filed electronically in docket office on 03/03/08

**RE: Docket to Evaluate Atmos Energy Corporation's Gas Purchase and Related Sharing Incentives, TRA Docket No. 07-00225**

Dear Ms. Dillon:

Enclosed please find the original and four copies of the following responses of Atmos Energy Corporation, which are also being provided in electronic format via e-mail:

1. Revised and/or Supplemental Responses to Consumer Advocate's Discovery Requests 9, 10, 29, and 31 (Non-Confidential); and

2. Supplemental Response to Consumer Advocate's Discovery Request Number 32 (Confidential). The cover pleading is not confidential, and can be filed in the normal way. However, the attachments to Number 32 are confidential, and must be filed under seal.

I am also enclosing in a separate sealed envelope the original and four copies of Attachments to Supplemental Response No. 32, as well as a CD containing the attachments in electronic format. These are to be filed under seal as provided in the Protective Order.

Best regards,

Sincerely,

A. Scott Ross

AEC9. The Tennessee Guidelines for United Cities Gas Company's Affiliate Transactions, Standards of Conduct No. 9 states: "In transactions that involve either the purchase or receipt of information, assets, goods or services by the Company from an affiliate entity, the Company shall document both the fair market price of such information, assets, goods, and services and the fully distributed cost to the Company to produce the information, assets, goods or services for itself." Please list all of AEC's transactions affecting the Tennessee jurisdiction that involve either the purchase or receipt of information, assets, goods or services by the Company from an affiliate entity (including AEM) from October 1, 2003, through September 30, 2007 and to present as available -- including, but not confined to, the purchase of information, assets, goods or services described in the current Gas Exchange and Optimization Services Agreement for the Service Areas in the States of Tennessee and Virginia entered into by AEC and AEM as of April 1, 2004. For each such transaction, please provide AEC's documentation of the fair market price of the information, assets, goods, and/or services involved in the

transaction and AEC's documentation of the fully distributed cost to AEC to produce such information, assets, goods, and/or services for itself.

**SUPPLEMENTAL RESPONSE:**

Subject to and without waiving its General Objections, AEC provides the following supplemental response, which was unintentionally omitted from the Company's original response:

With respect to AEC's fully distributed cost for the capacity assets, these costs are reflected in the payments made to the utility's transportation and storage service providers at either applicable tariff rates or negotiated discount rates, and all of which are included as part of gas costs through the utility's purchased gas adjustment clause. Inasmuch as AEC successfully bid out asset management through a competitive bidding process, it was able to reduce the fully distributed costs of its capacity assets through the compensation received from the asset manager. The alternative chosen by Atmos is significantly less expensive than subscribing to the associated capacity. The documentation for comparative cost analysis and fair market price is the pipeline tariff rates multiplied by the required capacity. The pipeline tariff sheets (available on the pipelines EBB for current or historic pricing) and applicable capacities are:

Barnsley Exchange -

- TN Gas Pipeline Sheet 24, zone SL to zone 3, max. FT rate X MDWQ 35,735 Dth X winter 5 months
- TN Gas Pipeline Sheet 31, zone SL to zone 3, min. FT rate X MDWQ 35,735 Dth X summer 7 months

A second option for Barnsley Exchange would be -

- Columbia Gulf Trans. Sheet 18A Onshore Pool X MDWQ  
35,735 Dth X 12 months

Dominion Exchange -

- TN Gas Pipeline Sheets 23 and 23A, zone 1 to zone 3 FT-A  
rate X MDWQ 3,300 X 12 months
- Texas Eastern Sheets 30 and 31, zone ELA to zone 2 FT-1  
usage and reserv chg X MDWQ 4,880 Dth X 12 months

Columbia Gulf Exchange -

- Columbia Gulf Trans. Sheet 18 Rate FTS-1 X MDWQ 50,000  
Dth X 12 months
- Texas Eastern Sheets 30 and 31, zone ELA to zone M-1 FT-1  
usage and reserv chg X 5,000 Dth X 12 months

With respect to AEC's fully distributed costs applicable to the services, such as gas exchange services, provided by the asset manager, the utility does not have the markets or complimentary assets needed to extract value from these assets, and does not perform equivalent services. Therefore Atmos has no cost basis for purposes of establishing fully distributed cost other than the cost therefore established through the competitive bidding process.

**AEC10.** The Tennessee Guidelines for United Cities Gas Company's Affiliate Transactions, Standards of Conduct No. 10 states: "When the Company purchases information, assets, goods or services from an affiliated entity, the Company shall either obtain competitive bids for such information, assets, goods or services or demonstrate why competitive bids were neither necessary or appropriate." Please list all of AEC's purchases affecting the Tennessee jurisdiction that involve the purchase of information, assets, goods or services from an affiliated entity (including AEM) -- including, but not confined to, the purchase of information, assets, goods or services described in the current Gas Exchange and Optimization Services Agreement for the Service Areas in the States of Tennessee and Virginia entered into by AEC and AEM as of April 1, 2004. For each such purchase, please provide a copy of all competitive bids obtained by AEC or, if competitive bids were not obtained, a copy of all information and documents that demonstrate why competitive bids were neither necessary or appropriate.

**SUPPLEMENTAL RESPONSE:**

Subject to and without waiving its General Objections, AEC provides the following supplemental response to AEC10:

The Columbia Gulf exchange agreement was not subject to competitive bid. In 2004, the Company and the pipeline Columbia Gulf Transmission ("CGT") were unable to satisfactorily negotiate rates for the needed capacity. The pipeline refused to discount and the Company was faced with paying the maximum FERC tariff rates. Our asset manager at that time was able to provide the required CGT capacity via an exchange agreement, priced at below tariff rate, resulting in value and savings to the TN customers.

**AEC29.** For each month of AEC's fiscal year ended September 30, 2007, and the months of October through December 2007, provide the total monthly volumes billed by tariff by Atmos to its customers in Tennessee for each of the following areas defined in the company's tariff filed with the Tennessee Regulatory Authority: Areas 1, 2, 3 and 4.

**REVISED RESPONSE:**

Subject to and without waiving its General Objections, AEC provides the following revised response:

See the attached spreadsheet "CAPD AEC29 Suppl" which contains Oct03 through Dec07 monthly volumes (Mcf) billed by Atmos to its Tennessee customers by customer class and by town. This report includes both sales and transportation volumes billed. This revised responses replaces the Company's original response to AEC29.

**AEC31.** For each month of AEC's fiscal years ending September 30, 2004, through September 30, 2007, and the months of October through December 2007, provide the total monthly volumes billed by Atmos to its customers in Virginia.

**REVISED RESPONSE:**

Subject to and without waiving its General Objections, AEC provides the following revised response:

See the attached spreadsheet "CAPD AEC31 Suppl" which contains Oct03 through Dec07 monthly volumes (Mcf) billed by Atmos to its Virginia customers. This report includes both sales and transportation volumes billed. This revised response to AEC31 replaces the Company's original response.
