RE: PETITION of Morristown Utility Systems dba MUS FiberNET FOR VOLUNTARY
TERMINATION OF ITS CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY
AUTHORIZING THE PROVISION OF COMPETITIVE LOCAL EXCHANGE COMMUNICATIONS
SERVICES IN TENNESSEE - Docket No. 10-00084

Please find attached a Petition on behalf of Morristown Utility Systems dba MUS FiberNET for voluntary termination of its CCN which was approved in Docket No. 10-00084 on September 14, 2010. Petitioner has completed a business transition and network migration from a legacy facilities-based CLEC network to an interconnected voice over Internet protocol (VoIP) network.

Questions regarding this request may be addressed with Terri K. Firestein on 301-788-6889 or at terri.firestein@jsitel.com.

Respectfully submitted,

/s/ Terri K. Firestein

BEFORE THE TENNESSEE REGULATORY AUTHORITY

IN THE MATTER OF THE PETITION OF	)	
Morristown Utility Systems dba MUS FiberNET	)	
FOR VOLUNTARY TERMINATION OF ITS CERTIFICATE	)	Docket No. 10-00084
OF PUBLIC CONVENIENCE AND NECESSITY	)	
AUTHORIZING THE PROVISION OF COMPETITIVE	)	
LOCAL EXCHANGE COMMUNICATIONS SERVICES	)	
IN TENNESSEE	)	

Morristown Utility Systems dba MUS FiberNET ("Petitioner") formerly known as Morristown Utilities Commission, by its undersigned representative, hereby petitions the Tennessee Public Utility Commission ("Commission" or "TPUC") for voluntary termination of its Certificate of Public Convenience and Necessity ("CPCN") authorizing the provision of competitive local exchange communications (CLEC) services in the State of Tennessee and, in support thereof, states as follows:

I. IDENTIFICATION OF PETITIONER

1. Petitioner is a Tennessee municipality with its principal place of business located at:
433 West 1st North Street, Morristown, TN 37814
2. Petitioner is currently authorized by the Commission to provide competitive local exchange communications services and market regulated long distance service within the State of Tennessee pursuant to a CPCN granted in Docket No. 10-00084 on September 14, 2010, in the name of Morristown Utilities Commission.
3. Correspondence regarding this Petition should be directed to:
Terri K. Firestein
Sr. Director Regulatory Compliance
JSI
10806 Garrison Hollow Road, Clear Spring, MD 21722
301-788-6889
terri.firestein@jsitel.com

II. REQUEST FOR VOLUNTARY TERMINATION OF CPCN

1. Petitioner respectfully requests that the Commission allow voluntary termination of its Tennessee CLEC CPCN as soon as possible, or on such other date as the Commission deems appropriate.

2. Petitioner has completed a business transition and network migration from a legacy facilities-based CLEC network to an interconnected voice over Internet protocol (VoIP) network.
3. Petitioner continues to market, provision, and support local exchange and market-based long-distance services in Tennessee using IP-enabled technologies. This VoIP transition was conducted seamlessly and without customer impact or service disruption.
4. Petitioner remains in good standing and is authorized to conduct business in Tennessee.

III. DESCRIPTION OF CLEC SERVICE TRANSITION

1. The transition was undertaken to utilize IP-enabled technologies that provide enhanced functionality and operational efficiencies. In 2024 Petitioner began the decommissioning of its facilities-based voice network, its embedded voice Metaswitch and its interconnection trunk network with the Public Switched Telephone Network (PSTN). This decommission project was in aid of its transition to a wholly interconnected VoIP infrastructure to continue to provide voice services to its existing service area. This decommissioning and VoIP transition were completed in early 2026.
2. Following the transition, Petitioner no longer provides Tennessee intrastate telecommunications services pursuant to its CLEC CPCN.
3. All customers previously served under the CPCN have been seamlessly migrated to the interconnected VoIP services offered by the Company.
4. All PSTN interconnection trunk connectivity, including E-911 trunk connectivity has been successfully terminated with the incumbent tandem provider, AT&T. Subsequently a request to terminate our facilities-based Interconnection Agreement has been submitted to AT&T and is pending formal termination.

IV. CONTINUING SERVICE TO CUSTOMERS

1. The requested CPCN termination will not result in a loss of any telecommunications service(s) to customers.
2. Customers will continue to receive voice communications services through VoIP offerings provided by Petitioner.

3. The proposed termination is administrative in nature and reflects a change in the regulatory classification of services being provided rather than the cessation of customer communications services.

V. PUBLIC INTEREST CONSIDERATIONS

Granting this Petition will not adversely affect the public convenience and necessity because:

1. Petitioner has without interruption continued to provide local exchange and market regulated long-distance services to its existing service area.
2. Termination of the CPCN will eliminate facilities-based CLEC regulatory oversight of a provider that is now operating a wholly Fiber to the Premise (FTTP) VoIP network with IP-based communications products and services.
3. Cancellation of the CPCN will allow Commission records to accurately reflect the services currently provided by Petitioner.
4. Petitioner submits that approval of this request is consistent with Tennessee law and the Commission's rules governing competitive local telecommunications service providers.

VI. REQUEST FOR RELIEF

WHEREFORE, Petitioner respectfully requests that the Tennessee Public Utility Commission:

1. Accept this Petition for filing;
2. Find that Petitioner has discontinued the provision of certificated facilities-based CLEC services in Tennessee and that no customer harm, loss of service, or reduction in access to communications services will result from the requested relief.
3. Find that the requested cancellation will eliminate unnecessary regulatory obligations associated with a service classification that Petitioner no longer provides.
4. Cancel Petitioner's Tennessee CLEC CPCN;
5. Remove Petitioner from any applicable CLEC reporting, registration, or assessment requirements associated solely with the canceled CPCN; and
6. Grant such other and further relief as the Commission deems just and proper.

Respectfully submitted,

Morristown Utility Systems dba MUS FiberNET
