plements temporary border checks to lin

Germany and Austria agreed to let in migrants who had massed in Hungary, saying it was a one-time measure to ease an emergency. The flow has continued undiminished, and while Germans have remained welcoming, officials said the numbers were straining the country's ability to provide accommodations. Berlin has become increasingly frustrated with the reluctance of many other countries in the 28-nation European Union — especially those in the newer Eastern bloc — to share the burden of hosting the newcomers. Sunday's action, focused on the Austrian border, came a day before a meeting of interior ministers to discuss the crisis.

The aim of this measure is

to limit the current influx to Germany and to return to orderly entry procedures," Interior Minister Thomas de Maiziere told reporters. "This is also urgently necessary for security reasons."

De Maiziere added: "The great readiness to help that Germany has shown in recent weeks ... must not be overstretched."

He did not specify how long the border controls would remain in place or how exactly incoming migrants would be handled, saying only that Germany will continue to observe national and European rules on protecting refugees.

German officials didn't have further details, but in principle, border checks allow officials to

turn back anyone lacking valid papers to enter.

The move, de Maiziere said, was also "a signal to Europe: Germany is facing up to its humanitarian responsibility, but the burdens connected with the large number of refugees must be distributed in solidarity within Europe."

Germany's national railway,

Deutsche Bahn, said it had suspended service from Austria to Germany for 12 hours at the orders of authorities.

De Maiziere noted that Germany isn't technically responsible for most of the new arrivals, pointing to EU rules under which they are supposed to be registered and processed in the first EU country where they

KINGSPORT POWER COMPANY NOTICE TO PUBLIC

Kingsport Power Company, d/b/a AEP Appalachian Power ("Kingsport"), hereby gives notice that on September 8, 2015 it made a tariff filing with the Tennessee Regulatory Authority ("TRA") relative to changes in Kingsport's Purchased Power Adjustment Rider ("PPAR") surcharges which will result in a 2.00% increase in electric rates. The PPAR authorizes Kingsport, upon no less than 30-days notice, to apply a surcharge to all customer bills rendered by it to allow for changes in the non-fuel cost of purchased power from Kingsport's wholesale power supplier, under rate schedules implemented by the Federal Energy Regulatory Commission ("FERC"). Changes in fuel costs associated with power from Kingsport's wholesale supplier would continue to be reflected in Kingsport's fuel adjustment clause. Kingsport's current tariffs, and its filing regarding changes to its PPAR surcharges, are on file with the TRA at 502 Deaderick Street, Nashville, Tennessee, and are available for public inspection.

Pursuant to Revised Rate Schedule 23, Kingsport is incurring increased purchased power costs related to its transmission. In its September 8, 2015 tariff filing with the TRA, Kingsport provided new PPAR surcharges, calculated in accordance with the provisions of its PPAR, to reflect such increased costs. The surcharges, to be applied to customer bills beginning 30 days from the date of this publication, could result in about a 2.00% increase for Kingsport residential customers and large general service and industrial customers.
