| Notes: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party. |                                                 |                                                         |      |     |      |            |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |            |       |       |

**5 Unbundled Network Element Combinations**

- 5.1 For purposes of this Section, references to “Currently Combined” network elements shall mean that the particular network elements requested by ECI are in fact already combined by BellSouth in the BellSouth network. References to “Ordinarily Combined” network elements shall mean that the particular network elements requested by ECI are not already combined by BellSouth in the location requested by ECI but are elements that are typically combined in BellSouth’s network. References to “Not Typically Combined” network elements shall mean that the particular network elements requested by ECI are not elements that BellSouth combines for its use in its network.

**5.2 Enhanced Extended Links (EELs)**

- 5.2.1 EELs are combinations of unbundled loops and unbundled dedicated transport as defined in Section 6. BellSouth shall provide ECI with EELs where they are available.
- 5.2.2 BellSouth will provide access to EELs in the combinations set forth in Section 5.4.1 below.
- 5.2.3 EELs are intended to provide service connectivity from an end user’s location through that end user’s SWC to ECI’s collocation space in a BellSouth central office. The circuit must be connected to the ECI’s switch for the purpose of provisioning circuit telephone exchange service to the ECI’s end-user customers. ECI may connect EELs within the ECI’s collocation space to other transport terminating into ECI’s switch. ECI may also connect the local loops listed in Section 5.3.1.3 to an appropriate Unbundled Local Channel to form additional EELs which terminate in ECI’s switch. Provided that the entire EEL circuit meets the criteria set forth in Section 5.3.1.3 below, the circuit may, upon ECI’s request, terminate to a CLEC’s Point of Presence (“POP”). ECI will provide a significant amount of local exchange service over the requested combination, as described in Section 5.3.1 et seq. below. Upon BellSouth’s request, ECI shall indicate under what local usage option ECI seeks to qualify. ECI shall be deemed to providing a significant amount of local exchange service over the requested combination if one of the options listed in Section 5.3.1 et seq. is met. BellSouth shall have the right to audit ECI’s EELs as specified in Section 5.3.3 below.

**5.3 Conversions from Special Access Service to EELs**

- 5.3.1 ECI may not convert existing special access services to combinations of loop and transport network elements, whether or not ECI self-provides its entrance facilities (or obtains entrance facilities from a third party), unless

ECI uses the combination to provide a significant amount of local exchange service, in addition to exchange access service, to a particular customer. To the extent ECI requests to convert any special access services to combinations of loop and transport network elements at UNE prices, ECI shall provide to BellSouth a certification that ECI is providing a significant amount of local exchange service (as described in this Section) over such combinations. The certification shall also indicate under what local usage option ECI seeks to qualify for conversion of special access circuits. ECI shall be deemed to be providing a significant amount of local exchange service over such combinations if one of the following options is met:

- 5.3.1.1 **Option 1:** ECI certifies that it is the exclusive provider of an end user's local exchange service. The loop-transport combinations must terminate at ECI's collocation arrangement in at least one BellSouth central office. This option does not allow loop-transport combinations to be connected to BellSouth's tariffed services. Under this option, ECI is the end user's only local service provider, and thus is providing more than a significant amount of local exchange service. ECI can then use the loop-transport combinations that serve the end user to carry any type of traffic, including using them to carry 100 percent interstate access traffic; or
- 5.3.1.2 **Option 2:** ECI certifies that it provides local exchange and exchange access service to the end user customer's premises and handles at least one third of the end user customer's local traffic measured as a percent of total end user customer local dial tone lines; and for DS1 circuits and above, at least 50 percent of the activated channels on the loop portion of the loop-transport combination have at least 5 percent local voice traffic individually, and the entire loop facility has at least 10 percent local voice traffic. When a loop-transport combination includes multiplexing, each of the individual DS1 circuits must meet this criterion. The loop-transport combination must terminate at ECI's collocation arrangement in at least one BellSouth central office. This option does not allow loop-transport combinations to be connected to BellSouth tariffed services; or
- 5.3.1.3 **Option 3:** ECI certifies that at least 50 percent of the activated channels on a circuit are used to provide originating and terminating local dial tone service and at least 50 percent of the traffic on each of these local dial tone channels is local voice traffic, and that the entire loop facility has at least 33 percent local voice traffic. When a loop-transport combination includes multiplexing, each of the individual DS1 circuits must meet this criterion. This option does not allow loop-transport combinations to be connected to BellSouth's tariffed services. Under this option, collocation is not required. ECI does not need to provide a defined portion of the end user's local service, but the active channels on any loop-transport

combination, and the entire facility, must carry the amount of local exchange traffic specified in this option.

5.3.2 In addition, there may be extraordinary circumstances where ECI is providing a significant amount of local exchange service but does not qualify under any of the three options set forth in Section 5.3.1 et seq. In such case, ECI may petition the FCC for a waiver of the local usage options set forth above. If a waiver is granted, then upon ECI's request the Parties shall amend this Agreement to the extent necessary to incorporate the terms of such waiver for such extraordinary circumstance.

5.3.3 BellSouth may, at its sole discretion, audit ECI's records in order to verify compliance with the local usage option provided by ECI pursuant to Section 5.3.1. The audit shall be conducted by a third party independent auditor, and ECI shall be given thirty days written notice of scheduled audit. Such audit shall occur no more than one time in a calendar year unless results of an audit find noncompliance with the significant amount of local exchange service requirement. In the event of noncompliance, ECI shall reimburse BellSouth for the cost of the audit. If, based on the audit, ECI is not providing a significant amount of local exchange traffic over the combinations of loop and transport network elements, BellSouth will convert such combinations of loop and transport network elements to special access services in accordance with BellSouth's tariffs and will bill ECI for appropriate retroactive reimbursement. If the Parties disagree as to whether the audits indicate that ECI is not providing a significant amount of local exchange traffic, the dispute will be resolved according to the dispute resolution process set forth in Section 10 of the General Terms and Conditions of this Agreement incorporated herein by this reference.

5.3.4 In the event ECI converts special access circuits to combinations of loop and transport UNEs pursuant to the terms of this Section, ECI shall be subject to the termination liability provisions in the applicable special access tariffs, if any.

5.4 Rates

5.4.1 Currently Combined EELs listed below in Sections 5.4.1.1-5.4.1.14 shall be billed at the nonrecurring switch-as-is charge and recurring charges for that combination as set forth in Exhibit B of this Attachment. Currently Combined EELs not listed below shall be billed at the sum of the nonrecurring and recurring charges for the individual network elements that comprise the combination as set forth in Exhibit B of this Attachment.

5.4.1.1 DS1 Interoffice Channel + DS1 Channelization + 2-wire VG Local Loop

- 5.4.1.2 DS1 Interoffice Channel + DS1 Channelization + 4-wire VG Local Loop
- 5.4.1.3 DS1 Interoffice Channel + DS1 Channelization + 2-wire ISDN Local Loop
- 5.4.1.4 DS1 Interoffice Channel + DS1 Channelization + 4-wire 56 kbps Local Loop
- 5.4.1.5 DS1 Interoffice Channel + DS1 Channelization + 4-wire 64 kbps Local Loop
- 5.4.1.6 DS1 Interoffice Channel + DS1 Local Loop
- 5.4.1.7 DS3 Interoffice Channel + DS3 Local Loop
- 5.4.1.8 STS-1 Interoffice Channel + STS-1 Local Loop
- 5.4.1.9 DS3 Interoffice Channel + DS3 Channelization + DS1 Local Loop
- 5.4.1.10 STS-1 Interoffice Channel + DS3 Channelization + DS1 Local Loop
- 5.4.1.11 2-wire VG Interoffice Channel + 2-wire VG Local Loop
- 5.4.1.12 4wire VG Interoffice Channel + 4-wire VG Local Loop
- 5.4.1.13 4-wire 56 kbps Interoffice Channel + 4-wire 56 kbps Local Loop
- 5.4.1.14 4-wire 64 kbps Interoffice Channel + 4-wire 64 kbps Local Loop
- 5.4.2 Ordinarily Combined EELs listed above shall be billed the sum of the nonrecurring and recurring charges for that combination as set forth in Exhibit B of this Attachment. Ordinarily combined EELs not listed in Sections 5.4.1.1-5.4.1.14 shall be billed the sum of the nonrecurring charges and recurring charges for the individual network elements that comprise the combination as set forth in Exhibit B of this Attachment.
- 5.4.3 To the extent that ECI requests an EEL combination Not Typically Combined in the BellSouth network, the rates, terms and conditions shall be determined pursuant to the Bona Fide Request Process.

**5.5 UNE Port/Loop Combinations**

- 5.5.1 Combinations of port and loop unbundled network elements along with switching and transport unbundled network elements provide local exchange service for the origination or termination of calls. Port/ loop combinations support the same local calling and feature requirements as described in the Unbundled Local Switching or Port section of this Attachment 2 and the ability to presubscribe to a primary carrier for intraLATA toll service and/or to presubscribe to a primary carrier for interLATA toll service.
- 5.5.2 BellSouth shall make available UNE port/loop combinations, regardless of whether such combinations are Currently Combined, as long as such combinations are Ordinarily Combined in BellSouth's network.
- 5.5.3 Except as set forth in Section 5.5.4 below, BellSouth shall provide UNE port/loop combinations described in Section 5.5.6 below that are Currently Combined or Ordinarily Combined in BellSouth's network at the cost-based rates in Exhibit B. Except as set forth in Section 5.5.4 below, BellSouth shall provide UNE port/loop combinations not described in Section 5.5.6 below or Not Typically Combined Combinations in accordance with the Bona Fide Request process.
- 5.5.4 BellSouth is not required to provide combinations of port and loop network elements on an unbundled basis in locations where, pursuant to FCC rules, BellSouth is not required to provide circuit switching as an unbundled network element.
  - 5.5.4.1 BellSouth shall not be required to provide local circuit switching as an unbundled network element in density Zone 1, as defined in 47 CFR 69.123 as of January 1, 1999 of the Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New Orleans, LA, MSAs to ECI if ECI's customer has 4 or more DS0 equivalent lines.
  - 5.5.4.2 Notwithstanding the foregoing, BellSouth shall provide combinations of port and loop network elements on an unbundled basis where, pursuant to FCC rules, BellSouth is not required to provide local circuit switching as an unbundled network element and shall do so at the market rates in Exhibit B. If a market rate is not set forth in Exhibit B for a UNE port/loop combination, such rate shall be negotiated by the Parties.
- 5.5.5 BellSouth shall make 911 updates in the BellSouth 911 database for ECI's UNE port/loop combinations. BellSouth will not bill ECI for 911 surcharges. ECI is responsible for paying all 911 surcharges to the applicable governmental agency.
- 5.5.6 Combination Offerings
  - 5.5.6.1 2-wire voice grade port, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU,

common transport facilities termination, tandem switching, and tandem trunk port.

- 5.5.6.1 2-wire voice grade Coin port, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 5.5.6.2 2-wire voice grade DID port, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 5.5.6.3 2-wire CENTREX port, voice grade loop, CENTREX intercom functionality, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 5.5.6.4 2-wire ISDN Basic Rate Interface, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 5.5.6.5 4-wire ISDN Primary Rate Interface, DS1 loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 5.5.6.6 4-wire DS1 Trunk port, DS1 Loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 5.5.6.7 4-wire DS1 Loop with normal serving wire center channelization interface, 2-wire voice grade ports (PBX), 2-wire DID ports, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.

## 5.6 **Other UNE Combinations**

- 5.6.1 BellSouth shall provide other Currently Combined and Ordinarily Combined and Not Typically Combined UNE Combinations to ECI in addition to those specifically referenced in this Section 5 above, where available. Such combinations shall not be connected to BellSouth tariffed services. To the extent ECI requests a combination for which BellSouth does not have methods and procedures in place to provide such combination, rates and/or methods and procedures for such combination will be developed pursuant to the BFR/NBR process.

### 5.6.2 Rates

- 5.6.3 The rates for Ordinarily Combined UNE Combinations shall be the sum of the recurring rates and nonrecurring rates for the stand-alone network elements as set forth in Exhibit B of this Attachment. The rates for Currently Combined UNE Combinations shall be the sum of the recurring rates for the stand-alone network elements as set forth in Exhibit B, in addition to a nonrecurring charge set forth in Exhibit B. To the extent ECI requests a Not Typically Combined Combination, or to the extent ECI requests any combination for which BellSouth has not developed methods and procedures to provide such combination, rates and/or methods and procedures for such combination shall be established pursuant to the BFR/NBR process.

**Amendment to the Agreement  
Between  
Ernest Communications, Inc.  
and  
BellSouth Telecommunications, Inc.  
Dated May 2, 2002**

Pursuant to this Amendment, (the "Amendment"), Ernest Communications, Inc. (ECI), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated May 2, 2002 ("Agreement").

WHEREAS, BellSouth and ECI entered into the Agreement on May 2, 2002,  
and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to add to the rates and services in Exhibit B of Attachment 2 the rates and services as set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.
2. This Amendment shall be deemed effective September 1, 2003.
3. All of the other provisions of the Agreement, dated May 2, 2002, shall remain in full force and effect.
4. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

**Amendment to the Agreement  
Between  
Ernest Communications, Inc.  
and  
BellSouth Telecommunications, Inc.  
Dated May 2, 2002**

Pursuant to this Amendment, (the "Amendment"), Ernest Communications, Inc. (ECI), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated May 2, 2002 ("Agreement") to be effective upon the date of the last signature executing the Amendment.

WHEREAS, BellSouth and ECI entered into the Agreement on May 2, 2002,  
and;

WHEREAS, BellSouth and ECI are amending the Agreement to add additional rates, terms and conditions in order to comply with directives of the Georgia Public Service Commission;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to delete in their entirety the Georgia rates set forth in Exhibit E of Attachment 1, Exhibit B of Attachment 2, Exhibit A of Attachment 3, Exhibit D of Attachment 4, and Exhibit A of Attachment 7 and replace such Georgia rates with those set forth in Exhibit 1 to this Amendment, attached hereto and incorporated herein by this reference. These rates shall remain in effect until the Georgia Public Service Commission enters a written Order memorializing its September 2, 2003 decision on reconsideration in Docket 14361-U (hereinafter referred to as "Reconsideration Order").
2. Effective on the date of the Reconsideration Order, the Parties agree to delete those Georgia rates set forth in Exhibit 1 to this Amendment for which a replacement rate exists, as set forth in Exhibit 2 of this Amendment, and to replace such rates in Exhibit 1 with the rates specified in Exhibit 2 of this Amendment, which is attached hereto and incorporated herein by this reference. All other Georgia rates set forth in Exhibit 1 to this Amendment shall remain in effect and shall not be affected by this partial rate replacement.
3. All of the other provisions of the Agreement dated May 2, 2002 shall remain unchanged and in full force and effect.
4. The Parties recognize that the rates set forth in this Amendment result from action by the Georgia Public Service Commission and have not been the subject of negotiations between the Parties. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996. However, by doing

so, the Parties are not waiving their right to oppose approval of this Amendment under 252(e)(2) or to seek judicial review of the rates contained herein.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two.                                                                                                                                                             |               |                                                                                                                                                                                                                                                                                                                                                                                                                                |  |  |         |      |       |        |              |        |                         |               |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |               |                                                                                                                                                                                                                                                                                                                                                                                                                                |  |  |         |      |       |        |              |        |                         |               |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |

|                                                 | Unbundled port/loop combinations that are Currently Combined or Not Currently Combined in Zone 1 of the Top 8 MSAs in BellSouth's region for end users with 4 or more DS0 equivalent lines.                                                                                                                                                                                                                                           |         |      |       |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
|                                                 | The Top 8 MSAs in BellSouth's region are: FL (Orlando, Ft. Lauderdale, Miami); GA (Atlanta); LA (New Orleans); NC (Greensboro-Winston Salem-Highpoint/Charlotte-Gastonia-Rock Hill); TN (Nashville).                                                                                                                                                                                                                                  |         |      |       |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
|                                                 | BellSouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in FL and NC. In the interim where BellSouth cannot bill Market Rates, BellSouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference. |         |      |       |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
|                                                 | The Market Rate for unbundled ports includes all available features in all states.                                                                                                                                                                                                                                                                                                                                                    |         |      |       |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
|                                                 | End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations which have a flat rate usage charge (USOC: URECU).                                                                                                                                                           |         |      |       |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
|                                                 | For Not Currently Combined scenarios the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section.                                                                                                                                                                                   |         |      |       |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
