DOCKET NO.
10-00056

ORDER APPROVING REQUEST OF BELL SOUTH TELECOMMUNICATIONS, INC.
D/B/A AT&T TENNESSEE FOR EXPEDITED REVIEW OF GROWTH CODE DENIAL
AND REVERSING CENTRAL OFFICE CODE DENIAL

This matter came before Chairman Sara Kyle and Director Kenneth C. Hill of the Tennessee Regulatory Authority (“TRA” or the “Authority”), members of the voting panel¹ assigned to this docket, at a regularly scheduled Authority Conference held on April 26, 2010, for consideration of the *Petition for Expedited Review of Central Office Code Denial* filed by BellSouth Telecommunications, Inc. d/b/a AT&T Tennessee (“AT&T”) on April 8, 2010.

On April 6, 2010, AT&T submitted an application to the Pooling Administrator for the purpose of obtaining additional numbering resources to meet the demands of its customer, Middle Tennessee Medical Center (“MTMC”). AT&T did not have sufficient number resources available in the Murfreesboro Rate Center (“Rate Center”) to fulfill the request of MTMC. NXX assignment guidelines permit the assignment of additional codes only after a carrier demonstrates that a rate center has a 75% utilization rate and that its estimated exhaust date does not exceed six months.² Because the Rate Center utilization rate is approximately 67% and the estimated exhaust date is approximately 28 months, the Pooling Administrator denied the application by AT&T.

¹ Director Mary W. Freeman, the third member of the voting panel, was unable to participate in the deliberations in this matter.

² See Alliance for Telecommunications Industry Solutions, *Central Office Code (NXX) Assignment Guidelines (COCAG) Final Document*, ATIS 03-00051, section 4.3.1 (June 15, 2007).

The Federal Communications Commission authorized the Authority to review the Pooling Administrator's denial of a numbering application.³ Specifically, the Federal Communications Commission stated that state commissions may overturn a decision of the Pooling Administrator when "a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory."⁴ After consideration of the facts contained in the record, the public interest, and this agency's responsibility to foster competition in the telecommunications industry,⁵ the Directors voted to approve the request of AT&T and reverse the Pooling Administrator's denial of AT&T's request for additional numbering resources.

IT IS THEREFORE ORDERED THAT:

1. The Pooling Administrator's decision to deny BellSouth Telecommunications, Inc. d/b/a AT&T Tennessee's request for additional numbering resources is reversed as stated herein.

2. The Pooling Administrator is ordered to assign one (1) one-thousand block of telephone numbers for the Murfreesboro Rate Center served by Switch Identification No. MRBOTNMADS0.
