August 5, 2009

**MEMORANDUM FOR RECORD**

**Re: Docket No. 09-00102, *Petition for Expedited Review of Growth Code Denial by the Number Pooling Administrator Relating to Volkswagen Group of America***

On review of the above cited *Petition* a question arose concerning the Months-to-Exhaust ("MTE") calculation in Exhibit B of the *Petition*. It is noticed first that the MTE number is much greater than the last request made for the Chattanooga rate center and it is also reflected as a negative number. Therefore, the company was contacted on July 22, 2009.

Upon contact, Mr. Paul Stinson of BellSouth Telecommunications, Inc. d/b/a AT&T Tennessee, explained that a sudden loss of a very large business customer and this with the timing of the event caused the calculation to be skewed to reflect a negative number. Mr. Stinson then provided the corrected calculation to be approximately 104 months.

Lewis De Board, Utility Rate Specialist
