RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Norris:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Norwood:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Halford:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Craig:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Smith:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

Dear Mayor Travis:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Lorance:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear City Manager Deem:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Meeks:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

OFFICIAL REQUEST for Information

Dear Mayor Keymon:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Dunning:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Qualls:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Jones:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Roe:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Superstein:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

Dear Mayor Williams:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

McMinnville, TN 37111

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Davenport:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

Dear Mayor Barile:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Lawson:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**

Dear Mayor Ball:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Barker:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Speer:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**

Dear Mayor Pedigo:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Crain:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Heron:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

franchise authority shall not be held in violation or noncompliance with the requirements of § 10 of the CCVSA, as to any such municipality or county, until the TRA has received the information requested and the holder has been given adequate time to comply with such PEG provisions.⁴ A notice in compliance with the requirements of § 10(a) of the CCVSA acts to trigger the franchise authority holder's obligation to make PEG access support payments,⁵ starts the clock running on the deadline for designating PEG channels,⁶ and initiates any other duties or obligations required of the state-issued franchise authority holder encompassed within § 10 of the CCVSA.

In light of the provisions of the CCVSA noted above, it is imperative that you respond promptly to this Notice by providing the TRA with the following information:

- (A) **The number of activated PEG channels for such municipality or county, as well as the number authorized to be activated, if different; and**
- (B) **The terms of any PEG support payments being provided by the incumbent service provider.⁷**

Dear Mayor Hailey:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the “CCVSA”), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority (“TRA” or “Department”) received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC (“Charter”).

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental (“PEG”) access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . .”²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant’s service area to obtain certain information related to PEG access channels. The TRA is required to “compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority”³ and the Tennessee General Assembly.

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Lawrence:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of

Dear Mayor Wilder:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. Whitwell, TN 37397

RE: **NOTICE** of TRA Receipt of Application for Certificate of Franchise Authority and
OFFICIAL REQUEST for Information

Dear Mayor Morrison:

On July 1, 2008, Public Chapter 932,¹ also known as the Competitive Cable and Video Services Act (the "CCVSA"), which was enacted by the 105th Tennessee General Assembly became effective. Pursuant thereto, on September 9, 2008, the Tennessee Regulatory Authority ("TRA" or "Department") received an application for a state-issued certificate of franchise authority to provide cable or video service in your municipality or unincorporated area from Charter Communications Operating LLC ("Charter").

In addition to conferring certain benefits, the CCVSA imposes specific obligations upon applicants, municipalities and counties, and the TRA. First, pursuant to § 6(a) and § 18(1) of the CCVSA, the applicant/service provider is required to provide a notice, contemporaneously with the filing of its application for a state-issued certificate of franchise authority with the TRA, to the local governments encompassed within its intended service area. Therefore, as an initial matter, you should have already received a notice from Charter advising that it has filed such an application with the TRA.

Next, in order for the affected local governments to receive or continue receiving certain benefits related to public, educational, and governmental ("PEG") access channels, § 10(a) of the CCVSA states,

A county or municipality shall, within ten (10) days following receipt of an application for a state-issued certificate of franchise authority from a cable or video service provider seeking approval to provide cable or video service to the county or municipality, provide notice to the [TRA] regarding the number of [PEG] access channels. . . that have been activated and are authorized to be activated and the amount of any fee or other payment for PEG support required under the terms of the franchise agreement with the incumbent cable service provider with the most subscribers in the municipality or county on January 1, 2008, whether or not such agreement had expired. . ."²

Further, § 15(b)(1) of the CCVSA requires the TRA upon receipt of an application for a state-issued certificate of franchise authority to notify all municipalities or counties identified as part of the applicant's service area to obtain certain information related to PEG access channels. The TRA is required to "compile and keep current the information it receives from municipalities, counties, or local governments for the use of holders of state-issued certificates of franchise authority"³ and the Tennessee General Assembly.

IT IS IMPORTANT TO NOTE THAT, according to the CCVSA, if a municipality or county fails to provide PEG information after being requested to do so by the TRA, a holder of a state-issued certificate of
