 RECEIVED

Gil,

Responding to your questions: The hearing in this docket has concluded. This matter is now before the Directors at tomorrow's Conference for deliberations. As a matter of convenience to the other members of the panel, Director Miller published his motion in advance of the Conference as he has done in the past. A courtesy copy has been provided to you. Just the same as if the motion were presented initially during the Conference itself, there is no provision for a response or further comment by any party to the docket. After deliberations have concluded and a decision is rendered by the panel, the Authority's decision may be addressed as provided in the Tennessee UAPA (Tenn. Code Ann. Section 4-5-301, et seq.). If you have any additional questions, please contact me at Ext. 170 or Gary Hotvedt at Ext. 212.

Richard Collier

Gil:

I have forwarded your email to our General Counsel, Richard Collier. He will be responding to you later today.

Paul

Paul:

There are major problems with the Rate Design and other suggestions in the motion. How will a \$12.00 per 1000 gallon water rate work when your paying \$22.00 per 1000 gallons? We will not be prepared to address at a hearing tomorrow the issues raised in this motion. A detailed response needs to be prepared and filed. Please let me know what position will be taken tomorrow at the hearing.

Gil
