TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

21. At what level (e.g. functional category, plant account) does the Company maintain its book reserves? If the Company does not maintain book reserves by account, please provide, in Microsoft Excel or comparable format with all formulas intact, the calculations underlying the book reserve amounts in column (5) of the summary table of the Depreciation Study.

Response:

The Company maintains its book reserve at the plant account level.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

22. If not provided elsewhere, please provide all workpapers, studies, statistics or other documentation supporting terminal retirement dates and net salvage (decommissioning) estimates for each account for which the life span technique as used. Please include all calculations in electronic format (Excel), with all formulas intact.

Response:

There are no decommissioning estimates calculated in this depreciation study. There is only one account that utilizes the life span technique. Account 304.3, Structures and Improvements–Water Treatment, has a probable retirement date. The probable retirement date is based on comparable life spans of other water treatment plant studied by Mr. Spanos. Those life spans are attached and set forth in the spreadsheet enclosed on the CD labeled TN-CAPD-01-PART II-Q022-Life Span Comparison Attachment.xls.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller/John Watson

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

23. Please identify any unusual salvage receipts or removal costs during the last ten years. For each such unusual event, please explain its nature, the affected accounts, and its impact on the net salvage amounts shown in the Depreciation Study.

Response:

There have been no unusual salvage receipts or removal costs during the last ten years.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller/Sheila Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

24. For each distribution account, please explain how costs relating to plant replacements are allocated between cost of removal and new additions. At a minimum, please provide:
    a. An explanation of the allocation,
    b. All manuals, instructions or other directives relating to this allocation,
    c. Specific examples of this allocation.

Response:

Please see the document titled "AWW Accounting Policies, Removal and Replacement Costs". Due to the confidential nature of this information and the damage that could be caused to AWW and TAWC if its policies and procedures were available to its competitors, TAWC objects to providing this information, but will do so pursuant to an appropriate protective order.

a. See response above.
b. See response above.
c. The Company objects to this subpart portion of the question on the grounds that the question is vague, not readily available in the format requested, the information for each account does not exist, and is unduly burdensome given that the Company's property records are in fact **massive** and to reproduce them would be extremely costly and time-consuming. Responsive data regarding specific asset retirement data, or utility plant data in general will be made available at the Company's office

at a mutually agreeable time. Counsel for the CAPD should coordinate any on-site visits through the Company's counsel of record in this case, John Watson and Michael Miller.

Question:

27.

Response:

No question provided.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller/Sheila Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

28. For the year ending November 30, 2007, please identify the amount and proportion of each account's depreciation that was capitalized as overhead to construction and the proportion and amount that was treated as an annual expense.

Response:

The Company objects to this question on the grounds that it is vague and ambiguous. Notwithstanding the objection, the Company did not charge any depreciation to clearing accounts or engineering overhead accounts during the year ended November 30, 2007.

Although what is meant in the question about charging depreciation to construction is unclear, the Company presumes this refers to new utility plant. Based upon this understanding, the Company states that it does not begin to record depreciation on a plant addition until it is placed in service (project is completed) as prescribed by NARUC and normal regulated utility accounting procedures. Accordingly, no depreciation would be capitalized to the utility plant addition during construction.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

29. Provide the following information for all final retirements during the last 15 years of any major items included in the life span accounts. If the requested data are not available for the last 15 years, provide the data for as many years as are available.
    a. Description of the retirement
    b Date of retirement
    c. Dollar value of the retirement
    d. Accounts affected
    e. Reason for retirement
    f. Whether or not retirement was excluded from historical interim retirement rate studies.

Response:

The only account that utilizes the life span technique is Account 304.3, Structures and Improvements – Water Treatment. This account has not experienced any final retirements over the last 15 years.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

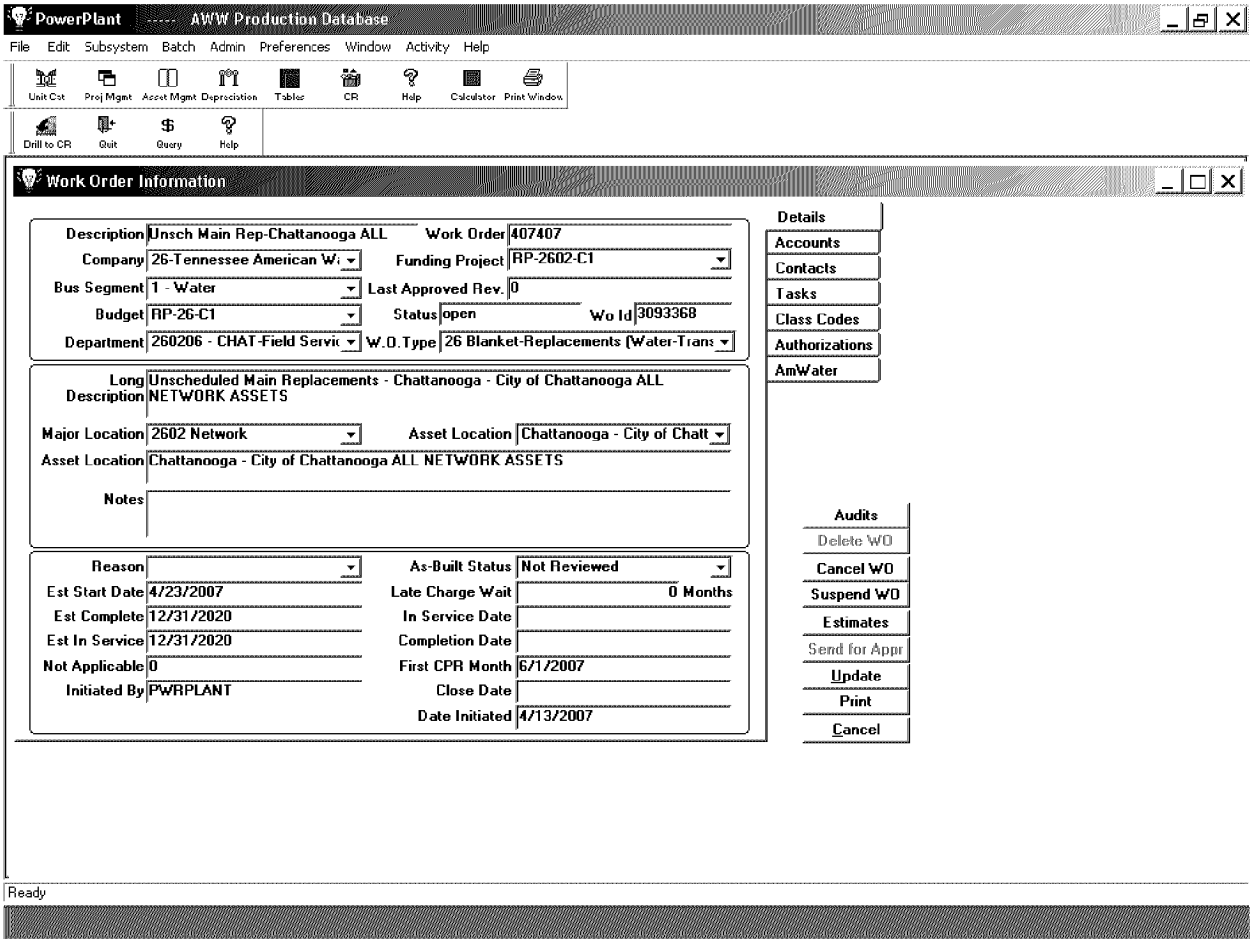
30. Please provide a sample work order showing the retirement of
    a. a section of main,
    b. a customer service line,
    c. a water meter.

Response:

Please see the attached copies of sample work orders.

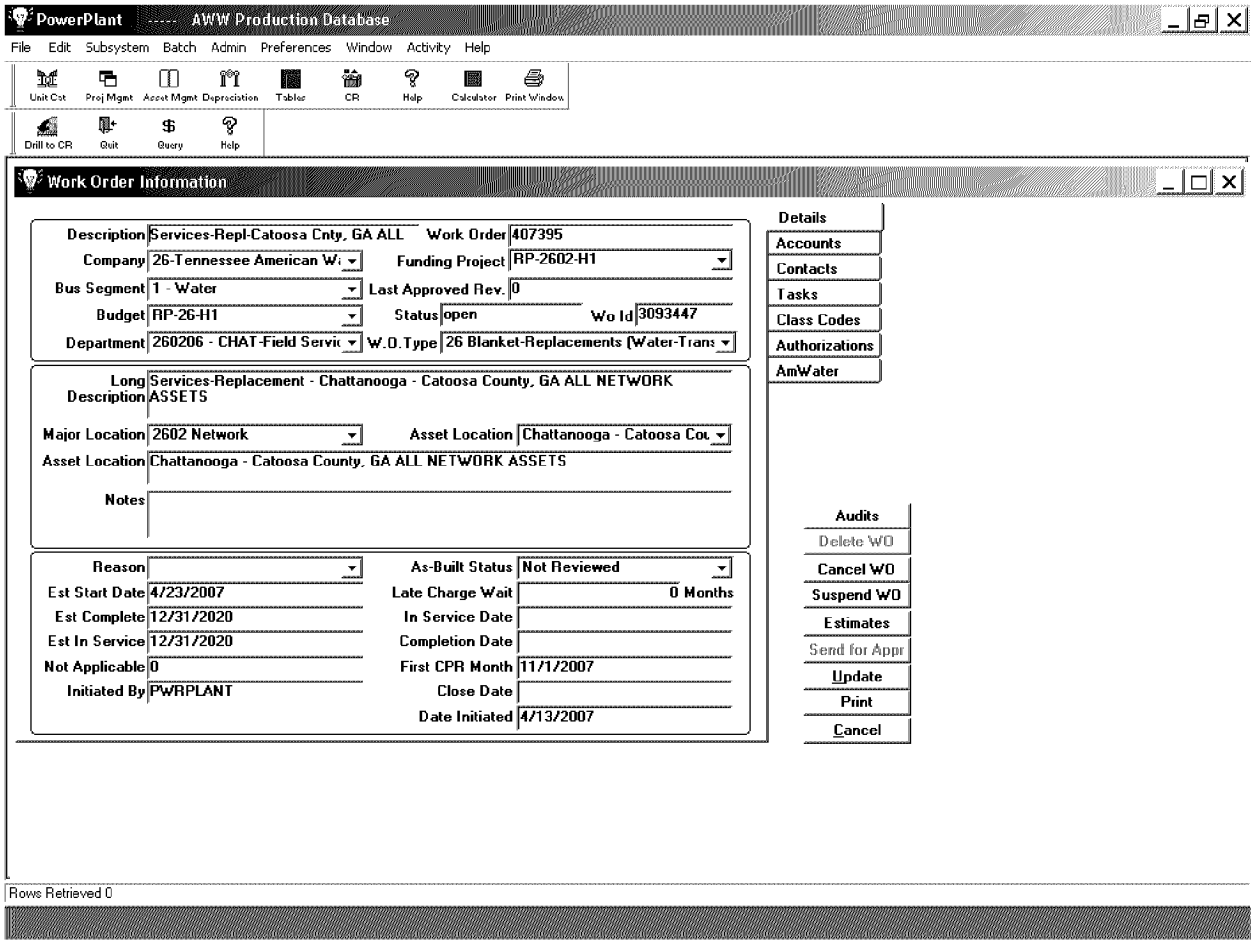
a. Retire 300' of 8" CI Main

Debit Reserve A/C 108	$300.00	
Credit Plant A/C 331		$300.00



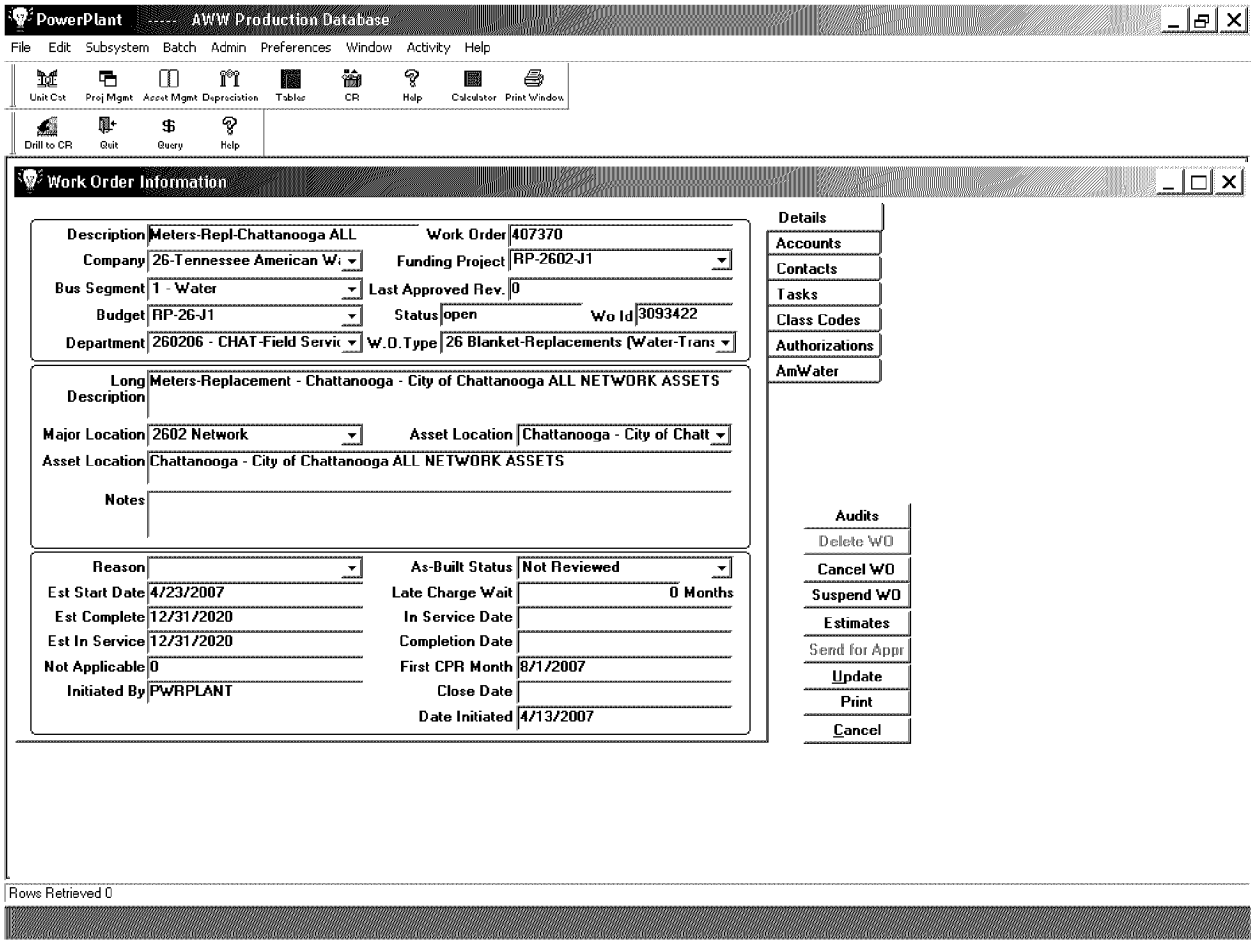
b. Retire 1- 1" Copper Water Service at 2 Main St.

Debit Reserve A/C 108	$200.00	
Credit Plant A/C 333		$200.00



c. Retire 1- 3/4" Bronze Meter Service at 2 Main St.

Debit Reserve A/C 108	$100.00	
Credit Plant A/C 334		$100.00



a. Main Retirement Work Order:

b. Customer Service Line Retirement Work Order:

c. Customer Service Line Retirement Work Order:

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller/John Watson

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

31. Describe any plant replacement programs that the company has undertaken or plans to undertake. Describe how, if at all, such programs have affected the service lives and depreciation rates recommended by Mr. Spanos.

Response:

This question appears to be a duplicate of Part II, Question 9, although with slightly different wording (plant replacement programs vs. capital projects, etc.), that the Company treats as interchangeable. Accordingly, please see the Company's response to Part II, Question 9.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

32. Please provide a narrative description of each of the major facilities in the life span accounts.

Response:

There is only one major facility in the life span account, 304.30, Structures and Improvements – Water Treatment. The facility has multiple structures at the location for various water treatment equipment. The assets range from original installation in 1912 to assets installed in 2007. A breakdown of the surviving dollars is set forth on pages III-146 and III-147 of the depreciation study. Most structures are brick.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

33. Please identify, describe and quantify any major planned investments in the Company's gas production or storage facilities. State whether, and if so, how such investments have influenced the service lives and depreciation rates recommended by Mr. Clarke.

Response:

This question does not appear to apply to TAWC. TAWC has no gas production or storage facilities.

CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

34. Please identify, describe and quantify all Asset Retirement Obligations ("ARO's") that the Company recognizes pursuant to Statement of Financial Accounting Standards No. 143 (SFAS No. 143). Provide all workpapers and calculations used in the calculation of these amounts. Provide this information in Microsoft Excel or comparable format with all formulas intact.

Response:

Please see the attached information which is also provided on the enclosed CD under the file name TN-CAPD-01-Part II-Q034 attachment.xls.

Net Negative Salvage in Depreciation Expense

	Date of Depreciation Study	2004	2003	2002	2001	2000	1999	1998
Tennessee	1991							
Total depreciation exp per 168 line 27		3,633,730	3,791,404	3,616,895	3,514,535	3,412,318	3,042,403	
% attributable to negative salvage		9.82%	8.76%	9.03%	8.09%	7.84%	5.37%	
Net negative salvage in depreciation		356,712	332,274	326,695	284,338	267,472	163,327	
Net removal costs (SD2 2004-1999)		221,186	96,473	78,291	60,548	106,951	54,597	
Accumulated Depreciation (SD2 2004-1999)		48,706,851	45,426,870	42,017,419	39,088,904	35,963,616	32,800,170	30,963,139
Year over Year increase in Accumulated Depreciatio		3,279,981	3,409,451	2,928,515	3,125,288	3,163,446	1,837,031	
Negative salvage in depr less net removal		135,526	235,801	248,404	223,790	160,521	108,730	
Negative salvage in AD		4.1%	6.9%	8.5%	7.2%	5.1%	5.9%	
6 year average		6.3%		48,706,851	Accumulated Depreciation @ 12/31/04			
Negative salvage in AD		1,842,781		19,366,242	Accumulated Depreciation @ 12/31/91			
Negative salvage in AD Prior Year		1,707,255		29,340,609	Increase in Accumulated Depreciation since beginning of NNS			

Note 2 Property Plant and Equipment

When a unit of property is retired, the recorded value of such unit is credited to the asset account and that value, including the cost of removal, is charged to accumulated depreciation. The Company recovers retirement costs through the depreciation component of customer rates during the life of the associated asset. In accordance with SFAS 143, "Accounting for Asset Retirement Obligations", $1,843 and $1,707 have been reclassified as of December 31, 2004 and 2003, and is reported as a regulatory liability. Prior to the adoption of SFAS 143, these amounts were embedded within accumulated depreciation. Additionally, removal cost (net of salvage) of $357 and $332 have been recorded as operation and maintenance expense for the years ended December 31, 2004 and 2003 to remove retirement costs from depreciation expense, where they were previously reported.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

35. State whether TAWC or its parent, American Water Company, recognizes regulatory liabilities for removal cost obligations. If it does recognize them, please provide:
    a. The Tennessee amounts as of the beginning and end of the year ending November 30, 2007 and/or the beginning and end of calendar year 2007.
    b. The amount of liabilities that are legal obligations and non-legal obligations.
    c. The plant account breakdown of these obligations.
    d. All studies, workpapers, calculations and other documentation associated with the quantification of these liabilities.

Response:

It is a requirement under U.S. GAAP (as prescribed by SFAS 143) that the Company reclassify the net negative salvage applicable to future retirement of plant assets recognized in the depreciation rates of the Company approved by the TRA to an operation expense in the presentation of its audited financial statements. In addition, the Company reclassifies the accumulated impact of the net negative salvage embedded in the Company's approved annual depreciation rates from accumulated depreciation recognized as a rate base reduction for rate making purposes to a regulatory liability for financial statement presentation.

a. The TAWC financial statement presentation reclassification of NNS included in depreciation expense approved for rate recovery and reflected in accumulated depreciation for rate recovery by the TRA was $1,908,212 at the beginning of calendar year 2007 and $2,214,463 as of November 2007. Please refer to the Company's response to Part II Question 34 for additional information.

Please note that the numbers above reclassified for financial presentation only per SFAS 143 were properly shown in the Company's historical test-year numbers as accumulated depreciation in accordance with the depreciation rates approved for TAWC by the TRA.

b. The definition of a legal obligation is contained in paragraph 2, page 1 of SFAS 143 which states that "a legal obligation is an obligation that a party is required to settle as a result of an existing or enacted law, statute, ordinance, or written or oral contract or by legal construction of a contract under the doctrine of promissory estoppel." The Company does not believe it has plant retirement obligations required as set forth in SFAS 143.

The Company believes that the cost of removal to be incurred when its assets are retired in the normal course of business meets the scope of SFAS 143 and therefore it is required to comply with the provisions of SFAS 143. The Company has an obligation to retire plant and property under NARUC accounting when it is no longer used and useful, and to record the costs of removing those assets (net negative salvage) as cost of removal. Most regulatory commissions (including the TRA) have recognized the future net negative salvage costs as a component of depreciation rates to be recovered over the remaining service lives of the various utility plant accounts based on reasonable estimates of what those future net negative salvage costs will be. In fact, the current depreciation

rates of the Company were determined in this manner, as are the revised depreciation rates proposed by the Company and Mr. Spanos in this case.

It is the practice of most regulatory commissions (including the TRA) to provide for the future cost of removal associated with the retirement of those assets by allowing recovery in rates the estimated NNS over the life of the assets. The reason this is the proper regulatory method is because it matches the return of those assets (including the cost to retire those assets) with the customer base utilizing those assets over its service life. If a reasonable estimate of the future cost of removal is not recovered over the life of the asset, then the removal costs of those assets will be borne by a group of customers who did not benefit from the use of those assets. This is contrary to the matching principle and in the Company's opinion would be poor regulatory policy.

c. Please see the response to Part II, Question 34.

d. Please see the response to Part II, Question 34.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

36. On an account-by-account basis, which accounting method is reflected in the life studies; "location-life" or "cradle-to-grave"?

Response:

The Company objects to this question on the grounds that it is duplicative of Part II, Question No. 13. Please see the Company's response to that question.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller/Sheila Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

37. Please provide explanatory examples of the debits and credits relating to:
    a. Customer advances and contributions-in-aid of construction,
    b. Third party reimbursements for moving or replacing plant,
    c. Insurance reimbursements for damage or destruction of Company plant.

Response:

a. These examples would normally apply to new plant.

Credits to customer advances would normally relate to collection of funds.

Credits to CIAC's would normally relate to collection of funds, transfers of expired customer advances, or recording the value of property constructed by others and contributed to the Company.

Debits to customer advances would normally relate to refunds of customer advances as prescribed by TRA rules.

Debits to CIAC's would relate to amortizations.

There could be miscellaneous debits and credits to both accounts to reflect adjustments to actual cost.

b. These examples would apply to replacement of plant and removal or dismantlement of old plant.

If a party reimbursed the Company for moving or replacing plant it would normally result in a credit to CIAC's.

If a party reimbursed the Company for a portion of this work related to the retirement of an existing asset it would normally be credited to the retirement work order (Retirement work in-progress) to offset the cost of removal.

c. Insurance reimbursements would be handled the same as the answer provided in part b. above.

CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller/Sheila Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

38. To the extent possible, please separate the contribution and reimbursements identified in response to the previous request by:
    a. Payments for new plant (not replacement),
    b. Payments for replacement plant, and
    c. Payments for the removal or dismantlement of old plant.

Response:

Please see the response to the previous question, Part II-Question 37.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039

CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller/Sheila Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

39. Please provide explanatory examples of the debits and credits relating to the accounts for which depreciation is charged to clearing accounts.

Response:

Not applicable to TAWC.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

40. Please identify and explain all changes since the last depreciation study that might affect depreciation rates.

Response:

The Company objects to this question on the grounds that it is over broad and unduly burdensome. Notwithstanding its objections, the Company states that depreciation rates are affected by survivor curves, net salvage percents, plant activity, depreciation procedures, reserve to plant ratio and the attained age of the surviving balance of each account. Every account has a change in at least one of these components and some accounts have multiple changes that affect the rates.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: J Spanos/Michael Miller/Sheila Miller

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

41. Please provide a copy of the Company's 2006 and 2007 annual reports to the Tennessee Regulatory Authority. Please reconcile the differences between the plant balances in the 2007 report with those in the depreciation study.

Response:

See the attached reconciliation. The Company found a discrepancy in the beginning reserve balance of Account 330.00 of $113,013 in the depreciation study. This has been corrected and a revised depreciation study recap schedule is attached. The Company's 2006 and 2007 annual reports to the Tennessee Regulatory Authority are included on the enclosed CD and are labeled as follows: TN-CAPD-01-Part II-Q041 attachment 1.pdf and TN-CAPD-01-Part II-Q041 attachment 2.pdf.

STATEMENT OF CHANGES IN FINANCIAL POSITION

1. It is intended that this statement be flexible enough in nature so that latitude can be given under the classification of "Other" to allow for disclosure of all significant changes and transactions, whether they are within or without the current asset and liability groups.
2. Under "Other" specify significant amounts and group others.
3. Codes: (a) Such as net increase/decrease in working capital, etc., other than changes in short term investments shown as item 3(c).
(b) Include commercial paper.
(c) Identify separately such items as investments, fixed assets, intangibles, etc.

RESEARCH AND DEVELOPMENT EXPENDITURES (Acct. 187)

Explain below and show the cost incurred during the year for technological research and development projects including amounts paid to others during the year for jointly-sponsored projects and other payments made as a result of the company's membership in trade or technical associations and subscriptions or assessments for such projects. Items under $2,000 incurred for similar projects may be grouped.

For any R & D work carried on by the company in which there is a sharing of costs with others, show separately the company's cost for the year and cost chargeable to others.

IMPORTANT CHANGES DURING THE YEAR

Hereunder give particulars concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry must be answered. However, if the word "none" states the fact it may be used in answering any inquiry, or if information is given elsewhere in the report which answers any inquiry, reference to such other schedule will be sufficient.

1. Acquisition of other companies, reorganization, merger, or consolidation with other companies: give names of companies involved, particulars concerning the transactions, and reference to Commission authorization.

Petition of Tennessee American Water for Approval of Change of Control, docket #06-00119
Acquisition of Suck Creek Utility District (Marion County, Tennessee) 12/13/06; Order Approving Acquisition 10/31/05; docket #03-00388

2. Purchase or sale of operating units or systems such as generating plants, transmission lines, etc., specifying items, parties, dates, and also reference to Commission authorization.

3. Important leaseholds acquired, given, assigned or surrendered, giving effective dates, lengths of terms, names of parties, rents, Commission authorization, if any, and other conditions.

4. Important extensions of system, giving location, new territory covered by distribution system, and dates of beginning operations.

5. Estimated increase or decrease in annual revenues due to important rate changes, giving basis of estimates.

6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, excluding ordinary commercial paper maturing on demand or not later than one year after date of issue, and giving Commission authorization, if any.

7. Changes in articles of incorporation or amendments to charter.

8. List formal proceedings initiated by your company with this Commission that were completed during the year or are pending at the end of the year. Indicate the docket number and the nature of the proceedings. DO NOT INCLUDE CONSTRUCTION AUTHORITY DOCKETS.

9. Additional matters of fact (not elsewhere provided for) which the respondent may desire to include in its report.

Extension of Water Purchase Agreeement with Signal Mountain, TN, docket 06-00154; approved 8/25/06
Tennessee American Water Customer Service Survey in docket 04-00288
Petition of Tennessee American Water for Approval of and Authority to Borrow Up to $44,900,000, docket #06-00305
Petition of Tennessee American Water Company to Change and Increase Certain Rates and Charges so as to Permit it to Earn a Fair and Adequate Rate of Return on its Property Used and Useful in Furnishing Water Service to its Customers, docket 06-00290

STATEMENT OF CHANGES IN FINANCIAL POSITION

1 It is intended that this statement be flexible enough in nature so that latitude can be given under the classification of "Other" to allow for disclosure of all significant changes and transactions, whether they are within or without the current asset and liability groups

2 Under "Other" specify significant amounts and group others

3. Codes: (a) Such as net increase/decrease in working capital, etc., other than changes in short term investments shown as Item 3(c)
(b) Include commercial paper
(c) Identify separately such items as investments, fixed assets, intangibles, etc.

Report details of items included in accts 433 and 434 showing the data for each account separately

IMPORTANT CHANGES DURING THE YEAR

Hereunder give particulars concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry must be answered. However, if the word "none" states the fact it may be used in answering any inquiry, or if information is given elsewhere in the report which answers any inquiry, reference to such other schedule will be sufficient.

1. Acquisition of other companies, reorganization, merger, or consolidation with other companies: give names of companies involved, particulars concerning the transactions, and reference to Commission authorization.

2. Purchase or sale of operating units or systems such as generating plants, transmission lines, etc., specifying items, parties, dates, and also reference to Commission authorization.

3. Important leaseholds acquired, given, assigned or surrendered, giving effective dates, lengths of terms, names of parties, rents, Commission authorization, if any, and other conditions

4. Important extensions of system, giving location, new territory covered by distribution system, and dates of beginning operations

5. Estimated increase or decrease in annual revenues due to important rate changes, giving basis of estimates

Petition of Tennessee American Water Company to Change and Increase Certain Rates and Charges so as to Permit it to Earn a Fair and Adequate Rate of Return on its Property Used and Useful in Furnishing Water Service to its Customers, docket 06-00290; estimated annual increase in revenues $4,079,664; rate increase effective 5/22/07

6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, excluding ordinary commercial paper maturing on demand or not later than one year after date of issue, and giving Commission authorization, if any.

7. Changes in articles of incorporation or amendments to charter.

8. List formal proceedings initiated by your company with this Commission that were completed during the year or are pending at the end of the year. Indicate the docket number and the nature of the proceedings. DO NOT INCLUDE CONSTRUCTION AUTHORITY DOCKETS

Order Approving Transfer of Authority; docket 06-00119 entered 1/30/07

Petition of Tennessee American Water Company to Change and Increase Certain Rates and Charges so as to Permit it to Earn a Fair and Adequate Rate of Return on its Property Used and Useful in Furnishing Water Service to its Customers, docket 06-00290

9. Additional matters of fact (not elsewhere provided for) which the respondent may desire to include in its report

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

42. Please explain what consideration, if any, Gannett Fleming gave to any changes in annual maintenance expenses in estimating service lives, dispersion patterns and net salvage.

Response:

Mr. Spanos obtains a general understanding of the annual maintenance expended, whether the expenses are standard from year to year, and consistent with other water companies. Thus, consideration is given to maintenance when estimating service lives, dispersion patterns and net salvage.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

43. Please provide on diskette or CD all tabulations included in the Depreciation Study and all data necessary to recreate in their entirety, all analyses and calculations performed for the preparation of the Depreciation Study. Please provide this and all electronic data in Excel (or .txt format if appropriate), with all formulae intact. Please provide any record layouts necessary to interpret the data.

Response:

The enclosed CD contains all data files, text files and tabulations necessary to recreate, in their entirety, the preparation of the Depreciation Study. The Excel spreadsheet has all formulae intact. The enclosed CD has the following files:

TN-CAPD-01-PART II-Q043 Record Layout Attachment 1.pdf
TN-CAPD-01-PART II-Q043 TAWC Rates-2007 Attachment 2.xls
TN-CAPD-01-PART II-Q043 Depreciation Attachment 3.TXT
TN-CAPD-01-PART II-Q043 Life Analysis Attachment 4.TXT
TN-CAPD-01-PART II-Q043 Salvage Attachment 5 .TXT
TN-CAPD-01-PART II-Q043 TAWC07SL Attachment 6.TXT

RECORD LAYOUT FOR PLANT ACCOUNTING DATA

Account ID			Tran. Code	Trans-action Year	Instal-lation Year	Transaction Amount or Plant Balance	Adjusted Trans-action Year	Classification Data
Account Number	Gp. No.	Co. No.						
1 2 3 4 5	6 7	8 9	10	11 12 13 14	15 16 17 18	19 20 21 22 23 24 25 26 27 28	29 30 31 32	33 34 35 36 37 38 39 40

Columns	Description
	Account Identification.
1-5	Account Number. The primary account number recorded in the Continuing Property Record.
6-7	Group Number. Numeric codes for subdividing the primary account into life span, or other, groups such as major buildings, power plants, reservoirs, etc.
8-9	Company Number. Numeric code assigned by the user for identification of specific Company data files. Columns 8-9 may also be used for expanding the Group Number field to Columns 6-9.
10	Transaction Code. Numeric code which identifies the type of transaction or plant balance. The valid transaction codes are as follows (refer to "Transaction Code Descriptions" for more detailed explanations): 0 - Regular Retirement 1 - Reimbursed Retirement 2 - Sale 3 - Transfer 4 - Beginning-of-Interval Transfer 5 - Acquisition 6 - Adjustment 7 - Outlier Retirement 8 - Ending Balance 9 - Beginning Balance or Gross Addition
11-14	Transaction Year. Year the accounting transaction was recorded to the plant account.
15-18	Installation Year. Year the property item was first placed in public service, not necessarily the year it was placed in its present location (not required for "Simulated" data, except for the optional beginning aged balance).
19-28	Transaction Amount or Plant Balance. Transaction amount recorded to the plant account, or the surviving plant balance at a specific date. If the amount is a credit entry to the plant account, a minus sign over the unit's position (Column 28) is required (refer to "Recommended Sign Convention" for further explanation).
29-32	Adjusted Transaction Year. Only used for entries correcting a previous entry. The year entered is the transaction year of the original entry being corrected.
33-40	Classification Data. Optional descriptive and/or numeric data used for further record identification purposes.

RECOMMENDED SIGN CONVENTION

1. Plant accounting entry amounts (columns 19-28) are coded according to whether they are debits or credits to the plant account. Credit entries are identified by a minus sign over the units position (column 28). The software will accept sign characters in the units position in either ASCII OR EBCDIC form. However, when editing data files, for ease of keyboard entry of credit amounts it is recommended that the EBCDIC form be used as follows:

Unsigned Digit (Debit) in Units Position of Amount Field	Equivalent EBCDIC Keyboard Character for Credit Amount
0	}
1	J
2	K
3	L
4	M
5	N
6	O
7	P
8	Q
9	R

Cost of removal and salvage entries (columns 41-50, 51-60 and 61-70) are coded according to whether they are debits or credits to the depreciation reserve account. Cost of removal normally is a debit to the reserve and salvage normally is a credit. Credit entries are identified by a minus sign over the units position in the same manner as explained above for the plant account entries.

2. An alternative to item 1 above is to enter the amount fields in "free form". Under the "free form" option, leading (or trailing) minus signs and decimal points are valid characters; plus signs and commas are also valid but they serve no purpose and are merely stripped from the input during the internal conversion process. The only "free form" restriction is that each amount field entry must be right-justified on the units position. Therefore, column 28 for transaction amounts are columns 50, 60 and 70 for cost of removal and salvage amounts must not be blank.

   In addition to providing compatibility with the sign conventions of other software products, the "free form" option provides flexibility for entering rounded dollar amounts greater than 99,999,999.00, the previous maximum. For example, an entry of "999999999.", in columns 19-28 is interpreted as 999,999,999.00, the largest possible debit amount. The largest possible whole dollar credit amount which can be entered in "free form" is "-999999999.", or 99,999,999.00 CR. Note that when both dollars and cents are required for control purposes, the entry of a decimal point is not necessary although its omission is optional. That is, during the internal conversion process, the entry of dollars and cents is always assumed unless a decimal point is present.

TRANSACTION CODE DESCRIPTIONS

Code	Description
0	Regular Retirement. All retirements from plant which occur in the course of normal operations for causes that are to be covered by depreciation accruals. Typically, these include all causes other than those listed below.
1	Reimbursed Retirement. Retirement for which the Company received payment approximating or exceeding the depreciated original cost of the property, and such payment was recorded as a credit to the depreciation reserve account. Reimbursed retirements are usually related to extraordinary circumstances such as fire or other accidents for which the loss is covered by insurance, and to property moved or abandoned due to the requirements or requests of outside parties, for which the Company is reimbursed.
2	Sale. Transfer of ownership of property for which the Company received payment approximating or exceeding the depreciated original cost, and the property would not have been retired at or near that time if the sale had not occurred. Sales are generally related to circumstances in which the property has not actually been retired, but continues in public service following the transaction. Sales in lieu of abandonment are classified as regular retirements.
3	Transfer. Transfer of property between accounts or property groups. Use for both transfers-in and transfers-out, and for intraaccount transfers.
4	Beginning-of-Interval Transfer. Transfer of property between accounts or property groups that is to be considered as occurring at the beginning rather than the end of the age interval. Includes major transfers of property into the account or property group, such as to initiate an account or to substantially increase the size of an existing account.
5	Acquisition. Purchase, trade, or similar transaction where property previously in public service was acquired.
6	Adjustment. Used for control purposes in Plant Accounting data, and for adjustments, special appropriations, or transfers to or from the Depreciation Reserve account in Cost of Removal and Salvage data.
7	Outlier Retirement. A retirement that occurs under unusual circumstances such that the analyst deems it appropriate that it be excluded from the retirements used in the service life or salvage study.
8	Ending Balance. The balance of plant in service as of December 31 of the most recent year included in the Experience Band, or as of a specific calculation date.
9	Beginning Balance. The balance of plant in service as of December 31 of the year preceding the first year included in the Experience Band.
9	Gross Addition. Placements of plant in service as replacements of plant retired or as additions to plant in service.

Note: Corrections should be assigned the same code as the transaction being corrected.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

44. For each plant account, and for each year since the inception of the account up to and including 2007, please provide the following standard depreciation study data as identified at pages 30-33 of the August 1996 NARUC Public Utility Depreciation Practices Manual ("NARUC Manual"). Please provide the data in electronic format (Excel or .txt). Provide aged vintage data if available. Use the codes identified for each type of data, unless the Company regularly uses other codes. In those circumstances, identify and explain the Company's coding system.

Code	Data Type
9	Addition
0	Ordinary Retirement
1	Reimbursement
2	Sale
3	Transfer - In
4	Transfer - Out
5	Acquisition
6	Adjustment
7	Final retirement of life span property (see NARUC Manual, Chapter X)
8	Balance at Study Date
	Initial Balance of Installation

If the depreciation study data provided are not the exact set of data used for the Depreciation Study submitted in this case, please explain all differences and reconcile the amounts provided to those used in the Depreciation Study.

Response:

The requested data is on the CD produced by the Company in response to Part II, Question No. 43. The record layout is the same.

DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

45. If not provided elsewhere, please provide all amortization workpapers and calculations (general plant) in electronic format (Excel) with all formulae intact.

Response:

The detailed depreciation calculations for general plant are set forth on pages III-182 through III-186 and III-191 through III-198 of the Depreciation Study.

The data and calculations are also included on the CD produced by the Company in response to Part II, Question No. 43.

FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

46. If not provided elsewhere, please provide the cost of removal and gross salvage data used in the Depreciation Study net salvage analyses. If this data differs from that reflected on the Company's books, please explain the differences and provide a reconciliation. Please provide this data in electronic (Excel or .txt) format.

Response:

The cost of removal and gross salvage data used in the Depreciation Study is supplied in the Company's response to Part II, Question No. 43. This data represents the available data from the Company.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: Michael Miller

PART II: QUESTIONS & REQUESTS REGARDING DEPRECIATION & WEATHER NORMALIZATION

Question: Depreciation

47. Please provide the depreciation rates applicable to the Service company plant. Provide all studies, analyses, workpapers, data and other documentation that support these depreciation rates.

Response:

The Service Company depreciation rates were not developed in the same manner as those rates for the regulated utilities of AWW such as TAWC. Management has established the current depreciation rates for AWWSC in line with service lives of equipment based upon experience and general industry standards. These depreciation rates were developed many years ago and have remained static. There is no depreciation study like that which would be performed by the regulated subsidiaries for filing before a regulatory commission as part of a rate proceeding to establish depreciation rates. Due to the long-term static nature of these depreciation rates, there are no available materials to provide with this response.

The depreciation rates on Service Company Plant are listed below:

Non-Utility Property

Structures and Improvements- 50 years

Computers and Peripherals- 5 years

Furniture and Other Office Equipment- 10 years

Computer Software- 3 years

Computer Hardware- 5 years

TENNESSEE AMERICAN WATER COMPANY

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

48. If not provided elsewhere, please provide the calculation of the proposed depreciation rates in electronic format (Excel) with all formulae intact.

Response:

The Excel spreadsheet attached to the Company's response to Part II, Question No. 6 sets forth the proposed depreciation rates.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

49. Please provide the proposed depreciation rates split into three separate components: capital recovery, gross salvage and cost of removal.

Response:

The attached document sets forth the proposed depreciation rates split into three components.

TENNESSEE AMERICAN WATER COMPANY

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 08-00039
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: John J. Spanos

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

50. If not provided elsewhere, provide electronic (Excel) versions of the net salvage studies included in the Depreciation Study, with all formulae intact.

Response:

The Company objects to this question as unduly burdensome to the extent that it seeks information in a format that does not exist. The net salvage analyses performed by Gannett Fleming in the Depreciation Study are not available in Excel format. These tables were created by the Gannett Fleming in-house programs. The text files are included on the enclosed CD in response to Part II, Question No. 7.

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

51. If not provided elsewhere, please provide on diskette or CD all workpapers supporting terminal net salvage (decommissioning) estimates for each account for which terminal net salvage is a factor. Please include all calculations in electronic format (Excel), with all formulae intact.

Response:

There is no terminal net salvage estimate for any account in the Depreciation Study. All net salvage estimates are interim net salvage percents.

FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: N/A

PART II: DEPRECIATION & WEATHER NORMALIZATION

Question:

52. Please identify any unusual salvage receipts or removal costs during the last ten years. For each such unusual event, please explain its nature, the affected accounts, and its impact on the net salvage amounts shown in the Depreciation Study.

Response:

Please see the response to TN-CAPD-01-PART II-Q023. This is a duplicate of that question.
