| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.                                                     |               |                                                                                   |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEc rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMEc rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |               |                                                                                   |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "state specific" OSS charges as ordered by the State Commissions. The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.                                                       |                                                                                   |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |        |            |                    |       |                               |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |                                                                                   |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |        |            |                    |       |                               |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |

### **Pre-Ordering, Ordering, Provisioning, Maintenance and Repair**

**TABLE OF CONTENTS**

1. QUALITY OF PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR ... 3

2. ACCESS TO OPERATIONS SUPPORT SYSTEMS ..... 3

3. MISCELLANEOUS ..... 5

**PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR****1. QUALITY OF PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR**

- 1.1 BellSouth shall provide to VarTec nondiscriminatory access to its Operations Support Systems (OSS) and the necessary information contained therein in order that VarTec can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing.. BellSouth shall provide VarTec with all relevant documentation (manuals, user guides, specifications, etc.) regarding business rules and other formatting information as well as practices and procedures necessary to ensure requests are efficiently processed. All documentation will be readily accessible at BellSouth's interconnection website and are incorporated herein by reference. BellSouth shall ensure that its OSS are designed to accommodate access requests for both current and projected demand of VarTec and other CLECs in the aggregate.
- 1.2 BellSouth shall provision services during its regular working hours. To the extent VarTec requests provisioning of service to be performed outside BellSouth's regular working hours, or the work so requested requires BellSouth's technicians or project manager to work outside of regular working hours, overtime charges shall apply. Notwithstanding the foregoing, if such work is performed outside of regular working hours by a BellSouth technician or project manager during his or her scheduled shift and BellSouth does not incur any overtime charges in performing the work on behalf of VarTec, BellSouth will not assess VarTec additional charges beyond the rates and charges specified in this Agreement.

**2. ACCESS TO OPERATIONS SUPPORT SYSTEMS**

- 2.1 BellSouth shall provide VarTec nondiscriminatory access to its OSS and the necessary information contained therein in order that VarTec can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing. BellSouth shall provide nondiscriminatory access to the OSS through manual and/or electronic interfaces as described in this Attachment. It is the sole responsibility of VarTec to obtain the technical capability to access and utilize BellSouth's OSS interfaces. Specifications for VarTec's access and use of BellSouth's electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference.
- 2.1.1 Pre-Ordering. BellSouth will provide electronic access to its OSS and the information contained therein in order that VarTec can perform the following pre-ordering functions: service address validation, telephone number selection, service and feature availability, due date information, customer record information and loop makeup information. Mechanized access is provided by electronic interfaces

whose specifications for access and use are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and VarTec will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below. VarTec shall provide to BellSouth access to customer record information, including circuit numbers associated with each telephone number where applicable. VarTec shall provide such information within four (4) hours after request via electronic access where available. If electronic access is not available, VarTec shall provide to BellSouth paper copies of customer record information, including circuit numbers associated with each telephone number where applicable. If BellSouth requests the information before noon, the customer record information shall be provided the same day. If BellSouth requests the information after noon, the customer record information shall be provided by noon the following day.

2.1.2 The Parties agree not to view, copy, or otherwise obtain access to the customer record information of any customer without that customer's permission. VarTec will obtain access to customer record information only in strict compliance with applicable laws, rules, or regulations of the state in which the service is provided. BellSouth reserves the right to audit VarTec's access to customer record information. If a BellSouth audit of VarTec's access to customer record information reveals that VarTec is accessing customer record information without having obtained the proper End User authorization, BellSouth upon reasonable notice to VarTec may take corrective action, including but not limited to suspending or terminating VarTec's electronic access to BellSouth's OSS functionality. All such information obtained through an audit shall be deemed Information covered by the Proprietary and Confidential Information section in the General Terms and Conditions of this Agreement.

2.1.3 Ordering. BellSouth will make available to VarTec electronic interfaces for the purpose of exchanging order information, including order status and completion notification, for non-complex and certain complex resale requests and certain network elements. Specifications for access and use of BellSouth's electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and VarTec will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below.

2.1.4 Maintenance and Repair. BellSouth will make available to VarTec electronic interfaces for the purpose of reporting and monitoring service troubles. Specifications for access and use of BellSouth's maintenance and repair electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and VarTec will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below. Requests for trouble repair are billed in accordance with the provisions of this Agreement. BellSouth and VarTec agree to adhere to BellSouth's Operational

Understanding, as amended from time to time during this Agreement and as incorporated herein by reference. The Operational Understanding may be accessed via BellSouth's interconnection website.

- 2.1.5 Billing. BellSouth will provide VarTec nondiscriminatory access to billing information as specified in Attachment 7 to this Agreement.
- 2.2 Change Management. BellSouth and VarTec agree that the collaborative change management process known as the Change Control Process (CCP) will be used to manage changes to existing interfaces, introduction of new interfaces and retirement of interfaces. BellSouth and VarTec agree to comply with the provisions of the documented Change Control Process as may be amended from time to time and incorporated herein by reference. The change management process will cover changes to BellSouth's electronic interfaces, BellSouth's testing environment, associated manual process improvements, and relevant documentation. The process will define a procedure for resolution of change management disputes. Documentation of the CCP as well as related information and processes will be clearly organized and readily accessible to VarTec at BellSouth's interconnection website.

- 2.3 Rates. Charges for use of OSS shall be as set forth in this Agreement.

### **3. MISCELLANEOUS**

- 3.1 Pending Orders. Orders placed in the hold or pending status by VarTec will be held for a maximum of thirty (30) calendar days from the date the order is placed on hold. After such time, VarTec shall be required to submit a new service request. Incorrect or invalid requests returned to VarTec for correction or clarification will be held for thirty (30) calendar days. If VarTec does not return a corrected request within thirty (30) calendar days, BellSouth will cancel the request.
- 3.2 Single Point of Contact. VarTec will be the single point of contact with BellSouth for ordering activity for network elements and other services used by VarTec to provide services to its End Users, except that BellSouth may accept a request directly from another CLEC, or BellSouth, acting with authorization of the affected End User. VarTec and BellSouth shall each execute a blanket letter of authorization with respect to customer requests so that prior proof of End User authorization will not be necessary with every request (except in the case of a local service freeze). The Parties shall each be entitled to adopt their own internal processes for verification of customer authorization for requests, provided, however, that such processes shall comply with applicable state and federal law and industry and regulatory guidelines. Pursuant to a request from another carrier, BellSouth may disconnect any network element being used by VarTec to provide service to that End User and may reuse such network elements or facilities to enable such other carrier to provide service to the End User. BellSouth will notify

VarTec that such a request has been processed but will not be required to notify VarTec in advance of such processing.

- 3.2.1 Neither BellSouth nor VarTec shall prevent or delay an End User from migrating to another carrier because of unpaid bills, denied service, or contract terms.
- 3.2.2 BellSouth shall return a Firm Order Confirmation (FOC) and Local Service Request (LSR) rejection/clarification within the intervals in accordance with the Service Quality Measurement (SQM) set forth in Attachment 9 of this Agreement.
- 3.2.3 VarTec shall return a FOC to BellSouth within thirty-six (36) hours after VarTec's receipt from BellSouth of a valid LSR.
- 3.2.4 VarTec shall provide a Reject Response to BellSouth within twenty-four (24) hours after BellSouth's submission of an LSR which is incomplete or incorrectly formatted.
- 3.3 Use of Facilities. When a customer of VarTec elects to discontinue service and to transfer service to another local exchange carrier, including BellSouth, BellSouth shall have the right to reuse the facilities provided to VarTec by BellSouth. In addition, where BellSouth provides local switching, BellSouth may disconnect and reuse facilities when the facility is in a denied state and BellSouth has received a request to establish new service or transfer of service from a customer or a customer's CLEC at the same address served by the denied facility. BellSouth will notify VarTec that such a request has been processed after the disconnect order has been completed.
- 3.4 Contact Numbers. The Parties agree to provide one another with toll-free nationwide (50 states) contact numbers for the purpose of ordering, provisioning and maintenance of services.
- 3.5 Subscription Functions. In cases where BellSouth performs subscription functions for an interexchange carrier (IXC) (i.e. PIC and LPIC changes via Customer Account Record Exchange (CARE)), BellSouth will in all possible instances provide the affected IXCs with the Operating Company Number (OCN) of the local provider for the purpose of obtaining End User billing account and other End User information required under subscription requirements.
- 3.5.1 When VarTec's End User, served by resale or loop and port combinations, changes its PIC or LPIC, and per BellSouth's FCC or state tariff the interexchange carrier elects to charge the End User the PIC or LPIC change charge, BellSouth will bill the PIC or LPIC change charge to VarTec, which has the billing relationship with that End User, and VarTec may pass such charge to the End User.
- 3.6 Cancellation Charges. If VarTec cancels a request for network elements or resold services, any costs incurred by BellSouth in conjunction with the provisioning of

that request will be recovered in accordance with BellSouth's Private Line Tariff or BellSouth's FCC No. 1 Tariff, Section 5.4, as applicable. Notwithstanding the foregoing, if VarTec places an LSR based upon BellSouth's loop makeup information, and such information is inaccurate resulting in the inability of BellSouth to provision the network elements requested and another spare compatible facility cannot be found with the transmission characteristics of the network elements originally requested, cancellation charges described in this Section shall not apply. Where VarTec places a single LSR for multiple network elements or services based upon loop makeup information, and information as to some, but not all, of the network elements or services is inaccurate, if BellSouth cannot provision the network elements or services that were the subject of the inaccurate loop makeup information, VarTec may cancel its request for those network elements or services without incurring cancellation charges as described in this Section. In such instance, should VarTec elect to cancel the entire LSR, cancellation charges as described in this Section shall apply to those elements and services that were not the subject of inaccurate loop makeup.

- 3.7 Service Date Advancement Charges (a.k.a. Expedites). For Service Date Advancement requests by VarTec, Service Date Advancement charges will apply for intervals less than the standard interval as outlined in the BellSouth Product and Services Interval Guide. The charges as outlined in BellSouth's FCC No. 1 Tariff, Section 5, will apply as applicable.

**Amendment  
To the  
Interconnection Agreement  
Between  
VarTec Telecom, Inc. and in Florida, VarTec Telecom, Inc d/b/a  
VarTec Communications, Inc. and Clear Channel Communications  
and  
BellSouth Telecommunications, Inc.  
Dated June 22, 2003**

Pursuant to this Amendment, (the "Amendment"), VarTec Telecom, Inc. and in Florida, VarTec Telecom, Inc d/b/a VarTec Telecom, Inc. and Clear Channel Communications (VarTec), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated June 22, 2003 ("Agreement") to be effective after the date of the last signature executing the Amendment.

WHEREAS, BellSouth and VarTec entered into the Agreement on June 22, 2003, and;

WHEREAS, BellSouth and VarTec are amending the Agreement to modify Local Number Portability (LNP) recovery charge pursuant to the Order in the matter of the Telephone Number Portability BellSouth Corporation Petition for Declaratory Ruling and/or Waiver, CC Docket No. 95-116, released April 13, 2004;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to delete in their entirety all rate elements and USOCs identified as "Local Number Portability charges" in Exhibit A of Attachment 2, as specified by the following USOCs: LNPCX, LNPCP, LNPCN, and LNPCC.
2. The Parties agree to add the following language to Section 4 as Section 4.1.1 of Attachment 2 and Section 5 as Section 5.4.5 of Attachment 2:
  - In addition to other charges specified in this Agreement for Local Number Portability VarTec shall pay to BellSouth the Local Number Portability charges as set forth in Section 13 of the BellSouth FCC No. 1 Tariff;
3. All of the other provisions of the Agreement dated June 22, 2003 shall remain unchanged and in full force and effect.
4. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

**Amendment to the Agreement  
Between  
VarTec Telecom, Inc.  
and  
BellSouth Telecommunications, Inc.  
Dated 6/22/2003**

Pursuant to this Amendment, (the "Amendment"), VarTec Telecom, Inc. ; in Florida, VarTec Telecom, Inc d/b/a VarTec Telecom, Inc. and Clear Choice Communications (VarTec), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated 6/22/2003 ("Agreement") to be effective after the date of the last signature executing the Amendment ("Effective Date").

WHEREAS, BellSouth and VarTec entered into the Agreement on 6/22/2003,  
and;

WHEREAS, BellSouth and VarTec are amending the Adoption of Agreements provision of the Agreement pursuant to the FCC's Second Report and Order, WC Docket No. 01-338, issued on July 13, 2004;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to delete Section 13 of the General Terms and Conditions and replace it with the following:
  13. Pursuant to 47 USC § 252(i) and 47 C.F.R. § 51.809, BellSouth shall make available to VarTec any entire interconnection agreement filed and approved pursuant to 47 USC § 252. The adopted agreement shall apply to the same states as the agreement that was adopted, and the term of the adopted agreement shall expire on the same date as set forth in the agreement that was adopted.
2. All of the other provisions of the Agreement dated 6/22/2003 shall remain unchanged and in full force and effect.
3. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

**Amendment to the Agreement  
Between  
VarTec Telecom, Inc.  
and  
BellSouth Telecommunications, Inc.  
Dated 6/22/2003**

Pursuant to this Amendment (the "Amendment"), VarTec Telecom, Inc. and in Florida, VarTec Telecom, Inc. d/b/a VarTec Telecom, Inc. and Clear Choice Communications ("VarTec") and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated 6/22/2003 ("Agreement") to be effective thirty (30) days after the date of the last signature executing the Amendment ("Effective Date").

WHEREAS, BellSouth and VarTec entered into the Agreement on 6/22/2003, and;

WHEREAS, BellSouth and VarTec are amending the Agreement to incorporate language regarding access to Network Elements pursuant to the Order and Notice of Proposed Rulemaking, WC Docket No. 04-313, released August 20, 2004 and effective September 13, 2004 ("Interim Order");

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to add the following language to Section 1 of Attachment 2 as a new Section 1.10 - 1.20:
  - 1.10 Until the earlier of (1) March 12, 2005 or (2) the effective date of the final unbundling rules adopted by the FCC pursuant to the Notice of Proposed Rulemaking described in the Interim Order ("Interim Period"), BellSouth shall continue providing unbundled access to Mass Market Switching (as defined herein), DS1, or equivalent, and higher capacity Loops, including dark fiber Loops (collectively "Enterprise Market Loops"), and DS1, or equivalent, and higher capacity dedicated transport, including dark fiber transport (collectively "High Capacity Transport") under the rates, terms and conditions set forth herein except to the extent that they are or have been superseded by:
    - 1.10.1 voluntarily negotiated agreements;

- 1.10.2 an intervening FCC order affecting specific unbundling obligations (e.g., an order addressing a pending petition for reconsideration) (“Intervening Order”); or,
- 1.10.3 (with respect to rates only) a Commission order raising the rates for such network elements.
- 1.11 For purposes of this Agreement, Mass Market Switching shall be defined as unbundled access to local switching except when VarTec: (1) serves an End User with four (4) or more voice-grade (DS0) equivalents or lines served by BellSouth in Zone 1 of one of the following MSAs: Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New Orleans, LA; or (2) serves an End User with a DS1 or higher capacity service or Loop in any service area covered by this Agreement. Notwithstanding anything to the contrary herein, local switching other than Mass Market Switching will not be provided hereunder.
- 1.12 For purposes of this Agreement “Transition Period” is defined as the six (6) month period following the Interim Period, or such other time period as may be specified by the FCC in an effective order adopted pursuant to the Notice of Proposed Rulemaking in the Interim Order (“Final FCC Unbundling Rules”). In the absence of an effective FCC ruling that Mass Market Switching, High Capacity Transport, and/or Enterprise Market Loops, or any subset of such network elements, must be unbundled pursuant to section 251(c)(3) in any particular case, the following terms and conditions shall apply to such elements or subset thereof:
  - 1.12.1 During the Transition Period, BellSouth shall only be required to provide Mass Market Switching to VarTec in combination with shared (common) transport and Loops (i.e., as a component of the “UNE platform”). The applicable rate shall be the higher of (1) the rate at which VarTec leased that combination of elements on June 15, 2004 plus one dollar, or (2) the rate the state public utility commission establishes, if any, between June 16, 2004, and March 12, 2005, for this combination of elements plus one dollar.
  - 1.12.2 During the Transition Period, BellSouth shall only be required to provide High Capacity Transport and/or Enterprise Market Loops to VarTec at a rate equal to the higher of (1) 115% of the rate VarTec paid for that element on June 15, 2004, or (2) 115% of the rate the state public utility commission establishes, if any, between June 16, 2004, and March 12, 2005, for that element.

- 1.13 During the Transition Period, to the extent BellSouth provides Mass Market Switching, High Capacity Transport and/or Enterprise Market Loops, or any subset thereof, pursuant to Sections 1.12.1-1.12.2 above, BellSouth shall only provide such elements to VarTec for the embedded customer base, as it existed on the last day of the Interim Period, and VarTec may not add new End Users or customers or place any new orders for such elements during the Transition Period.
- 1.14 In the event that the Final FCC Unbundling Rules set forth any modification as to the length of the Transition Period or the rates, terms and conditions applicable during the Transition Period to Mass Market Switching, Enterprise Market Loops and/or High Capacity Transport, or any subset thereof, such modifications shall be deemed incorporated into this Agreement by reference without further modification by the Parties, and such modified rates, terms and conditions shall apply to the Transition Period rather than those set forth herein.
- 1.15 Upon request, BellSouth shall convert an unbundled Network Element or combination of elements to an equivalent wholesale service or group of wholesale services. Such conversions shall be subject to the Nonrecurring switch-as-is rates for conversion as set forth in Exhibit A of this Attachment.
- 1.15.1 Any changes from a unbundled Network Element or combination of elements that requires physical rearrangement will not be considered a conversion for purposes of this Agreement.
- 1.16 At the conclusion of the Transition Period, in the absence of an effective FCC ruling that Mass Market Switching, Enterprise Market Loops and/or High Capacity Transport, or any subset thereof (individually or collectively referred to herein as the “Eliminated Elements”) are subject to unbundling, such Eliminated Elements shall be subject to the following provisions.
- 1.16.1** Upon the end of the Transition Period VarTec must transition Eliminated Elements to either Resale, tariffed services, or services offered pursuant to a separate agreement negotiated between the Parties (collectively “Comparable Services”) or must disconnect such Eliminated Elements, pursuant to Sections 1.16.1.1 – 1.16.1.4 below.
- 1.16.1.1** Eliminated Elements including Mass Market Switching Function (“Switching Eliminated Elements”). In the event that VarTec has not entered into a separate agreement for the provision of Mass Market Switching or services that include Mass Market Switching, VarTec will submit orders to either disconnect Switching Eliminated Elements or convert such Switching Eliminated Elements to Resale within thirty

(30) days of the last day of the Transition Period. If VarTec submits orders to transition such Switching Eliminated Elements to Resale within thirty (30) days of the last day of the Transition Period, applicable recurring and nonrecurring charges shall apply as set forth in the appropriate BellSouth tariff, subject to the appropriate discounts described in Attachment 1 of this Agreement. If VarTec fails to submit orders within thirty (30) days of the last day of the Transition Period, BellSouth shall transition such Switching Eliminated Elements to Resale, and VarTec shall pay the applicable nonrecurring and recurring charges as set forth in the appropriate BellSouth tariff, subject to the appropriate discounts described in Attachment 1 of this Agreement. In such case, VarTec shall reimburse BellSouth for labor incurred in identifying the lines that must be converted and processing such conversions. If no equivalent Resale service exists, then BellSouth may disconnect such Switching Eliminated Elements if VarTec does not submit such orders within thirty (30) days of the last day of the Transition Period. In all cases, until Switching Eliminated Elements have been converted to Comparable Services or disconnected, the applicable recurring and nonrecurring rates for Switching Eliminated Elements during the Transition Period shall apply as set forth in this Agreement. Applicable nonrecurring disconnect charges may apply for disconnection of service or conversion to Comparable Services.

1.16.1.2 Other Eliminated Elements. Upon the end of the Transition Period, VarTec must transition the Eliminated Elements other than Switching Eliminated Elements (“Other Eliminated Elements”) to Comparable Services. Unless the Parties agree otherwise, Other Eliminated Elements shall be handled in accordance with sections 1.16.1.3 - 1.16.1.4 below.

1.16.1.3 VarTec will identify and submit orders to either disconnect Other Eliminated Elements or transition them to Comparable Services within thirty (30) days of the last day of the Transition Period. Rates, terms and conditions for Comparable Services shall apply per the applicable tariff for such Comparable Services as of the date the order is completed. Where VarTec requests to transition a minimum of fifteen (15) circuits per state, VarTec may submit orders via a spreadsheet process and such orders will be project managed. In all other cases, VarTec must submit such orders pursuant to the local service request/access service request (LSR/ASR) process, dependent on the Comparable Service elected. For such transitions, the non-recurring and recurring charges shall be those set forth in BellSouth's FCC#1 tariff, or as otherwise agreed in a separately negotiated agreement. Until such time as the Other Eliminated Elements are transitioned to such Comparable Services, such Other Eliminated Elements will be provided pursuant to the rates, terms and conditions applicable to the

subject Other Eliminated Elements during the Transition Period as set forth in this Agreement.

- 1.16.1.4 If VarTec fails to identify and submit orders for any Other Eliminated Elements within thirty (30) days of the last day of the Transition Period, BellSouth may transition such Other Eliminated Elements to Comparable Services. The rates, terms and conditions for such Comparable Services shall apply as of the date following the end of the Transition Period. If no Comparable Services exist, then BellSouth may disconnect such Other Eliminated Elements if VarTec does not submit such orders within thirty (30) days of the last day of the Transition Period. In such case VarTec shall reimburse BellSouth for labor incurred in identifying such Other Eliminated Elements and processing such orders and VarTec shall pay the applicable disconnect charges set forth in this Agreement. Until such time as the Other Eliminated Elements are disconnected pursuant to this Agreement, such Other Eliminated Elements will be provided pursuant to the rates, terms and conditions applicable to the subject Other Eliminated Elements during the Transition Period as set forth in this Agreement.
- 1.17 To the extent the FCC issues an effective Intervening Order that alters the rates, terms and conditions for any Network Element or Other Service, including but not limited to Mass Market Switching, Enterprise Market Loops and High Capacity Transport, the Parties agree that such Intervening Order shall supersede those rates, terms and conditions set forth in this Agreement for the affected Network Element(s) or Other Service(s).
- 1.18 Notwithstanding anything to the contrary in this Agreement, in the event that the Interim Rules are vacated by a court of competent jurisdiction, VarTec shall immediately transition Mass Market Switching, Enterprise Market Loops and High Capacity Transport pursuant to Section 1.16.1.1 through 1.16.1.4 above, applied from the effective date of such vacatur, without regard to the Interim Period or Transition Period.
- 1.19 Notwithstanding anything to the contrary in this Agreement, upon the Effective Date of the Final FCC Unbundling Rules, to the extent any rates, terms or requirements set forth in such Final FCC Unbundling Rules are in conflict with, in addition to or otherwise different from the rates, terms and requirements set forth in this Agreement, the Final FCC Unbundling Rules rates, terms and requirements shall supercede the rates, terms and requirements set forth in this Agreement without further modification of this Agreement by the Parties.
- 1.20 In the event that any Network Element, other than those already addressed above, is no longer required to be offered by BellSouth

pursuant to Section 251 of the Act, VarTec shall immediately transition such elements pursuant to Section 1.16.1.1 through 1.16.1.4 above, applied from the effective date of the order eliminating such obligation.

2. All of the other provisions of the Agreement dated 6/22/2003 shall remain unchanged and in full force and effect.
3. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.
