July 19, 2006

Ms. Darlene Standley  
 Chief, Utilities Division  
 Tennessee Regulatory Authority  
 460 James Robertson Parkway  
 Nashville, TN 37243-0505

Dear Ms. Standley:

This letter regards Kentucky Utilities Company's ("KU") intentions related to the five KU customers served under the Tennessee Regulatory Authority's ("TRA") jurisdiction and the impact on those customers by the Energy Policy Act of 2005 ("EPA").

The Kentucky Public Service Commission ("PSC") is currently conducting an investigation into the sections addressing Standard 14, "Time Based Metering and Communication", and Standard 15, "Interconnection", of the EPA. KU intends and requests the TRA to allow the findings of the PSC to be offered to the five KU customers served under the TRA jurisdiction under the same conditions as those KU customers falling under PSC jurisdiction.

KU has no generation in the State of Tennessee and does not believe the Standard 12, "Fuel Sources", or Standard 13, "Fossil Fuel Generation Efficiency", addressed by the EPA are relevant for consideration by the TRA as they relate to KU.

KU's tariff, as approved for its Kentucky customers, currently contains provision for Standard 11, "Net Metering". KU is proceeding with preparing a filing requesting the TRA permit the entire KU Kentucky jurisdictional tariff, including the Net Metering Service, be available to the five Tennessee customers.

If you have any questions, please contact me at (859) 367-5636.

Sincerely,

A handwritten signature in dark ink, appearing to read "F. Howard Bush Jr.", with a stylized flourish at the end.

F. Howard Bush Jr.  
 Manager, Tariffs/Special Contracts
