RE: *Petition for Expedited Review of Growth Code Denial by the Number
Pooling Administrator Relating to Volkswagen Group of America*
Docket No 09-00102

Dear Chairman Kyle:

Enclosed are the original and four copies of AT&T Tennessee's *Petition for Expedited Review of Central Office Code Denial*. Copies of the enclosed are being provided to counsel for the Number Pooling Administrator.

Cordially,

A handwritten signature in black ink, appearing to read "Joelle Phillips", written over a horizontal line.

BEFORE THE TENNESSEE REGULATORY AUTHORITY
Nashville, Tennessee

In Re: *Petition for Expedited Review of Growth Code Denial by the Number Pooling Administrator Relating to Volkswagen Group of America*

Docket No. _____

PETITION FOR EXPEDITED REVIEW OF CENTRAL OFFICE CODE DENIAL

AT&T Tennessee, pursuant to rules adopted by the FCC for challenging determinations of the Number Pooling Administrator ("NeuStar"), petitions the Tennessee Regulatory Authority (the "Authority") for an expedited review of NeuStar's denial of AT&T Tennessee's application for use of central office code numbering resources in the 423 area code.

AT&T Tennessee respectfully shows the Authority as follows:

1. AT&T Tennessee is a telecommunications public utility regulated by the Authority providing intraLATA, local exchange telecommunications services in the Chattanooga Rate Center.

2. NeuStar is an independent non-governmental entity that is responsible for administering and managing the North American Numbering Plan ("NANP"). *See* C.F.R. § 52.13(a), (b).

3. On March 31, 2000, the Federal Communications Commission issued a Report and Order and Further Notice of Proposed Rule Making relating to numbering resource optimization ("FCC 00-104" or the "March Order"). On

December 29, 2000, the FCC issued its Second Report and Order, Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200 ("FCC 00-429" or the "December Order"). These FCC orders addressed issues and strategies relating to the efficient use of numbering resources.

4. In FCC 00-104 and FCC 00-429, the FCC announced rules and sought comments in an effort to implement uniform standards governing requests for telephone numbering resources in order to increase efficiency in the use of existing telephone numbers and to slow further exhaustion of existing numbers under the NANP.

5. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier's need for numbering resources by requiring carriers to report rate center based utilization data to NeuStar. The FCC further required that to qualify for access to new numbering resources, applicants must establish that existing inventory within the applicant's rate center will be exhausted within six months of the application. Prior to this ruling, the Central Office Code Assignment Guidelines, used by the industry and NeuStar to make code assignments, required the applicant's existing number inventory within the applicant's serving switch to exhaust within six months of the code application in order for a code to be assigned.

6. This shift to a "rate center" basis for determining the need for new numbering resources was intended to "more accurately reflect how numbering resources are assigned" and to allow "carriers to obtain numbering resources in

response to specific customer demands." FCC Order ¶105. AT&T Tennessee has sought reconsideration of the above-described MTE rule before the FCC on two separate occasions. On December 28, 2001, the FCC entered an order retaining the rules requiring carriers to calculate MTE on a rate center basis rather than on a per-switch basis. *In the Matter of Numbering Resource Optimization; Implementation of the Local Competition Provisions of the Telecommunications Act of 1996; Telephone Number Portability*, CC Docket Nos. 99-200, 96-98 and 95-116, *Third Report and Order* and *Second Order on Reconsideration* in CC Docket No. 99-200, FCC 01-362, Paragraph 48 (rel. Dec. 28, 2001).

7. On or about July 9, 2009, AT&T Tennessee submitted a Central Office Code (NXX) Assignment Request - Part 1, and the CO Code Assignment - Months to Exhaust Certification Worksheet, to NeuStar to be assigned 3,000 consecutive numbers necessary to meet the demands of its customer, Volkswagen Group of America ("Volkswagen"). The request and worksheet are attached hereto as Exhibits "A" and "B" respectively.

8. The code assignment request was for 3,000 consecutive numbers in the 423 NPA area code, in response to Volkswagen's request for 3,000 consecutive DID numbers in the NPA-XX2-3000-5999 range. Of these numbers, 2,000 were previously requested in TRA Docket 09-00043. Volkswagen cited new production plant as its basis for this request. However, AT&T Tennessee did not have sufficient number resources available within its inventory in the Chattanooga rate center, and, accordingly, AT&T Tennessee was unable to provide Volkswagen

with sufficient numbers to meet its needs. For this reason, AT&T Tennessee sought the numbering resources as noted above.

9. AT&T Tennessee completed the applications in accordance with NeuStar's Central Office Code (NXX) Assignment Guidelines and completed the necessary Months to Exhaust Certification Worksheet required by NeuStar.

10. At the time of the code request, the Chattanooga rate center had an MTE of approximately 115 months.

11. Despite the fact that AT&T Tennessee's Chattanooga rate center may not exhaust for 115 months, AT&T Tennessee is unable to provide the requested service through its switch that serves Volkswagen within the Chattanooga rate center. This is because the individual switch that serves this customer within the Chattanooga rate center does not have sufficient number resources to meet the customer's request.

12. On or about July 9, 2009, NeuStar's Central Office Code Administration denied the code assignment request on the grounds that AT&T Tennessee had not met the rate center based months-to-exhaust criteria now set forth in the Central Office Code (NXX) Guidelines, notwithstanding the fact that AT&T Tennessee does not have the numbering resources needed to satisfy its customers' demands in the switch at issue. That decision is attached hereto as Exhibit "C."

13. AT&T Tennessee's inability to provide this large business customer with the requested numbers prevents AT&T Tennessee from providing the quality

of service this customer desires and expects. (Correspondence from Volkswagen is attached as Exhibit "D").

14. Relief for the 423 NPA was implemented with the start of mandatory dialing on November 1, 1999. The Authority also ordered thousands-block pooling for the 423 NPA with a Pool Start Date of September 1, 2002. According to NeuStar, based on the 2009-1 NRUF and NPA Exhaust Analysis dated April 2009, the projected exhaust date of the 423 NPA is the Fourth Quarter 2017. Therefore, granting AT&T Tennessee's request for numbering resources would not materially impact exhaustion of available numbers in the 423 NPA.

15. Both FCC 00-104 and NeuStar's Central Office Code (NXX) Guidelines provide that state regulatory authorities have the power and authority to review NeuStar's decision to deny a request for numbering resources. *See* FCC 00-104, Appendix A, Final Rules, § 52.15(g) (3) (iv) ("The carrier may challenge the NeuStar's decision to the appropriate state regulatory commission"); NeuStar Central Office Code (NXX) Guidelines § 13.0 ("Appeals may include but are not limited to one or more of the following options: . . . C. The CO Code Administrator(s) and code holders/applicants may pursue the disagreement with the appropriate governmental/regulatory body").

16. The TRA has recognized its jurisdiction and authority to review NeuStar denials and to order the release of numbering resources to meet specific customer needs. The TRA has, for example, ordered NeuStar to provide AT&T Tennessee with numbering resources to meet the service requirements of the University of Tennessee, even though AT&T Tennessee had been unable to satisfy

the required months-to-exhaust criteria. *Petition for Expedited Review of Growth Code Denial by the Number Pooling Administrator Relating to University of Tennessee - Chattanooga* (approved by the Directors on November 20, 2001 by a vote of 3-0) (*see* correspondence from TRA Executive Secretary, dated November 29, 2001, attached as Exhibit "E").

17. In reviewing previous petitions of this type, the TRA Staff has requested that AT&T Tennessee provide additional information concerning number utilization for the specific central office involved in the request. This information for the Chattanooga, including the CHTGTNBRDSO Central Office is attached hereto as Exhibit "G."

18. The Authority, and not the FCC, is the most appropriate body to address this appeal. As noted above, the Authority has been granted jurisdiction to hear appeals from NeuStar's decisions regarding numbering resources. Any jurisdiction of the FCC to do the same is merely concurrent with the jurisdiction of the Authority. AT&T Tennessee believes that the Authority can more quickly address the numbering problem facing Volkswagen and AT&T Tennessee, and, because time is of the essence to the customer, AT&T Tennessee believes it is appropriate to pursue this matter in the forum that can most quickly address the issue.

19. Under earlier months-to-exhaust procedures used by NeuStar, waivers or exceptions were granted where customer hardships could be demonstrated or where the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures,

NeuStar looks at the number of months-to-exhaust for the entire rate center without any exceptions. The current process for review is arbitrary and results in decisions contrary to the public interest and decisions that do not necessarily preserve the efficient use of telephone numbers or postpone dates of exhaust. Moreover, the denial of sufficient numbering resources to AT&T Tennessee to meet Volkswagen's request is inconsistent with the FCC's position that "[u]nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources." FCC 00-429 at ¶ 61. By refusing to grant numbering resources sufficient to meet Volkswagen's needs, the NeuStar is preventing Volkswagen from obtaining the service of its choice from its carrier of choice, AT&T Tennessee.

20. Notwithstanding customer need for a specific numbering arrangement, AT&T Tennessee's analysis indicates that AT&T Tennessee will be unable to meet the six-months-to-exhaust threshold at the rate center level in time to obtain adequate numbering resources to serve this customer absent relief from the Authority. This situation will result in AT&T Tennessee's inability to respond to its customer's needs for specific numbering resources.

CONCLUSION

For the reasons articulated above, AT&T Tennessee respectfully urges the Authority to direct the NeuStar to provide the requested numbers to AT&T Tennessee to enable AT&T Tennessee to meet the specific requirements of Volkswagen in order that Volkswagen may receive the service of its choice from the provider of its choice to meet its telecommunications needs.

WHEREFORE, AT&T Tennessee requests:

1. The Authority review the decision of the NeuStar to deny AT&T Tennessee's request for additional numbering resources; and
2. The Authority direct the NeuStar to provide numbers to AT&T Tennessee to meet the specific requirements of Volkswagen in the Chattanooga rate center within the 423 NPA.

Respectfully submitted,

AT&T TENNESSEE

Title Date

¹ Identify type and reason for change(s) in Section 1.4(e).

² A list of the current Code Administrator(s) who can provide assistance in
completing this form is available upon request from NANPA.

³ The NXX field is required for any code request in which there is a change or the
NXX is being returned.

⁴ Operating Company Number (OCN) assignments must uniquely identify the
applicant. Relative to CO Code assignments, NECA-assigned Company Codes may
be used as OCNs. Companies with no prior CO Code or Company Code
assignments may contact NECA (973-884-8355) to be assigned a Company
Code(s). Since multiple OCNs and/or Company Codes may be associated with a
given company, companies with prior assignment should direct questions regarding
appropriate OCN usage to the Telcordia TM Routing Administration (TRA) on 732-
699-6700.

⁵ This is an eleven-character descriptor of the switch provided by the owning entity
for the purpose of routing calls. This is the eleven-character Telcordia TM COMMON
LANGUAGE CLLI TM Location Identification of the applicant's switch or POI.
(Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered
trademarks of Telcordia Technologies, Inc.)

⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.

⁷ Applies to any code applicant connecting to the Public Switched Telephone
Network via a tandem owned by a different carrier.

⁸ This is an eleven-character descriptor provided by the owning entity for the purpose
of routing calls. This must be the CLLI TM Location Identification Code of the
switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.

⁹ Code applicants should request an effective date that is at least 66 calendar days

from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.

¹⁰ Requests for code assignment should not be made more than six months prior to the requested effective date.

¹¹ Select if you are the current Code Holder

¹² Select if you are not the current Code Holder

¹³ The Applicant will indicate "YES" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.

¹⁴ Applicant is not required to submit Part 2 of the code request form if it is doing its own Telcordia™ Business Integrate Routing and Rating Database System (BIRRDS) entries, or if the applicant has arranged for a third party to input the Part 2 forms data on its behalf.

¹⁵ WARNING! It is the code applicant's responsibility to arrange input of Part 2 information into BIRRDS. The 45 calendar day nationwide minimum interval cut-over for BIRRDS will not begin until input into BIRRDS has been completed.

¹⁶ An incomplete form may result in delays in processing this request.

7/1/09 DATE

Dear Traci,

This Letter of Intent is for Volkswagen Group of America to request 3000 numbers for LNS Prime Service. Telephone numbers need to be consecutive due to advertising and proper management of a number range this size.

VOLKSWAGEN GROUP OF AMERICA, INC
7000 DISCOVERY DRIVE
CHATTANOOGA, TN 37416

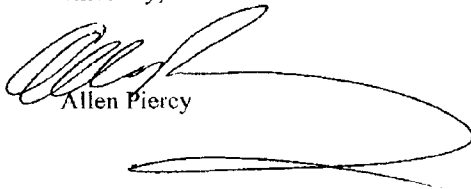

This will be a brand new production plant for Volkswagen. Volkswagen Group of America agrees to activate the numbers requested within 180 days from AT&T's receipt of the requested numbers.

AT&T has determined that the DID Range 423.702.3000-5999 is available. In addition, Volkswagen Telecom Engineering has confirmed that this range can be successfully integrated into our internal 5-digit dial plan.

Volkswagen Group of America intends to order service using these numbers immediately after required testing is performed by AT&T. This service will be provided in the Chattanooga rate center using the CHTGTNKVDS0 switch.

Volkswagen Group of America is in the process of constructing an automotive assembly plant at Enterprise South with the expectation of producing 150,000 cars per year. Along with the assembly plant VW, will build an administration building that will house hundreds of employees who are responsible for the operations of the plant. Therefore VW will need up to 3000 consecutive numbers to support the plant and adjacent administration facilities.

Sincerely,

Allen Piercy

Ms. Cheryl Dixon
Senior Code Administrator
1800 Sutter Street
Suite: 570
Concord, CA 94520

RE: Denial of BellSouth's Central Office Code ("NXX") Assignment Request.

Dear Ms. Dixon:

On November 1, 2001, BellSouth Petitioned the Tennessee Regulatory Authority ("TRA") for Expedited Review of Growth Code Denial by the North American Numbering Plan Administration ("NANPA"), Docket No. 01-00957. BellSouth specifically requested the overturn of NANPA's denial, and order the issue of one growth code ("NXX") for the Chattanooga rate center in the 423 NPA.

BellSouth stated they requested a growth code in the 423 NPA in response to a request received from a customer, the University of Tennessee, Chattanooga ("UTC"), as they did not have sufficient numbering resources available to meet the customer's needs. BellSouth's also stated that the Chattanooga Rate Center's Months to Exhaust ("MTE") calculation was 31.88 months.

The TRA Staff ("Staff") verified that the MTE requirement six months cannot be met. Staff also verified that the Chattanooga rate center is a multiple switch rate center, and that the MTE has to be calculated on a rate center level rather than at switch level. Staff is also satisfied with the validity of UTC's request. In that the 423 NPA has a projected exhaust date for the 4th Quarter of 2004, and the current demands in the 423 NPA is 2.5 NXXs per month, it is unlikely that the assignment of one (1) NXX will have a material effect on the projected exhaust of the 423 NPA.

On November 20, 2001, the Directors of the Tennessee Regulatory Authority approved BellSouth's petition, and ordered the NANPA to issue BellSouth one growth code in the 423 NPA. The TRA Order will be provided once it is administratively processed.

Sincerely,

A handwritten signature in black ink, appearing to read "K. David Waddell".

K. David Waddell

**STATE OF NORTH CAROLINA
UTILITIES COMMISSION
RALEIGH**

DOCKET NO. P-55, SUB 1268

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

**In the Matter of
Petition of BellSouth Telecommunications, Inc.,
for Review of NANPA Denial of Application
for Numbering Resources)**

**ORDER RULING ON THE
BELLSOUTH PETITION**

BY THE COMMISSION: On March 6, 2001, BellSouth Telecommunication, Inc. (BellSouth) requested that the Commission review the North American Numbering Plan Administrator's (NANPA) decision denying the reservation of two central office codes (NXXs) in the 910 and 836 Numbering Plan Areas (NPAs). Reservation of one NXX was requested for Guilford County Government and one NXX was requested for Coming, Inc., from NANPA.

NANPA, in reaching its decision to deny the numbering resources, stated that BellSouth's Month-to-Exhaust worksheet shows that BellSouth has more than a six month supply of numbering resources in the two central offices which would be providing services to these customers, respectively. However, BellSouth stated that it does not have in its inventory 10,000 sequential numbers (i.e., one NXX) in each NPA available to meet the service requirement for these two customers.

There were no comments filed on this matter before the Commission.

WHEREUPON, the Commission now reaches the following

CONCLUSIONS

After careful consideration, the Commission concludes that NeuStar, Inc., as NANPA, should provide BellSouth the numbering resources needed to meet the needs of Guilford County Government and Coming, Inc. The Commission notes that BellSouth, as a telecommunications service provider, should be allowed to meet its specific customer requirements. Furthermore, the reservations of numbering resources in this instance represent identifiable and known market requirements. The Commission also recognizes that NANPA in reaching its decision must recognize and use industry guidelines to ensure consistent decision-making among all industry participants.

IT IS, THEREFORE, ORDERED as follows:

1. That NANPA shall provide BellSouth the numbering resources it needs to meet the service requirements for Guilford County Government and Coming, Inc.

2. That the numbering resources assigned by BellSouth to Guilford County Government and Corning, Inc., shall be done in a sequential numbering manner to optimize these resources.

3. That these numbering resources shall be subject to reclamation if not used within the allowable reservation period according to industry guidelines.

ISSUED BY ORDER OF THE COMMISSION.

This the 10th day of April, 2001.

NORTH CAROLINA UTILITIES COMMISSION

Geneva S. Thigpen, Chief Clerk

Chattanooga Exchange
