RE: Filing of Revised Tariff Pages

**20070401**

Dear Mrs. Kendall:

Tennessee Wastewater Systems, Inc. is submitting the following two revised tariff pages to clarify measured usage methods for overnight rental cabins and reflect the decision of the TRA's approval of docket #06-00259 on September 10<sup>th</sup>, 2007. These pages replace the previously submitted pages.

Sincerely,

Matt Pickney, Operations Manager  
Tennessee Wastewater Systems, Inc.

## WASTEWATER UTILITY SERVICE

## SECTION 6 – COMMERCIAL RATES SHEET

## Overnight Rental Units

The monthly sewer charge per customer is based on the monthly average daily flow monitored from the unit being served. A minimum of \$55 per month will be charged for up to the first 300 gallons per day of average daily flow. For each additional 100 gallons per day of average daily flow, up to a total of 1,000 gallons per day, an additional charge of \$15.00 per month per 100 gallons will be levied. For average daily flows over 1,000 gallons per day, the following additional monthly charges per 1,000 gallons of average daily flow will apply.

### Disposal

<u>Treatment</u>	<u>Drip Irrigation</u>	<u>Point Discharge</u>	<u>Off Site</u>
<u>Fixed Film</u>	\$140.00	\$165.00	N/A
<u>Lagoon</u>	\$116.00	\$140.00	N/A

Each customer will be billed the minimum monthly charge unless TWS determines that the customer's measured usage exceeds an average of 300 gallons per day over a thirty day period. Unless otherwise stated in this tariff, measured usage will be based on a customer's actual or estimated usage, averaged over a thirty-day period.

Actual usage may be measured in any of the following ways:

- Effluent flow meter.
- STEP pump. Usage will be measured by multiplying the period of elapsed pumping time shown on the pump times the capacity of the pump.
- In the absence of an effluent flow meter or a STEP pump, usage will be assumed to be equal to the customer's usage of potable water as shown on the customer's potable water meter.

If a customer is charged in excess of the minimum monthly fee, TWS will measure the customer's actual usage at least once every ninety days using one of the methods described above. In any month in which TWS does not measure the company's actual usage, the customer's monthly bill will be based on the customer's estimated monthly usage. No less than once every ninety days TWS will bill (or credit) the customer for any differences between an estimated bill and actual measured usage.

If a customer's usage exceeds the average daily design flow for three consecutive months, the customer may be required to pay any capital costs associated with increasing the capacity of that portion of the system designed and dedicated to serve that customer. For purposes of this section, TWS must measure actual usage for three consecutive months using one of the methods described above.

**Fees:** Nonpayment – 5%                      Reconnection - \$15  
           Disconnection - \$10                  Returned Check - \$20  
           All rates are subject to a \$0.38 bonding fee
