Question No. 1 Pursuant to Authority Rule 1220-4-8-.04(3)(b)(5), provide a cite in NewPhone's tariff describing NewPhone's Lifeline and Link Up offering. In the absence of such cite, NewPhone must submit its Lifeline/Link Up tariff for Authority approval prior to continued review of its application.

ANSWER: A copy of NewPhone's revised tariff is attached hereto.

Question No. 2 Identify, by rate center, where in Tennessee NewPhone is currently providing local residential and business telecommunications services. In which of these rate centers is NewPhone serving consumers through the leasing of unbundled network elements?

ANSWER: NewPhone residential service is available throughout the AT&T service territory, and is being provided in numerous rate centers.

Question No. 3 Provide copies of, or instruction on where to locate NewPhone's current advertising of its services to Tennessee consumers. Further describe where the advertisements are being distributed and by what means.

ANSWER: Enclosed on cd please find a copy of our current television ad in Tennessee. The ad is run in Memphis Monday through Friday from 8 to 5 each day usually every other week. We average about \$12,000 a month in advertising in Tennessee.

Question No. 4 Does the company offer services to customers other than Lifeline customers? If so, provide the connection charge and the basic service monthly recurring charges for these customers.

ANSWER: All NewPhone customers pay the same fees and charges

Question No. 5 Describe NewPhone's advertising plan discussed in the application.

ANSWER: Continue running the same type ad targeting our low price for eligible lifeline customers.

Question No. 6 Describe NewPhone's use of "unbundled network equivalents" obtained through agreements with the ILEC.

ANSWER: Prior to the TRO/TRRO, CLECs, obtained and used switched port/loop combination UNEs, which the company obtained from AT&T/Bellsouth through standard Interconnection Agreements.

As the Authority is aware, the TRO/TRRO removed the Incumbent LECs obligation to continue to provide these UNEs. However, following the recommendation of the FCC, LECs, such as AT&T/Bellsouth, continued to make these same UNEs available through Commercially Negotiated Agreements.

While continuing to meet the definition of "facilities" and "own facilities", these elements are available through agreements other than standard 251 and 252 agreements prompting some commissions to refer to them as "unbundled network equivalents".

S. Allowances for Interruption in Service

A credit allowance will be given on a per-line basis for any period during which any line subscribed to by customer hereunder is out of service, except as specified below. A credit allowance is applied on a pro rata basis against the rates hereunder and is dependent upon the length of the interruption. Only those services on the interrupted portion of the circuit will receive a credit.

Two or more service interruptions of the same type to the same line of two (2) hours or more during any one twenty-four period shall be considered as one (1) interruption.
