Dear Chairman Kyle,

As the temperature outside drops, we here at Mid-Cumberland Community Action Agency are reminded of how important Atmos Energy and Piedmont Natural Gas are in helping our agency as we work to improve the quality of life for our clients.

For several years Atmos Energy has made donations to our agency; supplementing programs that provided emergency assistance for low-income clients in crisis situations. Most recently, Atmos Energy generously augmented our Weatherization Program; partnering with our agency in weatherizing 31 homes.

Piedmont Natural Gas is also a valuable community partner providing Share the Warmth funding which allowed us to serve eight eligible households.

We are grateful for these partnerships and for all who play a role in helping us as we *Help People and Change Lives*. This is *Community Action* at work.

If we can ever be of assistance to you, please do not hesitate to contact me.

Sincerely,

Kreda F. Yokley
