.11.3 Unbundled Copper Loop – Non-Designed (UCL-ND)

2.11.3.1 The UCL-ND is provisioned as a dedicated 2-wire metallic transmission facility from BellSouth's Main Distribution Frame (MDF) to a customer's premises (including the NID). The UCL-ND will be a "dry copper" facility in that it will not have any intervening equipment such as load coils, repeaters, or digital access main lines (DAMLs), and may have up to six thousand (6,000) feet of bridged tap between the end user customer's premises and the serving wire center. The

UCL-ND typically will be thirteen hundred (1300) Ohms resistance and in most cases will not exceed 18,000 feet in length, although the UCL-ND will not have a specific length limitation. For Loops less than eighteen thousand (18,000) feet and with less than thirteen hundred (1300) Ohms resistance, the Loop will provide a voice grade transmission channel suitable for Loop start signaling and the transport of analog voice grade signals. The UCL-ND will not be designed and will not be provisioned with either a DLR or a test point.

- 2.11.3.2 The UCL-ND facilities may be mechanically assigned using BellSouth's assignment systems. Therefore, the Loop Makeup (LMU) process is not required to order and provision the UCL-ND. However, KMC Data can request LMU for which additional charges would apply.
- 2.11.3.3 For an additional charge, BellSouth also will make available Loop Testing so that KMC Data may request further testing on the UCL-ND. Rates for Loop Testing are as set forth in Exhibit A.
- 2.11.3.4 UCL-ND Loops are not intended to support any particular service and may be utilized by KMC Data to provide a wide-range of telecommunications services as long as those services do not adversely affect BellSouth's network. The UCL-ND will include a NID at the customer's location for the purpose of connecting the Loop to the customer's inside wire.
- 2.11.3.5 OC will be provided as a chargeable option and may be utilized when the UCL-ND provisioning is associated with the reuse of BellSouth facilities. OC-TS does not apply to this product.
- 2.11.3.6 KMC Data may use BellSouth's Unbundled Loop Modification (ULM) offering to remove excessive bridged taps and/or load coils from any copper Loop within the BellSouth network. Therefore, some Loops that would not qualify as UCL-ND could be transformed into Loops that do qualify, using the ULM process.
- 2.12 Unbundled Loop Modifications (Line Conditioning)
  - 2.12.1 For purposes of this Agreement, Line Conditioning is defined as a RNM that BellSouth regularly undertakes to provide xDSL services to its own customers. This may include the removal of any device, from a copper loop or copper subloop that may diminish the capability of the loop or subloop to deliver high-speed switched wireline telecommunications capability, including xDSL service. Such devices include, but are not limited to; load coils, low pass filters, and range extenders. Insofar as it is technically feasible, BellSouth shall test and report troubles for all the features, functions, and capabilities of conditioned copper lines, any may not restrict its testing to voice transmission only.
  - 2.12.2 BellSouth will remove load coils only on copper loops and sub loops that are less than eighteen thousand (18,000) feet in length. BellSouth will remove load coils on

copper loops and sub loops that are greater than eighteen thousand (18,000) feet in length upon KMC Data's request at rates pursuant to BellSouth's Special Construction Process contained in BellSouth's FCC No. 2 Tariff as mutually agreed to by the Parties.

- 2.12.3 Any copper loop being ordered by KMC Data which has over six thousand (6,000) feet of combined bridged tap will be modified, upon request from KMC Data, so that the loop will have a maximum of six thousand (6,000) feet of bridged tap. This modification will be performed at no additional charge to KMC Data. Line conditioning orders that require the removal of bridged tap that serves no network design purpose on a copper loop that will result in a combined level of bridged tap between two thousand five hundred (2,500) and six thousand (6,000) feet will be performed at the rates set forth in Exhibit A.
- 2.12.4 KMC Data may request removal of any unnecessary and non-excessive bridged tap (bridged tap between zero (0) and two thousand five hundred (2,500) feet which serves no network design purpose), at rates pursuant to BellSouth's Special Construction Process contained in BellSouth's FCC No. 2 Tariff or as otherwise mutually agreed to by the Parties.
- 2.12.5 Rates for ULM are as set forth in Exhibit A.
- 2.12.6 BellSouth will not modify a Loop in such a way that it no longer meets the technical parameters of the original Loop type (e.g., voice grade, ADSL, etc.) being ordered. If KMC Data wants a different type of Loop or wants the original Loop type modified to a different Loop type then KMC Data must submit a new order for that type of Loop.
- 2.12.7 If KMC Data requests ULM on a reserved facility for a new loop order, BellSouth may perform a pair change and provision a different loop facility in lieu of the reserved facility with ULM if feasible. The loop provisioned will meet or exceed specifications of the requested loop facility as modified. KMC Data will not be charged for ULM if a different loop is provisioned. For loops that require a DLR or its equivalent, BellSouth will provide LMU detail of the loop provisioned.
- 2.12.8 KMC Data shall request LMU information pursuant to this Attachment prior to submitting a service inquiry and/or a LSR for the Loop type that KMC Data desires BellSouth to condition.
- 2.12.9 When requesting ULM for a Loop that BellSouth has previously provisioned for KMC Data, KMC Data will submit a service inquiry to BellSouth. If a spare Loop facility that meets the loop modification specifications requested by KMC Data is available at the location for which the ULM was requested, KMC Data will have the option to change the Loop facility to the qualifying spare facility rather than to provide ULM. In the event that BellSouth changes the Loop facility in lieu of

providing ULM, KMC Data will not be charged for ULM but will only be charged the service order charges for submitting an order.

## 2.13 Loop Provisioning Involving Integrated Digital Loop Carriers

2.13.1 Where KMC Data has requested an Unbundled Loop and BellSouth uses IDLC systems to provide the local service to the customer and BellSouth has a suitable alternate facility available, BellSouth will make such alternative facilities available to KMC Data. If a suitable alternative facility is not available, then to the extent it is technically feasible, BellSouth will implement one of the following alternative arrangements for KMC Data (e.g., hairpinning):

1. Roll the circuit(s) from the IDLC to any spare copper that exists to the customer premises.
2. Roll the circuit(s) from the IDLC to an existing DLC that is not integrated.
3. If capacity exists, provide "side-door" porting through the switch.
4. If capacity exists, provide "Digital Access Cross Connect System (DACS)-door" porting (if the IDLC routes through a DACS prior to integration into the switch).

2.13.2 Arrangements 3 and 4 above require the use of a designed circuit. Therefore, non-designed Loops such as the SL1 voice grade and UCL-ND may not be ordered in these cases.

2.13.3 If no alternate facility is available, and upon request from KMC Data, and if agreed to by both Parties, BellSouth may utilize its Special Construction (SC) process to determine the additional costs required to provision facilities. KMC Data will then have the option of paying the one-time SC rates to place the Loop.

## 2.14 Network Interface Device

2.14.1 The NID is defined as any means of interconnection of the customer premises wiring to BellSouth's distribution plant, such as a cross connect device used for that purpose. The NID is a single-line termination device or that portion of a multiple line termination device required to terminate a single line or circuit at the premises. Unless otherwise requested, all loops will be provisioned with the appropriate NID. The NID features two (2) independent chambers or divisions that separate the service provider's network from the customer premises wiring. Each chamber or division contains the appropriate connection points or posts to which the service provider and each make their connections. The NID provides a protective ground connection and is capable of terminating cables such as twisted pair cable.

2.14.2 BellSouth shall permit KMC Data to connect KMC Data's loop facilities to the customer premises wiring through the BellSouth NID or at any other technically feasible point.

### 2.14.3 Access to NID

2.14.3.1 KMC Data may access the customer premises wiring by any of the following means and KMC Data shall not disturb the existing form of electrical protection and shall maintain the physical integrity of the NID:

2.14.3.1.1 In Alabama, Georgia, Kentucky, South Carolina and Tennessee, BellSouth shall allow KMC Data to connect its Loops directly to BellSouth's multi-line residential NID enclosures that have spare terminations available or KMC Data can connect to terminations that currently have loops attached to them but that are not currently used by BellSouth or any other telecommunications carrier to provide service to the premises.

In Florida, Louisiana, Mississippi and North Carolina, if no spare terminations are available; KMC Data must connect its Loops to its own NID adjoining BellSouth's multi-line residential NID. KMC Data can install the NID and cross connect to BellSouth's NID itself. IF KMC Data decides to do so, KMC Data can have BellSouth install the NID or have BellSouth install the NID and cross connect to BellSouth's NID. To have BellSouth do this installation work KMC Data must submit a LSR. BellSouth will perform the installation and bill KMC Data a nonrecurring charge for the NID or for the NID and cross connect.

2.14.3.1.2 Where an adequate length of the customer premises wiring is present and environmental conditions permit, either Party may remove the customer premises wiring from the other Party's NID and connect such wiring to that Party's own NID, provided that it has received the appropriate consent from the customer and has provided reasonable advanced notice to the other Party.

2.14.3.1.3 Either Party may enter the subscriber access chamber or dual chamber NID enclosures for the purpose of extending a connection or spliced jumper wire from the customer premises wiring through a suitable "punch-out" hole of such NID enclosures; or

2.14.3.1.4 KMC Data may request BellSouth to make other rearrangements to the customer premises wiring terminations or terminal enclosure on a time and materials cost basis.

2.14.3.2 In no case shall either Party remove or disconnect the other Party's loop facilities from either Party's NIDs, enclosures, or protectors unless the applicable Commission has expressly permitted the same and the disconnecting Party provides prior notice to the other Party. In such cases, it shall be the responsibility of the Party disconnecting loop facilities to leave undisturbed the existing form of electrical protection and to maintain the physical integrity of the NID. It shall be the responsibility of the Party disconnecting loop facilities to ensure there is no safety hazard, and that Party shall hold the other harmless for any liability associated with the removal of the loop facilities from the other Party's NID. Furthermore, it shall be the responsibility of the disconnecting Party, once the

other Party's loop has been disconnected from the NID, to reconnect the disconnected loop to a nationally recognized testing laboratory listed station protector, which has been grounded as per Article 800 of the National Electrical Code. If no spare station protector exists in the NID, the disconnected loop must be appropriately cleared, capped and stored.

2.13.3.3 KMC Data shall not remove or disconnect ground wires from BellSouth's NIDs, enclosures, or protectors.

2.13.3.4 KMC Data shall not remove or disconnect NID modules, protectors, or terminals from BellSouth's NID enclosures.

2.13.3.5 Due to the wide variety of NID enclosures and outside plant environments, BellSouth will work with KMC Data to develop specific procedures to establish the most effective means of implementing this Section if the procedures set forth herein do not apply to the NID in question.

#### 2.13.4 Technical Requirements

2.13.4.1 The NID shall provide an accessible point of interconnection and shall maintain a connection to ground.

2.13.4.2 If an existing NID is accessed, it shall be capable of transferring electrical analog or digital signals between the customer premises and the distribution media and/or cross connect to KMC Data's NID.

2.13.4.3 Existing BellSouth NIDs will be provided in working condition. Where such NID is not functioning properly, BellSouth shall repair the NID at BellSouth's expense. KMC Data may request BellSouth to do additional work to the NID, including relocating the NID and extending associated distribution plant and inside wiring/UNTW, as appropriate, to that new location, on a time and material basis, except where BellSouth does not charge its retail customers to perform the same functions. When KMC Data deploys its own local Loops in a multiple-line termination device, KMC Data shall specify the quantity of NID connections that it requires within such device.

2.13.4.4 The NID shall be equal to or better than all requirements for NIDs set forth in the applicable industry standard technical requirements.

#### 2.14 Subloop Elements

2.14.1 Where facilities permit, BellSouth shall offer access to its Unbundled Subloop (USL) elements in accordance with 47 C.F.R. §51.319 (b).

#### 2.15 Unbundled Subloop Distribution

- 2.15.1 The Unbundled Subloop Distribution facility is a dedicated transmission facility that BellSouth provides from a customer's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The unbundled subloop distribution media is a copper twisted pair that can be provisioned as a 2-wire or 4-wire facility. BellSouth will make available the following subloop distribution offerings where facilities exist:
- Unbundled Subloop Distribution – Voice Grade
  - Unbundled Copper Subloop
  - Unbundled Subloop Distribution – Intrabuilding Network Cable (aka riser cable)
- 2.15.1.1 Unbundled Subloop Distribution – Voice Grade (USLD-VG) is a copper subloop facility from the cross-box in the field up to and including the point of demarcation at the customer premises and may have load coils.
- 2.15.1.2 Unbundled Copper Subloop (UCSL) is a copper facility of any length provided from the cross-box in the field up to and including the customer's point of demarcation. If available, this facility will not have any intervening equipment such as load coils between the customer premises and the cross-box.
- 2.15.1.2.1 If KMC Data requests a UCSL and it is not available, KMC Data may request the copper Subloop facility be modified pursuant to the ULM process to remove load coils and/or excessive bridged taps. If load coils and/or excessive bridged taps are removed, the facility will be classified as a UCSL.
- 2.15.1.3 Unbundled Subloop Distribution – Intrabuilding Network Cable (USLD-INC) is the distribution facility owned or controlled by BellSouth inside a building or between buildings on the same property that is not separated by a public street or road. USLD-INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the customer premises.
- 2.15.1.3.1 Upon request for USLD-INC from KMC Data, BellSouth will install a cross-connect panel in the building equipment room for the purpose of accessing USLD-INC pairs from a building equipment room. The cross-connect panel will function as a single point of interconnection (SPOI) for USLD-INC and will be accessible by multiple carriers as space permits. BellSouth will place cross-connect blocks in 25-pair increments for KMC Data's use on this cross-connect panel. KMC Data will be responsible for connecting its facilities to the 25-pair cross-connect block(s).
- 2.15.1.4 For access to Voice Grade USLD and UCSL, KMC Data shall install a cable to the BellSouth cross-box pursuant to the terms and conditions for physical collocation for remote sites set forth in this Agreement. This cable would be

connected by a BellSouth technician within the BellSouth cross-box during the set-up process. KMC Data's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.

- 2.15.1.5 Through the SI process, BellSouth will determine whether access to Unbundled Subloops at the location requested by KMC Data is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet KMC Data's request, then BellSouth will perform the site set-up as described in the CLEC Information Package, located at the BellSouth Web site: <http://www.interconnection.bellsouth.com/products/html/unes.html>.
- 2.15.1.6 The site set-up must be completed before KMC Data can order subloop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice KMC Data's cable into the cross-connect box. For the site set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs.
- 2.15.1.7 Once the site set-up is complete, KMC Data will request subloop pairs through submission of a LSR form to the Local Carrier Service Center (LCSC). OC is required with USL pair provisioning when KMC Data requests reuse of an existing facility, and the OC charge shall be billed in addition to the USL pair rate. For expedite requests by KMC Data for subloop pairs, expedite charges will apply for intervals less than five (5) days.
- 2.15.1.8 Unbundled Subloops will be provided in accordance with technical reference BellSouth TR73600.
- 2.15.2 Unbundled Network Terminating Wire (UNTW)
  - 2.15.2.1 UNTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual customer premises point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.
  - 2.15.2.2 BellSouth will provide this element in MDUs and/or Multi-Tenants Units (MTUs) where BellSouth owns, controls or leases, but only to the extent that BellSouth has control by virtue of such lease, wiring all the way to the customer premises. BellSouth shall use commercially reasonable efforts to obtain the right to permit KMC Data to access the UNTW.
  - 2.15.2.3 Requirements

- 2.15.2.3.1 On a multi-unit premises, upon request of KMC Data, BellSouth will provide access to UNTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet.
- 2.15.2.3.2 Except as otherwise required in this Attachment or as necessary for BellSouth to perform its obligations under Section 2.15.2.3.1, BellSouth shall not be required to install new or additional UNTW beyond existing UNTW to provision the services of KMC Data.
- 2.15.2.3.3 Upon receipt of the UNTW SI requesting access to BellSouth's UNTW pairs at a multi-unit premises, representatives of both Parties will participate in a meeting at the site of the requested access. The purpose of the site visit will include discussion of the procedures for installation and location of the Access Terminals. By request of KMC Data, an Access Terminal will be installed either adjacent to each of BellSouth's Garden Terminal or inside each Wiring Closet. KMC Data will deliver and connect its central office facilities to the UNTW pairs within the Access Terminal. KMC Data may access any available pair on an Access Terminal. A pair is available when a pair is not being utilized to provide service or where the customer has requested a change in its local service provider to KMC Data on that pair. Prior to connecting KMC Data's service on a pair previously used by BellSouth, KMC Data will use commercially reasonable efforts to ensure the customer is no longer using BellSouth's service or another CLEC's service on that pair before accessing UNTW pairs.
- 2.15.2.3.4 Access Terminal installation intervals will be established on an individual case basis.
- 2.15.2.3.5 KMC Data is responsible for obtaining the property owner's permission for BellSouth to install an Access Terminal(s) on behalf of KMC Data. The submission of the SI by KMC Data will serve as certification by KMC Data that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, KMC Data will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.
- 2.15.2.3.6 KMC Data shall indemnify and hold harmless BellSouth against any claims of any kind that may arise out of KMC Data's failure to obtain the property owner's permission.
- 2.15.2.3.7 KMC Data will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time KMC Data activates the pair(s). KMC Data will notify BellSouth within five (5) business days of activating UNTW pairs using the LSR form.
- 2.15.2.3.8 If a trouble exists on a UNTW pair, KMC Data may use an alternate spare pair that serves that customer premises if a spare pair is available. In such cases, KMC

Data will re-terminate its existing jumper from the defective pair to the spare pair. Alternatively, **KMC Data** will isolate and report troubles to BellSouth. In such cases, KMC Data must tag the UNTW pair that requires repair. If BellSouth dispatches a technician on a reported trouble call and no UNTW trouble is found, BellSouth will charge KMC Data for time spent on the dispatch and testing the UNTW pair(s).

- 2.15.2.3.9 If KMC Data initiates the Access Terminal installation and KMC Data has not activated at least ten (10) percent of the capacity of the Access Terminal installed pursuant to KMC Data's request for an Access Terminal within six (6) months of installation of the Access Terminal, BellSouth will bill KMC Data a nonrecurring charge equal to the actual cost of provisioning the Access Terminal. Once KMC Data has activated at least ten percent (10%) of the capacity of the Access Terminal within six (6) months of installation of the Access Terminal, KMC Data will not be billed for the placement of the Access Terminal even if the percentage of activated pairs drops at a later time below ten percent (10%) or is completely deactivated.
- 2.15.2.3.10 If BellSouth determines that KMC Data is using the UNTW pairs without reporting the activation of the pairs, KMC Data will be billed for the use of that pair back to the date the customer began receiving service from KMC Data at that location. Upon request, KMC Data will provide copies of its redacted billing record or installation order with sufficient information to substantiate such date. If KMC Data fails to provide such records, then BellSouth will bill KMC Data back to the date of the Access Terminal installation.

### 2.15.3 Unbundled Subloop Feeder

- 2.15.3.1 Upon the Effective Date of this Agreement, Unbundled Subloop Feeder (USLF) elements will no longer be offered by BellSouth at TELRIC prices. Within ninety (90) days of the Effective Date of this Agreement, KMC Data will either negotiate market-based rates for these elements or will issue orders to have these elements disconnected. If, after this ninety (90) day period, market-based rates have not been negotiated and KMC Data has not issued the appropriate disconnect orders, BellSouth may immediately disconnect any remaining USLF elements and will bill KMC Data any applicable disconnect charges at rates set forth in Exhibit A.

### 2.15.4 Unbundled Loop Concentration

- 2.15.4.1 Upon the Effective Date of this Agreement, the Unbundled Loop Concentration (ULC) element will no longer be offered by BellSouth and no new orders for ULC will be accepted. Any existing ULCs that were provisioned prior to the Effective Date of this Agreement will be grandfathered at the rates set forth in the Parties' interconnection agreement that was in effect immediately prior to this Agreement and may remain connected, maintained and repaired according to BellSouth's TR73600 until such time as they are disconnected by KMC Data, or BellSouth

provides ninety (90) days notice that such ULC must be terminated at which point the Parties will coordinate the transition in a cooperative manner.

2.16 Dark Fiber Loop

2.16.1 Dark Fiber Loop is defined in Section 2.3.6 above. BellSouth will provide line termination elements at both ends but will not provide regeneration or other electronics necessary for KMC Data to utilize Dark Fiber Loops.

2.16.2 For maintenance troubles after acceptance of the Dark Fiber, KMC Data should use the normal trouble reporting process and BellSouth will isolate and correct the problem.

2.16.3 Transition for Dark Fiber Loop

2.16.3.1 For purposes of this Section 2.16.3, the Transition Period for Dark Fiber Loops is the eighteen (18) month period beginning March 11, 2005 and ending September 10, 2006.

2.16.3.2 For purposes of this Section 2.16.3, Embedded Base means Dark Fiber Loops that were in service for KMC Data as of March 10, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.

2.16.4 During the Transition Period only, BellSouth shall make available for the Embedded Base Dark Fiber Loops for KMC Data at the terms and conditions set forth in this Attachment.

2.16.5 Notwithstanding the Effective Date of this Agreement, the rates for KMC Data's Embedded Base of Dark Fiber Loops during the Transition Period shall be as set forth in Exhibit A.

2.16.6 The Transition Period shall apply only to KMC Data's Embedded Base and KMC Data shall not add new Dark Fiber Loops pursuant to this Agreement.

2.16.7 Effective September 11, 2006, Dark Fiber Loops will no longer be made available pursuant to this Agreement.

2.16.8 No later than June 10, 2006 KMC Data shall submit spreadsheet(s) identifying all of the Embedded Base of circuits to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 1.5. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base.

2.16.8.1 If KMC Data fails to submit the spreadsheet(s) specified in Section 2.16.8 above for all of its Embedded Base prior to June 10, 2006, BellSouth will identify KMC Data's remaining Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 2.16.8.1 shall be subject to all applicable

disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.

- 2.16.8.2 For Embedded Base circuits converted pursuant to Section 2.16.8 or transitioned pursuant to 2.16.8.1, the applicable recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is converted or transitioned, as applicable, or September 11, 2006.

2.17 Loop Makeup

2.17.1 Description of Service

- 2.17.1.1 BellSouth shall make available to KMC Data LMU information so that KMC Data can make an independent judgment about whether the Loop is capable of supporting the advanced services equipment KMC Data intends to install and the services KMC Data wishes to provide. This Section addresses LMU as a preordering transaction, distinct from KMC Data ordering any other service(s). Loop Makeup Service Inquiries (LMUSI) and mechanized LMU queries are likewise unique from other preordering functions with associated SIs as described in this Agreement.
- 2.17.1.2 BellSouth will provide KMC Data LMU information consisting of the composition of the Loop material (copper/fiber); the existence, location and type of equipment on the Loop, including but not limited to digital loop carrier or other remote concentration devices, feeder/distribution interfaces, bridged taps, load coils, pair-gain devices; the Loop length; the wire gauge and electrical parameters.
- 2.17.1.3 BellSouth's LMU information is provided to KMC Data as it exists either in BellSouth's databases or in its hard copy facility records. BellSouth does not guarantee accuracy or reliability of the LMU information provided, but BellSouth shall provide to KMC Data the same information that it would provide to itself.
- 2.17.1.4 BellSouth's provisioning of LMU information to the requesting CLEC for facilities is contingent upon either BellSouth or the requesting CLEC controlling the loop(s) that serve the service location for which LMU information has been requested by the CLEC. The requesting CLEC is not authorized to receive LMU information on a facility used or controlled by another CLEC unless the requesting CLEC has a Letter of Authorization (LOA) from the CLEC using or controlling the loop (owner) or its authorized agent on the LMUSI submitted by the requesting CLEC.
- 2.17.1.5 KMC Data may choose to use equipment that it deems will enable it to provide a certain type and level of service over a particular BellSouth Loop as long as that equipment does not disrupt other services on the BellSouth network. The determination shall be made solely by KMC Data and BellSouth shall not be liable in any way for the performance of the advanced data services provisioned over

said Loop. The specific Loop type (ADSL, HDSL, or otherwise) ordered on the LSR must match the LMU of the Loop reserved taking into consideration any requisite line conditioning. The LMU data is provided for informational purposes only and does not guarantee KMC Data's ability to provide advanced data services over the ordered Loop type. Further, if KMC Data orders Loops that do not require a specific facility medium or Loops that are not intended to support advanced services (such as UVL-SL1, UVL-SL2) and that are not inventoried as advanced services Loops, the LMU information for such Loops is subject to change at any time due to modifications and/or upgrades to BellSouth's network. KMC Data is fully responsible for any of its service configurations that may differ from BellSouth's technical standard for the Loop type ordered.

2.17.2 Submitting Loop Makeup Service Inquiries

2.17.2.1 KMC Data may obtain LMU information by submitting a mechanized LMU query or a Manual LMUSI. Mechanized LMUs should be submitted through BellSouth's OSS interfaces. After obtaining the Loop information from the mechanized LMU process, if KMC Data needs further Loop information in order to determine Loop service capability, KMC Data may initiate a separate Manual Service Inquiry for a separate nonrecurring charge as set forth in Exhibit A.

2.17.2.2 Manual LMUSIs shall be submitted according to the guidelines in the LMU CLEC Information Package available at BellSouth's Web site: <http://interconnection.bellsouth.com/guides/html/unes.html>. The service interval for the return of a Manual LMUSI is three (3) business days. Manual LMUSIs are not subject to expedite requests. This service interval is distinct from the interval applied to the subsequent service order.

2.17.3 Loop Reservations

2.17.3.1 For a Mechanized LMUSI, KMC Data may reserve up to ten (10) Loop facilities. For a Manual LMUSI, KMC Data may reserve up to three (3) Loop facilities.

2.17.3.2 KMC Data may reserve facilities for up to four (4) business days for each facility requested through LMU from the time the LMU information is returned to KMC Data. During and prior to KMC Data placing an LSR, the reserved facilities are rendered unavailable to other customers, including BellSouth. If KMC Data does not submit an LSR for a UNE service on a reserved facility within the four (4) business day reservation timeframe, the reservation of that spare facility will become invalid and the facility will be released.

2.17.3.3 Charges for preordering Manual LMUSI or Mechanized LMU are separate from any charges associated with ordering other services from BellSouth.

2.17.3.4 All LSRs issued for reserved facilities shall reference the facility reservation number as provided by BellSouth. KMC Data will not be billed any additional

LMU charges for the Loop ordered on such LSR. If, however, KMC Data does not reserve facilities upon an initial LMUSI, KMC Data's placement of an order for an advanced data service type facility will incur the appropriate billing charges to include SI and reservation per Exhibit A.

- 2.17.3.5 Where KMC Data has reserved multiple Loop facilities on a single reservation, KMC Data may not specify which facility shall be provisioned when submitting the LSR. For those occasions, BellSouth will assign to KMC Data, subject to availability, a facility that meets the BellSouth technical standards of the BellSouth type Loop as ordered by KMC Data.

### **3 Line Splitting**

- 3.1 Line Splitting shall mean that a provider of data services (a Data LEC) and a provider of voice services (a Voice CLEC) deliver voice and data service to customers over the same loop. BellSouth will provide Line splitting in accordance with 47 C.F.R. § 51.319 (a)(1)(ii).
- 3.2 In the event KMC Data provides its own switching or obtains switching from a third party, KMC Data may engage in line splitting arrangements with another LEC using a splitter, provided by KMC Data, in a Collocation Arrangement at the central office where the loop terminates into a distribution frame or its equivalent.
- 3.3 Where KMC Data is purchasing a UNE-port and a UNE-loop, BellSouth shall offer line splitting pursuant to the following Sections in this Attachment.
- 3.4 To the extent KMC Data is purchasing UNE-P pursuant to this Agreement, BellSouth will permit KMC Data to replace UNE-P with Line Splitting. The UNE-P arrangement will be converted to a stand-alone Loop, a Network Element switch port, two (2) collocation cross-connects and the high frequency spectrum line activation. The resulting arrangement shall continue to be included in KMC Data's Embedded Base as described in Section 5.3.3.2.
- 3.4.1 KMC Data shall provide BellSouth with a signed Letter of Authorization (LOA) between it and the Data LEC or Voice LEC with which it desires to provision Line Splitting services, if KMC Data will not provide voice and data services.
- 3.4.2 Customers currently receiving voice service from a Voice LEC through a UNE-P may be converted to Line Splitting arrangements by KMC Data or its authorized agent ordering Line Splitting Service. If the CLEC wishes to provide the splitter, the UNE-P arrangement will be converted to a stand-alone UNE Loop, a UNE port, two (2) collocation cross-connects and the high frequency spectrum line activation. If BellSouth owns the splitter, the UNE-P arrangement will be converted to a stand-alone UNE Loop, port, and one (1) collocation cross-connection.

3.4.3 When Customers Loops using High Frequency Spectrum CO Based line sharing service are converted to Line Splitting, BellSouth will discontinue billing KMC Data for the High Frequency Spectrum. BellSouth will continue to bill the Data LEC for all associated splitter charges if the Data LEC continues to use a BellSouth splitter. It is the responsibility of KMC Data or its authorized agent to determine if the Loop is compatible for Line Splitting Service. KMC Data or its authorized agent may use the existing Loop unless it is not compatible with the Data LEC's data service and KMC Data or its authorized agent submits an LSR to BellSouth to change the Loop.

3.5 Provisioning Line Splitting and Splitter Space

3.5.1 The Data LEC, Voice LEC or BellSouth may provide the splitter. When KMC Data or its authorized agent owns the splitter, Line Splitting requires the following: a non-designed analog Loop from the serving wire center to the NID at the customer premises; a collocation cross-connection connecting the Loop to the collocation space; a second collocation cross-connection from the collocation space connected to a voice port; the high frequency spectrum line activation, and a splitter. The Loop and port cannot be a Loop and port combination (i.e., UNE-P), but must be individual stand-alone Network Elements. When BellSouth owns the splitter, Line Splitting requires the following: a non designed analog Loop from the serving wire center to the NID at the customer premises with CFA and splitter port assignments, and a collocation cross-connection from the collocation space connected to a voice port.

3.5.2 An unloaded 2-wire copper Loop must serve the customer. The meet point for the Voice LEC and the Data LEC is the point of termination on the MDF for the Data LEC's cable and pairs.

3.5.3 The foregoing procedures are applicable to migration to Line Splitting Service from a UNE-P arrangement, BellSouth Retail Voice Service, BellSouth High Frequency Spectrum (CO Based) Line Sharing.

3.5.4 For other migration scenarios to line splitting, BellSouth will work cooperatively with CLECs to develop methods and procedures to develop a process whereby a Voice CLEC and a Data LEC may provide services over the same Loop.

3.6 Ordering – Line Splitting

3.6.1 KMC Data shall use BellSouth's LSOD to order splitters from BellSouth and to activate and deactivate DS0 Collocation CFA for use with Line Splitting.

3.6.2 BellSouth shall provide KMC Data the LSR format to be used when ordering Line Splitting service.

- 3.6.3 BellSouth will provision Line Splitting service in compliance with BellSouth's Products and Services Interval Guide available at BellSouth's Web site: <http://www.interconnection.bellsouth.com>.
- 3.6.4 BellSouth will provide KMC Data access to Preordering LMU in accordance with the terms of this Agreement. BellSouth shall bill and KMC Data shall pay the rates for such services as described in Exhibit A.
- 3.6.5 BellSouth will provide Loop Modification to KMC Data on an existing Loop in accordance with procedures developed in the Line Sharing Collaborative. High Frequency Spectrum (CO Based) Unbundled Loop Modification is a separate distinct service from ULM set forth in Section 2.12 above. Procedures for High Frequency Spectrum (CO Based) Unbundled Loop Modification may be found on BellSouth's Web site: [http://www.interconnection.bellsouth.com/guides/unedocs/hi\\_freq\\_sp\\_ulm.pdf](http://www.interconnection.bellsouth.com/guides/unedocs/hi_freq_sp_ulm.pdf). Nonrecurring rates for this offering are as set forth in Exhibit A.

3.7 Maintenance – Line Splitting

- 3.7.1 BellSouth will be responsible for repairing voice services and the physical loop between the NID at the customer premises and the termination point. KMC Data will be responsible for maintaining the voice and data services. Each Party will be responsible for maintaining its own equipment.
- 3.7.2 KMC Data shall inform its customers to direct all problems to KMC Data or its authorized agent.
- 3.7.3 KMC Data shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, actions, causes of action, suits, demands, damages, injury, and costs including reasonable attorney fees proximately arising out of or resulting from actions taken by the data provider or KMC Data in connection with the line splitting arrangement, except to the extent caused by BellSouth's negligence, gross negligence or willful misconduct.

**4 Local Switching**

- 4.1 Notwithstanding anything to the contrary in this Agreement, the services offered pursuant to this Section 4 are limited to DS0 level Local Switching and BellSouth is not required to provide Local Switching pursuant to this Agreement except as set forth in Section 4.2.
- 4.1.1 BellSouth shall not be required to unbundle local circuit switching for KMC Data for a particular End User when KMC Data: (1) serves an End User with four (4) or more voice-grade (DS0) equivalents or lines served by BellSouth in Zone 1 of the following MSAs: Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New Orleans, LA; or (2) serves an End User with a DS1 or

higher capacity Loop in any service area covered by this Agreement. To the extent that KMC Data is serving any End User as described above as of the Effective Date of this Agreement, such End User's arrangement may not remain in place and such Arrangement must be terminated by KMC Data or transitioned by KMC Data, or BellSouth shall disconnect such Arrangements upon thirty (30) days notice.

#### 4.2 Transition for Local Switching

4.2.1 Notwithstanding the Effective Date of this Agreement, for purposes of this Section 4, the Transition Period for Local Switching is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.

4.2.2 For the purposes of this Section 4, Embedded Base shall mean Local Switching and any additional elements that are required to be provided in conjunction therewith that were in service for KMC Data as of March 10, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.

4.2.3 During the Transition Period only, BellSouth shall make Local Switching available for the Embedded Base, in addition to all elements that are required to be provided in conjunction with Local Switching, at the rates, terms and conditions set forth in this Attachment. The Transition Period shall apply only to KMC Data's Embedded Base and KMC Data shall not place new orders for Local Switching pursuant to this Agreement.

4.2.4 Notwithstanding the Effective Date of this Agreement, the rates for KMC Data's Embedded Base of Local Switching during the Transition Period shall be as set forth in Exhibit A.

4.2.5 KMC Data must submit orders, to disconnect or convert all of its Embedded Base of Local Switching to other BellSouth services as Conversions pursuant to Section 1.5 by October 1, 2005.

4.2.5.1 If KMC Data fails to submit orders to disconnect or convert all of its Embedded Base of Local Switching as specified in Section 4.2.5 above prior to October 1, 2005, BellSouth will identify KMC Data's remaining Embedded Base of Local Switching and will disconnect such Local Switching. Those circuits identified and disconnected by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement.

4.2.6 Effective March 11, 2006, Local Switching will no longer be made available pursuant to this Agreement.

#### 4.3 Local Switching Capability, including Tandem Switching Capability

4.3.1 Local Switching capability is defined as all line-side and trunk-side facilities, plus the features, functions, and capabilities of the switch. The features, functions, and capabilities of the switch shall include the basic switching function of connecting

lines to lines, lines to trunks, trunks to lines, and trunks to trunks. Local Switching includes all vertical features that the switch is capable of providing, including custom calling, custom local area signaling service features, and Centrex, as well as any technically feasible customized routing functions.

- 4.3.2 Unbundled Local Switching consists of three (3) separate unbundled elements: Unbundled Ports, End Office Switching Functionality, and End Office Interoffice Trunk Ports.
- 4.3.3 Unbundled Local Switching combined with Common Transport and, if necessary, Tandem Switching provides to KMC Data's customer's local calling and the ability to presubscribe to a primary carrier for intraLATA toll service and to presubscribe to a primary carrier for interLATA toll service.
- 4.3.4 Provided that KMC Data purchases unbundled local switching from BellSouth and uses the BellSouth Carrier Identification Code (CIC) for its customers' Local Preferred Interexchange Carrier (LPIC) or if a BellSouth Local customer selects BellSouth as its LPIC, then the Parties will consider as local any calls originated by a KMC Data local customer, or originated by a BellSouth local customer and terminated to a KMC Data local customer, where such calls originate and terminate in the same LATA, except for those calls originated and terminated through switched access arrangements (i.e., calls that are transported by a Party other than BellSouth). Except as set forth in the BellSouth UNE call flows applicable to UNE-P, for such calls, BellSouth will charge KMC Data the UNE elements for the BellSouth facilities utilized. Neither Party shall bill the other originating or terminating switched access charges for such calls. Intercarrier compensation for local calls between BellSouth and KMC Data shall be as described in BellSouth's UNE Local call flows applicable to UNE-P as found in BellSouth's 2-wire Voice Grade UNE Loop/Port Switched Combination or The Unbundled Network Element Platform (UNE-P) For (Business, Residential and Line Side PBX Service) Including On/Off Premise Extensions guide located on BellSouth's Web site at:  
<http://interconnection.bellsouth.com/guides/unedocs/2wireVGrdULPSComb.pdf>.
- 4.3.5 Where KMC Data purchases unbundled local switching from BellSouth but does not use the BellSouth CIC for its customers' LPIC, BellSouth will consider as local those direct dialed telephone calls that originate from a KMC Data customer and terminate within the basic local calling area or within the extended local calling areas and that are dialed using seven (7) or ten (10) digits as defined and specified in Section A3 of BellSouth's GSST. Except as set forth in the BellSouth UNE call flows applicable to UNE-P, for such local calls, BellSouth will charge KMC Data the UNE elements for the BellSouth facilities utilized. Intercarrier compensation for Local calls between BellSouth and KMC Data shall be as described in BellSouth's UNE Local call flows applicable to UNE-P as found in BellSouth's 2-Wire Voice Grade UNE Loop/Port Switched Combination Or The Unbundled Network Element Platform (UNE-P) For (Business, Residential and Line Side

PBX Service) Including On/Off Premise Extensions guide located on BellSouth's Web site at <http://interconnection.bellsouth.com/guides/unedocs/2wireVGrdULPSComb.pdf>.

- 4.3.6 For any calls utilizing Unbundled Local Switching, that originate and terminate through switched access arrangements (i.e., calls that are transported by a party other than BellSouth), BellSouth shall bill KMC Data the UNE elements for the BellSouth facilities utilized. Each Party may bill the toll provider originating or terminating switched access charges as appropriate.
- 4.3.7 Unbundled ports may or may not include individual features. Where applicable and available, non-switch-based services may be ordered with the Unbundled Port at BellSouth's retail rates.
- 4.3.8 Any features of Local Switching that are not currently available but are technically feasible through the switch can be requested through the BFR/NBR process as set forth in Attachment 11 of this Agreement.
- 4.3.9 BellSouth will provide to KMC Data selective routing of calls to a requested Operator System platform pursuant to this Attachment. Any other routing requests by KMC Data will be made pursuant to the BFR Process as set forth in Attachment 11 of this Agreement.
- 4.4 Remote Call Forwarding (URCF)
  - 4.4.1 As an option, BellSouth shall make available to KMC Data an unbundled port with Remote Call Forwarding capability (URCF service). URCF service combines the functionality of unbundled local switching, tandem switching and common transport to forward calls from the URCF service telephone number (the number dialed by the calling party) to another telephone number selected by the URCF service subscriber. When ordering URCF service, KMC Data will ensure that the following conditions are satisfied:
    - 4.4.1.1 That the customer of the forward-to number (service) agrees to receive calls forwarded using the URCF service (if such customer is different from the URCF service customer);
    - 4.4.1.2 That the forward-to number (service) is equipped with sufficient capacity to receive the volume of calls that will be generated from the URCF service;
    - 4.4.1.3 That the URCF service will not be utilized to forward calls to another URCF or similar service; and
    - 4.4.1.4 That the forward-to number (service) is not a public safety number (e.g., 911, fire or police number).

- 4.4.2 In addition to the charge for the URCF service port, BellSouth shall charge KMC Data the rates set forth in Exhibit A for unbundled local switching, tandem switching, and common transport, including all associated usage incurred for calls from the URCF service telephone number (the number dialed by the calling party) to the forward-to number (service).
- 4.4.3 BellSouth shall perform routine testing (e.g., Mechanized Loop Tests (MLT) and test calls such as 105, 107 and 108 type calls) and fault isolation on a mutually agreed upon schedule.
- 4.4.4 BellSouth shall control congestion points such as those caused by radio station call-ins and network routing abnormalities. When necessary, all traffic shall be restricted in a non-discriminatory manner.
- 4.4.5 BellSouth shall perform manual call trace and permit customer originated call trace. BellSouth shall provide Switching Service Point (SSP) capabilities and signaling software to interconnect the signaling links destined to the Signaling Transfer Point Switch (STPS). These capabilities shall adhere to the technical specifications set forth in the applicable industry standard technical references.
- 4.4.6 BellSouth shall provide interfaces to adjuncts through Telcordia standard interfaces. These adjuncts can include, but are not limited to, the Service Circuit Node and Automatic Call Distributors. BellSouth shall offer to KMC Data all Advanced Intelligent Network (AIN) triggers in connection with its SMS/SCE offering.
- 4.4.7 BellSouth shall provide access to SS7 Signaling Network or Multi-Frequency trunking if requested by KMC Data.
- 4.4.8 Local Switching Interfaces.
- 4.4.8.1 BellSouth shall provide the following local switching interfaces:
- 4.4.8.2 Standard Tip/Ring interface including loop-start or ground-start, on-hook signaling (e.g., for calling number, calling name and message waiting lamp);
- 4.4.8.3 Coin phone signaling;
- 4.4.8.4 Basic Rate Interface ISDN adhering to appropriate Telcordia Technical Requirements;
- 4.4.8.5 2-wire analog interface to PBX;
- 4.4.8.6 4-wire analog interface to PBX;
- 4.4.8.7 Loops adhering to Telcordia TR-NWT-08 and TR-NWT-303 specifications to interconnect Digital Loop Carriers.

- 4.4.9 KMC Data shall maintain the individual telephone number and the correct corresponding address/location data, including maintaining the customer listed address as the actual physical customer location in the E911 Automatic Location Identification (ALI) Database.
- 4.4.10 KMC Data will be responsible and liable for any errors resulting from the submission of invalid telephone number and address/location data for the CLEC's customer.
- 4.5 Tandem Switching
- 4.5.1 The Tandem Switching capability Network Element is defined as: (i) trunk-connect facilities, which include, but are not limited to, the connection between trunk termination at a cross connect panel and switch trunk card; (ii) the basic switch trunk function of connecting trunks to trunks; and (iii) the functions that are centralized in the Tandem Switches (as distinguished from separate end office switches), including but not limited to call recording, the routing of calls to operator services and signaling conversion features.
- 4.5.2 Where KMC Data utilizes portions of the BellSouth network in originating or terminating traffic, the Tandem Switching rates are applied in call scenarios where the Tandem Switching Network Element has been utilized. Because switch recordings cannot accurately indicate on a per call basis when the Tandem Switching Network Element has been utilized for an interoffice call originating from a UNE port and terminating to a BellSouth, Independent Company or Facility-Based CLEC office, BellSouth has developed, based upon call studies, a melded rate that takes into account the average percentage of calls that utilize Tandem Switching in these scenarios. BellSouth shall apply the melded Tandem Switching rate for every call in these scenarios. BellSouth shall utilize the melded Tandem Switching Rate until BellSouth has the capability to measure actual Tandem Switch usage in each call scenario specifically mentioned above, at which point the rate for the actual Tandem Switch usage shall apply. The UNE call flows applicable to UNE-P set forth on BellSouth's Web site at <http://interconnection.bellsouth.com/guides/unedocs/2wireVGrdULPSComb.pdf>, illustrate when the full or melded Tandem Switching rates apply for specific scenarios.
- 4.5.3 Technical Requirements
- 4.5.3.1 Tandem Switching shall have the same capabilities or equivalent capabilities as those described in Telcordia TR-TSY-000540 Issue 2R2, Tandem Supplement, June 1, 1990. The requirements for Tandem Switching include but are not limited to the following:
- 4.5.3.1.1 Tandem Switching shall provide signaling to establish a tandem connection with no loss of feature functionality;

- 4.5.3.1.2 Based on the line class codes established by KMC DataKMC Datacustomer\_short\_name at the BellSouth end office, Tandem Switching will provide screening and routing as designated by KMC Data;
- 4.5.3.1.3 Where applicable, Tandem Switching shall provide AIN triggers supporting AIN features where such routing is not available from the originating end office switch, to the extent such Tandem switch has such capability;
- 4.5.3.1.4 Where applicable, Tandem Switching shall provide access to Toll Free number database;
- 4.5.3.1.5 Tandem Switching shall provide connectivity to Public Safety Answering Point (PSAP)s where 911/E911 solutions are deployed and the tandem is used for 911/E911; and
- 4.5.3.1.6 Where appropriate, Tandem Switching shall provide connectivity for the purpose of routing transit traffic to and from other carriers. Tandem switching shall interconnect, with direct trunks, to all carriers with which BellSouth interconnects.
- 4.5.3.2 Upon reasonable request from KMC Data BellSouth will perform testing and fault isolation on the underlying switch that is providing Tandem Switching. Such testing shall be testing routinely performed by BellSouth. The results and reports of the testing shall be made available to KMC Data as soon as reasonably practicable.
- 4.5.3.3 BellSouth shall control congestion points and network abnormalities. All traffic will be restricted in a non-discriminatory manner.
- 4.5.3.4 Tandem Switching shall process originating toll free traffic received from KMC Data's local switch.
- 4.5.3.5 In support of AIN triggers and features, Tandem Switching shall provide Service SSP capabilities when these capabilities are not available from the Local Switching Network Element to the extent such Tandem Switch has such capability.
- 4.5.3.6 BellSouth's Tandem Switching shall preserve CLASS/LASS features and Caller ID, when that information is provided to BellSouth, as traffic is processed.
- 4.6 AIN Selective Carrier Routing for Operator Services, Directory Assistance and Repair Centers
- 4.6.1 Where BellSouth provides local switching to KMC Data, BellSouth will provide AIN Selective Carrier Routing (AIN SCR) at the request of KMC Data. AIN SCR will provide KMC Data with the capability of routing operator calls, 0+ and 0- and 0+ NPA Local Numbering Plan Area (LNPA), 555-1212 directory assistance, 1+411 directory assistance and 611 repair center calls to pre-selected destinations.

- 4.6.2 KMC Data shall order AIN SCR through its Account Team and/or Local Contract Manager. AIN SCR must first be established regionally and then on a per central office basis for each office where AIN SCR will be utilized.
- 4.6.3 AIN SCR is not available in DMS 10 switches.
- 4.6.4 Where AIN SCR is utilized by KMC Data, the routing of KMC Data's customer calls shall be pursuant to information provided by KMC Data and stored in BellSouth's AIN SCR Service Control Point database. AIN SCR shall utilize a set of Line Class Codes (LCCs) unique to a basic class of service assigned on an "as needed" basis. The same LCCs will be assigned in each central office where AIN SCR is established.
- 4.6.5 KMC Data shall remit to BellSouth the Regional Service Order nonrecurring charges set forth in Exhibit A. There shall be a nonrecurring End Office Establishment Charge per office due at the addition of each central office where AIN SCR will be utilized. Said nonrecurring charge shall be as set forth in Exhibit A. For each KMC Data customer activated, there shall be a nonrecurring End User Establishment charge as set forth in Exhibit A. KMC Data shall pay the AIN SCR Per Query Charge set forth in Exhibit A.
- 4.6.6 This Regional Service Order nonrecurring charge will be non-refundable and will be paid with one-half (½) due up-front with the submission of all fully completed required forms including: Regional Selective Carrier Routing (SCR) Order Request-Form A, Central Office AIN SCRSCR Order Request - Form B, AIN SCR Central Office Identification Form - Form C, AIN SCR Routing Options Selection Form - Form D, and Routing Combinations Table - Form E. BellSouth has thirty (30) days to respond to KMC Data's fully completed firm order as a Regional Service Order. With the delivery of this firm order response to KMC Data, BellSouth considers that the delivery schedule of this service commences. The remaining half of the Regional Service Order payment must be paid when one hundred percent (100%) of the Central Offices listed on the original order have been turned up for the service.
- 4.6.7 The nonrecurring End Office Establishment Charge will be billed to KMC Data following BellSouth's normal monthly billing cycle for this type of order.
- 4.6.8 End User Establishment Orders will not be turned-up until the second payment is received for the Regional Service Order. The nonrecurring End User Establishment Charges will be billed to KMC Data following BellSouth's normal monthly billing cycle for this type of order.
- 4.6.9 Additionally, the AIN SCR Per Query Charge will be billed to KMC Data following the normal billing cycle for per query charges.

- 4.6.10 All other network components needed, for example, unbundled switching, unbundled local transport, etc., will be billed per contracted rates.
- 4.7 Selective Call Routing Using Line Class Codes (SCR-LCC)
- 4.7.1 Where KMC Data purchases unbundled local switching from BellSouth and utilizes an operator services provider other than BellSouth, BellSouth will route KMC Data's customer calls to that provider through Selective Call Routing.
- 4.7.2 Selective Call Routing using Line Class Codes (SCR-LCC) provides the capability for KMC Data to have its Operator Call Processing/Directory Assistance (OCP/DA) calls routed to BellSouth's OCP/DA platform for BellSouth provided Custom Branded or Unbranded OCP/DA or to its own or an alternate OCP/DA platform for Self-Branded OCP/DA. SCR-LCC is only available if line class code capacity is available in the requested BellSouth end office switches.
- 4.7.3 Custom Branding for Directory Assistance (DA) is not available for certain classes of service, including but not limited to Hotel/Motel services, WATS service, and certain PBX services.
- 4.7.4 Where available, KMC Data specific and unique LCCs are programmed in each BellSouth end office switch where KMC Data intends to serve customer with customized OCP/DA branding. The LCCs specifically identify KMC Data's customers so OCP/DA calls can be routed over the appropriate trunk group to the requested OCP/DA platform. Additional LCCs are required in each end office if the end office serves multiple NPAs (i.e., a unique LCC is required per NPA), and/or if the end office switch serves multiple rate areas and KMC Data intends to provide KMC Data -branded OCP/DA to its customers in these multiple rate areas.
- 4.7.5 SCR-LCC supporting Custom Branding and Self Branding require KMC Data to order dedicated trunking from each BellSouth end office identified by KMC Data, either to the BellSouth Traffic Operator Position System (TOPS) for Custom Branding or to the KMC Data Operator Service Provider for Self Branding. Separate trunk groups are required for Operator Services and for DA. Rates for trunks shall be in accordance with Section 4.8.1.1 of Attachment 3.
- 4.7.6 Unbranding - Unbranded DA and/or OCP calls ride common trunk groups provisioned by BellSouth from those end offices identified by KMC Data to the BellSouth TOPS.
- 4.7.7 The rates for SCR-LCC are as set forth in Exhibit A. There is a nonrecurring charge for the establishment of each LCC in each BellSouth central office. Furthermore, for Unbranded and Custom Branded OCP/DA provided by BellSouth Operator Services with unbundled ports and unbundled port/loop switch combinations, monthly recurring usage charges shall apply for the UNEs necessary to provide the service, such as end office and tandem switching and common

transport. A flat rated end office switching charge shall apply to Self-Branded OCP/DA when used in conjunction with unbundled ports and unbundled port/loop switch combinations.

## **5 Unbundled Network Element Combinations**

5.1 BellSouth shall provide unbundled network element combinations in accordance with 47 C.F.R. § 51.315.

5.1.1 For purposes of this Section, references to “Currently Combined” Network Elements shall mean that the particular Network Elements requested by KMC Data are in fact already combined by BellSouth in the BellSouth network. References to “Ordinarily Combined” Network Elements shall mean that the particular Network Elements requested by KMC Data are not already combined by BellSouth in the location requested by KMC Data but are elements that are typically combined in BellSouth’s network. References to “Not Typically Combined” Network Elements shall mean that the particular Network Elements requested by KMC Data are not elements that BellSouth combines for its use in its network.

5.1.2 Upon request, BellSouth shall perform the functions necessary to combine UNEs in any manner, even if those elements are not ordinarily combined in BellSouth’s network, provided that such Combination is technically feasible and will not undermine the ability of other carriers to obtain access to UNEs or to interconnect with BellSouth’s network.

## **5.2 Enhanced Extended Links (EELs)**

5.2.1 EELs are combinations of unbundled Loops and Dedicated Transport, together with any facilities, equipment, or functions necessary to combine those Network Elements. BellSouth shall provide KMC Data with EELs where the underlying UNE or UNEs are available and in all instances where the requesting carrier meets the FCC’s eligibility requirements, if applicable.

5.2.2 EELs include, but are not limited to the following combinations:

5.2.2.1 DS1 Interoffice Channel + DS1 Channelization + 2-wire VG Local Loop

5.2.2.2 DS1 Interoffice Channel + DS1 Channelization + 4-wire VG Local Loop

5.2.2.3 DS1 Interoffice Channel + DS1 Channelization + 2-wire ISDN Local Loop

5.2.2.4 DS1 Interoffice Channel + DS1 Channelization + 4-wire 56 kbps Local Loop

5.2.2.5 DS1 Interoffice Channel + DS1 Channelization + 4-wire 64 kbps Local Loop

5.2.2.6 DS1 Interoffice Channel + DS1 Local Loop

- 5.2.2.7 DS3 Interoffice Channel + DS3 Local Loop
- 5.2.2.8 STS-1 Interoffice Channel + STS-1 Local Loop
- 5.2.2.9 DS3 Interoffice Channel + DS3 Channelization + DS1 Local Loop
- 5.2.2.10 STS-1 Interoffice Channel + DS3 Channelization + DS1 Local Loop
- 5.2.2.11 2-wire VG Interoffice Channel + 2-wire VG Local Loop
- 5.2.2.12 4wire VG Interoffice Channel + 4-wire VG Local Loop
- 5.2.2.13 4-wire 56 kbps Interoffice Channel + 4-wire 56 kbps Local Loop
- 5.2.2.14 4-wire 64 kbps Interoffice Channel + 4-wire 64 kbps Local Loop
- 5.2.2.15 Commingled loop and transport facilities at the DS1 and/or DS3 level
- 5.2.3 High-capacity EELs are combinations of 1) UNE loops, as defined in this Agreement, with UNE transport, as defined in this Agreement; 2) UNE loops, as defined in this Agreement, with wholesale transport; or 3) UNE transport, as defined in this Agreement, with wholesale loops at the DS1 and/or DS3 level as described in 47 C.F.R. § 51.318(b). High-capacity EELs must comply with the service eligibility requirements set forth in Section 5.2.5 below.
- 5.2.4 By placing an order for a high-capacity EEL, KMC Data thereby certifies that the high-capacity EEL service eligibility criteria set forth herein are met for access to a converted high-capacity EEL, a new high-capacity EEL, or part of a high-capacity commingled EEL as a UNE. BellSouth may not deny, except as set forth in Section 5.2.6 below, KMC Data's request for a high-capacity EEL based upon eligibility criteria, but shall have the right to clarify the order back to KMC Data rather than processing the order should the BellSouth representative identify that KMC Data does not have a collocation arrangement that meets the requirements of 47 C.F.R. § 51.318(c).
- 5.2.5 Service Eligibility Criteria
  - 5.2.5.1 By placing an order for a high-capacity EEL, KMC Data certifies that all of the following service eligibility criteria are met for each high-capacity EEL. These service eligibility criteria apply to all wholesale, as well as retail, service offerings by KMC Data over high-capacity EELs.
    - 5.2.5.1.1 KMC Data has received state certification to provide local voice service in the area being served or, in the absence of a state certification requirement, has complied with registration, tariffing, filing fee, or other regulatory requirements applicable to the provision of local voice service in that area;

- 5.2.5.2 For each combined circuit, including each DS1 circuit, each DS1 EEL, and each DS1-equivalent circuit on a DS3 EEL:
  - 5.2.5.2.1 Each circuit to be provided to each customer will be assigned a local number prior to the provision of service over that circuit;
  - 5.2.5.2.2 Each DS1-equivalent circuit on a DS3 EEL must have its own local number assignment, so that each DS3 must have at least twenty-eight (28) local voice numbers assigned to it;
  - 5.2.5.2.3 Each circuit to be provided to each customer will have 911 or E911 capability prior to provision of service over that circuit;
  - 5.2.5.2.4 Each circuit to be provided to each customer will terminate in a collocation arrangement that meets the requirements of 47 C.F.R. § 51.318(c);
  - 5.2.5.2.5 Each circuit to be provided to each customer will be served by an interconnection trunk in the same LATA as the customer premises served by the EEL over which KMC Data will transmit the calling party's number in connection with calls exchanged over the trunk;
  - 5.2.5.2.6 For each twenty-four (24) DS1 EELs or other facilities having equivalent capacity, KMC Data will have at least one (1) active DS1 local service interconnection trunk within the LATA over which KMC Data will transmit the calling party's number in connection with calls exchanged over the trunk;
  - 5.2.5.2.7 Each circuit to be provided to each customer will be served by a switch capable of switching local voice traffic.
- 5.2.6 BellSouth may, on an annual basis, and only based upon cause, conduct an audit of KMC Data's records in order to verify compliance with the high capacity EEL eligibility criteria.
  - 5.2.6.1 To invoke its limited right to audit, BellSouth will send a Notice of Audit to KMC Data identifying the cause upon which BellSouth rests its allegations. Such Notice of Audit will be delivered to KMC Data no less than thirty (30) days prior to the date upon which BellSouth seeks to commence an audit.
  - 5.2.6.2 The audit shall be conducted by a third party independent auditor retained and paid for by BellSouth. The audit shall commence at a mutually agreeable location (or locations).
    - 5.2.6.2.1 The audit must be performed in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA) which will require the auditor to perform an "examination engagement" and issue an opinion regarding KMC Data's compliance with the high capacity EEL eligibility criteria. AICPA standards and other AICPA requirements related to determining the

independence of an auditor shall govern the audit of requesting carrier compliance. The concept of materiality governs this audit; the independent auditor's report will conclude whether or the extent to which KMC Data complied in all material respects with the applicable service eligibility criteria. Consistent with standard auditing practices, such audits require compliance testing designed by the independent auditor, which typically include an examination of a sample selected in accordance with the independent auditor's judgment.

- 5.2.6.2.2 To the extent the independent auditor's report concludes that KMC Data failed to comply with the high capacity EEL service\_eligibility criteria, KMC Data must true-up any difference in payments, convert all noncompliant circuits to the appropriate service, and make the correct payments on a going-forward basis.
- 5.2.6.2.3 To the extent the independent auditor's report concludes that KMC Data failed to comply in all material respects with the service eligibility criteria, KMC Data shall reimburse BellSouth for the cost of the independent auditor. Similarly, to the extent the independent auditor's report concludes that KMC Data did comply in all material respects with the service eligibility criteria, BellSouth will reimburse KMC Data for its reasonable and demonstrable costs associated with the audit, including, among other things, staff time. The Parties shall provide such reimbursement within thirty (30) days of receipt of a statement of such costs.
- 5.2.6.2.4 KMC Data will maintain appropriate documentation to support its certifications.

### 5.3 UNE-P

- 5.3.1 DS0 Local Switching, as defined in Section 4, in combination with a Loop and Common (Shared) Transport as defined in Section 4.3 (UNE-P) provides local exchange service for the origination or termination of calls. UNE-P supports the same local calling and feature requirements as described in the Local Switching section of this Attachment and the ability to presubscribe to a primary carrier for intraLATA toll service and/or to presubscribe to a primary carrier for interLATA toll service.
- 5.3.2 Notwithstanding anything to the contrary in this Agreement, BellSouth is not required to provide UNE-P pursuant to this Agreement except as set forth in this Section 5.3.
- 5.3.3 Transition Period for UNE-P
- 5.3.3.1 For purposes of this Section 5.3, the Transition Period for UNE-P is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.
- 5.3.3.2 For the purposes of this Section 5.3, Embedded Base shall mean UNE-P and any additional elements that are required to be provided in conjunction therewith that were in service for KMC Data as of March 10, 2005. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.

- 5.3.3.3 During the Transition Period only, BellSouth shall make UNE-P available for the Embedded Base, in addition to all elements that are required to be provided in conjunction with UNE-P, at the rates, terms and conditions set forth in this Attachment. The Transition Period shall apply only to KMC Data's Embedded Base and KMC Data shall not place new orders for UNE-P pursuant to this Agreement.
- 5.3.3.4 Notwithstanding the Effective Date of this Agreement, the rates for KMC Data's Embedded Base of UNE-P during the Transition Period shall be as set forth in Exhibit A.
- 5.3.3.5 KMC Data must submit orders, or spreadsheets if converting to UNE Loops through the Bulk Migration process, outlined in Section 2.7, to either disconnect or convert all of its Embedded Base of UNE-P to other BellSouth services as Conversions pursuant to Section 1.5 by October 1, 2005.
- 5.3.3.5.1 If KMC Data fails to submit orders or spreadsheets converting all of the Embedded Base of UNE-P as specified in Section 5.3.3.5 above prior to October 1, 2005, BellSouth will identify KMC Data's remaining Embedded Base of UNE-P and will transition such UNE-P to resold BellSouth telecommunication services, as set forth in Attachment 1. Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of such BellSouth services as set forth in BellSouth's tariffs.
- 5.3.3.6 For Embedded Base UNE-P converted pursuant to Section 5.3.3.5 or transitioned pursuant to Section 5.3.3.5.1, the applicable recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or March 11, 2006.
- 5.3.3.7 Effective March 11, 2006, UNE-P will no longer be made available pursuant to this Agreement.
- 5.3.4 BellSouth shall make 911 updates in the BellSouth 911 database for KMC Data's UNE-P. BellSouth will not bill KMC Data for 911 surcharges. KMC Data is responsible for paying all 911 surcharges to the applicable governmental agency.
- 5.4 Rates
- 5.4.1 The rates for the Currently Combined Network Elements specifically set forth in Exhibits A and B shall be the rates associated with such Combinations. Where a Currently Combined Combination is not specifically set forth in Exhibit A or B, the rate for such Currently Combined Combination of Network Elements shall be the sum of the recurring rates for those individual Network Elements in addition to the applicable non-recurring switch-as-is charge set forth in Exhibits A and B.

- 5.4.2 The rates for the Ordinarily Combined Network Elements specifically set forth in Exhibits A and B shall be the nonrecurring and recurring charges for those Combinations. Where an Ordinarily Combined Combination is not specifically set forth in Exhibit A or B, the rate for such Ordinarily Combined Combination of Network Elements shall be the sum of the recurring and nonrecurring rates for those individual Network Elements as set forth in Exhibits A and B.
- 5.4.3 BellSouth shall provide other Currently Combined, Ordinarily Combined and Not Typically Combined UNE Combinations to KMC Data in addition to those specifically referenced in this Section 5 above, where available.
- 5.4.3.1 To the extent KMC Data requests a Combination for which BellSouth does not have rates and methods and procedures in place to provide such Combination, rates and/or methods and procedures for such Combination will be developed pursuant to the BFR process.

## **6 Dedicated Transport and Dark Fiber Transport**

- 6.1 Dedicated Transport. BellSouth shall offer unbundled access to Dedicated Transport in accordance with 47 C.F.R. §§ 51.311 and 51.319 and Section 251(c) (3) of the Act. Dedicated Transport is defined as BellSouth's transmission facilities between wire centers or switches owned by BellSouth, or between wire centers or switches owned by BellSouth and switches owned by KMC Data, including but not limited to DS1, DS3 and OCn level services, as well as dark fiber, dedicated to KMC Data. BellSouth shall not be required to provide access to OCn level Dedicated Transport under any circumstances pursuant to this Agreement. In addition, except as set forth in Section 6.2 below, BellSouth shall not be required to provide to KMC Data unbundled access to interoffice transmission facilities that do not connect a pair of wire centers or switches owned by BellSouth (Entrance Facilities).
- 6.2 Transition for DS1 and DS3 Dedicated Transport Including DS1 and DS3 Entrance Facilities
- 6.2.1 For purposes of this Section 6.2, the Transition Period for the Embedded Base of DS1 and DS3 Dedicated Transport, Embedded Base Entrance Facilities and for Excess DS1 and DS3 Dedicated Transport, is the twelve (12) month period beginning March 11, 2005 and ending March 10, 2006.
- 6.2.2 For purposes of this Section 6.2, Embedded Base means DS1 and DS3 Dedicated Transport that were in service for KMC Data as of March 10, 2005 in those wire centers that, as of such date, met the criteria set forth in Section 6.2.6.1 or 6.2.6.2. Subsequent disconnects or loss of customers shall be removed from the Embedded Base.
- 6.2.3 For purposes of this Section 6.2, Embedded Base Entrance Facilities means Entrance Facilities that were in service for KMC Data as of March 10, 2005.

Subsequent disconnects or loss of customers shall be removed from the Embedded Base.

- 6.2.4 For purposes of this Section 6, Excess DS1 and DS3 Dedicated Transport means those KMC Data DS1 and DS3 Dedicated Transport facilities in service as of March 10, 2005, in excess of the caps set forth in Section 6.6. Subsequent disconnects and loss of End Users shall be removed from Excess DS1 and DS3 Loops.
- 6.2.5 For purposes of this Section 6.2, a Business Line is as defined in 47 C.F.R. § 51.5.
- 6.2.6 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Dedicated Transport for the Wire Centers as described in this Section 6.2 only for KMC Data's Embedded Base during the Transition Period:
- 6.2.6.1 DS1 Dedicated Transport where both wire centers at the end points of the route contain 38,000 Business Lines or four (4) or more fiber-based collocators.
- 6.2.6.2 DS3 Dedicated Transport where both wire centers at the end points of the route contain 24,000 or more Business Lines or three (3) or more fiber-based collocators.
- 6.2.6.3 A list of wire centers meeting the criteria set forth in Section 6.2.6.1 or 6.2.6.2 above as of March 10, 2005, is available on BellSouth's Interconnection Services Web Site at [www.interconnection.BellSouth.com](http://www.interconnection.BellSouth.com), as (Initial Wire Center List).
- 6.2.6.4 Notwithstanding anything to the contrary in this Agreement, BellSouth shall make available Entrance Facilities only for KMC Data's Embedded Base Entrance Facilities and only during the Transition Period.
- 6.2.6.5 Notwithstanding the Effective Date of this Agreement, during the Transition Period, the rates for KMC Data's Embedded Base of DS1 and DS3 Dedicated Transport and for KMC Data's Excess DS1 and DS3 Dedicated Transport, as described in this Section 6.2 shall be as set forth in Exhibit B and the rates for KMC Data's Embedded Base of Entrance Facilities as described in this Section 6.2 shall be as set forth in Exhibit A.
- 6.2.6.6 The Transition Period shall apply only to (1) KMC Data's Embedded Base and Embedded Base of Entrance Facilities; and (2) KMC Data's Excess DS1 and DS3 Dedicated Transport. KMC Data shall not add new Entrance Facilities pursuant to this Agreement. Further, KMC Data shall not add new DS1 or DS3 Dedicated Transport as described in this Section 6.2 pursuant to this Agreement, except pursuant to the self-certification process as set forth in Section 1.7 of this Attachment and as set forth in Section 6.2.6.10 below.

- 6.2.6.7 Once a wire center exceeds either of the thresholds set forth in this Section 6.2.6.1 or 6.2.6.2, no future DS1 Dedicated Transport unbundling will be required in that wire center.
- 6.2.6.8 Once a wire center exceeds either of the thresholds set forth in Section 6.2.6.1 or 6.2.6.2, no future DS3 Dedicated Transport will be required in that wire center.
- 6.2.6.9 No later than December 9, 2005, KMC Data shall submit spreadsheet(s) identifying all of the Embedded Base of circuits, Embedded Base of Entrance Facilities and Excess DS1 and DS3 Dedicated Transport to be either disconnected or converted to other BellSouth services as Conversions pursuant to Section 1.5. The Parties shall negotiate a project schedule for the Conversion of the Embedded Base, Embedded Base of Entrance Facilities and Excess DS1 and DS3 Dedicated Transport.
- 6.2.6.9.1 If KMC Data fails to submit the spreadsheet(s) specified in Section 6.2.9 above for all of its Embedded Base prior to December 9, 2005, BellSouth will identify KMC Data's remaining Embedded Base of circuits and Embedded Base Entrance Facilities, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth pursuant to this Section 6.2.9.1 shall be subject to all applicable disconnect charges as set forth in this Agreement and the full non-recurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
- 6.2.6.9.2 For Embedded Base circuits and Embedded Base Entrance Facilities Converted pursuant to Section 6.2.9 or transitioned pursuant to 6.2.9.1, a recurring tariff charge shall apply to each circuit as of the earlier of the date each circuit is Converted or transitioned, as applicable, or March 11, 2006.
- 6.2.10 Modifications and Updates to the Wire Center List and Subsequent Transition Periods
- 6.2.10.1 In the event BellSouth identifies additional wire centers that meet the criteria set forth in Section 6.2.6.1 or 6.2.6.2, but that were not included in the Initial Wire Center List, BellSouth shall include such additional wire centers in a CNL. Each such list of additional wire centers shall be considered a Subsequent Wire Center List.
- 6.2.10.2 Effective ten (10) business days after the date of a BellSouth CNL providing a Subsequent Wire Center List, BellSouth shall not be required to provide DS1 and DS3 Dedicated Transport, as applicable, in such additional wire center(s), except pursuant to the self-certification process as set forth in Section 1.7 of this Attachment.
- 6.2.10.3 For purposes of Section 6.2.10, BellSouth shall make available DS1 and DS3 Dedicated Transport that was in service for KMC Data in a wire center on the

Subsequent Wire Center List as of the tenth (10<sup>th</sup>) business day after the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Embedded Base) until ninety (90) days after the tenth (10<sup>th</sup>) business day from the date of BellSouth's CNL identifying the Subsequent Wire Center List (Subsequent Transition Period).

- 6.2.10.4 Subsequent disconnects or loss of End Users shall be removed from the Subsequent Embedded Base.
- 6.2.10.5 The rates set forth in Exhibit B shall apply to the Subsequent Embedded Base during the Subsequent Transition Period.
- 6.2.10.6 No later than forty (40) days from BellSouth's CNL identifying the Subsequent Wire Center List KMC Data shall submit a spreadsheet(s) identifying the Subsequent Embedded Base of circuits to be disconnected or converted to other BellSouth services. The Parties shall negotiate a project schedule for the Conversion of the Subsequent Embedded Base.
  - 6.2.10.6.1 If KMC Data fails to submit the spreadsheet(s) specified in Section 6.2.10.6 above for all of its Subsequent Embedded Base within forty (40) days after the date of BellSouth's CNL identifying the Subsequent Wire Center List, BellSouth will identify KMC Data's remaining Subsequent Embedded Base, if any, and will transition such circuits to the equivalent tariffed BellSouth service(s). Those circuits identified and transitioned by BellSouth shall be subject to the applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed BellSouth service as set forth in BellSouth's tariffs.
  - 6.2.10.6.2 For Subsequent Embedded Base circuits converted pursuant to Section 6.2.10.6 or transitioned pursuant to Section 6.2.10.6.1, the recurring tariff charges shall apply as of the earlier of the date each circuit is converted or transitioned, as applicable, or the first day after the end of the Subsequent Transition Period.
- 6.3 BellSouth shall:
  - 6.3.1 Provide KMC Data exclusive use of Dedicated Transport to a particular customer or carrier;
  - 6.3.2 Provide all technically feasible features, functions, and capabilities of Dedicated Transport as outlined within the technical requirements of this Section;
  - 6.3.3 Permit, to the extent technically feasible, KMC Data to connect Dedicated Transport to equipment designated by KMC Data, including but not limited to, KMC Data's collocated facilities; and

- 6.3.4 Permit, to the extent technically feasible and on a nondiscriminatory basis, KMC Data to obtain the functionality provided by BellSouth's digital cross-connect systems.
- 6.4 BellSouth shall offer Dedicated Transport:
  - 6.4.1 As capacity on a shared facility; and
  - 6.4.2 As a circuit (i.e., DS0, DS1, DS3, and STS-1) dedicated to KMC Data.
- 6.5 Dedicated Transport may be provided over facilities such as optical fiber, copper twisted pair, and coaxial cable, and shall include transmission equipment such as line terminating equipment, amplifiers, and regenerators.
- 6.6 KMC Data may obtain a maximum of ten (10) unbundled DS1 Dedicated Transport circuits or twelve (12) unbundled dedicated DS3 circuits, or their equivalent, for any single route where the respective Dedicated Transport is available as a Network Element. Additional capacity may be purchased pursuant to the rates, terms and conditions as set forth in the applicable tariff. A route is defined as a transmission path between one (1) of BellSouth's wire centers or switches and another of BellSouth's wire centers or switches. A route between two (2) points may pass through one (1) or more intermediate wire centers or switches. Transmission paths between identical end points are the same "route", irrespective of whether they pass through the same intermediate wire centers or switches, if any.
- 6.6.1 Any request to re-terminate one (1) end of a circuit will require the issuance of new service and disconnection of the existing service and the applicable charges in Exhibit A shall apply, and the re-terminated circuit shall be considered a new circuit as of the installation date.
- 6.7 Technical Requirements
  - 6.7.1 The entire designated transmission service (e.g., DS0, DS1, and DS3) shall be dedicated to KMC Data designated traffic.
  - 6.7.2 For DS1 or DS3 circuits, Dedicated Transport shall at a minimum meet the performance, availability, jitter, and delay requirements specified for Customer Interface to Central Office (CI to CO) connections in the applicable industry standards.
  - 6.7.3 BellSouth shall offer the following interface transmission rates for Dedicated Transport:
    - 6.7.3.1 DS0 Equivalent;
    - 6.7.3.2 DS1;

- 6.7.3.3 DS3; and
- 6.7.3.4 SDH (Synchronous Digital Hierarchy) Standard interface rates are in accordance with International Telecommunications Union (ITU) Recommendation G.707 and Plesiochronous Digital Hierarchy (PDH) rates per ITU Recommendation G.704.
- 6.7.4 BellSouth shall design Dedicated Transport according to its network infrastructure. KMC Data shall specify the termination points for Dedicated Transport.
- 6.7.5 At a minimum, Dedicated Transport shall meet each of the requirements set forth in the applicable industry technical references.
- 6.7.6 BellSouth Technical References:
  - 6.7.6.1 TR-TSY-000191 Alarm Indication Signals Requirements and Objectives, Issue 1, May 1986.
  - 6.7.6.2 TR 73501 LightGate®Service Interface and Performance Specifications, Issue D, June 1995.
  - 6.7.6.3 TR 73525 MegaLink®Service, MegaLink Channel Service and MegaLink Plus Service Interface and Performance Specifications, Issue C, May 1996.
- 6.8 Unbundled Channelization (Multiplexing)
  - 6.8.1 Unbundled Channelization (UC) provides the optional multiplexing capability that will allow a DS1 (1.544 Mbps) or DS3 (44.736 Mbps) or STS-1 (51.84 Mbps) UNE or collocation cross connect to be multiplexed or channelized at a BellSouth central office. Channelization can be accomplished through the use of a multiplexer or a digital cross-connect system at the discretion of BellSouth. Once UC has been installed, KMC Data may request channel activation on an as needed basis and BellSouth shall connect the requested facilities via Central Office Channel Interfaces (COCIs). The COCI must be compatible with the lower capacity facility and ordered with the lower capacity facility. This service is available as defined in NECA 4. Channelization may be incorporated within dedicated transport or ordered as a stand-alone capability, which requires either the high or low speed side to be connected to collocation.
  - 6.8.2 BellSouth shall make available the following channelization systems and interfaces:
    - 6.8.2.1 DS1 Channelization System: channelizes a DS1 signal into a maximum of twenty-four (24) DS0s. The following Central Office Channel Interfaces (COCI) are available: Voice Grade, Digital Data and ISDN;
    - 6.8.2.2 DS3 Channelization System: channelizes a DS3 signal into a maximum of twenty-eight (28) DS1s. A DS1 COCI is available with this system;

6.8.2.3 STS-1 Channelization System: channelizes a STS-1 signal into a maximum of twenty-eight (28) DS1s. A DS1 COCI is available with this system.

### 6.8.3 Technical Requirements

6.8.3.1 In order to assure proper operation with BellSouth provided central office multiplexing functionality, KMC Data's channelization equipment must adhere strictly to form and protocol standards. KMC Data must also adhere to such applicable industry standards for the multiplex channel bank, for voice frequency encoding, for various signaling schemes, and for sub rate digital access.

## 7 **Call Related Databases and Signaling**

7.1 911 and E911 databases. BellSouth shall provide KMC Data with nondiscriminatory access to 911 and E911 databases on an unbundled basis, in accordance with 47 C.F.R. § 319(f).

7.2 Call Related Databases are the databases other than OSS, that are used in signaling networks for billing and collection, or the transmission, routing or other provision of a telecommunications service. BellSouth shall only provide unbundled access to BellSouth Switched Access (SWA) 8XX Toll Free Dialing Ten Digit Screening Service, Line Information Database (LIDB), Signaling, Signaling Link Transport, Signaling Transfer Points, SS7 AIN Access, Service Control Point\Databases, Local Number Portability Databases, SS7 Network Interconnection, and Calling Name (CNAM) Database Service at the prices set forth herein where BellSouth is required to provide and is providing unbundled access to local circuit switching to KMC Data. SS7 Network Interconnection and Signaling Link Transport shall be provided at the TELRIC-compliant, Commission approved rates set forth in Exhibit A of Attachment 3, regardless of whether BellSouth is required to provide and is providing unbundled access to local circuit switching to KMC Data.

7.3 The BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service database (8XX SCP Database) is a SCP that contains customer record information and the functionality to provide call-handling instructions for 8XX calls. The 8XX SCP IN software stores data downloaded from the national SMS/8XX database and provides the routing instructions in response to queries from the SSP or tandem. The BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service (8XX TFD Service) utilizes the 8XX SCP Database to provide identification and routing of the 8XX calls, based on the ten (10) digits dialed. At KMC Data's option, 8XX TFD Service is provided with or without POTS number delivery, dialing number delivery, and other optional complex features as selected by KMC Data.

7.3.1 The 8XX SCP Database is designated to receive and respond to queries using the ANSI Specification of Signaling System Seven (SS7) protocol.

7.3.2 BellSouth provides four (4) options of this service, two (2) that provide POTS number delivery and two (2) that provide Toll Free Dialing Number Delivery.

#### 7.4 LIDB

7.4.1 LIDB is a transaction-oriented database accessible through Common Channel Signaling (CCS) networks. For access to LIDB, KMC Data must purchase appropriate signaling links pursuant to Section 10 below. LIDB contains records associated with End User Line Numbers and Special Billing Numbers. LIDB accepts queries from other Network Elements and provides appropriate responses. The query originator need not be the owner of LIDB data. LIDB queries include functions such as screening billed numbers that provides the ability to accept Collect or Third Number Billing calls and validation of Telephone Line Number based non-proprietary calling cards. The interface for the LIDB functionality is the interface between BellSouth's CCS network and other CCS networks. LIDB also interfaces to administrative systems.

#### 7.4.2 Technical Requirements

7.4.2.1 BellSouth will offer to KMC Data any additional capabilities that are developed for LIDB during the life of this Agreement.

7.4.2.2 BellSouth shall process KMC Data's customer records in LIDB at least at parity with BellSouth customer records, with respect to other LIDB functions. BellSouth shall indicate to KMC Data what additional functions (if any) are performed by LIDB in the BellSouth network.

7.4.2.3 Within two (2) weeks after a request by KMC Data, BellSouth shall provide KMC Data with a list of the customer data items, which KMC Data would have to provide in order to support each required LIDB function. The list shall indicate which data items are essential to LIDB function and which are required only to support certain services. For each data item, the list shall show the data formats, the acceptable values of the data item and the meaning of those values.

7.4.2.4 BellSouth shall provide LIDB systems for which operating deficiencies that would result in calls being blocked shall not exceed thirty (30) minutes per year.

7.4.2.5 BellSouth shall provide LIDB systems for which operating deficiencies that would not result in calls being blocked shall not exceed twelve (12) hours per year.

7.4.2.6 BellSouth shall provide LIDB systems for which the LIDB function shall be in overload no more than twelve (12) hours per year.

7.4.2.7 All additions, updates and deletions of KMC Data data to the LIDB shall be solely at the direction of KMC Data. Such direction from KMC Data will not be required where the addition, update or deletion is necessary to perform standard fraud control measures (e.g., calling card auto-deactivation).

- 7.4.2.8 BellSouth shall provide priority updates to LIDB for KMC Data data upon KMC Data's request (e.g., to support fraud detection), via password-protected telephone card, facsimile, or electronic mail within one hour of notice from the established BellSouth contact.
- 7.4.2.9 BellSouth shall provide LIDB systems such that no more than 0.01% of KMC Data customer records will be missing from LIDB, as measured by KMC Data audits. BellSouth will audit KMC Data records in LIDB against Data Base Administration System (DBAS) to identify record mismatches and provide this data to a designated KMC Data contact person to resolve the status of the records and BellSouth will update system appropriately. BellSouth will refer record of mismatches to KMC Data within one (1) business day of audit. Once reconciled records are received back from KMC Data, BellSouth will update LIDB the same business day if less than five hundred (500) records are received before 1:00PM Central Time. If more than five hundred (500) records are received, BellSouth will contact KMC Data to negotiate a time frame for the updates, not to exceed three (3) business days.
- 7.4.2.10 BellSouth shall perform backup and recovery of all of KMC Data's data in LIDB including sending to LIDB all changes made since the date of the most recent backup copy, in at least the same time frame BellSouth performs backup and recovery of BellSouth data in LIDB for itself. Currently, BellSouth performs backups of the LIDB for itself on a weekly basis; and when a new software release is scheduled, a backup is performed prior to loading the new release.
- 7.4.2.11 BellSouth shall provide KMC Data with LIDB reports of data which are missing or contain errors, as well as any misrouted errors, within a reasonable time period as negotiated between KMC Data and BellSouth.
- 7.4.2.12 BellSouth shall prevent any access to or use of KMC Data data in LIDB by BellSouth personnel that are outside of established administrative and fraud control personnel, or by any other Party that is not authorized by KMC Data in writing.
- 7.4.2.13 BellSouth shall provide KMC Data performance of the LIDB Data Screening function, which allows a LIDB to completely or partially deny specific query originators access to LIDB data owned by specific data owners, for Customer Data that is part of an NPA-NXX or RAO-0/1XX wholly or partially owned by KMC Data at least at parity with BellSouth Customer Data. BellSouth shall obtain from KMC Data the screening information associated with LIDB Data Screening of KMC Data data in accordance with this requirement. BellSouth currently does not have LIDB Data Screening capabilities. When such capability is available, BellSouth shall offer it to KMC Data under the BFR/NBR process as set forth in Attachment 11.

- 7.4.2.14 BellSouth shall accept queries to LIDB associated with KMC Data customer records and shall return responses in accordance with industry standards.
- 7.4.2.15 BellSouth shall provide mean processing time at the LIDB within 0.50 seconds under normal conditions as defined in industry standards.
- 7.4.2.16 BellSouth shall provide processing time at the LIDB within one (1) second for ninety-nine percent (99%) of all messages under normal conditions as defined in industry standards.
- 7.4.3 Interface Requirements
- 7.4.3.1 BellSouth shall offer LIDB in accordance with the requirements of this subsection.
- 7.4.3.2 The interface to LIDB shall be in accordance with the technical references contained within.
- 7.4.3.3 The CCS interface to LIDB shall be the standard interface described herein.
- 7.4.3.4 The LIDB Data Base interpretation of the ANSI-TCAP messages shall comply with the technical reference herein. Global Title Translation (GTT) shall be maintained in the signaling network in order to support signaling network routing to the LIDB.
- 7.4.3.5 The application of the LIDB rates contained in Exhibit A will be based on a Percent CLEC LIDB Usage (PCLU) factor. KMC Data shall provide BellSouth a PCLU. The PCLU will be applied to determine the percentage of total LIDB usage to be billed to the other Party at local rates. Requirements associated with PCLU calculation and reporting shall be as set forth in BellSouth's Jurisdictional Factors Reporting Guide, as it is amended from time to time, attached to Attachment 3 as Exhibit F.
- 7.5 Signaling
- 7.5.1 BellSouth shall offer access to signaling and access to BellSouth's signaling databases subject to compatibility testing and at the rates set forth in Exhibit A. BellSouth may provide mediated access to BellSouth signaling systems and databases. Available signaling elements include signaling links, signal transfer points and service control points. Signaling functionality will be available with both A-link and B-link connectivity.
- 7.5.2 Signaling Link Transport
- 7.5.2.1 Signaling Link Transport is a set of two (2) or four (4) dedicated 56 kbps transmission paths between KMC Data designated Signaling Points of Interconnection that provide appropriate physical diversity.
- 7.5.3 Technical Requirements

- 7.5.3.1 Signaling Link Transport shall consist of full duplex mode 56 kbps transmission paths and shall perform in the following two (2) ways:
  - 7.5.3.1.1 As an “A-link” Signaling Link Transport is a connection between a switch or SCP and a home Signaling Transfer Point switch pair; and
  - 7.5.3.1.2 As a “B-link” Signaling Link Transport is a connection between two Signaling Transfer Point switch pairs in different company networks (e.g., between two (2) Signaling Transfer Point switch pairs for two (2) CLECs).
- 7.5.4 Signaling Link Transport shall consist of two (2) or more signaling link layers as follows:
  - 7.5.4.1 An A-link layer shall consist of two (2) links. There shall be no more than two (2) minutes down time per year for an A-link layer.
  - 7.5.4.2 A B-link layer shall consist of four (4) links. There shall be negligible (less than two (2) seconds) down time per year for a B-link layer. A signaling link layer shall satisfy interoffice and intraoffice diversity of facilities and equipment, such that:
    - 7.5.4.2.1 No single failure of facilities or equipment causes the failure of both links in an A-link layer (i.e., the links should be provided on a minimum of two (2) separate physical paths end-to-end); and
    - 7.5.4.2.2 No two (2) concurrent failures of facilities or equipment shall cause the failure of all four (4) links in a B-link layer (i.e., the links should be provided on a minimum of three (3) separate physical paths end-to-end).
- 7.5.5 Interface Requirements
  - 7.5.5.1 There shall be a DS1 (1.544 Mbps) interface at KMC Data’s designated SPOIs. Each 56 kbps transmission path shall appear as a DS0 channel within the DS1 interface.
- 7.5.6 Signaling Transfer Points
  - 7.5.6.1 A STP is a signaling network function that includes all of the capabilities provided by the signaling transfer point switches (STPS) and their associated signaling links that enables the exchange of SS7 messages among and between switching elements, database elements and STPSs.
- 7.5.6.2 Technical Requirements
  - 7.5.6.2.1 STPs shall provide access to BellSouth Local Switching or Tandem Switching and to BellSouth Service Control Points/Databases connected to BellSouth SS7 network. STPs also provide access to third-party local or tandem switching and third-party-provided STPs.

- 7.5.6.2.2 The connectivity provided by STPs shall fully support the functions of all other Network Elements connected to the BellSouth SS7 network. This includes the use of the BellSouth SS7 network to convey messages that neither originate nor terminate at a signaling end point directly connected to the BellSouth SS7 network (i.e., transit messages). When the BellSouth SS7 network is used to convey transit messages, there shall be no alteration of the Integrated Services Digital Network User Part or Transaction Capabilities Application Part (TCAP) user data that constitutes the content of the message.
- 7.5.6.2.3 If a BellSouth tandem switch routes traffic, based on dialed or translated digits, on SS7 trunks between a KMC Data local switch and third party local switch, the BellSouth SS7 network shall convey the TCAP messages that are necessary to provide Call Management features (Automatic Callback, Automatic Recall, and Screening List Editing) between KMC Data local STPs and the STPs that provide connectivity with the third party local switch, even if the third party local switch is not directly connected to BellSouth STPs.
- 7.5.6.2.4 STPs shall provide all functions of the SCCP necessary for Class 0 (basic connectionless) service as defined in Telcordia ANSI Interconnection Requirements. This includes GTT and SCCP Management procedures, as specified in ANSI T1.112.4. Where the destination signaling point is a KMC Data or third party local or tandem switching system directly connected to BellSouth SS7 network, BellSouth shall perform final GTT of messages to the destination and SCCP Subsystem Management of the destination. In all other cases, BellSouth shall perform intermediate GTT of messages to a gateway pair of STPs in an SS7 network connected with BellSouth SS7 network and shall not perform SCCP Subsystem Management of the destination. If BellSouth performs final GTT to a KMC Data database, then KMC Data agrees to provide BellSouth with the Destination Point Code for KMC Data database.
- 7.5.6.2.5 STPs shall provide all functions of the Operations, Maintenance and Administration Part (OMAP) as specified in applicable industry standard technical references, which may include, where available in BellSouth's network, MTP Routing Verification Test (MRVT) and SCCP Routing Verification Test (SRVT).
- 7.5.6.2.6 Where the destination signaling point is a BellSouth local or tandem switching system or database, or is a KMC Data or third party local or tandem switching system directly connected to the BellSouth SS7 network, STPs shall perform MRVT and SRVT to the destination signaling point. In all other cases, STPs shall perform MRVT and SRVT to a gateway pair of STPs in an SS7 network connected with the BellSouth SS7 network. This requirement may be superseded by the specifications for Internetwork MRVT and SRVT when these become approved ANSI standards and available capabilities of BellSouth STPs.
- 7.5.6.2.7 KMC Data may choose to route SS7 signaling information (e.g., ISUP, TSAP) from KMC Data's signaling network to another LECs or CMRS provider's

signaling network via BellSouth's signaling network for the purpose of exchanging call processing/network information between KMC Data and the other LEC's or CMRS provider's network, whether or not BellSouth has a trunk to the terminating switching, provided that, where BellSouth does not have such a trunk, KMC Data furnishes BellSouth with:

- 7.5.6.2.8 the destination point codes (DPCs) of all the LEC or CMRS provider switches to which it wishes to send transit signaling;
- 7.5.6.2.9 the identify of the STPs in BellSouth's network in which each DPC will be translated; and
- 7.5.6.2.10 the identity of the STPs in the other signaling network to which such transit signaling will be sent.
- 7.5.7 SS7 AIN Access
  - 7.5.7.1 When technically feasible and upon request by KMC Data, SS7 AIN Access shall be made available in association with switching. SS7 AIN Access is the provisioning of AIN 0.1 triggers in an equipped BellSouth local switch and interconnection of the BellSouth SS7 network with KMC Data's SS7 network to exchange TCAP queries and responses with a KMC Data SCP.
  - 7.5.7.2 SS7 AIN Access shall provide KMC Data SCP access to an equipped BellSouth local switch via interconnection of BellSouth's SS7 and KMC Data SS7 Networks. BellSouth shall offer SS7 AIN Access through its STPs. If BellSouth requires a mediation device on any part of its network specific to this form of access, BellSouth must route its messages in the same manner. The interconnection arrangement shall result in the BellSouth local switch recognizing the KMC Data SCP as at least at parity with BellSouth's SCPs in terms of interfaces, performance and capabilities.
- 7.5.8 Interface Requirements
  - 7.5.8.1 BellSouth shall provide the following STP options to connect KMC Data or KMC Data-designated local switching systems to the BellSouth SS7 network:
    - 7.5.8.1.1 An A-link interface from KMC Data local switching systems; and,
    - 7.5.8.1.2 A B-link interface from KMC Data local STPs.
  - 7.5.8.2 Each type of interface shall be provided by one (1) or more layers of signaling links.
  - 7.5.8.3 The Signaling Point of Interconnection (SPOI) for each link shall be located at a cross-connect element in the CO where the BellSouth STP is located. There shall be a DS1 or higher rate transport interface at each of the SPOIs. Each signaling link shall appear as a DS0 channel within the DS1 or higher rate interface.

- 7.5.8.4 BellSouth shall provide intraoffice diversity between the SPOI and BellSouth STPs so that no single failure of intraoffice facilities or equipment shall cause the failure of both B-links in a layer connecting to a BellSouth STP.
- 7.5.8.5 STPs shall provide all functions of the MTP as defined in the applicable industry standard technical references.
- 7.5.9 Message Screening
- 7.5.9.1 BellSouth shall set message screening parameters so as to accept valid messages from KMC Data local or tandem switching systems destined to any signaling point within BellSouth's SS7 network where the KMC Data switching system has a valid signaling relationship.
- 7.5.9.2 BellSouth shall set message screening parameters so as to pass valid messages from KMC Data local or tandem switching systems destined to any signaling point or network accessed through BellSouth's SS7 network where the KMC Data switching system has a valid signaling relationship.
- 7.5.9.3 BellSouth shall set message screening parameters so as to accept and pass/send valid messages destined to and from KMC Data from any signaling point or network interconnected through BellSouth's SS7 network where the KMC Data SCP has a valid signaling relationship.
- 7.5.10 SCP/Databases
- 7.5.10.1 Call Related Databases provide the storage of, access to, and manipulation of information required to offer a particular service and/or capability. BellSouth shall provide access to the following Databases: Local Number Portability (LNP), LIDB, Toll Free Number Database, ALI/DMS, and CNAM. BellSouth also provides access to Service Creation Environment and Service Management System (SCE/SMS) application databases and Directory Assistance.
- 7.5.10.2 A SCP is deployed in a SS7 network that executes service application logic in response to SS7 queries sent to it by a switching system also connected to the SS7 network. Service Management Systems provide operational interfaces to allow for provisioning, administration and maintenance of subscriber data and service application data stored in SCPs.
- 7.5.11 Technical Requirements for SCPs/Databases
- 7.5.11.1 BellSouth shall provide physical access to SCPs through the SS7 network and protocols with TCAP as the application layer protocol.
- 7.5.11.2 BellSouth shall provide physical interconnection to databases via industry standard interfaces and protocols (e.g., SS7, ISDN and X.25).

- 7.5.11.3 The reliability of interconnection options shall be consistent with requirements for diversity and survivability.

7.6 Database Availability

- 7.6.1 Call processing databases shall have a maximum unscheduled availability of thirty (30) minutes per year. Unavailability due to software and hardware upgrades shall be scheduled during minimal usage periods and only be undertaken upon proper notification to providers, which might be impacted. Any downtime associated with the provision of call processing related databases will impact all service providers, including BellSouth, equally.

- 7.6.2 The operational interface provided by BellSouth shall complete Database transactions (i.e., add, modify, delete) for KMC Data's customer records stored in BellSouth databases within three (3) business days, or sooner where BellSouth provisions its own customer records within a shorter interval.

7.7 Local Number Portability Database

- 7.7.1 The Permanent Number Portability (PNP) database supplies routing numbers for calls involving numbers that have been ported from one (1) local service provider to another. BellSouth agrees to provide access to the PNP database at rates, terms and conditions as set forth by BellSouth and in accordance with an effective FCC or Commission directive.

7.8 SS7 Network Interconnection

- 7.8.1 SS7 Network Interconnection is the interconnection of KMC Data local STPS or KMC Data local or tandem switching systems with BellSouth signaling transfer point switches. This interconnection provides connectivity that enables the exchange of SS7 messages among BellSouth switching systems and databases, KMC Data local or tandem switching systems, and other third-party switching systems directly connected to the BellSouth SS7 network.

- 7.8.2 The connectivity provided by SS7 Network Interconnection shall fully support the functions of BellSouth switching systems and databases and KMC Data or other third-party switching systems with A-link access to the BellSouth SS7 network.

- 7.8.3 If traffic is routed based on dialed or translated digits between a KMC Data local switching system and a BellSouth or other third-party local switching system, either directly or via a BellSouth tandem switching system, then it is a requirement that the BellSouth SS7 network convey via SS7 Network Interconnection the TCAP messages that are necessary to provide Call Management services (Automatic Callback, Automatic Recall, and Screening List Editing) between the KMC Data local signaling transfer point switches and BellSouth or other third-party local switch.

- 7.8.4 SS7 Network Interconnection shall provide:
  - 7.8.4.1 Signaling Data Link functions, as specified in ANSI T1.111.2;
  - 7.8.4.2 Signaling Link functions, as specified in ANSI T1.111.3; and
  - 7.8.4.3 Signaling Network Management functions, as specified in ANSI T1.111.4.
- 7.8.5 SS7 Network Interconnection shall provide all functions of the SCCP necessary for Class 0 (basic connectionless) service as specified in ANSI T1.112. This includes GTT and SCCP Management procedures as specified in ANSI T1.112.4. Where the destination signaling point is a BellSouth switching system or DB, or is another third-party local or tandem switching system directly connected to the BellSouth SS7 network, SS7 Network Interconnection shall include final GTT of messages to the destination and SCCP Subsystem Management of the destination. Where the destination signaling point is a KMC Data local or tandem switching system, SS7 Network Interconnection shall include intermediate GTT of messages to a gateway pair of KMC Data local STPs and shall not include SCCP Subsystem Management of the destination.
- 7.8.6 SS7 Network Interconnection shall provide all functions of the Integrated Services Digital Network User Part as specified in ANSI T1.113.
- 7.8.7 SS7 Network Interconnection shall provide all functions of the TCAP as specified in ANSI T1.114.
- 7.8.8 If Internetwork MRVT and SRVT become approved ANSI standards and available capabilities of BellSouth STPs, SS7 Network Interconnection may provide these functions of the OMAP.
- 7.8.9 Interface Requirements
  - 7.8.9.1 The following SS7 Network Interconnection interface options are available to connect KMC Data or KMC Data-designated local or tandem switching systems or signaling transfer point switches to the BellSouth SS7 network:
    - 7.8.9.2 A-link interface from KMC Data local or tandem switching systems; and
    - 7.8.9.3 B-link interface from KMC Data STPs.
  - 7.8.9.4 The Signaling Point of Interconnection for each link shall be located at a cross-connect element in the central office where the BellSouth STP is located. There shall be a DS1 or higher rate transport interface at each of the Signaling Points of interconnection. Each signaling link shall appear as a DS0 channel within the DS1 or higher rate interface.

- 7.8.9.5 BellSouth shall provide intraoffice diversity between the Signaling Points of Interconnection and the BellSouth STP, so that no single failure of intraoffice facilities or equipment shall cause the failure of both B-links in a layer connecting to a BellSouth STP.
- 7.8.9.6 The protocol interface requirements for SS7 Network Interconnection include the MTP, ISDNUP, SCCP, and TCAP. These protocol interfaces shall conform to the applicable industry standard technical references.
- 7.8.9.7 BellSouth shall set message screening parameters to accept messages from KMC Data local or tandem switching systems destined to any signaling point in the BellSouth SS7 network with which the KMC Data switching system has a valid signaling relationship.
- 7.8.9.8 SS7 Network Interconnection shall be equal to or better than all of the requirements for SS7 Network Interconnection set forth in the applicable industry standard technical references.

## **8 ALI/DMS**

- 8.1 The ALI/DMS Database contains end user information (including name, address, telephone information, and sometimes special information from the local service provider or end user) used to determine to which PSAP to route the call. The ALI/DMS database is used to provide enhanced routing flexibility for E911. KMC Data will be required to provide BellSouth daily updates to the E911 database. KMC Data shall also be responsible for providing BellSouth with complete and accurate data for submission to the 911/E911 database for the purpose of providing 911/E911 service to KMC Data's end users.

### **8.2 Technical Requirements**

- 8.2.1 BellSouth shall provide KMC Data the capability of providing updates to the ALI/DMS database. BellSouth shall provide error reports from the ALI/DMS database to KMC Data after KMC Data provides end user information for input into the ALI/DMS database.
- 8.2.2 KMC Data shall conform to the National Emergency Number Association (NENA) recommended standards for LNP and updating the ALI/DMS database.

## **9 Calling Name (CNAM) Database Service**

- 9.1 CNAM is the ability to associate a name with the calling party number, allowing the customer (to which a call is being terminated) to view the calling party's name before the call is answered. The calling party's information is accessed by queries launched to the CNAM database. This service also provides KMC Data the opportunity to load and store its subscriber names in the BellSouth CNAM SCPs.

- 9.2 KMC Data shall submit to BellSouth a notice of its intent to access and utilize BellSouth CNAM Database Services. Said notice shall be in writing no less than sixty (60) days prior to KMC Data's access to BellSouth's CNAM Database Services and shall be addressed to KMC Data's Local Contract Manager.
- 9.2.1 KMC Data's customers' names and numbers related to UNE-P Services and shall be stored in the BellSouth CNAM database, and shall be available, on a per query basis only, to all entities that launch queries to the BellSouth CNAM database. BellSouth, at its sole discretion, may opt to interconnect with and query other calling name databases. In the event BellSouth does not query a third party calling name database that stores the calling party's information, BellSouth cannot deliver the calling party's information to a called customer. In addition, BellSouth cannot deliver the calling party's information where the calling party subscribes to any service that would block or otherwise cause the information to be unavailable.
- 9.2.2 For each KMC Data customer that subscribes to a switch based vertical feature providing calling name information to that customer for calls received, BellSouth will launch a query on a per call basis to the BellSouth CNAM database, or, subject to Section 9.2.1 above, to a third party calling name database, to provide calling name information, if available, to KMC Data's customer. KMC Data shall pay the rates set forth in Exhibit A, on a per query basis, for each query to the BellSouth CNAM database made on behalf of an KMC Data customer that subscribes to the appropriate vertical features that support Caller ID or a variation thereof. In addition, KMC Data shall reimburse BellSouth for any charges BellSouth pays to third party calling name database providers for queries launched to such database providers for the benefit of KMC Data's customers.
- 9.3 BellSouth's provision of CNAM Database Services to KMC Data requires interconnection from KMC Data to BellSouth CNAM SCPs. Such interconnections shall be established pursuant to Attachment 3 of this Agreement.
- 9.4 In order to formulate a CNAM query to be sent to the BellSouth CNAM SCP, KMC Data shall provide its own CNAM SSP. KMC Data's CNAM SSPs must be compliant with TR-NWT-001188, "CLASS Calling Name Delivery Generic Requirements".
- 9.5 If KMC Data elects to access the BellSouth CNAM SCP via a third party CCS7 transport provider, the third party CCS7 provider shall interconnect with the BellSouth CCS7 network according to BellSouth's Common Channel Signaling Interconnection Guidelines and Telcordia's CCS Network Interface Specification document, TR-TSV-000905. In addition, the third party provider shall establish CCS7 interconnection at the BellSouth Local Signal Transfer Points (LSTPs) serving the BellSouth CNAM SCPs that KMC Data desires to query.
- 9.6 If KMC Data queries the BellSouth CNAM SCP via a third party national SS7 transport provider, the third party SS7 provider shall interconnect with the

BellSouth CCS7 network according to BellSouth's Common Channel Signaling Interconnection Guidelines and Telcordia's CCS Network Interface Specification document, TR-TSV-000905. In addition, the third party provider shall establish SS7 interconnection at one (1) or more of the BellSouth Gateway STPs. The payment of all costs associated with the transport of SS7 signals via a third party will be established by mutual agreement of the Parties and this Agreement shall be amended in accordance with modification of the General Terms and Conditions incorporated herein by this reference.

- 9.7 The mechanism to be used by KMC Data for initial CNAM record load and/or updates shall be determined by mutual agreement. The initial load and all updates shall be provided by KMC Data in the BellSouth specified format and shall contain records for every working telephone number that can originate phone calls. It is the responsibility of KMC Data to provide accurate information to BellSouth on a current basis.
- 9.8 Updates to the SMS shall occur no less than once a week, reflect service order activity affecting either name or telephone number, and involve only record additions, deletions or changes.
- 9.9 KMC Data CNAM records provided for storage in the BellSouth CNAM SCP shall be available, on a SCP query basis only, to all Parties querying the BellSouth CNAM SCP. Further, CNAM service shall be provided by each Party consistent with state and/or federal regulation.
- 9.10 BellSouth currently does not have a billing mechanism for CNAM queries. BellSouth shall bill KMC Data at the applicable rates set forth in Exhibit A based on a surrogate of two hundred and fifty-six (256) database queries per month per KMC Data's customers with the Caller ID feature.

**10 Service Creation Environment and Service Management System (SCE/SMS) Advanced Intelligent Network Access (AIN Tool Kit)**

- 10.1 BellSouth's AIN Tool Kit shall provide KMC Data the capability to create service applications in a BellSouth SCE and deploy those applications in a BellSouth SMS to a BellSouth SCP.
- 10.2 BellSouth's AIN Tool Kit shall provide access to SCE hardware, software, testing and technical support (e.g., help desk, system administrator) resources available to KMC Data. Training, documentation, and technical support will address use of SCE and SMS access and administrative functions but will not include support for the creation of a specific service application. Scheduling procedures shall provide KMC Data with access at parity to these resources.
- 10.3 BellSouth SCP shall partition and protect KMC Data service logic and data from unauthorized access.

10.4 When KMC Data selects AIN Tool Kit, BellSouth shall provide training, documentation, and technical support to enable KMC Data to use BellSouth's AIN Tool Kit to create and administer applications.

10.5 KMC Data access will be provided via remote data connection (e.g., dial-in, ISDN).

10.6 BellSouth shall allow KMC Data to download data forms and/or tables to BellSouth SCP via BellSouth SMS without intervention from BellSouth.

## **11 Operational Support Systems (OSS)**

11.1 BellSouth shall provide KMC Data with nondiscriminatory access to operations support systems on an unbundled basis, in accordance with 47 C.F.R. § 51.319(g) and as set forth in Attachment 6. OSS functions consist of pre-ordering, ordering, provisioning, maintenance and repair, and billing functions supported by BellSouth's databases and information. BellSouth, as part of its duty to provide access to the pre-ordering function, shall provide KMC Data with nondiscriminatory access to the same detailed information about the loop that is available to BellSouth.

### 11.2 Denial/Restoral OSS Charge

11.2.1 In the event KMC Data provides a list of customers to be denied and restored, rather than an LSR, each location on the list will require a separate PON and therefore will be billed as one (1) LSR per location.

### 11.3 Cancellation OSS Charge

11.3.1 KMC Data will incur an OSS charge for an accepted LSR that is later canceled.

11.3.2 Supplements or clarifications to a previously billed LSR will not incur another OSS charge.

### 11.4 Network Elements and Other Services Manual Additive

11.4.1 The Commissions in some states have ordered per element manual additive nonrecurring charges for Network Elements and Other Services ordered by means other than one (1) of the interactive interfaces. These ordered Network Elements and Other Services manual additive nonrecurring charges will apply in these states, rather than the charge per LSR. The per element charges are listed in Exhibit A.

| UNBUNDLED NETWORK ELEMENTS - Alabama                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |  |  |         |                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |        |            |              |       |                         |                                  | Attachment: 2 Ex. |                                                                                                                                                                                                                                                                                                                                                                                                                             | NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.                                                       |  |  |  |         |                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |        |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |
|                                                                                                                                                                                                                                                                                                                                                                                                                             | NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMECE rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMECE rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |  |  |  |         |                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |        |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.                                                     |                                                                                   |  |  |  |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEc rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMEc rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |                                                                                   |  |  |  |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |
