Subject: water hike

Hello Mr. Roberson,

Please, please do NOT allow them a rate increase. My water bill runs around 75.00 a month as it is. I am single, work for a ministry, and am suffering greatly financially. Please stop them. I really try to curb my expenses; I have cut everything that I can. I have a small garden to help w/grocery costs, please do NOT allow them to cripple us. TAW is getting as bad as the oil companies, and remember, that a new company (VW) is coming to our area. We do NOT want to discourage them w/this kind of unreasonable rate hike.

Thank you for considering my input, and I hope you act in my favor....please

Karen Davis
