WASTEWATER UTILITY SERVICE

Non-payment penalties

A non-payment penalty of five percent (5%) of the monthly charge will be due after the due date shown on the bill. If payment is not received within fifteen business days after the first (T) notice of the charges being past due, notice will be sent to the customer via certified, return (T) receipt requested United States Mail of intended disconnection, including, but not limited to (T) information about the amount of disconnection and reconnection charges and amount of the past (T) due balance. The company agrees to permit and notify customers of the opportunity to provide (T) an alternate address for notification of a potential disconnection. If a customer has provided such (T) an address, the company agrees to also provide the required notice of disconnection to that (T) address. If payment is not received within the next 15 days (by the final due date), service will (T) be subject to disconnection as per the Sewer Subscription Contract (Attachment #1) executed by (T) the customer with no additional notice being sent. (T)

No service shall be reconnected if discontinued for non-payment (or any other valid reason) until all charges have been paid, including disconnection and reconnection fees. The disconnection fee is \$40(I) and the reconnection fee is \$50.(I) The customer will bear the cost of collection of (T) unpaid sewer fees, including all applicable attorney's fees. (T)

Returned Checks

A check returned by the bank will incur a fee of \$25.00. (I)

Changes in Ownership, Tenancy of Service

A new application and contract must be made and approved by the Company on any change in ownership of property, or in tenancy, or in the service as described in the application. In the event of failure of a new owner or tenant to make such application, the Company shall have the right to discontinue service until such new application is made and approved.

Vice-President**

WASTEWATER UTILITY SERVICE

Extension of Repayment For Service

The company agrees to provide its customers the opportunity to pay the past due bill, including returned check fees and other charges, disconnect and reconnection charges in a payment plan with no interest over no less than 3 months billing cycle. The Company agrees that the customer would only need to pay the first installment in order to have service restored. Customers utilizing a payment plan would not again be eligible to be placed on any future payment plans for a full calendar year from the date the initial plan is implemented. Provided however, if a customer is able to demonstrate a unique financial distress situation or the customer is disabled, the company agrees to consider permitting the customer to have additional installment plan(s) again during the same calendar year. If a customer on a payment plan fails to pay a monthly installment as per the terms of the plan and is more than fifteen(15) business days late on any payment, then the service is subject to immediate disconnection and all past due charges in addition to disconnect/reconnect fees should be due and payable prior to having service restored. The company is required to provide all the same disconnection notices required for any disconnection set forth above prior to disconnection.

Issued: May 19, 2009
Issued By: Charles Pickney, Jr.
Vice-President

Effective: May 19, 2009

WASTEWATER UTILITY SERVICE

(D)

Winter Water Usage Rates

Winter Water Usage shall mean the average amount of water used, as stated on the customer's bill for the months of November, December, January and February. When customer's bills are based on water usage, customers will receive summer bills (for usage in June, July, August and September) that are based on the average winter water usage. New customers that have not established winter water usage will be charged up to a maximum bill of \$125.00 until a winter water usage is established.

Sewer System Access Fee

The owner of each property parcel which is provided a service connection when the sewer system is built, will be required to pay a sewer access fee of \$120.00 per year. This fee will be (I) payable each year by December 15th, for owners of record, as of December 1st. As each customer attaches to the service connection and signs up for service, they will pay a pro-rated access fee for that year and thereafter the fee will not be charged.

WASTEWATER UTILITY SERVICE

Engineering, Materials and Construction Standards

1. The burden of ensuring that all Utility Specifications have been met is placed on the end user. Under no circumstances will the Utility be obligated to provide service to a location that has not satisfactorily passed tank and component inspection. (N)
2. General - This specification covers the type of sewer system required for various design conditions of sewers constructed by developers. The requirements called for are minimum in all cases. Bedding conditions, material specifications, sealing requirements and installation methods are the responsibility of the design engineer and must be approved by the Company Engineer. Design and construction of sewer lines shall meet the requirements of the State of Tennessee Department of Environment. Any conflicts between company and state requirements shall be resolved so that the more restrictive shall govern.
2. All sewage collection system components are to be watertight. This includes Building Outfall Lines, all tanks, Collector Lines, Service Lines and Main Lines. Collector Lines and Main Lines are to be tested to 100 pounds per square inch of water pressure. Risers and lids are to be watertight.
3. Interceptor Pump and Interceptor Gravity Tanks are to be installed near the customer's building to be served. The tanks are to be set in a level condition and tested for water tightness before backfilling.
4. All pipe is to be PVC. Classes and sizes will be per Engineer's design and in all cases SDR 21 class 2000 will be the minimum allowable.
5. Only wastewater drains are to be connected to the sewer system. No water sources such as roof drains, sump pumps, condensate lines and swimming pools shall be connected to the sewer system.
6. Sewer Poppers shall be installed on cleanouts near the home close to the tank. (N)

Effective: May 19, 2009

Issued By: Charles Pickney, Jr.
Vice-President

WASTEWATER UTILITY SERVICE

All leaks in any building pipe or fixture on the premises of the Customer shall be immediately repaired by the Customer. On failure to repair any such leak, the service may be discontinued until repairs are made. Any customer found introducing prohibited substances into the wastewater system is liable to pay the full cost of cleanup and the repair of any damage caused.

Inspection

All pipes, valves and fixtures shall at all reasonable hours, be subject to inspection by the Company or its duly authorized agent.

In Event of Emergency

The Company shall not be liable to the Customer for interruption in service, or for damages or inconvenience as a result of any interruption, stoppage, etc., which was beyond the reasonable control of the Company. In case of an emergency, contact the Adenus Maintenance Hotline at 877-669-0786.

(T)

Service Area

The Company will provide service within its current service area. Additions to the service area must be approved by the Tennessee Regulatory Authority.

Issued: May 19, 2009

**Issued By: Charles Pickney, Jr.
Vice-President**

Effective: May 19, 2009

WASTEWATER UTILITY SERVICE

Vegetation Control

Any expense for mowing or vegetation control of a system's treatment plant and dispersal areas required by a development's homeowners association that exceeds the standard allowance will be passed through to the customers of that development. The standard allowance is defined as one mowing per system per month in the growing season (April-November, or 8 mowings annually), and two bush hoggings per system per year. In those situations where local property owners require TWSI to incur expenses for mowing or vegetation control beyond the standard allowance, those additional expenses shall be reasonable and based upon fair market value and shall be passed on by TWSI to the affected homeowners after the homeowners have first been informed in writing in a clear and conspicuous manner of the cost of the additional service in a timely manner so as to allow customers to obtain another provider if they so desire.

WASTEWATER UTILITY SERVICE

Customer Billing Forms

Customer billings will vary by location. (D)

In most instances, monthly bills will be sent to customers (D)
for payment of a flat monthly fee. In cases where pass through treatment costs are involved, a
monthly bill will be sent to the customer and be based on the gallons of water used.

Public Contact

Charles Hyatt (D)

WASTEWATER UTILITY SERVICE**SECTION 6 – COMMERCIAL RATES SHEET****without food service**

The monthly sewer charge per customer is based on the design daily flow expected from the type of establishment being served. A minimum of \$102.15 per month will be charged for up to the first (I) 300 gallons per day of design flow expected. For each additional 100 gallons per day of design flow expected, up to a total of 1,000 gallons per day, an additional charge of \$20.45 per month per 100 (I) gallons will be levied. For design flows expected over 1,000 gallons per day, the monthly rate will be \$157.95 per 1,000 gallons of daily flow. (I)

COMMERCIAL W/O FOOD****ESCROW*****

Tier 1 (0-300GPD)	\$102.53	(I)	\$21.75	(C)

The monthly sewer charge per customer is based on the monthly average daily flow monitored from the unit being served. A minimum of \$69.15 per month will be charged for up to the first 300 gallons per day of average daily flow. (I) For each additional 100 gallons per day of average daily flow, up to a total of 1,000 gallons per day, an additional charge of \$15.00 per month per 100 gallons will be levied. For avg daily flows over 1,000 gallons per day, an additional monthly charge of \$157.95 per 1,000 gallons of avg daily flow will apply.

Tier 3.1 (1,001-2,000GPD)	\$332.48 (I)	\$77.95	(C)
Each additional tier	+\$157.95 (I)	+\$37.24	(C)

Each customer will be billed the minimum monthly charge unless TWS determines that the customer's measured usage exceeds an average of 300 gallons per day over a thirty day period. Unless otherwise stated in this tariff, measured usage will be based on a customer's actual or estimated usage, averaged over a thirty-day period.

Actual usage may be measured in any of the following ways:

- Effluent flow meter.
- STEP pump. Usage will be measured by multiplying the period of elapsed pumping time shown on the pump times the capacity of the pump.
- In the absence of an effluent flow meter or a STEP pump, usage will be assumed to be equal to the customer's usage of potable water as shown on the customer's potable water meter.

If a customer is charged in excess of the minimum monthly fee, TWS will measure the customer's actual usage at least once every ninety days using one of the methods described above and display on the customer's statement the usage and measurement method used. In any month in which TWS does not measure the company's actual usage, the customer's monthly bill will be based on the customer's estimated monthly usage. No less than once every ninety days TWS will bill (or credit) the customer for any differences between an estimated bill and actual measured usage.

If a customer's usage exceeds the average daily design flow for three consecutive months, the customer may be required to pay any capital costs associated with increasing the capacity of that portion of the system designed and dedicated to serve that customer. For purposes of this section, TWS must measure actual usage for three consecutive months using one of the methods described above.

If TWS determines that a customer's usage meets the criteria described above, TWS will notify the customer in writing of any proposed construction work, the reasons for the work, and the estimated cost to the customer. The notice will also state that if the customer believes that his usage does not meet the criteria described above or that the charge to the customer is unjust and unreasonable, the customer may file a written complaint with the Tennessee Regulatory Authority, located at 460 James Robertson Parkway, Nashville, TN, 37243. Unless the TRA orders otherwise, the filing of a complaint will not delay the proposed construction work but may initiate a proceeding in which the TRA will determine whether, under the terms of this tariff, the customer is responsible for the cost of the construction work.

Fees: Nonpayment – 5% Reconnection - \$50 (I) Disconnection - \$40 (I) Returned Check - \$25 (I)
