Ms. Sharla Dillon , Docket Clerk Tennessee Regulatory Authority 460 James Robertson Parkway Nashville, TN 37243-0505

RE: Response to Staff Data Request No. 2, dated April 22, 2008, in the Application of Baldwin County Internet/DSSI Service, L.L.C. for Authority to Provide Competing Local and Interexchange Telecommunications Services, **Docket No. 08-00026**

On February 11, 2008, Baldwin County Internet/DSSI Service, L.L.C. (BCI) filed an Application for a Certificate of Convenience and Necessity to provide competing telecommunications services in the state of Tennessee. The Application was assigned Docket No. 08-00026. On April 22, 2008, the Utilities Division of the Tennessee Regulatory Authority (TRA) sent a second data request for further clarification and information to the Company. This responds to the TRA's request for information.

 Has Baldwin County Internet/DSSI Service, L.L.C. obtained a Surety Bond or Letter of Credit in the amount of \$20,000 pursuant to Tenn. Code Ann. § 65-4-125(j)? If so, please forward that instrument to the Tennessee Regulatory authority.

Response: A Surety Bond in the amount of \$20,000 has been obtained and was sent to Ms. Lisa Foust. A discussion with Ms. Foust on April 24, 2008, verified the receipt of the bond.

2) The biographies of the principal officers submitted in Exhibit E of the petition indicate that Mr. Jeffery L. Hathaway is the Chief Executive Officer of Baldwin County Internet/DSSI Service, L.L.C. All other officers listed appear to be officers of a company called Connexions Technology/Accelera. Please clarify this arrangement regarding the managerial qualifications of Baldwin County Internet/DSSI Service, L.L.C. Response: Prior to May 2007, Baldwin County Internet/DSSI Service, L.L.C. owned the assets it used to provide service in Florida and Alabama. It also utilized internal employees to provide service in these two states, along with some outsourced employee resources. In May 2007, the Company changed its strategic direction and sold most of its assets to Connexion Technologies, then leased back the assets to enable it to continue to provide the same services in Florida and Alabama. At that time, it determined that its future business in all other states, including Tennessee, would be to provide transport services to other service providers.

Connexion Technologies and Accelera Services, LLC are separate subsidiaries of Capitol Broadband, LLC. The nature of the relationship between BCI and Connexion Technologies is that of lessor/lessee for the infrastructure BCI leases from Connexion Technologies

Accelera Services, LLC, is a support services company, or service bureau, that ISP, VoIP, and video service providers can hire as their agent/contractor to handle the management and "back-office" functions such as accounts payable, customer billing, service order handling, repair service and vendor assistance services. BCI became Accelera's customer upon its strategic change in direction and Accelera now provides the management and "back-office" functions for BCI, including outsourced key executive functions. This is not unusual for start-up companies. There is no ownership relationship between BCI and Accelera other than the contractual services support described above.

3) Explain the discrepancy between the BCI contact number filed in the Application (251-224-0800) and the current use of the number.

Response. There is no discrepancy: the customer service representative responded incorrectly. Accelera Services, the company answering the 251-224-0800 number is the service bureau for both SmartResort and BCI. The individual answering the telephone was a new employee and was not aware of the current situation with BCI and its transition (which is in progress and not completed) to a larger office at 1240 Commerce Drive, Suite A, Gulf Shores, AL 36542 (about 15 miles from the previous location in Orange Beach). The employee is receiving additional training and the number remains a good number for BCI. The direct number for Jeff Hathaway remains 251-224-0845.

Baldwin County Internet/DSSI Service, L.L.C. Response to Data Request of April 22, 2008

As required by Rule 1220-1-1-.03(4), the Company is mailing the original and four (4) copies of this request by overnight mail, along with electronic delivery by email.

Any questions regarding this filing may be directed to my attention at 214-762-7576, email at mike.giles@att.net, or physical address, 6601 County Rd 166, McKinney, TX 75071-7309. Thank you for your assistance in this matter.

Sincerely,

Michael N. Giles Consultant for
