RE: Wastewater Treatment Services – Letter of Intent
Riverstone Estates Subdivision
Decatur County, Tennessee

Dear Mr. Cox,

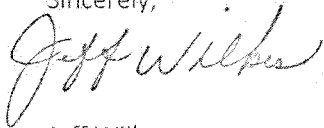

As the managing partner of Riverstone Development, Inc., (Developer), I would like to clarify that the Developer has the intention of having Integrated Resource Management, Inc. d/b/a IRM Utility, Inc. to own and operate the wastewater system at our development called Riverstone Estates in Decatur County.

Since I am the managing partner of Riverstone Development, Inc. and Riverstone Estates Utilities, Inc., the Developer is aware and agrees of the transfer of the assigned operation of the wastewater system to IRM Utility, Inc.

The Developer is aware of the need for IRM Utility, Inc. to amend their Certificate of Convenience and Necessity to include Riverstone Estates as part of their service territory and agrees to help in any way to facilitate this process.

We look forward to finally getting the system functional and appreciate your help. Thank you.

Sincerely,

Jeff Wilkes
Managing Partner
Riverstone Development, Inc.
