**IN RE: PETITION OF TENNESSEE WASTEWATER SYSTEMS,
 INC. TO AMEND ITS CERTIFICATE OF
 CONVENIENCE AND NECESSITY**

DOCKET No._____

Petition of Tennessee Wastewater Systems, Inc.
To amend its Certificate of Convenience and Necessity

Tennessee Wastewater Systems, Inc. ("TWSI") petitions the Tennessee Regulatory Authority ("TRA") to amend TWSI's Certificate of Convenience and Necessity to expand its service area to include a portion of Sevier County known as Mountain Folks Community. The project is located on Mountain Folk Way in Sevier County. The property includes the area shown in yellow on the enclosed tax map provided by Sevier County (see attached "Exhibit A"). These parcels encompass approximately 80 acres.

We are proposing to provide wastewater service to approximately 12 residential and commercial lots at Mountain Folks Community. The wastewater system will be designed and constructed to serve 12 lots (approximately 10,000 gallons per day) and can be expanded if needed. The TDEC application for a permit is being prepared. No contracts have been signed at this point. It is the intention of the parties that TWSI will own the collection, treatment, and dispersal system and will own a permanent easement on the property that the system occupies.

Also enclosed are letters from the City of Pigeon Forge and the Sevier County Government stipulating that none of these entities will provide sewer service for these parcels. We have also enclosed a letter from the developer, Richard J. Balk, General Contractor, requesting TWSI to be the public sewer utility provider for the project.

After approval, the construction of the system, which is comprised of watertight effluent collection, fixed film treatment, and subsurface drip dispersal, will take approximately 60 days to complete. The estimated value of the contribution in aid of construction is approximately \$160,000.00.

Respectfully Submitted,

Matt Pickney
Tennessee Wastewater Systems, Inc.
