RECEIVED  
2009 JUL 15 PM 3:44  
T.R.A. DOCKET ROOM

Mr. Busch

The Authority opened a docket to consider the RFP of TN American Water for Tennessee operations, Docket 09-00086. You can access the filings in this docket via our website.

During consideration of the Tennessee RFP the panel was interested if any states would consider joining in a multi-state audit. For this reason, the states were contacted and requested to advise the Authority of their interest.

Should this docket proceed to the establishment of a multi-state audit; all states notifying the Authority of interest in such an audit will be contacted. Therefore, please advise if Missouri is interested in a multi-state audit.

Darlene,

My name is Jim Busch and I am the Manager of the Water & Sewer Department at the Missouri Public Service Commission. I received a letter from the Chairman of the Tennessee Regulatory Authority regarding the potential for a multi-state management audit of American Water. I have been out on vacation for the last two weeks and thus have just received this letter. Is there still time to participate if Missouri was willing?

Thanks,

Jim
