filed electronically in docket office on 09/17/08

Re: Docket 07-00224

Dear Hearing Officer Cashman-Grams:

Enclosed please find Chattanooga Gas Company's ("CGC") supplemental responses to the Second Discovery Requests of the Consumer Advocate and Protection Division ("CAPD") that are being produced in accordance with the September 12, 2008 Order Granting In Part and Denying In Part Consumer Advocate's Motion to Compel.

As explained by email on September 10, 2008, CGC has volunteered to provide the volume of gas provided by ETNG and SNG pipelines to the LDC on a daily basis and the days when gas is injected into the LNG storage tank. In a further discussion with the CAPD, CGC has also agreed to provide the volumes injected into the LNG storage tank. This information is attached hereto as Attachment A.

Because of the effects of Hurricane Ike on Houston as explained by my email dated September 15, 2008, CGC needs additional time to attempt to supplement its response to Discovery Request No. 7(a) as directed. CGC hopes to have this supplement filed by the end of the week if not before.

Sincerely yours,

Jennifer L. Brundige

DOCKET TO EVALUATE CHATTANOOGA	)	Docket No. 07-00224
GAS COMPANY'S GAS PURCHASES AND	)	
RELATED SHARING INCENTIVES	)	
	)	

**CHATTANOOGA GAS COMPANY'S SUPPLEMENTAL RESPONSES TO
CAPD'S SECOND DISCOVERY REQUESTS**

Pursuant to the Hearing Officer's September 12, 2008 Order Granting In Part and Denying In Part Consumer Advocate's Motion to Compel, Chattanooga Gas Company ("CGC" or "Company") files these supplemental responses to the Second Discovery Requests of the Consumer Advocate and Protection Division ("CAPD") of the Office of the Attorney General.

CGC'S SUPPLEMENTAL RESPONSES

CAPD Discovery Request No. 5 (a) & (b):

As agreed to at the September 9, 2008 status conference and pursuant to the September 12, 2008 Order, CGC is supplementing its response to Nos. 5 (a) & (b) as follows:

CGC'S SUPPLEMENTAL RESPONSE TO NO. 5(a):

- a. Admit. The Company has not found it beneficial to the customers of CGC to reduce the level of storage capacity on Tennessee Gas Pipeline needed to meet seasonal load, enhance supply reliability, and service weather swing requirement.

CGC'S SUPPLEMENTAL RESPONSE TO NO. 5(b):

b. Admit. The Company has not found it beneficial to the customers of CGC to reduce the level of storage capacity on Southern Natural Gas Pipeline needed to meet seasonal load, enhance supply reliability, and service weather swing requirement.

CAPD Discovery Request No. 7(b)-(d):

The Company continues to rely upon its responses to Nos. 7(b), (c), & (d) filed with the TRA on August 26, 2008. The following are further supplements as ordered.

CGC'S SUPPLEMENTAL RESPONSE TO NOS. 7(b), (c) & (d):

In addition to its response provided on August 26, 2008, Chattanooga Gas Company will attempt to provide additional or further explanation, clarification, or basis for its decisions, including its decision to subdivide and turn back the Company's FT contract with East Tennessee pipeline.

The personnel involved in making the decision to renegotiate the CGC contract no longer work for the Company. Documents analyzing or outlining the decision were not found in a search of the Company's files. However, the personnel currently responsible for managing the Chattanooga Gas Company capacity portfolio have testified in this proceeding and provided documented support in exhibit TSS-2, that the level of capacity currently held by CGC is adequate and necessary to reliably meet the supply needs of the current firm customers. Thus, the turn back of capacity was appropriate to match the firm deliverability with the projected design day load. In addition, the reduction in

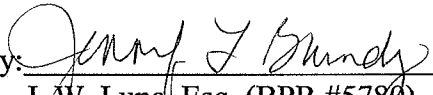

capacity has resulted in a fixed cost savings of \$400,800 over the most recent 12 months for CGC's firm service customers and a total fixed cost savings of \$801,600 from October 1, 2006 through September 30, 2008 to CGC's firm service customers.

Again as described in the Company's testimony and in CGC's response to the data request, the Company decided to initiate discussion with East Tennessee and split the FT contract into separate agreements in order to isolate particular receipt and delivery point combinations. This was due to the fact that a reduction in contract capacity would normally result in a prorated reduction across all receipt and delivery points associated with the contract. By negotiating to have the 5,000 dths per day of capacity to be turned back split into a separate contract, the Company was able to preserve delivery to points on the CGC distribution system where supply is needed under high demand periods.

Receipts from Dickenson County were maintained when the Company disaggregated the single contract into separate agreements to ensure a level supply diversity. The majority of CGC's receipt entitlements are from the Gulf of Mexico. Receipts from that region are subject to unique weather related disruptions as witnessed following hurricanes Rita and Katrina. Weather related incidence could curtail flows from Dickenson County. However, it is highly unlikely that a single weather event could disrupt pipeline receipts from both the Gulf of Mexico and Dickenson County simultaneously.

Respectfully submitted,

FARMER & LUNA, PLLC
