Dear Ms. Cooper:

This letter is in response to your July 3, 2008 letter, which we did not receive until Monday, July 7, 2008. The number of activated PEG channels for the City of Columbia is one.

Currently, there are no PEG support payments being provided by CPWS cable system.

The other cable provider in Columbia is Charter Communications, Inc. I've made calls to Charter Communications over the last three days for the information you wanted and they finally called this A.M. They have no activated PEG channels and no support payments.

Sincerest Regards,

A handwritten signature in black ink, appearing to be "W. E. Gentner", is written over the typed name.

William E. Gentner  
Mayor

RE: McMinn County PEG Access Channels

Dear Ms. Cooper:

Please note that McMinn County holds a franchise agreement with Comcast Cable Communications, Inc. which provides for a PEG channel. That channel is currently active as channel 95. McMinn County, City of Athens and the City of Etowah have a joint management agreement for operating the channel. Per the provisions of the Competitive Cable and Video Services Act, McMinn County desires to have a PEG channel on any future franchises for cable and video services granted by the State of Tennessee to provide said services in the unincorporated areas of McMinn County.

McMinn County does not receive fees for PEG support, but has received technical and hardware assistance for the operation of the channel through our multi-jurisdictional agreement. If you need any additional information please feel to contact me (423) 745-7634.

Sincerely,

  
John M. Gentry  
McMinn County Mayor
