Docket No. 08-00021

Response to TRA letter dated March 26, 2008

1. The revenue impact of the proposed Directory Assistance tariff, including calculations such as billing unit forecasts.

Response: An analysis of the number of customers contacting the Director Assistance Operator for the months of January, February, and March 2007, was performed. That analysis indicated a monthly average of 50,287 calls to the DA Operator were made. Taking into account the 2 call allowance, this was reduced to an average of 12,236 calls per month to the DA Operator. With the proposed rate of \$0.95 per call to the DA Operator after the 2-call allowance, this equates to an estimated revenue of \$139,490.

2. A copy of the public notices, including the date issued and the type of notification (e.g. newspaper or direct mail).

Response: A bill message was placed on customer invoices starting January 15, 2008 and running until March 15, 2008. The message included is restated below:

*****Important Message for Tennessee Customers*****

Beginning March 15, 2008, customers calling Directory Assistance will be allowed two free calls to the Directory Assistance Operator per billing period and then will be charged a rate of \$0.95 per call. A maximum of two telephone numbers may be requested with each call to the Directory Assistance Operator.

3. An explanation of why the proposed tariff does not include exemptions for individuals 65 and older which are present in similar Directory Assistance tariffs for companies such as BellSouth Telecommunications, Inc., d/b/a AT&T Tennessee and United Telephone Southeast, Inc.; d/b/a Embarq.

Response: Frontier included a substantial list whereby customers would be exempt from DA charges. It was felt by including the handicapped exemption for visual and/or physical impairment, the age exemption would not be a factor.
