Re: Docket 09-00003 Petition of Everycall Communications, Inc, d/b/a Local USA d/b/a  
All American Home Phone for Designation as an Eligible Telecommunications  
Carrier

Dear Mr. Steinhart:

In order for the Authority to complete its review of Everycall's petition, it requested that the following information be submitted.

1. Provide actual advertisements planned for Lifeline services showing the prices for services, connection fee, and describe the means used for distribution of the provided advertisements in the general media as well as means to reach those most likely to qualify.
2. Provide the tariff cites, connection rates, and discounts, and copies of advertisements that accurately specify these rates and discounts.

3. Provide Everycall's plans for continuing telecommunications services to consumers should AT&T- Tennessee relinquish a particular service area that results in Everycall assuming Carrier of Last Resort obligations referred to in paragraph 13 of the ETC Application.
4. Indicate the Tennessee exchanges in which Everycall is currently providing facilities based services using its own facilities and/ or a combination of resale and UNE's. Identify the rate centers where service is being provided through resale only.
5. Identify the type, location and means of access or switching facilities.
6. Identify any and all supported service(s) provided via Everycall's own facilities and not through resale.

This information should be provided no later than 2:00 p.m. on July 23, 2010, with reference to Docket No. 09-00003 on the response. In accordance with Authority rules submit either (1) thirteen written copies of your response or (2) four written copies and an electronic version. Should you have any questions regarding this request, please contact Helen Trimble-Anthony ext 174.

Sincerely,

David Foster, Chief  
Utilities Division
