MEMORANDUM

TO: Docket File 07-00025

FROM: J. Richard Collier, General Counsel *JRC*

DATE: July 5, 2007

SUBJECT: EAS Traffic Exchange Agreement Negotiated By and Between
CenturyTel of Ooletewah-Collegedale, Inc. and Charter Fiberlink-
Georgia, LLC

On December 5, 2006, the above captioned docket was opened upon the filing of an EAS Traffic Exchange Agreement ("Agreement") between CenturyTel of Ooletewah-Collegedale, Inc. ("CenturyTel"), a rural local exchange carrier operating in Tennessee, and Charter Fiberlink-Georgia, LLC, a local exchange carrier operating in Georgia. Upon providing the Agreement, CenturyTel stated that, because the Agreement involves interstate extended area service calling routes, the Agreement was being provided to the Tennessee Regulatory Authority (the "Authority") for filing and approval.

The Agreement came before the Authority at a regularly scheduled Authority Conference held on March 26, 2007, at which time the Authority acknowledged receipt of the Agreement and accepted the filing for informational purposes. Thereafter, the Authority administratively closed this docket.
