Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |                                                                                                                 |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |        |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |

Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |                                                                                                                 |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                 |        |            |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
