Good morning Lisa,

Per our Interconnection team, Bellsouth is not providing any facilities based or resold telecommunications services to Georgia Public Web in Tennessee and there is no billing activity in the state of Tennessee. As additional information, their CLEC profile only includes the state of Georgia, so it does not appear that the CLEC ever moved forward with services in Tennessee.

Please let me know if there are any questions.

Ms. Sager,

The Commission has received a request from Georgia Public Web, Inc. to cancel its certification in Tennessee. Can you verify that Bellsouth is not providing any facilities based or resold telecommunications services to Georgia Public Web in Tennessee?

Thanks,

Lisa Foust
