**IN RE: PETITION OF TENNESSEE WASTEWATER SYSTEMS,
INC. TO AMEND ITS CERTIFICATE OF
CONVENIENCE AND NECESSITY**

DOCKET No._____

Petition of Tennessee Wastewater Systems, Inc.
To amend its Certificate of Convenience and Necessity

Tennessee Wastewater Systems, Inc. ("TWSI") petitions the Tennessee Regulatory Authority ("TRA") to amend TWSI's Certificate of Convenience and Necessity to expand its service area to include a portion of Franklin County known as Serenity Point. The project is located off of East Roarks Cove Road in Franklin County. The property includes parcels 17.03 and 17.04 and is outlined in yellow on the enclosed Tax Map 039 (see attached "Exhibit A"). This parcel encompasses approximately 700 acres.

We are proposing to provide wastewater service to approximately 100 residential lots at Serenity Point. The wastewater system will be designed and constructed to serve 100 lots (approximately 31,000 gallons per day) and can be expanded if needed. The TDEC application for a permit was submitted but as of this date has not been received. No contracts have been signed at this point. It is the intention of the parties that TWSI will own the collection, treatment, and dispersal system and will own a permanent easement on the property that the system occupies.

Also enclosed are letters from Winchester Utilities and the Franklin County Mayor stipulating that neither of these entities will provide sewer service for these parcels. We have also enclosed a letter from the developer, Sean Miller of the Milazo Group, requesting TWSI to be the public sewer utility provider for the project.

After approval, the construction of the system, which is comprised of watertight effluent collection, fixed film treatment, and subsurface drip dispersal, will take approximately 60 days to complete. The estimated value of the contribution in aid of construction is approximately \$650,000.00.

Respectfully Submitted,

Matt Pickney
Tennessee Wastewater Systems, Inc.
