KINGSPORT POWER COMPANY NOTICE TO PUBLIC

Kingsport Power Company, d/b/a AEP Appalachian Power ("Kingsport"), hereby gives notice that on November 8, 2011, it made a tariff filing with the Tennessee Regulatory Authority ("TRA") relative to changes in Kingsport's Purchased Power Adjustment Rider ("PPAR") surcharges. The PPAR authorizes Kingsport, upon no less than 30-days notice, to apply a surcharge to all customer bills rendered by it to allow for changes in the non-fuel cost of purchased power from Kingsport's wholesale power supplier, under rate schedules implemented by the Federal Energy Regulatory Commission ("FERC"). Changes in fuel costs associated with power from Kingsport's wholesale supplier would continue to be reflected in Kingsport's fuel adjustment clause. Kingsport's current tariffs, and its filing regarding changes to its PPAR surcharges, are on file with the TRA at 460 James Robertson Parkway, Nashville, Tennessee, and are available for public inspection.

On December 2, 2008, the FERC accepted for filing, effective January 1, 2009, an Amended and Restated Interconnection Agreement ("Agreement") between Appalachian Power Company ("APCo") and Kingsport, which APCo designated as Appalachian Power Company First Revised Rate Schedule 23 ("Revised Rate Schedule 23"). Among other things, Revised Rate Schedule 23 provides for changes in the transmission portion of non-fuel purchased power costs to be billed to KgPCo by APCo. Following a public hearing on December 15, 2008, the TRA approved changes to Kingsport's PPAR which permitted future increases in PPAR rates to reflect increases in Kingsport's non-fuel purchased power charges, including transmission costs, which had been approved by the FERC. Thereafter, Kingsport made filings in November, 2009 and 2010, which were reviewed by the TRA's Staff, and found to be compliant with the TRA's rules and its December 15, 2008 Order.

Pursuant to Revised Rate Schedule 23, Kingsport will incur increased purchased power costs related to transmission in 2012. In its November 8, 2011 tariff filing with the TRA, Kingsport provided new PPAR surcharges, calculated in accordance with the provisions of its PPAR, to recover those increased costs. The surcharges, to be applied to customer bills beginning January 1, 2012, would result in average increases of about 1.6% for Kingsport residential customers, and 1.4% for large general service and industrial customers.
